Studies on insect damage and germination of seeds. III. Germination of wheat jowar and maize seeds damaged by the developing grubs of Sitophilus oryzae L. and Rhizopertha dominica F.. 10270

A practical trial of pyrethrins-in-oil surface sprays for the protection of bagged grain against infestation by Cadra cautella (Wlk.) (Lepidoptera, Phycitidae) in Kenya. 11659

Results of application of aluminum phosphide pellets to rice weevils in an open bin and to angoumois grain moths under air-tight conditions. 12878

The feeding and fecundity of Sitophilus granarius (L.), Sitophilus oryzae (L.) and Rhyzopertha dominica (F.) in wheat grain. 13053

SITOPHILUS ZEAMAIS

Observations on the functional anatomy of the reproductive organs of Sitophilus (Coleoptera: Curculionidae). 8145

Sensitivity of Sitophilus zeamais Mots (0 oryzea L.) to ionizing radiations at different stages of its development. Radiographical study of the endogenous stages and actographical registration. 11368

SITOTROGA CEREALELLA

The influence of grains of corn as stimulation for oviposition in Sitotroga cerealella Oliv. (Lep., Gelechiidae). 11400

Results of application of aluminum phosphide pellets to rice weevils in an open bin and to angoumois grain moths under air-tight conditions. 12878

SKELETON

The occurrence of Piptocephalis in soils and its isolation. 8929

SKIN

Acute cutaneous toxicity of certain organophosphorous insecticides. II - Phosphamidon. 12226

The enhancement of penetration of an organophosphorus anticholinesterase through guinea pig skin by dimethyl sulfoxide. 13463

Prevention and treatment of bovine papillomatosis. 13991

SKIN DISEASES

Equine ringworm caused by Trichophyton tonsurans var sulfureum. 9087

Some harmful plants of Southeast Asia. 10953

The reactivity of the white blood picture in the horse.
11594

Dermatophytes in veterinary practice.
12795

Dermaphos a phosphoro-organic preparation in the treatment of the skin mycosis in cows and horses.
13938

Skin mycosis in cattle and its treatment.
13986

Skin diseases of horses.
14592

SKIN TESTS

The detection of autoantibodies to kidney tissue in a dog experimentally infected with Leptospira canicola.
14010

SL 2266

Antibiotic SL 2266. Patent 3,432,598.
9604

SLATEROCORIS

Scalponotatus, a new genus near Slaterocoris, with descriptions of new species (Heteroptera: Miridae).
9296

SLAUGHTERHOUSES

Brucellosis. Subpart D. Designation of modified certified brucellosis areas, public stockyards, specifically approved stockyards and slaughtering establishments.
9864

Study of the genital pathology of cattle (female) killed in the slaughter houses of the center of the country.
13969

SLAUGHTERING

Notice of filing of petition for food additive metoserpate hydrochloride.
9677

The classification of slaughter animals in wich salmonella have been found, from the legal meat inspection point of view.
9863

Foot-and-mouth disease: Britain strives to curb epidemic.
12182

On the problem of leukoses (hemoblastoses) of the reticular order in animals for slaughter.
14014

The prevalence of Babesia bovis (Babesia argentina) in the brains of slaughter cattle in Northern Nigeria.
14568

SLEEP

Sleep in moths and its dependence on the frequency of stimulation in Anagasta kuehniella.
14177

SLUGS

Angiostrongylus cantonensis: Proof of direct transmission with its edidemiological implications.
10867

SMELL

Attraction of Apis mellifera drones by the odours of the queens of two other species of honeybees.
11240

Laboratory experiments on the olfactory orientation of Blastophagus piniperda L. (Coleoptera, Scolytidae) to substances isolated from pine rind.
13069

SMICROMYRME SEPTENTRIONALIS

Ecological observations on the species Smicromyrme septentrionalis Hffr. (Hym. Mutillidae).
9435

SMOKE

Evaluation of smoke from insecticidal coils against mosquitos.
13732

SMUT

Irrigated sugar-cane in Rhodesia.
8925

New or uncommon plant diseases and pests; smut (Entyloma compositarum) of Gaillardia aristata Pursh.
8985

Fungicidal control of smut diseases of cereals.
10207

Seed treatment trial, 1967.
10229

Protect your maize from head smut.
12624

Infection and corrosion tests with Ustilago hordei (pers.) lagerm.
15621

SMUTS

Teliospore morphology of some smut fungi. II. Light microscopy.
8300

An interesting mode of spore liberation by Georgefischeria riveae Thirum. and Naras.
8310

SNAILS

Recent introductions for biological control in Hawaii-XIII.
9623

Recent introductions for biological control in Hawaii-XII.
9624

Studies on geographical distribution and ecology of Lymnaea auricularia Var. Rufescens, the intermediate host of Fasciola gigantica in Orissa.
9772

Use of metaldehyde as dusts and sprays to control the giant African snail Achatina fulica Bowdich.
10319

Observations on the control of Achatina fulica Bowdich, the giant African snail with methldehyde.
10320

Gulella (Indoennea) bicolor (Hutton), a predator of giant African snail Achatina fulica Bowdich.
10322

Tropical Pesticides Research Institute, annual report, 1966.
10611

List of intercepted plant pests, 1966. (Pests recorded from July 1, 1965, through June 30, 1966.).
11535

Trihutyltin molluscicides. Patent 3,439,098.
11817

Use of Fintrol-5 to control undesirable fishes in shrimp-oyster ponds.
12227

Studies on the control of Galba truncatula in large pastures. II. The effect of snail control on the extensiveness of infection in cattle.
12862

On the host specificity of parthenogenetic stages of Fasciola hepatica under laboratory conditions.
12866

Recent introductions for biological control in Hawaii. XII.
13230

Brachymeria femorata Panzer (Hymenoptera Chalcididae).
14267

Epizootiologic factors of Fascioloides magna (Trematoda) in Oregon and southern Washington.
14632

Aquatic weeds.
15709

SNAKE VENOM

Pharmacologic action of pure venom fractions of Naja nigricollis and liberation of calcium in the striated muscles.
9181

SOCIAL INSECTS

Association among species of infrequent occurrence: The insect and spider fauna of Polyporus betulinus (Bulliard) Fries.
8171

The part queens play in the making and advent of gynes in the colonies of the ant Dolichoderus quadripunctatus.
8885

Alkali bees: Response of adults to pathogenic fungi in brood cells.
9344

Study of social relationships in ants of the genus Aphaenogaster.
9365

Entomological and general biological interest in a comparative endocrinology of social insects. (abstract).
9407

Description of new social parasites of Leptothorax acervorum F. (Formicidae).
9412

The distribution of an oil, carbohydrate, and protein food source to members of the imported fire ant colony.
10571

Juvenile hormone and the formation of warriors in the yellow necked termite, Calotermes flavicollis Fabr..
11332

Soldier-reproductive intercastes in a species of Tumulitermes (Isoptera: Termitidae).
11820

Distribution of alkaline phosphatase in the castes of the termite Odontotermes redemanni (Wasmann) and its role in caste formation.
13598

Monogyny in ant societies.
13600

A procedure for collecting all of the Formica polyctena rejections from the nest.
13616

New experiments with Mueller termites (Macrotermes muelleri) and considerations of the stigmergy theory.
13631

Contributions to the morphological and biological study of Aphomia sociella L. (Lepidoptera, Heteroneura, Pyralidoidea, Pyralididae), a parasite of beehives (Hymenoptera, Apoidea, Bombus Latr.).
13668

Plant care and bee care go hand in hand.
14478

SOCIETIES

Ninety-seventh annual report of the secretary of the State Horticultural Society of Michigan.
10604

Abstracts, 1967 meeting of the Weed Society of America, February 13-16, 1967, Washington, D. C.
10829

SODIUM

Calcium, potassium, and sodium content of forest floor arthropods.
11874

Movement of potassium and sodium across the midgut epithelium of the American cockroach.
11876

Balances of Nat and Kt in normal and bluecomh diseased turkeys.
12132

Experiments on the control of whiptail in cauliflower.
13242

Coupling of anaerobic metabolism to anaerobic sodium transport: a high energy intermediate.
13366

The effect of sodium replacement on the electroretinogram recorded from the cockroach ocellus.
14179

Effect of bovine coccidiosis on blood serum sodium and potassium levels of calves.
14567

Oviposition response of Aedes sollicitans, Aedes taeniorhynchus, and Psorophora confinnis to seven inorganic salts.
15411

SODIUM ACETATE
Dynamics of the permeation of nematodes by water, nematocides and other substances.
9656

SODIUM ALGINATE
Use of sodium alginate adjuvant in immunization against equine influenza.
14612

SODIUM ARSENITE
Phytopathological notes (24). Cuscuta (Cuscute, Cuscuta, Dodder, Seidenpflanze).
12096

Regulations for the enforcement of the federal insecticde, fungicide, and rodenticide act. Pesticides containing sodium arsenite and arsenic trioxide compounds.
15923

SODIUM CARBONATE
Control of diseases of fruits and vegetables by postharvest treatment.
13248

Aspergillosis of ducklings.
15776

SODIUM CHLORATE
Control of johnsongrass on drainage ditchbanks in sugarcane.
10297

SODIUM CHLORIDE
Electrophysiological study of contact chemoreceptors in bloodsucking Diptera.
8907

Chromatographic purification of the oat blue dwarf virus.
9547

The effects of accumulated fluoride on yields and fruit quality of 'Washington' navel oranges.
10929

Possibilities of preparation of an oil adjuvant vaccine against haemorrhagic septicaemia of cattle using a medium papain digest of beef.
14000

The effects of salt stress on the cerebral neurosecretory system of the grasshopper, Melanoplus sanguinipes (F.) Orthoptera).
15359

SODIUM CHROMATE
Plasmodium gallinaceum: Chicken erythrocyte survival as determined by sodium radiochromate and Di-isopropylfluorophosphate labeling.
12810

SODIUM DEOXYCHOLATE
Arbovirus studies in the Ohio-Mississippi basin, 1964--1967. VII. Lone star virus, a hitherto unknown agent isolated from the tick Amblyomma americanum (Linn.).
14582

SODIUM ETHYLMERCURITHIOSALICYLATE
Control of thar (Hemitragus jemlahicus): Evaluation of a poisoning technique.
9051

SODIUM FLUORIDE
The effects of accumulated fluoride on yields and fruit quality of 'Washington' navel oranges.
10929

Effect of cell poisons on the colloid-chemical properties of the cell.
14102

SODIUM HYPOCHLORITE
Treated water curbs tomato decay.
10384

Preventing transmission of exocortis virus.
12017

SODIUM IODIDE
Actinobacillus lignieresii infection in a dog.
9067

SODIUM MONOCHLOROACETALDEHYDE BISULFITE
Nematocides. Patent 3,457,353.
10271

SODIUM N-METHYLDITHIOCARBAMATE
Investigations on the migratory root nematode Pratylenchus neglectus on fodder grasses.
9033

Chemistry of fungicides.
10476

Preliminary note concerning tests in progress on the control of collar rot of lettuce.
10650

Experiment in soil disinfection against Phialophora cinerescens (Wr.) v. Beyma in the Pescia district.
11935

Remarks on the efficiency of soil disinfection, using steam and various fumigants, in the control of verticillium wilt of greenhouse tomato plants.
11948

The effects of soil treatments on anemone downy mildew infection.
13261

The relationships between population increase and population density in plant parasitic nematodes. III. Definition of the terms host, host status and resistance. IV. The influence of external conditions on the regulation of population density.
13893

Experiments with soil disinfectants for casing material and their effect on yield.
14934

Eelworm control: A practical method for the sterilization of casing soils.
15042

SODIUM NITRATE
Studies on the mode of action of inorganic nitrogenous amendments on Sclerotium rolfsii in soil.
8936

SODIUM PHOSPHATE
Balance cows' minerals to defeat milk fever.
9089

SODIUM TRICHLOROACETATE
Control of scotch grass (Agropyron repens) in sugar beet.
13918

SOFT ROT
Potato blackleg and tuber soft rot.
9566

The soft rot fungi and their mode of entry into wood and woody cell walls.
11994

Micromorphological changes of wood through the decomposition caused by fungi.
11995

On the decomposition of particle boards by soft rot fungi.
12039

SOGATA CUBANA
The frequency of Sogata orizicola Muir and Sogata cubana Crawf. on rice and Echinochloa colonum in Colombia.
14482

SOGATA ORIZICOLA
The frequency of Sogata orizicola Muir and Sogata cubana Crawf. on rice and Echinochloa colonum in Colombia.
14482

SOGATELLA
Studies on the biology and control of Sogatella furcifera Horv. (Delphacidae: Homoptera) in the Punjab.
14118

SOGATELLA FURCIFERA
Common leafhopper-planthopper populations and incidence of tungro virus in diazinon-treated and untreated rice plots.
10234

SOIL ADSORPTION
Movement and persistence of methanearsonates in soil. (Abstract).
10922

Factors affecting adsorption of atrazine and diphenamid by three varying soil types. (Abstract).
10957

Effect of activated carbon and other adsorbents on the biological activity of certain herbicides. (Abstract).
10970

Adsorption, leaching and lateral diffusion of four thiolcarbamate herbicides in soil. (Abstract).
11002

The distribution of terbacil, DuPont herbicide 733 and amizine in two orchard soils, under two precipitation levels. (Abstract).
11073

Molecular structure and pH effects on the adsorption of 13 s-triazine compounds on montmorillonite clay. (Abstract).
11078

The distribution of trifluralin in the soil when incorporated with the disk harrow and power rotary cultivator. (Abstract).
11092

The influence of soil characteristics on the adsorption and phytotoxicity of simazine.
12716

SOIL AERATION
Integrated control of hop wilt II. Protection by methods of soil hygiene.
14988

SOIL ALGAE
Experiments on the behavior of Monolinuron III. Influence on the biological activity of soil in comparison with other soil herbicides.
15050

SOIL AMENDMENTS
Effect of phytotoxins from the decomposition of organic matter upon peanut seedling emergence. (Abstract).
14668

SOIL ANALYSIS
Research activities 1958-1961.
10588

Spurrey.
10800

The adsorption of four herbicides by different types of organic matter and a bentonite clay.
11669

Controlled soil perfusion with a multi-channel peristactic pump.
11712

Migrations of Hippelates collusor larvae from moisture and trophic stimuli and their encounter by Trybliographa para-.
11848

Analysis of crops and soils for residues of chlorfenvinphos insecticide and its breakdown products.
12887

Physiological studies on pear canker disease in Egypt and its control.
13790

Investigation of the harmful effect of the residue from some herbicides on oats.
14052

Effect of silvicultural practices upon arthropod, annelid, and nematode populations in coniferous forest soil.
14317

Insecticidal experiments for the control of mustard aphid.
14497

Economically important nematodes in Ontario--1966.
14516

Diffusion of organophosphorus insecticides in soils.
15853

Persistence and effectiveness of thionazin against potato aphids on three soils in southern England.
15872

SOIL BACTERIA
The influence of ectotrophic mycorrhizal fungi on the resistance of pine roots to pathogenic infections. I. antagonism of mycorrhizal fungi to root pathogenic fungi and soil bacteria.
9583

Experiments on the behavior of Monolinuron III. Influence on the biological activity of soil in comparison with other soil herbicides.
15050

SOIL BIOLOGY
The International Rice Research Institute Annual Report, 1967.
11916

Corpophagous insects in soil-biological processes. 13151

Oribatid mite fauna in Sarobetsu Moor in northern Hokkaido, Japan. 14138

SOIL CHEMISTRY

Annual report of the Indian Institute of Sugarcane Research, Lucknow, 1964-65. (Mycology, by K. Singh; Research project on investigation and control of virus diseases of sugarcane, by K. Singh; Entomology, by A. N. Kalra). 10609

Movement and persistence of methanearsonates in soil. (Abstract). 10922

Mechanisms of breakdown of amitrole in soils: Photolytic and free radical reactions. (Abstract). 11065

Chlorthal degradation in soils and its uptake by pine seedlings. 11695

Analysis of a recessive mutation on the Y chromosome of the fly Calliphora erythrocephala. 14288

Transformation of solan in soil. 15696

Plant and soil arsenic analyses. 15750

On decomposition of 1-phenyl-4-amino-5-chloro-pyridazone-6 (Pyrazone) in soil. 15852

SOIL CONSERVATION

Utility of arecanut husk in horticulture. . 8927

SOIL CONTAMINATION

Distribution of insecticides sprayed by airplane on an irrigated corn plot. in: Organic pesticides in the environment; symposium...American Chemical Society, Atlantic City, N.J., Sept. 13-15, 1965. robert J. gould, ed. 8350

Persistence of pesticides in orchards and orchard soils. in; Organic pesticides in the environment; symposium...American Chemical Society, Atlantic City, N.J., Sept. 13-is, 1965. robert J. gould, ed. 8532

The optinum size for insecticide spray droplets. 9231

Acute radiotoxicity of 144Ce-144Pr after intravenous administration to sheep. 9822

Research on pollution of crops, soil and shallow bodies of water in Liguria, through residues of some organochlorinated pesticides. 10395

The persistence of simazine in soil. (Abstract). 10921

Movement and persistence of methanearsonates in soil. (Abstract). 10922

Persistance and decomposition of dichlobenil in soil. (Abstract). 12209

Properties and effects on WL-9385-D on rice and some weed species. 13467

Herbicide residues in plants and soils. 15234

From studies on residues of DDT, lindane and DMDT in soil. 15250

The significance of pesticide residues on human life. 15253

SOIL EROSION

Economic losses from water erosion on agricultural land. 14928

Infection and corrosion tests with Ustilago hordei (pers.) lagerm. 15621

SOIL EXTRACTS

Determination of organochlorine insecticides in soils and waters. 12220

SOIL FAUNA

Microarthropods from two Quebec woodland humus forms. III. The Sarcoptiformes (Acarina). 13086

The insect ecology of old-field red pine plantations in central Ontario, I. Description of the study area. III. Soil-surface fauna as indicators of stand change. 14548

Influence of soil-treatment and application of herbicide on the soil-fauna in fruit-cultures. 15047

A new report on sugar-beet pests in the area of Baranja, soil Coleoptera taken into special consideration. 15632

SOIL FUMIGATION

Chemical control of pea root rot by soil-incorporation and in-furrow treatments with 1-chloro-2-nitropropane. 8954

The effect of soil fumigation on the growth of sugar beet. 9193

Control of dodder in home gardens. 9665

Effect of soil fumigation on disease control and yield of gladiolus in southwestern North Carolina. 10669

Nematocidal methods employing 2-perfluoroalklbenzimidazoles. Patent 3,443,015. 11076

Plant parasitic nematodes associated with sugarcane production in Rhodesia. 11554

Characteristics of the use of the fumigant Di-Trapex, a fungicide and nematocide. 11922

What's new in farm chemicals . 11975

Nematode control lifts ginger yields. 13335

Preplant soil fumigation for California head lettuce. 13341

Influence of growing marigolds, weeds, two cover crops and fumigation on subsequent populations of parasitic nematodes and plant growth. 13889

Physiological genetics of melanotic tumors in Drosophila melanogaster. VI. The tumorigenic effects of juvenile hormone-like substances. 14190

Effect of the venom of the black widow spider, Latrodectus mactans tredecimguttatus, on evoked action potentials in the isolated nerve cord of Periplaneta americana. 14195

Effect of soil fumigants on control of pea root rot pathogens. 14391

Selective vapor phase activity of chloronitro- and chlorobenzenes in soil. 14435

Studies on the parasitsm and control of tea root disease fungi in Ceylon. Heteroptera. 14448

The sugar beet nematode. 14504

Yorlex for plastic greenhouse soil fumigation. 14929

Influence of relative soil moisture upon evolution of chemical soil fumigants. 15257

Methods of application for the use of liquid products in soil fumigation. 15457

The application technique of granulated soil fumigants. 15458

Vorlex for plastic greenhouse soil fumigation. 15607

Multipurpose disease control soil fumigants for tobacco. Nemotodes, black shank and black root rot. 15691

SOIL FUNGI

Plant treatment in relation to the rhizosphere effect. III. Foliar application of certain trace elements and metallic chelates in relation to the rhizosphere microflora of rice (Oryza sativa L.). 8588

The occurrence of Piptocephalis in soils and its isolation. 8929

Soil treatment by microwave energy to destroy plant pathogens. 9546

Etiological studies on root rot of wheat caused by Cercosporella heapotrichoides Fron. 9553

Recent advances in the control of soil fungi. 9616

Russet crack--a menace to the sweetpotato industry. III. Role of fungi in the root-lesion phase of russet crack. 10654

Mycology. 10664

Differential sensitivity of various phytopathogenus soil fungi to methyl bromide. 10668

Vertical distribution of fungus suggests...rigolen plowing for control of Verticillium wilt in cotton. 10709

Degradation of insecticides by a soil fungus, Trichoderma viride. 10924

Occurrence of fungi antagonistic to Poria weirii in a Douglas-fir forest soil in western Oregon. 11491

Investigations of nematode-destroying fungi in central Iowa. 11561

Experiment in soil disinfection against Phialophora cinerescens (Wr.) v. Beyma in the Pescia district. 11935

Studies on the succession of higher fungi on felled beech logs (Fagus crenata) in Japan. 12036

The influence of certain wood extractives on the competition between wood-rotting fungi and the soil microflora. 12272

Interaction of nutrients and four antifungal antibiotics in their effects of Pythium species in vitro and in soil. 12910

A comparison of the behavior of two pea pathogens in cut-away peat and loam. 13286

Carthamus oxyacantha, a new host of Macrophomina phaseoli. 13908

The importance of preceeding crop-dependent shifts in the micro flora of the soil. I. The influence of soil fungi on the root development of wheat, peas, and rape. 14353

Contribution to the study of the fungi flora of the soils of Katanga. 14921

On the physiology of germination of Fusarium chlamydospores in soil. 14969

Evaluating soil samples for fungus pathogens of sugarbeet seedlings. 14975

Cryptococcosis in a cat. 15799

SOIL FUNGICIDES

Systemic activity of benzimidazoles as soil drenches against powdery mildew of apple and cherry. 12612

Physical aspects of soil in relation to the action of soil fungicides. 13254

SOIL HYDROGEN-ION CONCENTRATION

Influence of soil properties on phytotoxicity of 4-amino-3, 5,6-trichloropicolinic acid (picloram). 13479

Chloramben (amiben) degradation in soil. 13520

Competition between Coriandrum sativum seedlings and weeds under prometrin application at two different NPK and pH levels. 15137

SOIL INSECTICIDES

Greenhouse insects. 15026

SOIL INSECTS

A simple collector for removing soil insects from an oil/water interface. 10095

Leaterjackets. 10526

The coleopteran soil fauna in virgin islands cultivated for cotton in the north of Tadjikistan. 12949

Soil Coleoptera of the light grey earth soils of the northern Tadjikistan. 12950

Yorlex for plastic greenhouse soil fumigation. 14929

SOIL LEACHING

Leaching of the nuclear-polyhedrosis virus of Trichoplusia ni from soil. 10041

Pesticides and clay minerals. 10397

Adsorption, leaching and lateral diffusion of four thiolcarbamate herbicides in soil. (Abstract). 11002

Leaching of trifluralin, benefin, and nitralin in soil columns. 12703

Leaching of seven s-Triazines. 12737

Some factors affecting the disappearance of tordon in soil. 14533

SOIL MANAGEMENT

Turfgrass research by the California Agriculture Extension Service. 9527

The effects of soil management and fungicides on the development of grey mould (Botrytis cinerea) of strawberries. 10658

SOIL MICROORGANISMS

A technique for studying inhibition of the parasitic activity of Ophiobolus graminis (Sacc.) Sacc. in field soils. 8969

Agricultural microbiology. 8980

Eelworms-a progress report on a few more groups found in North-East Indian tea soils. 9025

The influence of ectotrophic mycorrhizal fungi on the resistance of pine roots to pathogenic infections. I. antagonism of mycorrhizal fungi to root pathogenic fungi and soil bacteria. 9583

Kalafungin, a new antibiotic produced by Streptomyces tanashiensis strain Kala. 9716

Behavior of pyrazon in soil. 10286

Influence of pesticides on soil microbes and soil properties. 10400

Survival of lyophilized Bacillus popilliae in soil. 10415

Structure of pesticides and decomposition by soil microorganisms. 10427

Observations in long-term experiments with weeds and herbicides. 10810

Ecological conditions for occurrence of cilia in intestines of nematodes. 10917

Chemical vs. microbial degradation of amitrole in soil. (Abstract). 10923

Metabolism of monosodium methane arsonic acid by soil microorganisms. (Abstract). 10927

Effects of prolonged use of certain herbicides on soil microorganisms. (Abstract). 10989

Phytophthora root rot of alfalfa in the upper midwest. 11465

Micro-organisms in the root regions of wheat. Literature review. 11971

Organic manuring for potato scab control and its relation to soil manganese. 12652

Stability and effects of some pesticides in soil. 13434

Effect of herbicides on cellulose decomposition by Sporocytophaga myxococcoides. 13448

Chloramben (amiben) degradation in soil. 13520

Groundnut pod diseases. 13799

The influence of an application of herbicide on antibiotic-working micro-organisms of the soil. 13820

The effect of herbicides on soil microflora. VI. The effect of pH on susceptibility of some bacteria to herbicides. 14044

Effect of the herbicide trifluralin on nitrogen-fixation in Rhizobium and Azotobacter and on nitrification. 14049

The effect of herbicides on soil microflora. VII. Respiration of bacteria isolated from maize rhizosphere. 14051

The effect of herbicides on soil microflora. V. Growth and activity of cellulolytic microorganisms. 14056

The importance of preceeding crop-dependent shifts in the micro flora of the soil. I. The influence of soil fungi on the root development of wheat, peas, and rape. 14353

Influence of successive cereal crops on fluctuations in the gravity of the disease of white heads of wheat (Ophiobolus graminis Sacc.). 14963

Experiments on the behavior of Monolinuron III. Influence on the biological activity of soil in comparison with other soil herbicides. 15050

Method for determining Bacillus thuringiensis var. thuringiensis Berliner in soil. 15425

Physiology of thick-walled spores of soil-borne plant pathogenic fungi. I. Respiration and germination of Helminthosporium sativum and H. pedicellatum spores. 15896

SOIL MOISTURE

Soil water measured. 8923

Soil treatment by microwave energy to destroy plant pathogens. 9546

Effect of soil water stress and soil temperature on translocation of diuron. 10302

Some ecological studies on Agrotis segetum Schiff. (Lepidoptera, Noctuidae). 10531

Application of soil moisture principles to the study of plant disease. 10632

Soil moisture on competitive ability of weeds. (Abstract). 11051

Some aspects of utilization of water hyacinth (Eichhornia crassipes). 11562

Studies on the control of Endothia canker of Japanese chestnut (Castanea crenata Sieb. et Zucc.). Influence of cultivation on the damage caused by Endothia canker. I. Influence of soil moisture and planting distance. 12034

A blight of Aleppo pine (Pinus halepensis). 12655

Soil moisture and effectiveness of preemergence herbicides. 12743

Analysis of a recessive mutation on the Y chromosome of the fly Calliphora erythrocephala. 14288

Moisture corrosion, a new corrosive method. 14330

Plant care on the North Sea coast. 14375

Evidence of phenotypic mixing between two strains of tobacco mosaic virus. 14441

Control of Agropyron repens (quackgrass) by rotavator. 15068

Influence of relative soil moisture upon evolution of chemical soil fumigants. 15257

Broken leaf, a new coconut disease in the Caribbean area. 15556

Chemical versus mechanical fallow of abandoned croplands. 15705

Herbicide equilibrium in soils in relation to soil water content. 15706

SOIL ORGANIC MATTER

Adsorption of s-triazines by soil organic matter. 15747

SOIL PROFILES

Atrazine degradation in two soil profiles. 10477

SOIL PROPERTIES

Influence of pesticides on soil microbes and soil properties. 10400

Pesticide effect on phosphorus absorption from fertilizer-pesticide mixture applied to a tropical soil with low available phosphorus value. 10445

The relationship of soil properties to the phytotoxicity of an acetanilide herbicide. (Abstract). 11046

The distribution of terbacil, DuPont herbicide 733 and amizine in two orchard soils, under two precipitation levels. (Abstract). 11073

Cultivation of the cricket bat willow. 13231

Physical aspects of soil in relation to the action of soil fungicides. 13254

Water movement in two termite mounds in Rhodesia. 13701

Weed control in vegetables. 14532

Influence of residues of some triazine herbicides upon wheat and weeds in wheat crops. 14653

SOIL SAMPLING
Seasonal changes in the distribution of the millipede Cylindroiulus punctatus (Leach) in decaying logs and soil. 9966
Recovery of mites from peat and mineral soils using a new floatation method. 9975
Vertical distribution of fungus suggests...rigolen plowing for control of Verticillium wilt in cotton. 10709
Occurrence and control of Haplodiplosis equestris in Holland. 14496
Contrihution to the study of the fungi flora of the soils of Katanga. 14921
Evaluating soil samples for fungus pathogens of sugarbeet seedlings. 14975

SOIL SANITATION
Mortality of the earthworm Lumbricus terrestris L. following soil applications of insecticides to a tobacco field. 9175
Organophosphorus acaricides for controlling the two-spotted spider mite on strawberries. 10248
Establishment of a rhizosphere microflora on carnations as a means of plant protection in steamed greenhouse soils. 10662
Soil-incorporated herbicides in furrow-irrigated onions. (Abstract). 10797
Fall and winter application of trifluralin, a new concept in weed control. (Abstract). 10806
Degradation of insecticides by a soil fungus, Trichoderma viride. 10924
Persistance of pyrazon in sugar beets in Michigan. (Abstract). 10944
Comparison of three soil-incorporated herbicides, trifluralin, benefin, and SD-11831, on the growth of cotton seedlings. (Abstract). 10956
The distribution, content, and movement of picloram after foliar and soil applications on huisache. (Abstract). 10961
Soil incorporation and site of uptake for preemergence herbicides. (Abstract). 11001
Adsorption, leaching and lateral diffusion of four thiolcarbamate herbicides in soil. (Abstract). 11002
Phytotoxic synergism with soil applied herbicide-insecticide combinations. (abstract). 11016
Soil sub-surface applications of selective thiocarbamate herbicides. (Abstract). 11084
Effect of tooth-shape, rotor speed, forward speed, and depth on performance of incorporated herbicides. (Abstract). 11089
The distribution of trifluralin in the soil when incorporated with the disk harrow and power rotary cultivator. (Ahstract). 11092
Will the ground effect machine work in herbicide application (Abstract). 11093
Persistance of CIPC in soil treated with methylcarbamate pesticides. (Abstract). 12312
Sidedress applications of union carbide UC-21149 for control of overwintered boll weevils. 13305
Influence of maize dwarf mosaic virus and trace levels of atrazine on weight and foliar element accumulation by two single cross maize hybrids in the greenhouse. 13757
Evaluation of nine fungicides in controlling flag smut of wheat. 13800
Integrated control of hop wilt II. Protection by methods of soil hygiene. 14988

SOIL SERIES
Color and natural products attracting the adult sugarbeet root maggot in Southcentral Idaho. 8197
Nematodes associated with soybeans in Alabama, Florida, and Georgia. 8389
Effect of substrate types on aquatic insect distribution. 8707
Factors affecting adsorption of atrazine and diphenamid by three varying soil types. (Abstract). 10957
Ozark range and wildlife plants. 11440
Persistence and movement of 2,3,6-TBA in soil. 12891
Chloramben (amiben) degradation in soil. 13520
Effect of soil type on uptake of magnesium by pasture plants. 14082
Some factors affecting the disappearance of tordon in soil. 14533
Integrated control of hop wilt II. Protection by methods of soil hygiene. 14988

SOIL STERILIZATION
Influence of soil sterilization measures on the Mycorrhiza of forest plants. (I.). 8279
Soil treatment by microwave energy to destroy plant pathogens. 9546
The eelworm problem in glasshouse tomatoes. 9651
The use of chloropicrin for soil disinfection. 10592
Experiment in soil disinfection against Phialophora cinerescens (Wr.) v. Beyma in the Pescia district. 11935
Remarks on the practice of grafting and soil disinfection with methyl bromide and with di-trapex in the control of verticillium wilt of greenhouse tomato plants. 11947
Remarks on the efficiency of soil disinfection, using steam and various fumigants, in the control of verticillium wilt of greenhouse tomato plants. 11948
Didymella stem and fruit rot of tomato. 13273
Experiments with soil disinfectants for casing material and their effect on yield. 14934
Eelworm control: A practical method for the sterilization of casing soils. 15042
The influence of variations in the microflora of a sterilized soil on the genesis of certain plant diseases. II. Study of the behaviour of microorganisms introduced into steam-sterilized soil. 15567

SOIL STRUCTURE
The influence of soil characteristics on the adsorption and phytotoxicity of simazine. 12716
Nutritional effects connected with sheepnosing, a disorder of grapefruit. (Abstract). 14475

SOIL TEMPERATURE
Estimating temperatures and heat flux in insect environments in stubbed cotton fields in the winter. 8121
The relation of climatic factors to the duration of the development of Heterodera schachtii in Slovakia (CSSR). 9028
Effect of soil water stress and soil temperature on translocation of diuron. 10302
Bionomics and nest structure of Pogonomyrmex occidentalis (Hymenoptera: Formicidae). 13076
Growth and production of pickling cucumbers as influenced by petroleum mulch and chemical treatments at planting. 13494
Influence of the environment on development and sex differentiation of root-knot nematodes. I. Effect of infection density, age of host plant and soil temperature. 13874
The interrelationship of resistance and susceptibility of cotton to Verticillium albo-atrum and Fusarium oxysporum f. sp. vasinfectum as influenced by soil temperature. (abstract). 14339

SOIL TESTING
Leaching of trifluralin, benefin, and nitralin in soil columns. 12703
Persistence and movement of 2,3,6-TBA in soil. 12891

SOIL TEXTURE
Pesticides and clay minerals. 10397

SOIL TREATMENT
Cockchafers. 10518
Some suggestions for control of white ant damage on dadaps (Erythrina indica L.). 10710
Influence of soil-treatment and application of herbicide on the soil-fauna in fruit-cultures. 15047
Soil treatment for control of nematodes and certain soil-borne diseases. 15679
Soil treatment for control of nematodes and certain soil-borne diseases. 15680
A simple device for injecting methyl bromide into a replant site. 15688
Equipment for aerated steam treatment of small quantities of soil and soil mixes. 15917

SOIL TREATMENTS
On the control of primary infections caused by Pseudoperonospora humuli. 14958

SOIL-BORNE PESTS
Studies on the biology of Margarodes vitium, a ground pearl (Homoptera: Margarodidae) on roots of grapevines. 13011

SOIL-BORNE PLANT DISEASES
A modified soil percolator zoospore production and infection in studies on zoosporic root pathogens. 9543
Establishment of a rhizosphere microflora on carnations as a means of plant protection in steamed greenhouse soils. 10662
Effect of soil fumigation on disease control and yield of gladiolus in southwestern North Carolina. 10669
Direct isolation of Cylindrocladium floridanum from soil. 10675

Vertical distribution of fungus suggests...rigolen plowing for control of Verticillium wilt in cotton. 10709

Effect of time and temperature of storage on viability of Botrytis convoluta conidia and sclerotia. 11007

Physical methods of pest control. 11921

Micro-organisms in the root regions of wheat. Literature review. 11971

A fruit rot of strawberries caused by Rhizoctonia solani. 12023

Transmission of the disease Brazilian tomato ringspot through the soil. 12658

The effects of soil treatments on anemone downy mildew infection. 13261

Virus diseases of cereals. 13814

Studies on the brown-eye-spot disease (Cercospora coffeicola B. and CKE.) of coffee (coffca arabica L.) III. Mode of survival of the pathogen. 13817

Verticillium wilt of cotton--the situation in the Namoi Valley. 14357

Soil-borne wheat mosaic virus from Poa annua L., a new host. 14377

Ecological studies on the soft-rot bacteria of vegetables. III. Application of immunofluorescent staining for the detection and the counting of Erwinia aroideae in soil. 14385

Some factors affecting incidence of leaf spot of turmeric by Taphrina maculans butler. 14468

Ring nematode disease of rice in Louisiana. (Abstract). 14510

Observations on the Gladiolus necrotic disease. 15463

The shot-hole disease of the melon. Preliminary study of a new viral disease of the glass-house-grown melon. 15543

The influence of variations in the microflora of a sterilized soil on the genesis of certain plant diseases. II. Study of the behaviour of microorganisms introduced into steam-sterilized soil. 15567

The frequency of Fusaria in soils of fields either with or without maize in crop rotation. 15568

In vitro infection and pathogenesis of plants from several genera by the specific soilborne pathogen Sclerotium cepivorum. 15610

Soil treatment for control of nematodes and certain soil-borne diseases. 15679

Soil treatment for control of nematodes and certain soil-borne diseases. 15680

Establishing overall plant protection. 15685

SOIL-PLANT-ANIMAL RELATIONS

Dispersion of released white-pine weevils in intrastand growth types. 8766

SOILS

Persistence of pesticides in orchards and orchard soils. 8531

Irrigated sugar-cane in Rhodesia. 8925

Studies on the mode of action of inorganic nitrogenous amendments on Sclerotium rolfsii in soil. 8936

Effects of sloping land drainage on alfalfa crown rot. 8949

A technique for studying inhibition of the parasitic activity of Ophiobolus graminis (Sacc.) Sacc. in field soils. 8969

Evaluation of herbicides applied to the soil for weed control in irrigated sugar beets. 9039

Weed control in cotton. 9046

A comparative study of the effectiveness of chemical ovicides on the survival of the soil-transmitted intestinal nematodes. 9768

Metabolism of beta-dihydroheptachlor-14C in soil and by microorganisms. 9840

Determination of terbacil residues using microcoulometric gas chromatography. 9855

Laboratory evaluation of insecticides against white-fringed weevil (Graphognathus leucoloma (Boheman) (Coleoptera: Curculionidae)) larvae. 10131

Survival of root-infecting fungi in soil. XII. Germination and survival of endoconidia and chlamydospores of Thielaviopsis basicola in fallow soil and in soil adjacent to germinating bean seed. 10213

Movement of pesticides in the soil. 10398

Influence of pesticides on soil microbes and soil properties. 10400

The fate of phenyl N,N'-dimethylphosphordiamidate in soil. 10401

Consequences of insecticide use of nontarget organisms. 10402

Industry's concern with pesticide residues. 10411

Extraction and gas-liquid chromatographic determination of vernolate in soil. 10412

Structure of pesticides and decomposition by soil microorganisms. 10427

Chemistry of herbicides. 10464

Extraction and gas-liquid chromatographic determination of vernolate in soil. 10467

Reactions of pesticides in soils. 10468

Factors affecting trace and minor elements in hill sheep pastures. 10589

Rubber Research Institute of Malaya. Annual report 1966. 10607

Will the ground effect machine work in herbicide application (Abstract). 11093

Studies on the decontamination of soil with methyl bromide. 11962

Subterranean termites: Their prevention and control in buildings. 12206

Crop seedling uptake of DDT, dieldrin, endrin, and heptachlor from soils. 12213

Determination of organochlorine insecticides in soils and waters. 12220

Establishment and maintenance of ladino white clover in the black belt,. 12263

Bioassay determination of gamma-BHC absorbed from soil and translocated in potted rice plants. 12266

Quantitative and qualitative determination of dinitro-o-cresol (DNOC) in soil. 12311

Effect of activated carbon on the phytotoxicity of herbicides in a tropical soil. 12709

A cucumber bioassay test for the soil residues of certain herbicides. 12718

Phytotoxicity and movement of amiben derivatives in soil. 12729

Trifluralin persistence as affected by depth of soil incorporation. 12738

Persistence of dichlobenil an SD-7961 in soil. 12739

Metabolism of pyrazon in sugar beets and soil. 12741

Adsorption, volatility, and migration of Thiocarbamate herbicides in soils. 12886

Effect of soil and climate on herbicide dissipation. 12888

Experiments on the control of whiptail in cauliflower. 13242

The effects of soil treatments on anemone downy mildew infection. 13261

Effect of nematocides on nematode-trapping fungi associated with the citrus nematode. 13339

The changing population of viable weed seeds in an arable soil. 13357

Weeds as a factor depressing forest growth. 13361

Influence of soil properties on phytotoxicity of 4-amino-3, 5,6-trichloropicolinic acid (picloram). 13479

Some new Oribatei from xerotherm soil of central Spain (Acarina). 13576

Residue studies of fenthion (Baytex) and Dursban in Central California pastures. 14053

Plictran miticide-New approach to mite control. 14202

Soil condition and the violet and white root rot diseases of fruit trees. 14343

Importance and causes of Nematode movement in the soil and research on the migration of 'Ditylenchus myceliophagus'. 14506

Onion weed control on Mallee soils. 14518

Stability and effects of some pesticides in soil. 14697

Weed control in field crops: Sorghum. 15134

Pigmy mangold beetle (Atomaria lincaris Steph.), biology and control. 15623

Plant response to herbicide placement in soil. 15724

Degradation of atrazine in four Hawaiian soils. 15725

Movement and persistence of picloram in pasture soils of Nebraska. 15732

Endrin decomposition on air-dried soils. 15910

SOLAN

Transformation of solan in soil. 15696

SOLANACEAE
Research with ionizing irradiation on the sterilization and radiosensitivity of Chrysomela decemlineata Say. 8096
A black mildew, of the genus Diporotheca, found on roots of Nicotiana tabacum in Connecticut. 8278
On the stolbur virus in red pepper (Capsicum annum) L. 15541
Lycium halimifolium Mill. a potential resevoir of cucumber mosaic virus. 15573
Investigation into the influence of day length on the reproduction of potato-X and tobacco mosaic virus in Solanaceae of differing photoperiodic sensitivity. 15579
Virulence on various solanaceae of three strains of the stolbur virus and a virus infecting tomato plants in Tunisia. 15652

SOLANUM
Lycopersicon an Solanum spp. resistant to the carmine and the two-spotted spider mite. 8343
Observations on the morphology and the histocytology of the virescent products of Eriophyes cladophthirus Nal. on Solanum dulcamara L.. 11547
Role of 2,4-dichlorophenoxyacetic acid and of myo-inositol in the formation of the callus on excised roots of Solanum laciniatum Ait. 14090
Recognition of the blotting bacteria of Solanum from the French West Indies. 15492

SOLANUM ANDIGENUM
First observations on the resistance of a hybrid potato variety to some Italian populations of Heterodera rostochiensis Woll. 8381

SOLANUM DEMISSUM
Isolation of rishitin from tubers of interspecific potato varieties containing different late-blight resistance genes. 14443

SOLANUM NIGRUM
Combinations of preplant, postemergence, and layby herbicide applications for selective weed control in sugar beets. 15151

SOLAR RADIATION
Ecology of lice on sheep. VI. The influence of shearing and solar radiation on populations and transmission of Damalinia ovis. 12186
Ecology of lice on sheep. VI. The influence of shearing and solar radiation on populations and transmission of Damalinia ovis. 14629

SOLENOPSIS GEMINATA
Capsule controls fire ant. 9336

SOLENOPSIS SAEVISSIMA
Notes on Fustiger elegans Raffray (Coleoptera, Pselaphidae) in Uraguay and Argentina. 14772

SOLENOPSIS SAEVISSIMA RICHTERI
Fire on fire ants . 8322
Effect of insecticides on ant and spider populations in Louisiana sugarcane fields. 9015
The distribution of an oil, carbohydrate, and protein food source to members of the imported fire ant colony. 10571
Domestic quarantine notices. Imported fire ant. Exemptions. 10738
Notes on Fustiger elegans Raffray (Coleoptera, Pselaphidae) in Uraguay and Argentina. 14772

SOLIDAGO
Yields of timothy and lespedeza after reducing competition from goldenrod with herbicides. (Abstract). 10808
Gains in timothy forage from goldenrod control with 2,4-D, 2,4-DB, and picloram. 15727

SOLUBILITY
Distribution ratio of some chlorinated hydrocarbon insecticides between hexane and water. 10479

SOLVENTS
Analysis of commercial pesticides. 11056
Response of sago pondweed to periodic removal of topgrowth. 12735
A new flash injector for gas chromatography of organophosphorus insecticides. 14057
Solvent purification for residue analysis by nondistillation methods. 14104

SOMATOTROPIN
The homeostasis of the host and the development of the parasite. 12854

SONCHUS
Evidence of transovarial passage of the sowthistle yellow vein virus in the aphid Hyperomyzus lactucae. 8317
Additional evidence of multiplication of the sowthistle yellow vein virus in an aphid vector-serial passage. 9024
Comparative electron micrographs of sowthistle yellow vein and vesicular stomatitis viruses. 9645
The feeding sites in Sonchus oleraceus of Hyperomyzus lactucae, the aphid vector of lettuce necrotic yellows virus. 12635
Evidence of transovarial passage of the sowthistle yellow vein virus in the aphid Hyperomyzus lactucae. 12689

SONCHUS ARVENSIS
Control and elimination of noxious weeds. 8404
Control of Sonchus arvensis (perennial sowthistle). 15142

SOOTY BARK
Occurrence of Cryptostroma corticale in Northwestern United States. 8294

SORBATES
Control of Byssochlamys and related heat-resistant fungi in grape products. 11662

SORBIC ACID
Progeny suppression of Attagenus megatoma and Trogoderma parabile by dietary factors. 10521

SORDARIA
Antibiotic SL 2266. Patent 3,432,598. 9604

SORGHUM
Greenbug control in grain sorghum. 8337
Recognition of a greenbug biotype injurious to sorghum. 8349
Pattern of cell death in sorghum stalk tissue as a measure of the susceptibility to spread of Colletotrichum graminicola in fifty-five sorghum varieties. 8965
Occurrence of plant growth inhibitors in tropical and subtropical vegetation. 9189
The metabolism of radiostrontium by plants. (Abstract). 9191
Relationship of living and dead cells to spread of Colletotrichum graminicola in sorghum stalk tissue. 9574
Tolerance. of Sorghum bicolor (L.) Moench to several herbicides. 9670
Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Norea. 9789
A systemic oxathiin fungicide to control loose smuts, covering smuts, seed rots, and seedling blights of wheat, barley, oats, and sorghum. 10189
Influence of weed competition on sorghum growth. 10277
Yellow foxtail competition in grain sorghum. 10284
Tall waterhemp competition in grain sorghum. 10285
1967 Kansas insect control recommendations; livestock, major field crops. 10729
Response of crabgrass seedlings to various herbicides. (Abstract). 10818
Effect of activated carbon and other adsorbents on the biological activity of certain herbicides. (Abstract). 10970
Effect of trifluralin on oxygen uptake and oxidative phosphorylation in isolated mitrochondria. (Abstract). 11018
Studies on the selective action of trifluralin between soybeans and sorghum. (Abstract). 11043
Soil moisture on competitive ability of weeds. (Abstract). 11051
Profit by pest control in CSH-1 and CSH-2 sorghums. 11532
Pathological histology of corn and sorghum plants infected with maize dwarf mosaic virus and Sclerospora sorghi. 12632
Effect of late infestation of the stem borer Chilo zonellus Swin. on the yield of sorghum grains. 12675
Insect control studies on the new hybrid sorghum CSH-1 in India. 12691
Meloidogyne naasi on sorghum in Kansas. 12695
Effect of simulated rainfall on herbicide performance. 12708
Atrazine metabolism and herbicidal selectivity. 13492
New herbicides for control of weeds in sorghum. 13913
A contribution to the understanding of the biology of Sesamia cretica Led. (Lepidoptera Agrotidae) in Tripolitania. 14809
Occurrence of zebra-necrosis in Sorghum. 14972
Observations on downy mildew of Jowar (Sorghum vulgare). 14984
Weed control in field crops: Sorghum. 15134
Effects of extreme s-triazine concentrations on corn, sorghum, and foxtail. 15286
Evidence that downy mildew (Sclerospora sorghi) of sorghum is seedborne. 15472
Sorghum. 15630

Effect of weeds on harvesting efficiency in corn, sorghum, and soybeans.
15703

Dryland sorghum production and weed control with minimum tillage.
15729

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities, Malathion.
15868

Self-propelled combine for harvesting research plots.
15918

SORGHUM HALEPENSE

Repeated, foliar applications of herbicides on johnsongrass.
10291

Translocation of assimilates and dalapon in established johnsongrass.
10292

Control of johnsongrass on drainage ditchbanks in sugarcane.
10297

Seed dormancy and germination in ecotypes of johnsongrass.
10309

Growth and control of Johnsongrass ecotypes. (Abstract).
11011

Translocation and metabolism of MAA-C14 in johnsongrass and cotton.
15733

SORGHUM VULGARE BICOLOR

Effect of herbicides used for wild cane control in corn on subsequent oat yields.
15057

Oat yields subsequent to selective wild cane control in soybeans with herbicides.
15058

Chemical and mechanical control of wild cane in corn.
15060

Effect of herbicides on control of wild cane in irrigated corn.
15126

Emergence of velvetleaf (Abutilon theophrasti) and of wild cane (Sorghum bicolor) from different seed depths and site of uptake of various chemicals.
15295

SORGHUM VULGARE SUDANENSE

Recognition of a greenbug biotype injurious to sorghum.
8349

Response of crabgrass seedlings to various herbicides. (Abstract).
10818

SORPTION

Water vapor sorption and humidity relationships in Liposcelis (Insecta: Psocoptera).
10053

Sorption of diuron and propanil to proteins. (Abstract).
11060

SOUND WAVES

Acoustic interneurons in the brain of noctuid moths.
8177

Monitoring for audible and ultrasonic sound production by stored-product insects during mating.
8904

New electronic conceptions on actography applied to the study of invertebrates.
9620

Method for the detection and registration of weak sounds, such as the gnawing of insect larvae.
11237

Acoustical communication by Lipara lucens (Diptera, Chloropidae).
11354

Laboratory experiments on the sound of the wing beats of Culex pipiens Linnaeus during diapause.
11360

Sensitivity of Sitophilus zeamais Mots (0 oryzea L.) to ionizing radiations at different stages of its development. Radiographical study of the endogenous stages and actographical registration.
11368

Use of an actograph with electro-acoustical detector for the study of grain insects. Actography of the larval development of Sitophilus granarius. Detection of the primary effects of the ionizing radiations.
11538

A contribution to the evidence of the informative role of the sound component in mobilizative bee dances.
11813

Physical methods of pest control.
11921

Systematics and acoustic behavior of United States crickets of the genus Cyrtoxipha (Orthoptera: Gryllidae).
12396

Response of Heliothis spp. (Lepidoptera: Noctuidae) to ultrasound when resting, feeding, courting, mating, or ovipositing.
13003

Audition by Cerura larvae (Lepidoptera: Notodontidae).
13071

Acoustic synchrony: Two mechanisms in the snowy tree cricket.
13700

Brain interneurons in noctuid moths: Differential suppression by high sound intensities. and grasses.
14258

SOUR CHERRIES

Monilia laxa as an important factor reducing the yield of some plum varieties (Monilia laxa (Ehrenb.) Aderh. et Rubl.).
9596

The propagation of Stecklenberg disease in a sour cherry tree.
10699

Yellow virus effects on macro- and micro-elements in 'Montmorency' sour cherry leaves.
11989

The effects of Alar on red tart cherries (Prunus cereasus).
14335

Research into blossom infection: II. Brown rot of sour cherries (Prunus cerasus L.). III. Fruit rot of the strawberry (Fragaria vesca). IV. Stone fruits.
15577

SOUR CHERRY YELLOWS

Virus disease problems in Ontario fruit orchards and vineyards.
14931

SOUTH AMERICA

The mandibles of two South American grasshoppers.
14233

SOUTH AMERICAN TRYPANOSOMIASIS

Breath lures bloodsucking bugs.
8920

SOUTH-EAST ASIA

Supplemental notes on the far eastern Biannularis group of Tabanus.
9311

SOYBEANS

Nematodes associated with soybeans in Alabama, Florida, and Georgia.
8389

Herbicide evaluation in soybeans at Georgetown, Delaware, 1967.
8401

Chemical weed control in crops.
8427

Herbicide trials for annual weeds in soybeans. (abstract).
8428

Purification of soybean mosaic virus.
8958

Sporulation of Cephalosporium gregatum on naturally infested soybean straw.
8967

Vendetta against weeds.
9658

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Norea.
9789

Chromatographic determination of 4-trifluoromethyl-2,4-dinitrodiphenyl ether residues in soybeans.
9802

Effects of rate, time, and method of application of TIBA on soybean production.
9827

Response of soybeans to 2,4-D, dicamba, and picloram.
10312

Effects of high rates of trifluralin and vernolate on soybean yield and growth.
10317

Desmodium paniculatum, a perennial host of bean pod mottle virus in nature.
10674

1967 Kansas insect control recommendations; livestock, major field crops.
10729

Nutsedge supression under different cropping practices. (Abstract).
10766

Selectivity of chloroxuron against soybean and morning glory. (Abstract).
10779

Studies on soybean-weed competition. (Abstract).
10828

Effects of dietary protein source upon nutrient balance in the baby pig. (Abstract).
10879

Prevention of leg defects in zinc-deficient chicks by antiarthritic agents. (Abstract).
10881

Notice of filing of petition regarding pesticide chemicals.
10933

Some effects of environment and species on absorption and metabolism of amiben in plants. (Abstract).
10992

Effect of trifluralin on oxygen uptake and oxidative phosphorylation in isolated mitrochondria. (Abstract).
11018

Studies on the selective action of trifluralin between soybeans and sorghum. (Abstract).
11043

Root temperature and transpiration influences on atrazine absorption and translocation. (Abstract).
11049

Application of immunoprecipitation in agar gel for the serological typing of soybean rootnodules.
11504

Spider mites on soybeans: Injury and control.
12054

Studies on preemergence screening and mode of selectivity of experimental herbicide 1-(3,4-dichlorophenyl)-3-methyl-2-pyrrolidinone.
12098

Soybeans: What to do after pre-emergence.
12099

Inheritance of reaction to phytophthora rot in the soybean.
12140

Effect of time of giant foxtail removal from corn and soybeans.
12725

Phytotoxicity and movement of amiben derivatives in soil.
12729

Soybean mitochondrial response to prometryne and fluometuron.
12731

The effect of linuron on ion uptake in corn, soyhean, and crabgrass. 12732

Organic matter--amiben interaction on nodulation and growth of soybeans. 12736

The soyhean cyst nematode in Florida. 13340

Growth regulator studies on soybeans, sweet-clover, and alfalfa. 13488

Atrazine metabolism and herbicidal selectivity. 13492

News: Crops. 13745

Influence of herbicides on plant growth and agronomic characteristics of soybean varieties. 13910

Effect of gibberellin on the growth, development, crop yield and some aspects of metabolism of summel vetch, field bean, pea and soya under various nutrient conditions. 14071

Cryopreservation and pathogenicity of selected isolates of Colletotrichum, Rhizoctonia, and Phytophthora. 14374

Postdirected applications of herbicides for weed control in soyheans. 15053

Equipment to incorporate herbicides for weed control in soybeans. 15054

Oat yields subsequent to selective wild cane control in soybeans with herbicides. 15058

Weed control in field crops: Soybeans. 15146

Contribution to the study of soybean bacterial disease in western Serbia. 15471

Soybeans. 15628

Effect of weeds on harvesting efficiency in corn, sorghum, and soybeans. 15703

Response of weeds and soybeans to amiben and naptalam individually and in mixtures with dinoseb. 15708

New method of injecting herbicides for weed control in corn and soybeans. 15731

Movement and persistence of picloram in pasture soils of Nebraska. 15732

Self-propelled combine for harvesting research plots. 15918

SPAIN
Faunistic data on aquatic Heteroptera III. Various localities in Europe. 14766

SPARGANIUM
Tests on the control of Phragmites communis and other emerging aquatic weeds. 10793

SPARROWS
House sparrows and a field infestation of tobacco hornworm larvae. 9023

Also a method for the control of sparrows. 10836

Sparrow mite Dermanyssus passerinus Berl. et Trouess, 1885. 14282

SPASMS
Tetanus in a grey squirrel. 12183

SPECTINOMYCIN
Notice of withdrawal of petition for food additive spectinomycin. 12151

SPECTRA
Spectrum analysis of the light emitted by Luciola lusitanica (Charp.). 8195

The effect of dihromoxyquinoline and iodochloroxyquinoline of Salmonellosis in mice. 12164

SPECTROCHEMISTRY
An attempt to isolate high polymerized deoxyribonucleic acid from Brucella abortus. 9707

Pheromones. III. Identification of trans, trans-10-hydroxy-3,7-dimethyl-2,6-decadienoic acid as a major component in hairpencil secretion of the male monarch butterfly. 10551

Structure of capitasterone, a novel C29 insect-moulting substance from Cyathula capitata. 10565

The circular dichroism and the stereochemistry of a new fungal tetrahydrofuran. 13512

3-(N-formylamino)-salicylic acid - a new metabolite of Streptomyces antibioticus. 14702

Colors of firefly bioluminescence: Invariability of intraspecies emission spectra. 15352

Insect photoperiodism. 15394

Light and circadian rhythms. 15414

Photoreactivation spectrum of tobacco mosaic virus-ribonucleic acid inactivated by ultraviolet radiation. 15519

Photoinhibition of auxin and its bearing on phototropism. 15903

SPECTROMETRY
Analysis of multiple pesticide residues--chemical identity and confirmation of results. 10473

Identification of ethylene in gibberellic-acid-treated potatoes. 12904

SPECTROPHOTOFLUOROMETRY
Spectrophotofluorescent and spectrophotophosphorescent data on insecticidal carbamates and the analysis of five carbamates in milk by spectrophotofluorometry. 14045

Spectra and analyses of insecticide synergists and related compounds containing the methylenedioxyphenyl group by spectrophotofluorometry (SPF) and spectrophotophosphorimetry (Ssp). 14105

SPECTROPHOTOMETRY
Movement of calcium and magnesium across the midgut epithelium of the American cockroach. 8183

Colorimetric determination of ronidazole in feeds. 8481

Comparison of assay methods for studying O,O-diethyl, O-p-nitrophenyl phosphate (paraoxon) detoxification in vitro. 8568

Residue analysis in the dairy industry. in Zwig, Analytical methods for pesticides, plant growth regulators, and food additives. vol. 1. principles, methods, and general application. 9157

It's tough to pinpoint residue content. 9242

Behavior of pyrazon in soil. 10286

Determination and measurement of insecticide dust particles in atmospheres adjacent to orchards. 10399

Acetonitrile extraction and determination of carbaryl in fruits and vegetables. 10475

Microbiological properties of captan. 11472

A method for determination of 2,4-dichlorophenoxyacetic acid (2,4-D) in algal culture media. 11568

An ultrastructural analysis of microsomal preparations from Musca domestica and Prodenia eridania. 11797

Movement of potassium and sodium across the midgut epithelium of the American cockroach. 11876

Quantitative and qualitative determination of dinitro-o-cresol (DNOC) in soil. 12311

Uncoupling of DNA and histone synthesis prior to prophase I of meiosis in the cricket Grillus (Acheta) domesticus L. 12417

Infrared determination of dithianon. 12913

Phenol oxidase characteristics in mutants of Drosophila melanogaster. 13093

Purine catabolism in Drosophila melanogaster. II. Guanine deaminase, inosine phosphorylase and adenosine deaminase activities in mutants with altered xanthine dehydrogenase activities. 13177

Optical investigations on double stranded ribonucleic acid from turnip yellow mosaic virus. 13257

Sites of virus synthesis within cells. 13285

Infrared, ultraviolet, and visible spectrophotometric determination Imidan in animal dips and sprays. 13439

Atomic absorption analysis of copper and lead in meat and meat products. 13440

Recommended analytical methods for pesticides. 41. Ferbam in mixed formulations. 13500

Pectinases in Ditylenchus dipsaci. 13887

Determination of dicofol (Kelthane) residues in fruits and vegetables. 14047

DNA-MEASUREMENTS in insects and a hypothesis concerning retarded evolution and especially high DNA content in the animal kingdom. 14185

Ribonucleic acid components of BAI strain A (myeloblastosis) avian tumor virus. 15164

Studies upon the residues of di-systone in potato tubers and some vegetables. 15259

Developmental changes in the late larva of Calliphora stygia. II. Protein synthesis. 15397

Changes in some haemolymph dehydrogenase isozymes of the female honeybee, Apis millifera L., during caste development. 15429

Adsorption of s-triazines by soil organic matter. 15747

Determination of aflatoxins in food by absorption spectrometry. 15874

SPECTROSCOPY
Spectrum analysis of the light emitted by Luciola lusitanica (Charp.). 8195

Two juvenile hormones in Cecropia silk moth. 8810

Lipid metabolism in the fruit of Persea americana Mill. I. Studies on the chemical composition of lipids and their changes during fruit development and storage. 9201

IUPAC commission on the development, improvement, and standardization of methods of pesticide residue analysis.
9224

Soil treatment by microwave energy to destroy plant pathogens.
9546

The metabolism of pyrazon in red beets. (Abstract).
11023

Organophosphorus compounds. VI. -Structure and activity of certain 4-(diethoxyphosphino hioylthiomethyl)4H-1,3,4-oxadiazoline-5-thiones, of certain 4-diethoxyphosphino hioylthiomethyl-thiazoles, and related compounds.
12514

The high resolution NMR spectra of pesticides. II. The DDT-TYPE compounds.
13508

Acoustic synchrony: Two mechanisms in the snowy tree cricket.
13700

Pertinant use of histochemical methods of curing floral plants injured by bacteria.
15536

SPERCHON GLANDULOSUS
Preliminary results of a new seasonal investigation on brook Hydracarinae (Acari-Trombidi formes).
9341

SPERGULA ARVENSIS
Spurrey.
10800

SPERMATHECA
The structure of the female genital ducts and of the spermatheca in Gryllus campestris L.
8101

Observations on the functional anatomy of the reproductive organs of Sitophilus (Coleoptera: Curculionidae).
8145

Proteins in the spermathecae and haemolymph of the queen bee (Apis mellifica L. var. ligustica Spin.).
10057

SPERMATOCYTES
An electron microscope study of nebenkern formation and differentiation in spermatids of Murgantia histrionica (Hemiptera, Pentatomidae).
8837

Spermatocyte granules in Drosophila melanogaster.
10003

Notes on the male germ cells of a beetle, Leptinotarsa decemlineata.
10115

The effect of Actinomycin D pre-treatment of Drosophila melanogaster females on the frequency of dominated lethals induced by X-rays on mature spermatozoids.
11428

Morphological variability of the chromosomal functional structure in the spermatocyte nucleus of Drosophila species.
13720

Antinomycin D induced chromosome breakage and suppression of meiosis in the locust, Schistocerca gregaria.
13723

SPERMATOGENESIS
An electron microscope study of nebenkern formation and differentiation in spermatids of Murgantia histrionica (Hemiptera, Pentatomidae).
8837

Spermiogenesis without chromosomes in Drosophila melanogaster.
8915

Experimental studies on spermiogenesis in Drosophila.
8917

Comparison of effects of irradiation on the primary spermatogonia and mature sperm of three species of Diptera.
10102

Notes on the male germ cells of a beetle, Leptinotarsa decemlineata.
10115

Genetical sensitivity of the different stages of spermatogenesis to methylmethanesulphonate (MMS) in Drosophila melanogaster. I. Crossing-over, deletions, fertility.
11422

Uncoupling of DNA and histone synthesis prior to prophase I of meiosis in the cricket Grillus (Acheta) domesticus L.
12417

Genetic activities of the Y chromosome in Drosophila during spermatogenesis.
13175

Spermatogonial crossing over in Drosophila melanogaster and Drosophila ananassae.
13180

Cytology and cytochemistry of spermatogenesis in two millipedes Phyllogonostreptus nigrolabiatus and Gonoplectus malayas.
14219

SPERMATOPHORES
Postembryonic development of the male and female reproductive systems of Frankliniella fusca (Hinds) (Thripidae) and Haplothrips verbasci (Osborn) (Philaeothripidae) (Thysanoptera).
9397

Spermatophores of the Blattaria.
10024

The stimulating action of the spermatophore on oogenesis in Acanthoscelides obtectus Say (Insecta, Coleoptera).
11295

Histological changes in the gonads of house flies fed nmethyl p,p-bis(1-aziridinyl) phosphinic amide and p,p-bis(1-aziridinyl)-n-(3-methoxypropyl) phosphinothioic amide.
11899

Acoustic synchrony: Two mechanisms in the snowy tree cricket.
13700

SPERMATOZOA
Microtubules in the spermatids of the silkworm (Bombyx mori L.).
8102

Observations on the functional anatomy of the reproductive organs of Sitophilus (Coleoptera: Curculionidae).
8145

Carnitine acetyltransferase in developing and mature sperm of wild-type and mutant Drosophila melanogaster.
8231

Chemosterilant studies on Bracon sperm. II. Studies of selected compounds for induction of dominant lethal mutations or sperm inactivation.
8914

The activity of spermatozoa of Periplaneta.
11832

Comparative effects of chemosterilants on spermatogenic stages in the house fly. 1. Induction of dominant lethal mutations in mature sperm and gonial cell death.
11847

Electron microscope study on the spermatozoon of the liphistiid spider, Heptathela kimurai.
13106

Fertilization in Drosophila. III. A revaluation of the role of polyspermy in development of the mutant deep orange.
13633

Transport of microorganisms (Phi particles) by the female germinal cells in the Homoptera Typhlocyba douglasi Edw.
13649

Progeny: Sperm ratios and non-functional sperm in Drosophila melanogaster.
13728

Exceptions to the prevailing pattern of tubules (9 plus 9 plus 2) in the sperm flagella of certain insect species.
14255

Sperm activation and migration in bed bugs. size in hypersensitive hosts in the presence of chloramphenicol.
14257

SPHACELOMA
Significant specimens of Elsinoe and Sphaceloma taken by U. S. plant quarantine inspectors Ii.
11477

Significant specimens of Elsinoe and Sphaceloma taken by U. S. Plant Quarantine inspectors. II.
13787

SPHACELOTHECA REILIANA
Protect your maize from head smut.
12624

SPHAEROCERIDAE
Taxonomic and biological studies of Hawaiian Sphaeroceridae (Diptera).
9325

Two new species of Leptocera Olivier from Hawaii (diptera: Sphaeroceridae).
9326

SPHAEROPSIDALES
The causes of sapstain in red beech.
14350

SPHAEROTHECA
Six powdery mildews from Jammu and Kashmir State.
9590

SPHAEROTHECA MACULARIS
Alterations of the host wall surrounding the infection peg of powdery mildew fungi.
9837

Powdery mildew of strawberries.
12014

SPHAEROTHECA MORS-UVAE
Fungicidal activity and chemical constitution. XV. The activity of 4-(1-substituted n-alkyl)-2,6-dinitrophenols.
12601

SPHAEROTHECA PANNOSA
Fungicidal activity and chemical constitution. XV. The activity of 4-(1-substituted n-alkyl)-2,6-dinitrophenols.
12601

SPHAERULARIIDAE
On the classification of the insect parasitic nematodes of the Sphaerulariidae Lubbock, 1861 (Tylenchoidea: Nematoda).
14860

SPHECIDAE
New South American genera and species of the tribe Bothynostethini (Hymenoptera; Sphecidae; Larrinae).
8652

The nesting activities of the vespoid potter wasp Eumenes campaniformis esuriens (Fabr.) compared with the ecologically similar sphecoid Sceliphron madraspatanum (Fabr.) (Hymenoptera).
11299

Biological observations on Larra amplipennis (Smith) in Kagawa, Japan (Hymenoptera: Sphecidae).
11834

Biology of Trypargilum spinosum, with notes on T. texense and T. politum at Lake Texoma (Hymenoptera: Sphecidae: Trypoxyloninae).
13645

The larval behavior of Trypoxylon figulus L. (Hym., Sphecidae).
13659

Sphecidae of the Canary Islands (Hymenoptera).
14131

Concerning some West German bees and digger wasps (Hym. Apoidea, Sphecoidea).
14176

The ultrastructure and electrophysiology of the membranous lobe of the antenna in Speophyes lucidulus larvae (Coleoptera).
14192

On the life cycle of Coelorabro ambiguus (Hym., Sphecidae).
14241

Sphecidae collected at Tenerife.
14779

An addition to the Psenini of Spain (Hym. Sphecidae).
15330

SPHENOPHORUS VENATUS CONFLUENS
Biology of the billbug Sphenophorus venatus confluens, a new pest of orchardgrass.
10047

Insecticides for control of Sphenophorus venatus confluens, Rhopalosiphum padi, and Rhipidothrips brunneus in orchardgrass.
12676

SPHINGIDAE
How to control insects on field tobacco.
8347

Effect of population density on the larval coloration and development of larva and pupa in the larger pellucid hawk moth, Cephonodes hylas L. (Lepidoptera' Sphingidae).
14121

Hawk moths with mites. (Lep. Sphingidae).
14222

The sphinx moths (Lepidoptera: Sphingidae) of Oklahoma.
14721

SPICES
Experiments on chemical weep control in spice and pharmaceutical plants.
15105

SPIDER VENOM
Envenomation by the spiders Chiracanthium inclusum and Argiope aurantia.
9809

Envenomization by the spider Lycosa miami Wallace.
11434

Experimental necrotic arachnidism on rabbits caused by the bites of Loxosceles unicolor (Araneae: Scytodidae).
11436

A brief review of necrotic arachnidism or North American loxoscelism.
13640

SPIDER WEBS
The hunting-web of the young spider Pisaura mirabilis.
13079

SPIDERS
The old house borer in Eastern States.
8076

Association among species of infrequent occurrence: The insect and spider fauna of Polyporus betulinus (Bulliard) Fries.
8171

Regulation of external respiration by the booklung spiracles of the spiders, Araneus diadematus Clerck and A. marmoreus Clerck.
8176

Effect of insecticides on ant and spider populations in Louisiana sugarcane fields.
9015

The spiders of Mississippi.
9277

Morphological criteria as indicators of species limits in spiders of the subfamily Araneinae. (Arachnida: Araneae: Araneidae).
9287

Envenomation by the spiders Chiracanthium inclusum and Argiope aurantia.
9809

Studies on labeled animal poisons. II. Distribution of the venoms of various spiders labeled with Se75 and P32 in the guinea pig.
9812

Notes on some spider hunting wasps from the Netherlands (Hymenoptera, Pompilidae).
11719

Orientation and biorhythms in jumping spiders (Araneida: Salticidae).
11869

The phenology of linyphiid spiders on heathland in Dorset.
13088

Electron microscope study on the spermatozoon of the liphistiid spider, Heptathela kimurai.
13106

Regulation of external respiration by the booklung spiracles of the spiders, Araneus diadematus Clerck and A. marmoreus Clerck.
13117

Observations on several cases of leg regeneration in Loxosceles rufescens (Dufour) (Araneae, Scytodidae).
13609

SPIKE DISEASE
The occurrence of inclusion bodies in leaf epidermis cells of sandal affected with spike disease.
8945

SPILOPSYLLUS CUNICULI
Myxomatosis: The introduction of the European rabbit flea Spilopsyllus cuniculi (Dale) into Australia.
13742

SPILOSTETHUS PANDURUS
Observations on Lygaeus pandurus Scopli in West Rajasthan.
13854

SPINACH
Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Norea.
9789

On the subject of certain limits noted in the control of the seed-corn maggot.
10519

Pigmy mangold beetle (Atomaria linearis Steph.), biology and control.
15623

SPINAL CORD
Nucleic acid content in small samples and individual spinal cord cells at different functional states.
10832

Observations on the ultrastructure of the spinal cord, spleen and lymph nodes of mice inoculated with scrapie.
12755

SPINDLE TUBER
Potato spindle tuber virus: A plant virus with properties of a free nucleic acid.
10640

SPIRACLES
Regulation of external respiration by the booklung spiracles of the spiders, Araneus diadematus Clerck and A. marmoreus Clerck.
8176

The spiracular morphology of the Hawaiian damselfly Megalagrion blackburni (Odonata).
9504

Spiracles of adult Scarabaeoidea (Coleoptera) and their phylogenetic significance. I. The abdominal spiracles.
9934

The control of water loss in Locusta migratoria mays. Influence of high-temperature treatment before spiracles.
11850

Regulation of external respiration by the booklung spiracles of the spiders, Araneus diadematus Clerck and A. marmoreus Clerck.
13117

SPIRAEA BUMALDA
Biological and morphological investigations of Brachycaudus spiraeae (Oestl.) C.B., an aphid pest of Spiraea (Homoptera: Aphididae): a contribution to the determination, to the specific morphology and chetotaxy of the aphid.
15380

SPIRAEA VANHOUTTEI
Biological and morphological investigations of Brachycaudus spiraeae (Oestl.) C.B., an aphid pest of Spiraea (Homoptera: Aphididae): a contribution to the determination, to the specific morphology and chetotaxy of the aphid.
15380

SPIRAMYCIN
Control of chronic respiratory disease by Spiramycin antibiotic therapy.
9103

Identification and quantitative evaluation of antibiotic residues in chickens fed on a spiramycin diet.
9793

SPIROCHETOSIS
Protein in the blood serum of chicks experimentally infected with spirochaetosis.
9701

Problems in raising ducks.
10357

On results of control of a tick vector of spirochaetosis in village foci of the Central Asian Republics.
10585

Diagnosis of spirochaetosis of poultry by slide agglutination and spirochaete immobilization tests.
12808

SPIRURIDAE
Spirurata of animals and humans and the diseases.
10382

Spirurata of animals and humans and their diseases.
12858

SPLEEN
Stimulation of porcine splenic cultures by a radiationinduced lymphoid leukemia filtrate: a preliminary report.
9078

Growth of Aleutian disease virus in mink. (Abstract).
10885

Observations on the ultrastructure of the spinal cord, spleen and lymph nodes of mice inoculated with scrapie.
12755

Sensitivity of the splenectomized hamster to Trypanosoma equinum.
13928

Histopathologic and hematologic changes in moribund stages of chicks infected with T-virus.
14600

SPODOPTERA
Azodrin for corn earworm and fall armyworm control and its persistance in sweet corn.
8069

The relative susceptibility of the larvae of Spodoptera mauritia acronyctoides (Guenee) (Lepidoptera: Noctuidae) to several contact insecticides.
11221

Serological response in cattle to East Coast fever (Theileria parva infection) as measured by the indirect fluorescent antibody test.
14588

The true taxonomic identity of a moth known as Rosquilla negra , a most distructive plague on our crops which corresponds to the scientific name of Spodoptera littoralis (B., 1833) (Lep. Noctuidae) (Lam. V.).
15309

SPODOPTERA EXIGUA
Insect parasite complex berseem armyworm Spodoptera exigua (Hubn.) (Lepidoptera, Noctuidae).
8082

Effect of temperature on the progeny production and longevity of Lespesia archippivora in the laboratory.
8093

Cytopathology of a nucleopolyhedrosis of the beet armyworm, Spodoptera exigua.
8773

Pathogenicity of a nuclear-polyhedrosis virus of the beet armyworm, Spodoptera exigua.
8774

Migration of Laphygma exigua Hubner (Lepidoptera: Noctuidae) to the British Isles in relation to large-scale weather systems.
9384

Meteorological aspects of insect migrations. 10037

The phyllophagous larvae of the family Noctuidae (Lepidoptera), collected on corn in Northern Greece. 12082

SPODOPTERA FRUGIPERDA

Azodrin for corn earworm and fall armyworm control and its persistance in sweet corn. 8069

Nucleic acid in intact nuclear polyhedral bodies isolated from virus-infected fall armyworm, Spodoptera frugiperda. 8745

Mating of untreated and tepa-chemosterilized fall armyworm moths. 10575

Competition and survival among the corn earworm, the tobacco budworm, and the Fall armyworm. 12555

A chemosterilant feeder for insects. 12934

SPODOPTERA MAURITIA ACRONYCTOIDES

The relative susceptibility of the larvae of Spodoptera mauritia acronyctoides (Guenee) (Lepidoptera: Noctuidae) to several contact insecticides. 13300

SPONDYLITIS

Tuberculous spondylitis in a horse. 10882

SPONGES

Insects associated with the sponge Spongilla fragilis in the Savannah River. 10558

SPONGOSPORA SUBTERRANEA

Susceptibility of potato varieties to powdery scab. (Spongospora subterranea(Wallr.) John). 9571

SPORANGIA

Development of controlled conditions for the study of red stele disease on strawberries. 8216

SPORE DISPERSAL

An interesting mode of spore liberation by Georgefischeria riveae Thirum. and Naras. 8310

SPORE GERMINATION

Alkali bees: Response of adults to pathogenic fungi in brood cells. 9344

Ultrastructure of fungi. 13241

The effect of some vitamins upon Botrytis allii Munn. 13791

Studies on Botrytis allii Munn.. The cause of neck rot of onion bulbs in U.A.R.. 1.The disease and the causal organism. 13792

The effect of benomyl on Mycosphaerella musicola. 14457

On mass cultivation, determination of effectiveness, and standardization of insect pathogenic fungi. 14857

On the physiology of germination of Fusarium chlamydospores in soil. 14969

Variability of the germinal spores of some Ustilaginales limited by X-rays. 15570

SPORES

An epizootic disease of Tarichium (Entomophthoraceae) on the larvae of Ocnogyna parasita Hbn. (Lepidoptera, Arctiidae). 8215

Some effects of sublethal heat on spores of Nosema apis. 8890

The surface localization of polygalacturonase in spores of Geotrichum candidum. 8937

The role of glucose in stimulating germination of Fomes igniarius var. populinus basidiospores. 8971

The fine structure of Nosema sp. Sprague, 1965 (Microsporida, Nosematidae) with particular reference to stages in sporogony. 9118

Host susceptibility and the effect of aging, freezing, heat and chemicals on spores of Myxosoma cerebralis. 10868

Fecal filaments produced by fungus infesting larvae of Platydema oregonense. 11235

Control of Byssochlamys and related heat-resistant fungi in grape products. 11662

Biphasic system for separation of spores and crystals of Bacillus thuringiensis. 12456

Formation of soruses and spore differentiations in Utilago maydis (DC.) Cda. 12621

Thermal resistance of Salmonella senftenberg 775W in dry animal feeds. 12780

Incidence study of spores of Clostridium botulinum in convenience foods. 12883

Ultrastructure of fungi. 13241

Studies on the gut contents of a suctorial collembolan Friesea mirabilis (Tullberg) (Insecta). 13684

Observations on parasitic protozoa in plant-parasitic and free-living nematodes. 13900

Contribution to the investigation of chemoendotherapy of sugar beet infected by Cercospora beticola Sacc. 14408

Is exclusive hypovirulence controlled by cytoplasmic determinants. 14950

Variability of the germinal spores of some Ustilaginales limited by X-rays. 15570

SPORIDESMIN

Phytotoxicity of sporidesmin. 14069

Biosynthesis of sporidesmin from amino acids. 14097

SPOROPOLLENINS

Identity of sporopollenin with older kerogen and new evidence for the possible biological source of chemicals in sedimentary rocks. 9525

SPOROZOA

On giant eimerian schizonts from two cases of coccidiosis in kid. 13394

Eimeria saitamae n. sp.: a new cause of coccidiosis in domestic ducks (Anas platyrhyncha var. domestica). 15820

SPOROZOITES

Survival of sporozoites of Leucocytozoon in birds for 11 days. 8462

Amylopectin, the storage polysaccharide of the coccidia Eimeria brunetti and E. tenella. 11620

Purification of Eimeria tenella sporozoites with glass bead columns. 11630

SPORULATION

Yeast sporulation and RNA as affected by gibberellic acid. 9198

Influence of light on sporulation by Helminthosporium stenospilum. 10183

The effect of fungicidal treatments on sporulating capacity in relation to the control of coffee berry disease. 12633

Seasonal variations in the sporulating capacity of the fungus causing coffee berry disease. 12634

Milky disease bacteria. 12992

The effects of moisture and temperature on growth and spore germination in some fungi. 13468

The effect of benomyl on Mycosphaerella musicola. 14457

SPOTTED FEVER

Ticks in relation to human diseases caused by Rickettsia species. 8136

SPRAY TECHNIQUE

The genetics of Drosophila mating behavior. II. The genetic architecture of mating speed in Drosophila pseudoobscura. 14286

Evaluation of the ultra-low volume aerial spray technique by use of caged adult mosquitoes. 14907

ULV spray application of pesticides-- a step towards economical plant protection. 14910

SPRAYING

Pollen gathering of honey bees reduced by pesticide sprays. 8205

Powdery mildew of hydrangeas. 8303

Fire on fire ants . 8322

Double your cotton yield by spraying. 8324

Control of the boll weevil by mechanically destroying fallen infested cotton squares. 8331

Cabbage looper control in Florida - a cooperative program. 8345

How to control insects on field tobacco. 8347

Control and elimination of noxious weeds. 8404

Report on the current and planned local noxious weed control programs in New Jersey. 8414

From weeds to pasture in one year. 8431

The effects of phytobland oils and spray volume on postemergence activity of atrazine and combinations of atrazine with linuron in corn. 8440

Pesticide drift. I. High-clearance vs. aerial application of sprays. 8533

Pesticide drift. II. Mist-blower vs. aerial application of sprays. 8555

Fish losses after forest sprayings with insecticides in New Brunswick, 1952-62, as shown by caged specimens and other observations. 8567

Broadcast spraying. 8612

An appraisal of high, medium and low volume methods of spray application. 8722

Trithion-a new acaricide. 8814

Experiments with Beauveria hassiana (Bals) Vuill. against Blastophagus piniperda L. (Col., Scolytidae). 8822

Sugar-cane moth borers in the Caribbean. 8974

Chemical control of the juniper webworm on Irish juniper. 9016

Aerial spraying of forests: Notes for landowners. 9034

Studies on effects of forest sprayings with insecticides, 1952-63, on fish and aquatic invertebrates in New Brunswick streams: Introduction and summary. 9144

Some features of the physiology of dormancy in black currant plants in connection with the effect of gibberellin. 9199

The fluorescent particle spray droplet tracer method. 9230

The optinum size for insecticide spray droplets. 9231

Legal aspects of crop spraying. 9398

Progress report of low-volume aerial spray tests against adults of Aedes taeniorhynchus (Weid.) and Culex nigripalpus Theob. 9523

Horticultural handbook. 9537

Dutch elm disease - threat to Colorado. 9555

An unknown grape vine disease, spray damage or red burn epidemic . 9568

Systemic control of Exobasidium vexans on tea with 1,4-oxathiin derivatives. 9613

Commercial vegetable insect control. 9633

Home orchard pest control. 9643

SNA sprays to improve weight and size of spring fruit of pineapples in Taitung. 9836

The influence of insecticides, acaricides and fungicides on the biocenosis of fruit cultures. 9844

Heterogeneity values of insecticide, fungicide or herbicide deposits and of their residues. 9853

Growers join forces to battle the boll weevil. 10233

Spray droplet size in the control of spruce budworm, boll weevil, bollworm and cabbage looper. 10247

Organophosphorus acaricides for controlling the two-spotted spider mite on strawberries. 10248

Easy-to-kill pests of fruit trees...codling moth. 10253

Control of Brachyrhinus cribricollis injuring ornamentals. 10269

A method for spraying individual trees. 10282

A sprayer for application of small amounts of herbicides to flats. 10314

Use of metaldehyde as dusts and sprays to control the giant African snail Achatina fulica Bowdich. 10319

The effect of N-dimethyl amino succinamic acid (Alar) on size, shape and maturity of Delicious apples. 10450

Spray gel agent solves drift problem. 10456

Insecticides, how to use them safely and effectively. 10466

Comparison of fungicides for potato blight. 10613

Fire blight research and control measures in the United States. 10624

Time of chemical haulm destruction. 10644

Frogeye leafspot and apple black rot control by fungicide spray treatment in New Hampshire. 10657

Sclerotinia rot (Sclerotinia sclerotiorum). 10678

Effects of crown rust on rye grass. 10681

Effects of lime on potato blight. 10690

Control of small-fruit pests and diseases 1967. 10719

Acaraben miticide, brand of chlorobenzilate, for better rust mite control on Florida citrus. 10725

Research on integrated control of pests in the experimental orchard 'De Schuilenburg'. 10728

Effects of several oils and surfactants on the enhancement of atrazine for weed control in corn. (Abstract). 10767

Herbicides can be used while establishing warm season turfgrasses vegetatively. (Abstract). 10772

Winged elm control with picloram and 2,4,5-T with additives (Abstract). 10777

Fuel evaluation for a Missouri pine plantation released by aerial spraying. 10792

Trouble in wild oat control. 10796

Control of the biennial thistle, Onopordum, by amitrole and five perennial grasses. 10798

Influence of adjuvants on the phytoxicity and foliar absorption of pyrazon. (Abstract). 10817

Quelea control and research unit. 10880

The effects of accumulated fluoride on yields and fruit quality of 'Washington' navel oranges. 10929

Dursban insecticide persistence in grass and corn forage. 10941

Atrazine drift studies with horticultural crops. (Abstract). 10943

Absorption, translocation and accumulation of labeled N-dimethylaminosuccinamic acid in apple tissues. 10980

Two types of post-emergence activity of CIPC. (Abstract). 10981

The spray deposit patterns of several types of nozzles used for low volume application. (Abstract). 11085

A granular herbicide spreader for gradient or constant rate use. (Abstract). 11086

Spray droplet sizes obtained from several types of nozzles used for low volume application. (Abstract). 11088

Herbicide combinations. (Abstract). 11095

Legislating custom spraying. (Abstract). 11097

Regulations by the mile - the railroad contract applicator's dilemma. (Abstract). 11099

Protective sprays inhibit secondary spread of common bacterial blight in snap beans. 11461

Inoculation. 11515

The cluster fly. 11871

The influence of spray programs on the fauna of apple orchards in Nova Scotia. XIX. Apple rust mite, Vasates schlechtendali, a food source for predators. 11925

Control of blight diseases of potato in West Bengal Plains by various spray fungicides. 11990

Now is the time to control brown rot. 12012

Penalty for spot . 12029

Control of four species of aphids on deciduous fruit and nut trees with carbofuran. 12076

Effect of spraying and defoliation on flower shedding in yellow lupine (Lupinus luteus L). 12240

Antitranspirants: Uses and effects on plant life. 12248

Growth and fruiting response of young apple and pear trees to annual applications of succinic acid 2,2,dimethyl hydrazide. 12283

Fruiting and vegetative effects of N-dimethylaminosuccinamic acid on 'Concord' grapes, Vitis labrusca L. 12296

Maleic hydrazide inhibits growth of young tung trees (Aleurites fordii, Hemsl.). 12300

Insect-proffing during building construction. 12328

Laboratory insecticide tests against the Fall webworm. 12429

Entomology. 12688

Field evaluations in spray programs for control of the fruit-tree leaf roller on sweet cherry. 12694

Fly control in cage layer houses. 12813

Ground application of pesticides. 12931

Pest control machinery in Japan. 12932

Control trials against the Black Parlatoria scale in Tripolitania. 13037

Selection, adjustment, and care of spraying and dusting equipment.
15922

SPRAYING EQUIPMENT

Chemical clearing of transmission line right of way in quebec.
8394

Pesticide drift. I. High-clearance vs. aerial application of sprays.
8533

Broadcast spraying.
8612

Creeping Charlie uses aqualin to kill aquatic weeds.
9186

Helicopter sprayers may rescue infested forests.
9959

Inexpensive modifications of the log sprayer for small plot field evaluation of pesticides. (Abstract).
11087

A simple, cheap experimental sprayer.
11711

This LV rig fights winds.
12327

Low volume fog and mist for ground use.
13228

How you can control weeds in rapeseed.
13362

A new 8-row ground sprayer with auxiliary air for ULY application of pesticides to cotton.
13522

Review of the plant pathology department.
13804

Section IV.--AGRICULTURAL engineering.
13838

Properties of leptinotarsin, a toxic hemolymph protein from the Colorado potato beetle.
14212

Control of potato blight by means of spraying machinery used on the ground, airplanes and helicopters.
14951

Quelea control-Farmer devises effective spraying technique.
15154

Major step toward zero chemical drift.
15302

An automatic output regulator for exact deliveries of plant protective agents.
15303

Results of serial tests with spraying machines used in field.
15305

Possibilities of checking jets of field spray lines.
15307

Plant protection problems in Tunesia.
15667

Sprayer calibration and nozzle selection charts.
15921

SPY 227

Transmission of apple viruses by leaf tissue implantation.
8992

SQUAMOUS CELL SARCOMA

Report on five Ovine neoplasms.
13958

SQUASH

Analysis of potato for residue of C-3126 and of squash for residue of prometryne.
8544

Notice of filing of petition regarding pesticide chemicals. ·
10931

The influence of endothal, dichlobenil, and bromoxynil, on proteolytic activity in the cotyledons of squash seedlings. (Abstract).
10958

Effect of several herbicides on proteolytic activity of squash seedlings.
12704

Calcium localization in Hypomyces-infected squash hypocotyls and effect of calcium on pectase lyase and tissue maceration.
14677

Viruses infecting cucurbits in Queensland.
15515

SQUIRRELS

Mammals and birds.
11583

Tetanus in a grey squirrel.
12183

ST. LOUIS ENCEPHALITIS

Arbovirus studies in the Ohio-Mississippi basin, 1964--1967. II. St. Louis encephalitis virus.
15385

STACHYBOTRYS ATRA

The effects of moisture and temperature on growth and spore germination in some fungi.
13468

STAINING

Fluorescent antibody staining of tobacco mosaic virus antigen in tobacco mesophyll protoplasts.
8307

A differential staining technique for a mosquito iridescent virus.
8807

Congo red and trypan blue as stains for plaque assay of New castle disease virus.
9703

Ecdysone and DNA synthesis in cultured wing disks of the wax moth, Galleria mellonella.
14250

Observation on negatively stained tobacco ringspot virus and its two RNA-DEFICIENT components.
15489

STALK ROT

Bacterial top and stalk rot disease of corn in Wisconsin.
8297

Pattern of cell death in sorghum stalk tissue as a measure of the susceptibility to spread of Colletotrichum graminicola in fifty-five sorghum varieties.
8965

Preliminary laboratory tests on the action of two synthetic fungicides to prevent the finger stalk rot of bananas.
11690

The frequency of Fusaria in soils of fields either with or without maize in crop rotation.
15568

STALK ROT (CORN)

Fight stalk rot with right fertility.
8978

The downy mildew and stalk rot diseases of maize.
8987

STAM

Stam F-34 can kill the weeds of Gora paddies.
14537

STAMENS

The elongation of stamen filaments in Graminaceae.
8589

Staminal and functional male sterility induced by chemical treatment in Papilionaceous plants.
15280

STAND DENSITY

Forest character and vulnerability of balsam fir to spruce budworm in Minnesota.
11521

STAPHYLINIDAE

Contribution to the knowledge of the Staphylinidae. CIII. The Quedius oblitteratus Er.--nemoralis Baudi complex.
8631

Taxonomic remarks about Staphylinidae.
8644

Philonthus parcus Sharp (Coleoptera: Staphylinidae), a Japanese rove beetle established in Australian caves.
8654

A new Stenus from southern China: Stenus (Hypostenus) shaowuensis n. sp., including synonymy notes on other species (Coleoptera, Staphylinidae). 42. Contribution to the knowledge of the Steninae.
8661

Neobledius karachiensis, a new genus and species of the Oxytelinae (Coleoptera: Staphylinidae) from West Pakistan.
9252

A troglobitic staphylinid from Mexico (Coleoptera, Staphylinidae, Paederinae).
9290

Arthropod predators of immature diptera developing in poultry droppings in northern California. Part II. Laboratory studies on feeding behavior and predation potential of selected species.
9448

A new north Palearctic Stenus: St. (Nestus) coriaceus n. sp. (Coleoptera, Staphylinidae) (58. Contribution to the knowledge of the stenids).
9931

Philonthus parcus Sharp (Col., Staphylinidae) in Britain.
9945

Hypocyptus nitidus Palm. (Col., Staphylinidae) in the Joy collection.
9954

Quedius (Microsaurus) scitus (Grav.) (Col., Staphylinidae) a teratological specimen.
9955

The insect predators of the pupal stage of the winter moth, Operophtera brumata (L.) (Lepidoptera: Hydriomenidae).
10009

The effect of pupal predators on a population of winter moth, Operophtera brumata (L.) (Hydriomenidae).
10010

Results of the zoological investigations of Dr. Z. Kaszab in Mongolia. 86. Staphylinidae. II. Subfamilies Paederinae, Xantholininae and Staphylininae (Coleoptera). 74. Contribution to the knowledge of the Staphylinidae.
11203

A new tribe, genus, and species of termitophilous aleocharinae (Coleoptera: Staphylinidae) from South-West Africa with a description of its integumentary glands.
13070

Frende, Harde, lohse: The central European beetles, volume 4 staphylinidae I.
13571

Observations on the effect of insecticides on coleopterous predators of Erioischia brassicae (Diptera: Anthomyiidae).
13842

A new species of the genus Heterothops Steph. from Czechoslovakia (Col., Staphylinidae).
14167

A troglobitic staphylinid from Mexico (Coleoptera, Staphylinidae, Paederinae).
14211

Field studies on the life-histories of some British Staphylinidae (Coleoptera).
14220

Aleochara verna Say (Col., Staphylinidae) new to Britain.
14783

Host finding by odor in the myrmecophilic beetle Atemeles pubicollis Bris. (Staphylinidae).
15375

STAPHYLININAE

Results of the zoological investigations of Dr. Z. Kaszab in Mongolia. 86. Staphylinidae. II. Subfamilies Paederinae, Xantholininae and

Staphylininae (Coleoptera). 74. Contribution to the knowledge of the Staphylinidae.
11203

STAPHYLOCOCCUS

Leukocyte system of rabbits receiving repeated injections of staphylococcal leukocidin.
8482

Occurrence of staphylococci in cases of bovine mastitis.
11607

The pathogenicity of staphylococci and their sensitivity to 2,4-dinitrophenol.
12319

Isolation of Staphylococcus epidermidis from tobacco.
12647

Coagulation positive Staphylococcus from cow's milk. III. Comparison with a strain pathogenic to man.
14036

Variations in isolations of pathogenic bacteria from the udders of cows during a six-month period.
14618

What the sanitarian should know about Staphylococci and salmonellae in non-dairy products. Ii. Salmonellae.
14649

STAPHYLOCOCCUS ALBUS

Study of mastitis in Venezuela.
13998

STAPHYLOCOCCUS AUREUS

Attempted experimental induction of amyloidosis in chickens.
9727

Cockroaches (Blattaria) as vectors of food poisoning and food infection organisms.
9779

Method for combating micro-organisms. Patent 3,458,636.
10362

Delayed lethal effect of 2,4-dichlorophenoxyacetic acid on bacteria.
10429

Observations of systemic and localized infection associated with the isolation of staphylococcus in chickens in North Carolina.
12789

Effect of DDT, dieldrin, and heptachlor on the growth of selected bacteria.
13459

Diffusion in the udder of dyes and antibiotics dissolved in dimethyl sulfoxide (DMSO).
14021

STARCHES

Some features of the physiology of dormancy in black currant plants in connection with the effect of gibberellin.
9199

Characteristics of Douglas-fir logs in relation to ambrosia beetle attack.
10967

Losses of active insecticidal elements of the dried roots of Derris elliptica Benth. under the influence of predators and especially of Trogoxylon aequale Woll.
12071

Hymenolepis diminuta: Effect of quality of host dietary carbohydrate on growth.
12829

Susceptibility of 'tapioca macaroni' to insect attack.
14647

Infection and corrosion tests with Ustilago hordei (pers.) lagerm.
15621

Aspergillosis of ducklings.
15776

STARLINGS

Mammals and birds.
11583

STARVATION

Humidity preference of the alfalfa weevil, Hypera postica, as affected by microenvironmental and physiological conditions.
8863

Effects of dietary amino acids, salts, and protein starvation on fecundity of the parasitoid Exeristes comstockii (Hymenoptera: Ichneumonidae).
9353

Starvation-induced activity in cockroach malpighian tubules.
10073

Studies on lipid metabolism of Ascaris during starvation.
10368

Also a method for the control of sparrows.
10836

Effect of starvation on the sensitivity of tarsal and labellar contact chemoreceptors in Hybomitra lasiophthalma (Diptera: Tabanidae).
13075

Concentration of insect hemolymph proteins under various experimental conditions.
13626

Effect of starvation on the cellulolytic activity of sheep and goat rumen inoculum and in-vitro comparison of potency of rumen liquor samples from fistulated and normal animals.
13952

Control of Agropyron repens (quackgrass) by rotavator.
15068

Growth of the dog tick Dermacentor variabilis Say (Acarina: Ixodidae). II. The effect of starvation and host species on its growth and fecundity.
15346

STATISTICAL ANALYSIS

Observations on brachypterism in Encyrtus rufulus Merect (Hym. Chalcidoidea, Encyrtidae).
8021

Age structure of insect populations of medical importance.
8107

Variation-statistical research on the female of Formica lugubris Zett.
8153

The influence of linkage phase on recombination rates in Tribolium.
8226

Genetic mapping of behavioral mutants in Drosophila melanogaster by countercurrent distribution.
8249

Evaluation of forest insect infestations.
8357

Population studies on the infective stage of some nematode parasites of sheep. III. The distribution of strongyloid egg output in flocks of sheep.
8493

Population studies on the infective stage of some nematode parasites of sheep. II. The distribution of faecal deposits on fields grazed by sheep.
8494

Fluctuations in natural populations of Drosophila with special attention to sex ratio.
8804

Effect of herbicides on the valuations of made tea.
9212

Concordance and discordance of taxonomic characters in Drosophila classification.
9327

The appraisal of delayed and direct density-independence.
9395

Factor analysis as a multivariate statistical method in the study of the growth pattern of the antennae of Gerris Fluviorum F. (Hem. Gerridae).
9456

Stimulation of hepatic microsomal drug-metabolizing enzymes by alpha,alpha-bis-(p-chlorophenyl)-3-pyridinemethanol and a method for determining no-effect levels in rats.
9811

Heterogeneity values of insecticide, fungicide or herbicide deposits and of their residues.
9853

Quantitative determination of uric acid in insect feces by lithium carbonate extraction and the enzymatic-spectrophotometric method.
9973

Experimental evidence for factors affecting the relative efficiency of indirect to direct selection in Tribolium castaneum.
10161

Annual report of the Indian Institute of Sugarcane Research, Lucknow, 1964-65. (Mycology, by K. Singh; Research project on investigation and control of virus diseases of sugarcane, by K. Singh; Entomology, by A. N. Kalra).
10609

Tests for the control of mildew of the tomato.
10625

The use of Tetrahymena pyriformis Ehren. for the detection of residues of organic fungicides.
10937

A method for determining the dosage-mortality curve of malathion against the pea aphid, Acyrthosiphon pisum (Harris) (Homoptera: Aphididae).
11365

The applicability of some population growth models to a single-species laboratory population.
11375

Investigation into the orientation of the alate Sacchiphantes (Chermes) abietis (L.) in relation to galls and shoots.
11526

Systems analysis of a host-parasite interaction.
12201

Presenting results of tests involving biologically active materials.
12431

Growth, longevity, and the frequency of feeding of Glossina pallidipes Austen.
12504

Assessment of the damage caused to potatoes by potatoes cyst eelworm, Heterodera rostochiensis Woll..
12696

Specificity of the parasites from the ecological point of view.
12868

Survey of species and number of gypsy moth egg parasites in some localities of Yugoslavia.
13072

The turnover ratio in production ecology of freshwater invertebrates.
13145

Grazing management in relation to trichostrongylid infestation in lambs. 1. Influence of stocking rate on the level of infestation.
13413

The relationships between population increase and population density in plant parasitic nematodes. II. Sedentary nematodes.
13894

A study of the population of insects emerging as adults from Spettigue's Pond at London, Ontario.
14144

Parasitization of social Halictine bees in southern Ontario.
14224

The Tea Research Institute of Ceylon. Annual Report for the year 1966. Part II.
14304

Pests of legume covers. characteristic cocoon production.
14479

Simultaneous control of Apera spica venti and broad leaf weeds through soil herbicides. (Test results in upper bavaria 1965-1967).
14529

The standardization of Bacillus thuringiensis: Tests on three candidate reference materials.
14799

A comparative study of Haemonchus contortus of sheep and goats.
15225

Cross-breeding in the silkworm Bombyx mori L., for characteristic cocoon production.
15354

Nuisance mosquitoes in two Wisconsin parks; occurrence and correlation between biting and light trap catches.
15371

Interactions between larvae of Aedes aegypti (L.)and Culex pipiens L. in mixed experimental populations.
15410

Dietary protein and DDT toxicity.
15877

STATISTICAL DISTRIBUTIONS

Alate aphids trapped over 8 years at two sites in Canterbury, New Zealand.
8798

The influence of colony density and other factors on the number of offspring in Blastophagus piniperda L. (Col., Scolytidae).
13046

The phenology of linyphiid spiders on heathland in Dorset.
13088

Mosquito studies in northern Wisconsin. I. Larval studies.
13224

Distribution and abundance of Hylotrupes bajulus L. (Col., Cerambycide) and Anobium punctatum de Geer (Col., Anobiidae) along the Sogneford in West Norway.
13566

Studies on factors affecting population density and phase of desert locust in India.
13696

Rabbit survey in West Wales (1961-67).
13846

A survey of the distribution and present status of the wood ant, Formica rufa L. (Hym., Formicidae) in England and Wales.
14126

Oribatid mite fauna in Sarobetsu Moor in northern Hokkaido, Japan.
14138

STATISTICAL METHODS

Statistical methods in rice stem borer research.
8063

Four methods of sampling to measure populations of alfalfa weevil larvae.
12341

Conversion of results of concentrated samples to density estimates of egg and larval populations of the Northern corn rootworm.
12345

Reproductive capacity of the green peach aphid on Maryland tobacco.
12461

Tomato virus diseases in the Lithuanian SSR. 2. The method of group sampling.
12613

A new method of estimating population size, survivorship, and birth rate from capture-recapture data.
14237

STATISTICS

Concerning the validity of the capture results of insect traps, together with an attitude toward the work of H. Peters, Heidelberg, on synanthropic flies.
8784

A histological and biometrical study of wing development in the grasshopper Melanoplus lakinus.
11232

The Icelandic form of Carabus problematicus Hbst. (Col. Carabidae). A statistic treatment of subspecies.
14152

STATOLON

Anti-malarial effect of interferon inducers at different stages of development of Plasmodium berghei in the mouse.
9714

STEAM

Recent advances in the control of soil fungi.
9616

Establishment of a rhizosphere microflora on carnations as a means of plant protection in steamed greenhouse soils.
10662

Remarks on the efficiency of soil disinfection, using steam and various fumigants, in the control of verticillium wilt of greenhouse tomato plants.
11948

Equipment for aerated steam treatment of small quantities of soil and soil mixes.
15917

STEATODA PAYKULLIANA

Studies on labeled animal poisons. II. Distribution of the venoms of various spiders labeled with Se75 and P32 in the guinea pig.
9812

STEGOBIUM PANICEUM

Dietary efficiency of natural foods for the growth and development of stored grain insect pests.
8521

Symbiosis of the Anobiidae with yeastlike fungi.
11838

STELES

The induction of stelar reddening in strawberry roots.
14423

STEM

Influence of apical dominance on bud dormancy in western ironweed.
14924

The raspberry stem gall midge (Lasioptera rubi) a little known pest of raspberry.
15588

STEM EELWORM

The importance of the problems posed by the bulb and stem eelworm, Ditylenchus dipsaci Kuhn, in western France.
12697

STEM PITTING

Stem pitting of yellow bud mosaic virus--infected peaches.
11505

Stem pitting of peach.
11944

Stem pitting of yellow bud mosaic virus-infected peaches.
13815

Research into stem pitting, spy epinasty and chlorotic leaf spot of apples.
15475

STEM ROT

Studies on the mode of action of inorganic nitrogenous amendments on Sclerotium rolfsii in soil.
8936

Losses from fusarium stem rot caused by Fusarium roseum, in commercial production of cuttings of carnation, Dianthus caryophyllus.
12618

Peanut diseases.
15605

Peanut diseases. Southern stem rot.
15606

STEM RUST

Stem rust of oats in Canada in 1968.
10667

Stem rust of wheat, barley, and rye in Canada in 1968.
11977

Inheritance in the oat strain C.I. 3034 of adult plant resistance to race C 10 of stem rust.
11999

The inheritance of pathogenicity in races 111 and 29 of wheat stem rust.
12068

Control of leaf and stem rusts of wheat by combinations of soil application of an 1,4-oxathiin derivative with foliage sprays.
13234

Changes in phenolic metabolism of spring-wheat infected with stem rust.
13756

STEMPELLIA

Stempellia scolyti (Weiser) comb. nov. and Nosema scolyti sp. n. microsporidan parasites of four species of Scolytus (Coleoptera).
12540

STEMPHYLIUM

Alternaria seed infection of wheat.
8283

Field trials for the control of Stemphylium botryosum f. lycopersici.
12653

STEMPHYLIUM BOTRYOSUM

A study of the biology of Stemphylium botryosum Wall. -Pleospora herbarum (Pers.) Rabenh.- the causer of brown spots on alfalfa leaves.
9591

A Stemphylium leaf spot of Vicia faba in the United Arab Republic.
10612

STEMPHYLIUM SOLANI

Occurrence of gray leafspot on peppers in Florida.
12597

STEMS

Pycnidial production by Diaporthe vexans (Sacc. and Syd.) Gratz and the pathological histology of infected stems and leaves of eggplant.
9559

Verticillium wilt of tobacco. VI. The influence of roots and stems on Verticillium wilt symptoms in tobacco.
10186

Time of chemical haulm destruction.
10644

Honey mesquite stem structure and seasonal growth cycle. (Abstract).
11012

Size differences of nuclei in meristem of Elodea treated with various concentrations of monochloroacetic acid, dichloroacetic acid, and trichloroacetic acid.
12256

STENEOTARSONEMUS PALLIDUS

Cyclamen mite (Steneotarsonemus pallidus Banks) on Chrysanthemums.
12060

STENINAE

A new Stenus from southern China: Stenus (Hypostenus) shaowuensis n. sp., including synonymy notes on other species (Coleoptera, Staphylinidae). 42. Contribution to the knowledge of the Steninae.
8661

STENOLECHIA

The genera, Evippe and Stenolechia, of Japan, with the descriptions of two species of the latter (Lepidoptera: Gelechiidae).
11754

STENOTAPHRUM SECUNDATUM

Herbicides can be used while establishing warm season turfgrasses vegetatively. (Abstract).
10772

STENUS

A new Stenus from southern China: Stenus (Hypostenus) shaowuensis n. sp., including synonymy notes on other species (Coleoptera, Staphylinidae). 42. Contribution to the knowledge of the Steninae.
8661

STENUS SHAOWUENSIS

A new Stenus from southern China: Stenus (Hypostenus) shaowuensis n. sp., including synonymy notes on other species (Coleoptera, Staphylinidae). 42. Contribution to the knowledge of the Steninae.
8661

STEPHANITIS

Record of Apollodotus praefectus distant (Heteroptera: Miridae), predacious on Stephanitis typicus distant (Heteroptera: Tingidae), a pest of coconut palm.
14848

Pattern of distribution of Stephanitis typicus Distant (Heteroptera: Tingidae), a pest of coconut palm, on its host plant.
15546

STEPHANOFILARIA ASSAMENSIS

Studies on stephanofilariasis in Orissa. II. Dermatitis due to Stephanofilaria assamensis Pande, 1936, in the Murrah buffalo (Bos bubalis) and the beetal buck (Capra hircus) with remarks on the morphology of the parasite.
9771

STEPHANURUS DENTATUS

The excretory system of the kidney worm Stephanurus dentatus (Nematoda).
8512

Worms in pigs.
13411

Earthworms, Eutypheus waltoni and Pheretima sp. as transport-hosts of swine kidney worm, Stephanurus dentatus in Bihar, India.
14025

STEREOCHEMISTRY

Structure determination of some metabolites of Fusarium culmorum.
9842

Circular dichroism of gibberellins and the application of the lactone chromophore to their structural elucidation.
12315

The circular dichroism and the stereochemistry of a new fungal tetrahydrofuran.
13512

STEREOTROPISM

Induction of coiling in tendrils by auxin and carbon dioxide.
12282

STEREUM PURPUREUM

Wound dressings for the prevention of silver-leaf in fruittrees caused by Stereum purpureum (Pers.) Fr.
8946

Nutrition of the silver-leaf pathogen Stereum purpureum (Pers.) Fri.
10175

STERIGMATOCYSTINS

Detection of toxicity of aflatoxins, sterigmatocystin, and other fungal toxins by lethal action on zebra fish larvae.
13455

STERILITY

Sterility, lethality and segregation ratios in XYY males of Drosophila melanogaster.
8233

Ultrastructural study of hybrid sterility in Drosophila paulistrom.
8237

Inheritance of semi-sterility and transmission of chromosome rearrangements and fragments for 3 generations in the large milkweed bug.
8241

Releases of unsexed gamma-irradiated codling moths for population suppression.
8378

Bovine vibriosis.
8478

Screwworm fly upsurge.
8698

Big codling moth control project in Canada.
9338

Clover cyst eelworm, (Heterodera trifolii).
10755

Male gonadal dysgenesis in a female-sterile mutant of Drosophila melanogaster.
11909

The chemosterilant effect of anthramycin methyl ether in Drosophila melanogaster.
12410

Need for immediate sugar and ability to withstand thirst by newly emerged Oriental fruit flies, and Mediterranean fruit flies untreated or sexually sterilized with gamma radiation.
12478

Longevity, resistance to deprivation of food and water, and susceptibility to malathion and DDT of Oriental fruit flies, melon flies, and Mediterranean fruit flies sexually sterilized with tepa or radiation.
12479

Laboratory studies of the mating habits of the face fly.
12482

X-ray radiation effects on survival and sterility of adults of the cereal leaf beetle.
12500

Metepa as a chemosterilant for adult female pink bollworms.
12507

Incompatibility tests in the Culex pipiens complex. Part I. African strains. Part II. Egyptian strains.
12566

The causes of male sterility in A. gambiae A-B group crosses. (Abstract).
12568

The effect of radioactive phosphorus on the development of Aedes aegypti larvae.
13006

Components of the sterility induced in late-stage male pupae of the sugarcane gray borer, Eucosma schistaceana (Lepidoptera: Olethreutidae), with gamma radiation.
13030

Antibiotics and infectious hybrid sterility in Drosophila paulistorum.
13045

Chromosomal fragments transmitted through three generations in Oncopeltus (Hemiptera).
13185

Sterility, chromosomal breakage, X-ray-induced mutation rates and detected mutation frequencies in Drosophila melanogaster.
13187

Induction of hybrid sterility in nonhybrid males of Drosophila paulistorum.
13216

Male sterility cytoplasm conditioning susceptibility of resistant inbred lines of maize to yellow leaf blight caused by Phyllosticta zeae.
13809

On the etiology of the sterility of hybrids between certain strains of Drosophila paulistorum.
14896

Staminal and functional male sterility induced by chemical treatment in Papilionaceous plants.
15280

Effects of some growth-regulators with gametocidal properties on Cajanus cajan (L.) Millsp..
15281

Effects of ultraviolet radiation on adults of Aedes aegypti (L.) (Diptera: Culicidae).
15451

STERILIZATION

Preliminary laboratory study of the effect of X rays on the fertility of Carpocapsa pomonella (Laspeyresia pomonella L.).
8229

Fifty years of research on the pink bollworm in the United States.
8365

New approaches to the control of pest organisms.
10118

Surface sterilization and dissection of termites as related to their enteric microflora study.
13682

Sterile males for mosquito control: A field cage study with Culex pipiens quinquefasciatus.
13740

Pseudomonas aeruginosa contamination of a warm water system used for pre-milking udder washing.
13943

The additional factor increasing the number of bacteria in pasteurized hams.
14038

Sweet potato storage house sterilization.
15834

STERILIZATION (INSECTS)

Research with ionizing irradiation on the sterilization and radiosensitivity of Chrysomela decemlineata Say.
8096

STEROIDS

The action of 4-hydroxy-17-alpha-methyltestosterone on the metabolism of broilers.
13924

STEROLS

Sterol and water-soluble requirements for larvae of the red-banded leaf roller, Argyrotaenia velutinana.
10104

Symbiontic interrelationships between microbes and ambrosia beetles. III. Ergosterol as the source of sterol to the insect.
11359

Lipids in the haemolymph of the cricket, Acheta domesticus.
12551

Interactions between steroids in the growth of Phytophthora.
13476

STICTOCEPHALA BUBALUS

The effects of oil treatments on egg hatching in the buffalo tree hopper, Stictocephala bubalus (F.) (Homoptera: Membracidae), in the apple orchards of southwest Quebec.
13318

STIGMAEIDAE

Agistemus exsertus as a predator of two tetranichid mites.
12448

Life history studies on the predatory mite Agistemus exsertus.
12449

STIGMELLA MALELLA

The development and larval behavior of Stigmella malella Stainton. (Lep. Stigmellidae).
8728

STIGMELLIDAE

The development and larval behavior of Stigmella malella Stainton. (Lep. Stigmellidae).
8728

STIMULANTS

Asynchronous ovarian development in the housefly, Musca domestica L. (diptera: Muscidae), caused by dietary gamma-aminobutyric acid (GABA).
8714

The role of gamma-aminobutyric acid in mosquito-host interactions: A hypothesis.
8779

Nutrition of Xyleborus ferrugineus. I. Ethanol in diets as a tunneling (feeding) stimulant.
10082

Arrestant-feeding stimulant as an additive to shell SD-8447 for control of corn earworm larvae in sweet corn.
10732

Water-soluble factors in Melilotus leaves which influence feeding by the sweetclover weevil.
12044

Feeding response of larvae of the corn earworm (Lepidoptera: Noctuidae) to water extracts of 16 host plants.
12556

Adenine and related substances as potent feeding stimulants for the alfalfa weevil, Hypera postica.
14213

Stimulation of flower bud abscission and concentration of fruit set in tomato, (Abstract).
14312

Stimulation of tomato ripening by Amchem 66-329. (Abstract. 14313

Stimulation and retardation of adventitious root formation by application of B-Nine and Cycocel. 14327

Reduction of dieldrin storage in rat liver: Factors affecting in situ. 15398

STIMULI

Feeding responses by Hylurgopinus rufipes to combined chemical and physical stimuli. 8715

Electrophysiological study of contact chemoreceptors in bloodsucking Diptera. 8907

Migrations of Hippelates collusor larvae from moisture and trophic stimuli and their encounter by Trybliographa para-. 11848

Sex pheromone of the queen butterfly: Electroantennogram responses. 11880

Induction of coiling in tendrils by auxin and carbon dioxide. 12282

STINKING SMUT

Seed treatment trial, 1967. 10229

STOCKYARDS

Brucellosis. Subpart D. Designation of modified certified brucellosis areas, public stockyards, specifically approved stockyards and slaughtering establishments. 9864

STOLBUR

Transmission intensity of stolbur virus by means of Hyalesthes obsoletus Sign. on some host plants. 9619

The presence of mycoplasma-like particles in the phloem of plants infected with three European yellow diseases: tomato stolbur, gladiola aster yellow, and clover phyllody. Cytological and ultrastructural studies. Preliminary remarks on chemical control. 10633

Investigations on mycoplasma-like microorganisms in the jassid vector and in the plants infected by yellow viruses. 11468

On the stolbur virus in red pepper (Capsicum annum) L. 15541

Comparated study on (Vinca rosea) L. of 3 virus diseases: (western aster yellow) isolated from (gladiolus,) (clover phyllody) and (tomato stolbur). 15612

Virulence on various solanaceae of three strains of the stolbur virus and a virus infecting tomato plants in Tunisia. 15652

STOMACH

Anthelmintic efficacy and toxicity studies of 1-tetramisole in feedlot cattle. 9821

Survey of yeastlike fungi and tissue changes in esophagogastric region of stomachs of swine. 10339

Esopheagal--gastric lesions in the pig. 10870

STOMATA

Ozone. Effect on apparent photosynthesis, rate of transpiration, and stomatal closure in plants. 9833

Antitranspirants: Uses and effects on plant life. 12248

STOMOXYS CALCITRANS

Electrophysiological study of contact chemoreceptors in bloodsucking Diptera. 8907

Further evaluation of animal systemic insecticides, 1968. 9126

Absorption and metabolism of fenthion in blood-sucking arthropods. 12558

Patterns of flight activity in livestock insects. I. Preliminary testing of a system for recording flight activity of the stable fly. 13089

Stomoxys calcitrans (L.) breeding along TVA reservoir shorelines. 13664

Kerato-conjunctivitis in cattle in the plateau area of Northern Nigeria. A study of Thelazia rhodesii as a possible aetiological agent. 14634

STORAGE

Pre-harvest use of chemicals in potato production. 8403

Aldrin epoxidase activity of rat liver and rat liver microsomes under various conditions of storage. 8560

Control of gladiolus corm diseases in field and storage. 8934

Effect of storage treatments and fungicides on sprouting, flowering and gladiolus corm production. 8947

Investigations on the susceptibility of potato tubers to Fusarium caeruleum (Lib.) Sacc., the fungus causing dry rot. 9602

Postharvest diseases of guava in India. 9607

Analysis of grain storage problems in India. 10390

Effect of time and temperature of storage on viability of Botrytis convoluta conidia and sclerotia. 11007

Prophylactic treatment of storage receptacles for the control of Pulse bettle, Pachymerus chinensis Linn. 13855

Studies on protection of pulses againt Pachymerus chinensis Linnaeus. 13856

Effects of succinic acid 2, 2-dimethyl hydrazide (Alar) on apples. (Abstract). 14322

The control of wild foxtail grass in winter wheat as well as the prevention of weather trodden grain. 14539

Speed the key to preserving hides. 14551

Lyophilizing foot-and-mouth disease virus at low drying temperature. 14604

The toxicity of contact insecticides to seed-infesting insects. Tests with bromophos on maize. 14832

Hygroscopical qualities of hops on cement floors. 15227

Reduction of dieldrin storage in rat liver: Factors affecting in situ. 15398

Sweet potato storage house sterilization. 15834

STORAGE DISEASES

Experiments on the control of Gloeosporium fruit rots by field sprays. With an Addendum on: Harvest residues of dichlofluanid. 9140

Giving crops field-to-table protection. 9248

The incubation period of Phytophthora citrophthora in citrus fruits stored at different temperatures. 9777

Treated water curbs tomato decay. 10384

Mycology. 10664

On the ways of influence produced by the enzymes of Eurygaster integriceps Put. on the caryopsis of wheat. 10918

The growth of storage fungi and aflatoxin production in corn as related to moisture and temperature.(Abstract). 12203

Effect of relative humidity and length of storage period upon fungal invasion and germination percentage of hajra seeds. 12869

Superficial scald, a functional disorder of stored apples. IV. - Effect of variety, maturity, oil wraps and diphenylamine on the concentration of alpha-farnesene in the fruit. 12870

Phytotoxicity of dithiocarbamate fungicides on Worcester Pearmain. 12871

Influence of temperature on Botryodiplodia rot of citrus and sapodilla. 12872

Control of mango anthracnose by fungicides. 12873

Postharvest heat treatment to control storage rots of Spadona pears. 13238

The influence of N-dimethyl amino succinamic acid on flesh firmness and on some pre- and post-harvest physiological disorders of Delicious apples. 13482

Studies on Botrytis allii Munn.. The cause of neck rot of onion bulbs in U.A.R.. III. Relation of some culture practices to subsequent incidence of neck rot on storage. 14030

Chemical treatment the answer to fruit scald. 14466

Sweet potato storage house sterilization. 15511

The fungal diseases of pears and apples during storage. I. General aspects. 15835

Storage insects. 15837

STORED PRODUCT INSECTS

Analysis of grain storage problems in India. 10390

Disinfestation of stored seeds by heat treatment. 12877

Incidence of and losses caused by some pod-infesting insects in different varieties of pigeon-pea (Cajanus cajan (L.) Millsp.). 15003

STORED PRODUCTS

Effect of gamma radiation on the insecticidal efficiency of malathion deposits on wheat and kraft paper. 8519

Dietary efficiency of natural foods for the growth and development of stored grain insect pests. 8521

Monitoring for audible and ultrasonic sound production by stored-product insects during mating. 8904

Bionomics of Androlaelaps casalis (Berlese) (Acarina: Laelapidae) a predator of mite pests of stored cereals. 9778

Records of Coleoptera associated with stored products in Australia. 9780

A key to the species of Carcinops Marseul (Coleoptera, Histeridae) associated with stored products, including C. troglodytes (Paykull) new to this habitat. 9901

The control of insects in bagged grain by the injection of dichlorvos. 10387

Studies on the incidence and extent of damage due to insect pests in stored seeds--1. Cereal seeds.
10388

Observations on prolonged grain storage with forced aeration in Israel.
10389

Biological studies in Ghana in the control of Cadra cautella (Wlk.), the tropical warehouse moth.
10391

Effects of the antifeeding compound AC-24055 (4'-(3,3-Dimethyl-1-triazeno)acetanilide) on the survival, development, and reproduction of some stored-products insects.
10544

Rearing stored-product insects for laboratory studies: Bean and cowpea weevils.
10562

Mycology.
10664

Entomology.
10919

A practical trial of pyrethrins-in-oil surface sprays for the protection of bagged grain against infestation by Cadra cautella (Wlk.) (Lepidoptera, Phyctidae) in Kenya.
11659

Research on the effectiveness of cobalt 60 irradiation for the control of Sitophilus granarius and Tribolium confusum Duv.
12205

Amphibolus venator (Klug) (Hemiptera-Heteroptera)-a predator on insect pests of stored products.
12546

Superficial scald, a functional disorder of stored apples. IV. - Effect of variety, maturity, oil wraps and diphenylamine on the concentration of alpha-farnesene in the fruit.
12870

Ecology of stored grain insect pests.
12876

Results of application of aluminum phosphide pellets to rice weevils in an open bin and to angoumois grain moths under air-tight conditions.
12878

Laboratory evaluation of malathion as a storage protectant for figs.
12879

Rats and mice enemies of production, hazard to health.
12880

Factors influencing the tolerances of seeds to fumigants.
13426

The effects of moisture and temperature on growth and spore germination in some fungi.
13468

Investigations on the occurrence and behaviour of Ditylenchus destructor in Sweden.
13865

Susceptibility of 'tapioca macaroni' to insect attack.
14647

Central anti-locust organisation in India.
15031

Grain storage fungi associated with mites.
15228

Campaign against stored grain pests in villages of IADP district Ludhiana.
15229

Further studies on rot of McIntosh apples handled in water.
15841

STORED-PRODUCT INSECTS

Mating behavior of 8 stored-product beetles (Coleoptera, Dermestidae, Tenebrionidae, Cucujidae, and Curculionidae).
11414

STRANGLES (HORSES)

Equine vaccines and vaccinations.
10344

STRATIOMYIDAE

A new stratiomyid pest of sugar cane in Australia (Diptera: Stratiomyidae).
8641

The genus Evaza in the Philippines and the Australasian region (Diptera: Stratiomyidae).
10495

Revision of the central European species of the Stratiomyidae (Diptera) family with special consideration of the fauna of the CSSR, IV.
11128

The genus Adoxomyia in America north of Mexico (Diptera: Stratiomyidae).
11152

The Cyphomyia bicarinata species group (Diptera: Stratiomyidae).
11172

Dispersion and transport of pestiferous insects: Hermetia illucens L. (Diptera, Stratiomyidae).
15326

STRAW

Domestic quarantine notices. Imported fire ant. Exemptions.
10738

Aspergillosis of ducklings.
15776

STRAWBERRIES

Development of controlled conditions for the study of red stele disease on strawberries.
8216

Resistance of strawberry varieties to leaf scorch disease.
8314

A fruit rot of strawberries caused by Zythia fragariae.
8986

Transmission of strawberry mottle virus by juice and aphids to herbaceous hosts.
9007

Corn earworm infestation in ripe strawberries.
9017

In your garden - weeds: Robbers, but not always bad.
10168

Organophosphorus acaricides for controlling the two-spotted spider mite on strawberries.
10248

Comparative tests between and various time periods of treatment in the control of gray mold of strawberries.
10628

Susceptibility of strawberry varieties to red stele disease.
10648

The effects of soil management and fungicides on the development of grey mould (Botrytis cinerea) of strawberries.
10658

Determination of leaf spot races in southern Illinois strawberry plantings.
10677

Leaf and bud eelworm, (Aphelenchdides sp.).
10751

Estimation of dichlofluanid residues.
10936

Effect of herbicides on growth of established Midway and Surecrop strawberry plants given replant treatments of activated charcoal. (Abstract).
11027

A survey of viruses in cultivated strawberries in Oregon and Washington.
11458

From the clover to the strawberry plant: Transmission of a virus disease by Cicadellidae.
11483

Effects of aphid-transmitted viruses on the strawberry cultivars Northwest and Columbia.
11500

Breeding studies of Verticillium wilt resistance in X Fragaria ananassa Duch.
11954

Inheritance of resistance to powdery mildew in the cultivated strawberry.
11981

Powdery mildew of strawberries.
12014

A fruit rot of strawberries caused by Rhizoctonia solani.
12023

The etiology of the strawberry disease caused by Aphelenchoides fragariae and Corynebacterium fascians.
12027

Transmission of strawberry crinkle virus by the dark strawberry aphid Chaetosiphon jacobi.
12059

Some factors affecting the in vitro development of strawberry fruits.
12234

Ancylis comptana, a new tortix moth on strawberries.
13308

Nematode problems in areas of strawberry cultivation in Hessen-Nassau.
13337

Herbicides for newly planted strawberries.
13346

A survey of viruses in cultivated strawberries in Oregon and Washington.
13758

Occurrence of necrotic shock virus in strawberries in the Pacific Northwest.
13759

Effects of aphid-transmitted viruses on the strawberry cultivars Northwest and Columbia.
13813

The pheromone of the queen of the Oriental hornet, Vespa orientalis.
14214

Studies on virus diseases of strawberrries in the Western Cape Province. I. Degeneration of locally bred strawberry cultivars.
14355

The induction of stelar reddening in strawberry roots.
14423

Effects of N-dimethylamino succinamic acid (Alar) on maturity and size of Pocahontas strawberries. (Abstract).
14444

Strawberry disease control.
14939

Strawberry insect control.
15011

Weed control in horticultural crops: Fruits. Weed control in strawberries.
15070

Strawberry disease control.
15484

Some observations on the presence of Corynebacterium fascians (Tilford) Dowson in marketable and floral cultivation in France.
15499

Research into blossom infection: II. Brown rot of sour cherries (Prunus cerasus L.). III. Fruit rot of the strawberry (Fragaria vesca). IV. Stone fruits.
15577

Research concerning leaf scorch (species Aphelenchoides fragariae(infecting strawberries.
15591

Shallot aphid in south-east England.
15644

STREAK

Distribution of wheat streak mosaic virus-like particles in Aceria tulipae.
8876

Occurrence of rose streak virus in South africa.
9575

Virus A as a cause of streak on secondary infected eyestecklings of the potato.
14471

On the occurrence of cocksfoot streak virus.
15578

Tests on the dissemination of the tulip streak virus. 15613

STREAK (TOBACCO)
Peroxidase isozymes in virus-infected plants. 14418

STREAK MOSAIC
Kernel red streak of dent corn. 13821
Aceria tulipae in North Dakota. 13860
Reaction of dent corn inbreds and hybrids to Aceria tulipae and wheat streak mosaic virus. 13861

STREAMS
Fish losses after forest sprayings with insecticides in New Brunswick, 1952-62, as shown by caged specimens and other observations. 8567
Effect of substrate types on aquatic insect distribution. 8707
The Simulium control scheme at Ahuja, Northern Nigeria, and its effect on the prevalence of onchocerciasis in the area. 8919
Studies on effects of forest sprayings with insecticides, 1952-63, on fish and aquatic invertebrates in New Brunswick streams: Introduction and summary. 9144
The distribution of benthic invertebrates on substrata in fast-flowing streams. 9375
Aquatic insect communities of a small stream on Mont St. Hilaire, Quebec. 10060
Pollutional aspects of pesticides in natural streams. 10926
Macroinvertebrates in the Green River below Flaming Gorge Dam, 1964-65 and 1967. 12980
Distribution, standing crops, and drift of benthic invertebrates in a small Wisconsin stream. 12982
Drip application of three organophosphorus insecticides for mosquito control. 13225
The effects of dieldrin on diatoms. 13436

STREBLIDAE
New records and notes on streblid flies in California (Diptera: Pupipara). 13533

STREPTOBACILLUS MONILIFORMIS
Natural Streptobacillus moniliformis infection of turkeys, and attempts to infect turkeys, sheeps, and pigs. 11609

STREPTOCOCCUS
Survey observations on ovine mastitis in New Zealand stud Romney flocks. 2. The bacteriology of ovine mastitis. 9100
A medium for isolation and tentative identification of fecal streptococci, and their role as avian pathogens. 9698
Production of streptococcal M-typing antisera. I. Antigenic response in Different breeds of rabbits. 9704
Study of mastitis in Venezuela. 13998
Degradation of DDT and DDE by cheese microorganisms. 15252

STREPTOCOCCUS AGALACTIAE
Application of T.K.T. medium for screening bulk milk samples for Streptococcus agalactiae. 13398
Variable resistance of cows to Streptococcus agalactiae mastitis. 14602

STREPTOCOCCUS DYSGALACTIAE
Diffusion in the udder of dyes and antibiotics dissolved in dimethyl sulfoxide (DMSO). 14021

STREPTOCOCCUS FAECALIS
A comparative study of the bacterial flora of the small intestine of normal and Ascaridia galli infested chickens with its relation to that of the included worms. 11648

STREPTOCYCLINE
Studies on the bacteriostatic and bactericidal action of streptocycline on Xanthomonas oryzae. 12022

STREPTOMYCES
Antibiotics 15 and methods for their production. Patent 3,348,626. 8486
Streptomyces avellaneus and Streptomyces libani: Two new species characterized by a hazelnut brown (avellaneus) aerial mycelium. 10618
Study on the etiology of girdle scruf of beets. 14953

STREPTOMYCES AMBOFACIENS
Identification and quantitative evaluation of antibiotic residues in chickens fed on a spiramycin diet. 9793

STREPTOMYCES SCABIES
Organic manuring for potato scab control and its relation to soil manganese. 12652
Breeding for disease resistance in the potato. 13765

STREPTOMYCES TANASHIENSIS KALA
Kalafungin, a new antibiotic produced by Streptomyces tanashiensis strain Kala. 9716

STREPTOMYCIN
Influence of 2,4-D and streptomycin on the nitrogen metabolism of buckwheat seedlings and its relation to the anthocyanin biosynthesis. 8587
Interaction of nutrients and four antifungal antibiotics in their effects of Pythium species in vitro and in soil. 12910
Effectiveness of an extended Agri-mycin-17 spray schedule against fireblight. 13812
3-(N-formylamino)-salicylic acid - a new metabolite of Streptomyces antibioticus. 14702
Attempts at fighting the bacterial growth of the walnuttree. 15516
Tobacco--wildfire control in burley plant beds. 15672
Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Streptomycin. 15871

STREPTOTRICHOSIS
Cutaneous streptothricosis in a bull. 9113

STRESS
The distribution of factor S in the cockroach, Periplaneta americana, and its role in stress paralysis. 9359
Requirements and functions of vitamin A in ruminants. 10840
Ethylene, light, and stress in the growth and development of Pisum sativum L. cv. Alaska. 10986
The effects of salt stress on the cerebral neurosecretory system of the grasshopper, Melanoplus sanguinipes (F.) Orthoptera). 15359

STRIDULATION
Acoustical communication in arthropods. 8073
Systematics and acoustic behavior of United States crickets of the genus Orocharis (Orthoptera: Gryllidae). 8686
Stridulatory files as diffraction gratings in mutillid wasps. 8769
Acoustic signalling and its possible relationship to assembling and navigation in the moth, Heliothis zea. 9408
Method for the detection and registration of weak sounds, such as the gnawing of insect larvae. 11237
The drumming of the Plecoptera (Insecta). 11875
Audition by Cerura larvae (Lepidoptera: Notodontidae). 13071
Acoustic synchronyi Two mechanisms in the snowy tree cricket. 13699
An intense electron microscope study of the pars stridens of the ensiform Orthoptera. 14875

STRIGA
Domestic quarantine notices. Witchweed. Regulated areas. 15735

STRIPE
Transmission of dwarf, yellow dwarf, stripe, and black-streaked dwarf. 9631
Brain interneurons in noctuid moths: Differential suppression by high sound intensities. and grasses. 14258
Cephalosporium gramineum causing leaf stripe in grasses, and its sporodochial stage, Hymenula cerealis, on cereals and grasses. 15524

STRIPE MOSAIC
Stable intermediate aggregates formed by the polymerization of barley stripe mosaic virus protein. 9540
Serological study on barley stripe mosaic virus protein polymerization. II. Comparative antigenic analysis of intact virus and some stable protein intermediates. 9541
Serological study on barley stripe mosaic virus protein polymerization. I. Immunodiffusion, immunoelectrophoretic characteristics, and absorption experiments. 9542

STRIPE RUST
A new race of stripe rust pathogenic on the wheat variety Moro, CI 13740. 10622
Production of new physiologic races in Puccinia striiformis (yellow rust) by heterokaryosis. 11442
Physiological and ecological studies on the oversummering and overwintering of the stripe rust of wheat and barley, Puccinia striiformis Westend. 14424

STRIPE SMUT (POA PRATENSIS)
Infection of Merion bluegrass, Poa pratensis, by stripe smut, Ustilago striiformis. 8957

STROMATINIA GLADIOLI
Effect of soil fumigation on disease control and yield of gladiolus in southwestern North Carolina. 10669

STRONGYLOCORIS
Scalponotatus, a new genus near Slaterocoris, with descriptions of new species (Heteroptera: Miridae). 9296

STRONGYLOIDES
Population studies on the infective stage of some nematode parasites of sheep. III. The distribution of strongyloid egg output in flocks of sheep. 8493
Parbendazole in treatment of intestinal nematodes of dogs and monkeys. 9775
Intestinal parasitism in swine in the northern department. 13414
Transmammary passage of nematode larval infestation. 14027
Treatment of intestinal strongyloids of the horse using thiabendazole (2-(4'thiazolyl)-benzimizole). 15222

STRONGYLOIDES FULLEBORNI
A comparative study of the effectiveness of chemical ovicides on the survival of the soil-transmitted intestinal nematodes. 9768

STRONGYLOIDES RANSOMI
Observations of a source of Strongyloides ransomi in the pig, dog and man, and of Strongyloides Westeri in the pig. 15204

STRONGYLOIDES WESTERI
Observations of a source of Strongyloides ransomi in the pig, dog and man, and of Strongyloides Westeri in the pig. 15204

STRONGYLUS
The course of naturally acquired helminth infections of horses given regular anthelmintic treatment. 10380
Spinal nematodosis in a horse. 11656

STRONTIUM
Stimulation of porcine splenic cultures by a radiationinduced lymphoid leukemia filtrate: a preliminary report. 9078

STRONTIUM ISOTOPES
The metabolism of radiostrontium by plants. (Abstract). 9191
Contamination of cereals by radionuclides from fallout. 14058

STROPHOSOMUS MELANOGRAMMUS
Observations on Strophosomus melanogrammus (Forst.), Polydrosus marginatus Steph. and Otiorrhynchus armadillo (Rossi) (Coleoptera Curculionidae), pests of Pseudotsuga douglasii Carr. in Tuscany. 8333

STRYCHNINE
Metabolism of strychnine nitrate applied for the control of the bear. 10318
Ultraviolet determination of strychnine in commercial bait formulations. 13454

STUBBLE
Estimating temperatures and heat flux in insect environments in stubbed cotton fields in the winter. 8121

STUBBLE CROPS
Coltsfoot control with 2,4-DP on the stubble. 14521

STUBBORN DISEASE
Symptoms of stubborn disease in citrus and Poncirus fruit grafted onto virus-infected seedlings. 9589

STUNT
Corn stunt vector leafhopper attractancy to and oviposition preference for hybrid dent corn. I. Dalbulus maidis. 8732
Corn stunt vector leafhopper attractancy to and oviposition preference for hybrid dent corn. II. Graminella nigrifrons. 9992
Effect of planting dates on the incidence and severity of corn virus diseases. 11478

STURNIDOECUS PHILIPPENSIS
Mallophaga from birds of the Oriental Region. Part IX. Sturnidoecus philippensis, n. sp. (Ischnocera: Philopteridae). 8680

STYLETS
Lysozyme action in the cockroach--blood changes. while probing intercellularly. 14279
Feeding habits of two Phylloxera species (Phylloxeridae, Aphidina) on oak leaves. 15387
Aphids may not acquire and transmit stylet-borne viruses while probing intercellularly. 15537

STYLOGASTER
Further data on the oviposition by the genus Stylogaster Macquart (Diptera: Conopidae, Stylogasterinae) upon adult calyptrate Diptera associated with ants and animal dung. 11398

STYLOPIDAE
The effects of the removal of the parasite Xenos (insecta Strepsiptera) on the protocerebral neurosecretion of its host Polistes (Hym. Vespidae). 10121
The position of the Strepsiptera in the classification of insects. 11720
Parasitism associated with brachypterous males in the sugarcane leafhopper, Perkinsiella vitiensis. 12506
A new Strepsiptera parasite of the Jassidae Hom, Auchen. : Halictophagus languedoci, n. sp. 14710

STYRENE POLYMERS
Polystyrene beakers for eelworm culture. 13866

SUBSTRATES
Inhibition of beef liver hydrolytic enzymes by organophosphorus pesticides. Quantal inhibition characteristics of several organophosphorus compounds, using o-nitrophenyl butyrate as substrate. 9801
Substrate preferences and invasion behaviour exhibited by larvae of Nilodorum brevibucca Freeman (Chironomidae) under experimental conditions. 10066
Hydrolysis of acetylthiocholine and butyrylthiocholine by cholinesterases of insects and a mite. 14261

SUBTERRANEAN CLOVER
From weeds to pasture in one year. 8431
Control of the biennial thistle, Onopordum, by amitrole and five perennial grasses. 10798
Studies on altering transport and accumulation of 14C assimilates in plants. (Abstract). 11004

SUBULURA
On adults of the subulurid infective larva from tenebrionid beetle with remarks on the validity of Subulura minetti Bhalerao. 15220

SUCCINATES
Some data on bioenergetics of the larvae of Trichinella spiralis. 10846
Uncoupling effect of cytoplasmic fraction of Trichinella spiralis larvae on bioenergetics of rat muscle mitochondria. 10878

SUCCINIC ACID, 2,2-DIMETHYLHYDRAZIDE
Chemical growth retardants for bedding plants. 9203
Effects of succinic acid 2,2-dimethyl hydrazide and (2-chloroethyl) trimethylammonium chloride on tomatoes (Lycopersicon esculentum Mill.) and on tuberous root formation in Dahlia pinnata Cav. 9841
The effect of N-dimethyl amino succinamic acid (Alar) on size, shape and maturity of Delicious apples. 10450
Effects of N-dimethyl amino succinamic acid (B-Nine) on flower longevity and vegetative growth of pot chrysanthemums (Chrysanthemum morifolium Ramat). 10966
Absorption; translocation and accumulation of labeled N-dimethylaminosuccinamic acid in apple tissues. 10980
Interaction of Alar and gibberellin on growth and flowering of the apple. 10987
Chemical control of growth and flowering of woody ornamental plants in the landscape and nursery: Tests with maleic hydrazide and Alar. 11026
Size control of nursery trees with N-dimethylaminosuccinamic acid. 11036
Effects of Alar on the growth and distribution of the growth increment in one year old apple trees. 12236
Growth and flowering responses of apple and pear seedlings to growth retardants and scoring. 12249
Effects of Alar on morphology, chlorophyll content, and net CO2 assimilation rate of young apple trees. 12258
Morphogenetic responses of tomato plants to combined and individual applications of gibberellic acid, Phosfon and B-nine. 12271
Growth and fruiting response of young apple and pear trees to annual applications of succinic acid 2,2,dimethyl hydrazide. 12283
Controlling rhododendron flower bud initiation. 12899
Effect of succinic acid 2,2-dimethylhydrazide on flower bud formation of the 'Coville' highbush blueberry. 12905
Use of growth retardants on chrysanthemums: Effect on pest populations. 13331
Some effects of annual applications of N-dimethylaminosuccinamic acid (Alar) to apples. 13481
The influence of N-dimethyl amino succinamic acid on flesh firmness and on some pre- and post-harvest physiological disorders of Delicious apples. 13482
The influence of alar (N-dimethylaminosuccinamic acid) on maturation of apples and pears. 14076
How to obtain maximum benefits from use of alar explained by dr. Max W. Williams at horticultural association meet. 14099
The effect of Alar (N-dimethylamino succinamic acid) on yield and quality attributes of Concord grapes. 14302
The influence of N-dimethylamino succinamic acid (Alar) on growth of the sweet cherry, Prunus avium. (Abstract). 14303
Effects of N-dimethylamino succinamic acid (Alar), (2-chloroethyl trimethylammonium

chloride (CCC), gibberellic acid (GA), and maleic hydrazide (MH) on bolting in lettuce. (Abstract).
14305

Effects of N-dimethylamino succinamic acid on the size of potatoes. (Abstract).
14311

Vegetative and reproductive responses of highbush blueberry to succinic acid 2,2-dimethylhydrazide (Alar).
14314

Effects of succinic acid 2, 2-dimethyl hydrazide (Alar) on apples. (Abstract).
14322

The effect of succinic acid 2,2-dimethyl hydrazide on stem and leaf tissues of Chrysanthemum morifolium Bright Golden Anne. (Abstract).
14324

In vivo and in vitro reactions of 1,1-dimethylamino succinamic acid (B-9, Alar) and related substances.
14328

Vegetative and fruiting responses of pecan (Carya illinoensis Koch) to heading back and N-dimethylamino succinamic acid. (Abstract).
14332

Brussels sprouts growth and production as influenced by N-dimethylamino succinamic acid (Alar). (Abstract).
14334

The effects of Alar on red tart cherries (Prunus cereasus).
14335

Effect of N-dimenthylamino succinamic acid (Alar) on vegetable growth of chile pepper (Capsicum frutescens) plants. (Abstract).
14338

Interactive effects of gibberellic acid and Alar on bush bean growth. (Abstract).
14344

Effects of N-dimethylamino succinamic acid (Alar) on yield, size, maturation, and quality of peaches with reference to its use in adapting fruit for mechanical harvesting. (Abstract).
14362

Effects of N-dimethylamino succinamic acid (Alar) on maturity and size of Pocahontas strawberries. (Abstract).
14444

Post-year responses of Concord grape vines treated with N-dimethylamino succinamic acid. (Abstract).
14467

Some effects of the growth regulators CCC and Alar (B-995) on the tomato (Lycopersicum esculentum, Mill.). I. Effects on leaf area, plant spread, dry weight, height and leaf numbers.
15290

SUCCINYLCHOLINE CHLORIDE

Effect of succinylcholine chloride on the cardiac function of the horse.
9686

SUCROSE

The elongation of stamen filaments in Graminaceae.
8589

Effect of sucrose and indole-3-acetic acid on extension growth of wheat coleoptile segments.
9207

Chromatographic purification of the oat blue dwarf virus.
9547

Specific inhibition of TMV-RNA synthesis by blasticidin S.
9569

The effects of pH on the labellar sugar receptor of the fleshfly.
10560

Amino-acid receptor in larvae of Pieris brassicae (Lepidoptera).
11881

Seasonal changes in sugar alcohols and sugars in peach bark: A possible relationship to Cytospora canker susceptibility.
12016

Losses of active insecticidal elements of the dried roots of Derris elliptica Benth. under the influence of predators and especially of Trogoxylon aequale Woll.
12071

Egg-yolk and olive juice as supplements to the yeast hydrolyzate-sucrose diet for adults of Dacus oleae.
12446

Phytochrome controlled C14-sucrose uptake into etiolated pea buds: Effects of gibberellic acid and other substances.
13478

Study on the fatty acid composition during germination of peanuts treated with growth regulators.
13498

Comparative study on reducing sugars and sucrose contents of two types of cotton and some of their synthesized strains containing some blackarm resistance genes.
13779

Recommended changes in the method for detection and identification of salmonella in egg products.
14040

The effect of sodium replacement on the electroretinogram recorded from the cockroach ocellus.
14179

SUCTION TRAPS

Aerial dispersal of some British Psocoptera, as indicated by suction trap catches.
13103

An improved mechanical method of aspirating insects.
13737

SUGAR

Color and natural products attracting the adult sugarbeet root maggot in Southcentral Idaho.
8197

Some features of the physiology of dormancy in black currant plants in connection with the effect of gibberellin.
9199

The distribution of an oil, carbohydrate, and protein food source to members of the imported fire ant colony.
10571

Need for immediate sugar and ability to withstand thirst by newly emerged Oriental fruit flies, and Mediterranean fruit flies untreated or sexually sterilized with gamma radiation.
12478

Bacteriological control of ice cream manufacture. Part 1. Introduction and raw materials.
14037

Differenciation of biochemical types of sources of Pseudomonas solanacearum (Smith) Smith.
15566

Infection and corrosion tests with Ustilago hordei (pers.) lagerm.
15621

SUGAR BEETS

Color and natural products attracting the adult sugarbeet root maggot in Southcentral Idaho.
8197

Chemical control of a species of the false chinch-bug group on wheat and sugar beets.
8336

Methods of weed control in sugar beets.
8432

Weed control in sugar beets with preemergence herbicides.
8436

Studies in polyploid varieties of sugar beets. X. Chromosomal variation in progeny of crosses involving diploid, triploid and tetraploid plants.
8931

The therapeutic effect of Thiabendazole, 2-(4-thiazolyl) benzimidazole, against Cercospora leaf spot on sugar beets when applied as a soil drench.
8991

On the knowledge of the seasonal dynamics of heterodcrosis in sugar beets in East-Slovakia (CSSR).
9027

Evaluation of herbicides applied to the soil for weed control in irrigated sugar beets.
9039

The effect of soil fumigation on the growth of sugar beet.
9193

Root nematode (Meloidogyne naasi Franklin) in Serbia (preliminary communication).
9654

Absorption and translocation of pyrazon by plants.
10287

Weed control in sugarbeets.
10296

Downy mildew of sugar beet.
10691

Aphids and virus yellows of sugar beet.
10722

Pygmy mangel beetle, (Atomaria linearis).
10724

Investigations of the control of Lixus junci Boh.
10730

Flea beetles in sugar beet fields.
10735

Experiments with tetrasyston and granular VUAGT-1-4 for sugar beet protection, in 1965-1966.
10736

Reaction of leaf life Aphis fabae Scop. on the qualitative changes in the content of free amino acids present in the vegetative organs of Euonymus europea L. and seedy sugar-beet.
10740

Inactivation of virus inhibitors in aphids.
10741

Clover cyst eelworm, (Heterodera trifolii).
10755

Sugarbeet nematodes found on garden red beet in Ohio.
10757

Experimental tests in the control of Heterodera schachtii Schm.
10762

Pre-emergence herbicides in sugar beet.
10819

Persistance of pyrazon in sugar beets in Michigan. (Abstract).
10944

Methyl m-hydroxycarbanilate m-methylcarbanilate. Notice of establishment of temporary tolerance.
11000

Effect of time of postemergence applications of pyrazon and dalapon on sugar beets. (Abstract).
11029

The effect of the herbicide burex on the total nitrogen content and on the technological quality of sugar beet.
11053

Selection for resistance and chemical control of Rhizoctonia root rot disease of sugarbeets.
11931

Breeding for Rhizoctonia resistance in sugarbeet.
11972

Vectors of virus diseases of sugar beet and their economical importance in the Bydgoszcz voivodeship in the years 1957-1965.
12063

The use of herbicides in the mass production technology of the sugarbeet. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
12097

Laboratory rearing of the spinach leaf miner Pegomyia hyoscyami Panz.
12518

Metabolism of pyrazon in sugar beets and soil.
12741

Purification and conservation of infective sugar beet mosaic virus.
13245

New possibilities for the control of parasitic plant nematodes with fensulfothion.
13338

Control of the sugarbeet nematode, Heterodera schachtii, on sugarbeets with organophosphate and carbamate nematicides.
13883

Control of scotch grass (Agropyron repens) in sugar beet.
13918

Influence of planting time on phytotoxicity of dichloropropenes to sugarbeets.
14077

A new contribution to the study of Leafhopper fauna (Homoptera, Auchenorrhyncha).
14270

Effects of Cercospora leaf spot and dates of harvest on sugar beet varieties with or without Maneb treatment.
14358

Cryopreservation and pathogenicity of selected isolates of Colletotrichum, Rhizoctonia, and Phytophthora.
14374

Contribution to the investigation of chemoendotherapy of sugar beet infected by Cercospora beticola Sacc.
14408

New tin complex compounds as plant protection fungicides.
14445

Greenhouse testing of sugar beets for resistance to curly top.
14446

The sugar beet nematode.
14504

Effect of Heterodera schachtii on sugar beet seedlings under monoxenic conditions.
14513

The Coleoptera in the soil of sugar beet fields on chernozem and meadow mould in the north-east area of Yugoslavia.
14890

Changes in concentration of free amino acids by selection from yellows infected sugarbeet leaves.
14944

Comparison of the effect on beet seed production of spring and fall infestations of beet leafhoppers carrying curly top virus.
14955

The effect of infection with beet yellows virus on the growth of sugarbeets.
14957

Evaluating soil samples for fungus pathogens of sugarbeet seedlings.
14975

Characteristic of development and noxiousness of the most important diseases and pests of potatoes and sugar beets in the year 1967 in Poland and their forecast for 1968.
14980

Chemical control of Cercospora leaf spot of sugarbeets in Nebraska, 1965.
15000

The use of systemic insecticides to reduce the incidence of curly top virus disease in sugarbeets.
15019

Effect of postemergence applications of herbicides on sugarbeet development and weed control in central California.
15083

Herbicidal control of weeds in sugarbeets.
15141

Pre- and postemergence sugar beet herbicide trials in michigan in 1967.
15144

Herbicide evaluation studies on sugar beets, 1967.
15148

Combinations of preplant, postemergence, and layby herbicide applications for selective weed control in sugar beets.
15151

Effect of pyrazon and dalapon with various surfactants on sugar beets and weeds.
15152

Weed control in field crops: Sugar beets.
15153

Residues on the sugar beet leaves of DDT applied to control the leaf-eating pests.
15254

Attempts at treatment of the Atomaria of sugarbeets with insecticides.
15622

Pigmy mangold beetle (Atomaria linearis Steph.), biology and control.
15623

A new report on sugar-beet pests in the area of Baranja, soil Coleoptera taken into special consideration.
15632

Competition between Kochia and sugarbeets.
15746

Weed control in sugarbeets with herbicides and cultivation.
15748

SUGARCANE

A new stratiomyid pest of sugar cane in Australia (Diptera: Stratiomyidae).
8641

Irrigated sugar-cane in Rhodesia.
8925

Sugar-cane moth borers in the Caribbean.
8974

Virus-like particles in galls on sugarcane plants affected by Fiji disease.
8994

Effect of insecticides on ant and spider populations in Louisiana sugarcane fields.
9015

The coccid Saccharicoccus sacchari (Cockerell) (Hemiptera Pseudococcidae) of sugar cane in Mozambique.
9390

Note on Trichogramma japonicum Ashm., an egg parasite of internode-borer (Proceras indicus Kapur) of sugarcane in Madras State.
9649

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Norea.
9789

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-ethylamino-4-isopropylamino-6-methylthio-s-triazine.
9795

A new pyralid leaf roller, Phostria sp. on sugarcane.
10046

Local lesion host for grassy shoot virus of sugarcane.
10224

Contribution to the knowledge of the natural enemies of Bissetia steniellus (Hampson) (Lep.: Pyralidae).
10254

Control of johnsongrass on drainage ditchbanks in sugarcane.
10297

Annual report of the Indian Institute of Sugarcane Research, Lucknow, 1964-65. (Mycology, by K. Singh; Research project on investigation and control of virus diseases of sugarcane, by K. Singh; Entomology, by A. N. Kalra).
10609

Incidence of mosaic on yields of sugar cane varieties.
10693

Comparison of substituted uracils for weed control in sugarcane. (Abstract).
10799

Control of emerged weeds in Florida sugarcane with preemergence herbicides. (Abstract).
10807

Artificial diet for the adult froghopper.
11284

Observations on the insect pests of the sugar cane crop at Kantalai (Ceylon).
11539

Plant parasitic nematodes associated with sugarcane production in Rhodesia.
11554

Differential yield responses of commercial sugarcane varities to sugarcane borer damage.
12672

A brief descriptive catalog of the principle diseases of sugarcane, Saccharum officinam.
13802

Free amino acids and sugars of the adult sugar cane froghopper (Aencolamia varia saccharina) (Homoptera: Cercopidae) in relation to those of its host.
13841

Sugarcane diseases in the Punjab--A survey report.
14440

Effect of a varietal mixture on sugarcane root rot susceptibility and on the rhizosphere microflora.
14455

Virus diseases of cereals in South Africa. II. Identification of two elongated plant viruses as strains of sugar cane mosaic virus.
14469

Lest white grubs visit your sugarcane...and find you unprepared.
14486

Biological control of sugar cane aphid pests in the West Indies (Homoptera, Aphidoidea; Hymenoptera, Aphidiidae). Part II.
14883

Structures of the X corpuscles in leaf tumor of Fidji diseased sugar-canes.
14945

Histological and histochemical study of the tumor of sugar cane affected by the Fidji disease.
14946

The I. I. S. R. weeder-mulcher is ideal for sugarcane.
15128

Sclerophthora macrospora (Sacc.) Thirum. et al e8Syn.: sclerospora macrospora Sacc.) on sugarcane.
15569

Chemical control of nematodes in sugarcane.
15694

SUGARS

Gut absorption.
8207

Respiration of blastospores of the fungus Beauveria bassiana during submersed cultivation in the presence of certain sugars.
8846

Post-infection changes in the sugar content of leaf-spot infected barley.
10178

The utilization of amino acids and sugars by tick cells cultivated in vitro.
11873

Decay patterns produced by Chaetomium globosum in beechwood fibers. A chemical and microscopic study.
12270

On the decomposition of wood cellulose by organisms.
12290

Sugars and trehalase in the reproductive organs and hemolymph of the queen and drone honey bees (Apis mellifica l. var. ligustica spin.).
13597

Free amino acids and sugars of the adult sugar cane froghopper (Acneolamia varia saccharina) (Homoptera: Cercopidae) in relation to those of its host.
13841

Isolation of Toxoplasma gondii from swine and cattle. following pesticide treatments.
14558

Winter necrosis of peach twigs. Experimental reproduction following pesticide treatments.
15641

Sugar solution feeding and its effect on the retention of infective Dirofilaria immitis larvae in Anophcles quadrimaculatus.
15811

SUILLUS LUTEUS
The influence of ectotrophic mycorrhizal fungi on the resistance of pine roots to pathogenic infections. I. antagonism of mycorrhizal fungi to root pathogenic fungi and soil bacteria.
9583

SULFADIMETHOXINE
Tissue distribution of sulfadimethoxine and sulfamonomethoxine in horses after intravenous injection.
9737

Tissue distribution of sulfadimethoxine and sulfamonomethoxine in horses after intravenous injection.
15798

Experimental studies on sulfadimethoxine in fowls. II. Plasma concentration in hens and chicks given a diet or drinking water containing the sulfa drug.
15883

SULFAMERAZINE
Experimental studies on sulfadimethoxine in fowls. II. Plasma concentration in hens and chicks given a diet or drinking water containing the sulfa drug.
15883

SULFAMETER
Tissue distribution of sulfadimethoxine and sulfamonomethoxine in horses after intravenous injection.
9737

Tissue distribution of sulfadimethoxine and sulfamonomethoxine in horses after intravenous injection.
15798

SULFAMETHAZINE
How beneficial are feed additives .
9059

Food additives permitted in the feed and drinking water of animals or for the treatment of food-producing animals. Drugs. Antibiotic drugs; exemptions from labeling and certification requirements. Chlortetracycline, Sulfamethazine.
15787

SULFAMOYL-4,4'-DIAMINODIPHENYL SULFONE, 2-
Preliminary studies on the anti-malarial activity of SDDS (2-sulfamoyl-4, 4'-diaminodiphenylsulfone) against Plasmodium herghei and Plasmodium gallinaceum.
14065

SULFANILAMIDE
Study on the fatty acid composition during germination of peanuts treated with growth regulators.
13498

SULFANILAMIDO-2,6-DIMETHOXYPYRIMIDINE, 4-
Methods of treating coccidiosis with 4-sulfanilamido-2,6-dimethoxypyrimidine. Patent 3,458,631.
8448

SULFANILIC ACID
Factors affecting the systemic antifungal activity of some chemically related compounds.
13252

SULFANITRAN
Notice of withdrawal of petition for food additives.
15784

SULFATES
Rubidium sulfate flame detector: Effect of design of alkali source and anode on sensitivity and stability.
9222

Factors affecting trace and minor elements in hill sheep pastures.
10589

Herbicidal mixture and method of use. Patent 3,429,687.
12108

Relevance of methionine, cysteine, cystine and sulphate in artificial feeding of Neomyzus (Aulacorthum) circumflexus BUCKT. (Aphidae, Homoptera, Insecta).
12447

Physiological studies on pear canker disease in Egypt and its control.
13790

SULFIDES
The influence of spray programs on the fauna of apple orchards in Nova Scotia. XIX. Apple rust mite, Vasates schlechtendali, a food source for predators.
11925

1-halo-1-nitro disulfides. Patent 3,429,931.
12308

SULFITES
Notice of filing of petition regarding pesticide chemicals.
9788

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-(p-tertbutylphenoxy)cyclohexyl 2-propynyl sulfite.
9791

Nematocides. Patent 3,457,353.
10271

Sulfite nematocides. Patent 3,428,734.
11074

Enhanced recovery of Salmonella montevideo from onion powder by the addition of potassium sulfite to lactose broth.
13381

SULFONAMIDES
N1-acetyl-N1-(cyclopropyl-2-pyrimidinyl)-sulphanilamides. Patent 3,438,980.
12185

Resistance of the Coli bacteria, isolated from calves affected with dyspepsia, to antibiotics and chemical therapeutical preparations.
15178

SULFONIC ACIDS
Metabolism of linear alkylate sulfonate and alkyl benzene sulfonate in albino rats.
9731

Method of destroying fungi with nitrophenyl sulfonylethylene. Patent 3,436,464.
11996

SULFOTEPP
Residuals of pesticides in cultivated mushrooms.
8556

SULFUR
Degradation of parathion in the rat.
8570

X-ray diffraction and infrared study of the sulphur granules of Actinomyces bovis.
9073

Microcoulometric gas chromatography: Improvements in instrumentation.
9227

Surface hydrology and pesticides.
10392

Maternal-fetal sulfur utilization in the bovine. (Abstract).
10866

A new contribution to the use of damp sulphur against the mildew of grapes: Experimental results.
11484

A note on the incompatibility of two pre-blossom aphicides (demeton-S-methyl and dimethoate) with lime-sulphur.
11533

Effect of introducing a sulphur bridge on the herbicidal activity of diquat.
12324

Insecticidal control of citrus pests in coastal central Queensland.
12684

Sweet potato storage house sterilization.
15511

Sweet potato storage house sterilization.
15834

Improved re-ignition technique for flame photometric detectors.
15848

SULFUR COMPOUNDS
Residue analysis in the dairy industry. in Zwig, Analytical methods for pesticides, plant growth regulators, and food additives. vol. I. principles, methods, and general application.
9157

Dapsone and sulfabenz medicated premix. Drugs for veterinary use, drug efficacy study implementation.
11685

Control of diseases of fruits and vegetables by postharvest treatment.
13248

Rust of stone fruits.
14412

How to collect, prepare and ship plant material for disease identification.
15467

Mites, pests in gardens and living rooms.
15620

SULFUR DIOXIDE
Physiological and biochemical contribution to fume damage research, 8. Physiological investigations of the action of SO2 on the metabolism of conifer needles in winter.
10432

Control of Byssochlamys and related heat-resistant fungi in grape products.
11662

SULFUR ISOTOPES
The metabolism of Bayer 9017 in calves.
9184

Absorption and metabolism of fenthion in blood-sucking arthropods.
12558

SULFURIC ACID
Studies on the effect of sulfuric-fuming nitric acid treatment on the analytical characteristics of toxaphene.
8603

Studies on the effect of sulfuric-fuming nitric acid treatment on the analytical characteristics of toxaphene.
9153

SUNFLOWERS
Sunflower, a new host of Coleosporium madia.
11517

Leptosphaeria lindquistii n. sp., as causal of (black stem) in sunflowers.
13251

Influence of soil properties on phytotoxicity of 4-amino-3, 5,6-trichloropicolinic acid (picloram).
13479

Host specificity with Oncopeltus fasciatus (Heteroptera: Lygaeidae).
13608

A new contribution to the study of Leafhopper fauna (Homoptera, Auchenorrhyncha).
14270

Production of toxins and pectolyte enzymes by two isolates of Sclerotium bataticola Taub. and their role in pathogenesis.
14401

SUNN CROTALARIA
Particle shape of southern sannhemp mosaic virus.
10615

Predisposition of virus-infected plants to fungus root-diseases.
10703

Root surface fungi of Crotalaria.
11503

Records of parasites of sunnhemp shoot-borer, Laspeyresia tricentra Meyr. (Tortricidae: Lepidoptera) in Uttar Pradesh.
12682

Oat yields one year after trifluralin applications.
15055

SUPELLA SUPELLECTILIUM
Abundance and habitat of five species of cockroaches on a permanent military base. 9506

SUPERPHOSPHATES
Effect of soil type on uptake of magnesium by pasture plants. 14082
Onion weed control on Mallee soils. 14518
Acute superphosphate poisoning of cattle and sheep. 15889

SURFACE CHEMISTRY
Reduction of sorption in ethylene dibromide fumigation chambers. 12928

SURFACE-ACTIVE AGENTS
Herbicide evaluation in soybeans at Georgetown, Delaware, 1967. 8401
Preemergence and postemergence yellow foxtail control in corn. 8429
Effects of oil and surfactant on residues of atrazine in field grown corn. 8540
The absorption and accumulation of atrazine in barnyardgrass at various stages of development. 8542
Metabolism of linear alkylate sulfonate and alkyl benzene sulfonate in albino rats. 9731
MCD-PEPTIDE from bee venom: Isolation, biochemical and pharmacological properties. 9804
Response of ironweed and buckbrush to herbicides and to herbicides in combinations with mowing, nitrogen fertilizer, and surfactants. 10303
Bloat on Dolichos lablab. 10335
Treated water curbs tomato decay. 10384
Effects of several oils and surfactants on the enhancement of atrazine for weed control in corn. (Abstract). 10767
Influence of adjuvants on the phytoxicity and foliar absorption of pyrazon. (Abstract). 10817
Toxicity of surfactant-herbicide combinations to Lemna minor (L.). (Abstract). 11032
Effects of hydrophilic-lipophilic balance (HBL) of nonionic surfactants on phytotoxicity of linuron and prometryne to carrots. (Abstract). 11045
Cotton thistle. 13348
Mycobacterium tuberculosis in macrophages: Effect of certain surfactants and other membrane-active compounds. 14671
Weed control in horticultural crops: Fruits. Weed control in strawberries. 15070
Effect of pyrazon and dalapon with various surfactants on sugar beets and weeds. 15152
Weed control in field crops: Sugar beets. 15153
Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Certain surfactants in pesticide formulations; extension of time for filing comments on proposal to exempt from requirement of tolerances. 15863

SURGERY
Dirofilaria immitis from the eye of a dog. 10376
Estrogenic action of DDT and its analogs. (Abstract). 10949

SURGICAL PROCEDURES
Holding technique for the manipulation and excision of adult anopheline mouthparts. 13128

SURRA
Immunologic response with reference to the humoral changes in surra. 13993

SURVEYS
Survey and distribution of common lady beetles (Col. Coccinellidae) on date palm trees in Israel. 8042
A new genus and several new species of aphid parasites (Hym. Aphidiidae). 8048
Insect parasite complex berseem armyworm Spodoptera exigua (Hubn.) (Lepidoptera, Noctuidae). 8082
Daily and seasonal density of four entomophagous predators on cotton in upper Egypt. 8130
Tomato virus diseases in closed and opened soil of the Estonian SSR. 8293
A nucleopolyhedrosis virus in populations of the Douglas-fir tussock moth, Hemerocampa pseudotsugata, in California. 8335
The natural enemies of the chaff scale, Parlatoria pergandii Comstock, in Israel. 8344
Impact of parasites, predators, and diseases on rice pests. 8380
The hunt of the wasps at Jackson Hole. 8627
Studies of the Mexican Deltocephalinae II. Seven new species of Norvellina (Homoptera: Cicadellidae). 8646
New Exoprosopinae from Mexico and Central America (Diptera: Bombyliidae). 8655
The Tettigoniidae (Orthoptera) of Oklahoma. 8660
The aquatic and semiaquatic Hemiptera in Oklahoma. 8667
The Asilinae (Diptera, Asilidae) of Oklahoma. 8669
Oklahoma leaf beetles of the subfamilies Donaciinae, Criocerinae, Clytrinae, Chlamisinae, Eumolpinae, and Chrysomelinae (Chrysomelidae, Coleoptera). 8671
Distribution and emergence patterns of mayflies Ephemera simulans (Ephemeroptera: Ephemeridae). 8753
Phytophagous ground beetles. 8776
Concerning the validity of the capture results of insect traps, together with an attitude toward the work of H. Peters, Heidelberg, on synanthropic flies. 8784
Ecological research in the Lamto Savannah (Ivory Coast): Preliminary data on the populations of terrestrial ants. 8794
Ecological significance of antibiotics of some varieties of Bacillus thuringiensis. 8831
The limnology of Playa Lakes on the Llano Estacado, New Mexico and Texas. 8872
Banana diseases in the Pacific area. 8924
The Mexican species of Uromyces (Uredinales). 8955
Ten years of observations on citrus canker. 8981
Current status of brown soft scale in citrus groves of the lower Rio Grande Valley. 9009
Insect parasites in the natural control of species of rice stem borers on Luzon Island, Philippines. 9012
Role of winter cress, Barbarea vulgaris, as a temporal host in the seasonal development of the crucifer fauna. 9020
Eelworms-a progress report on a few more groups found in North-East Indian tea soils. 9025
Are herbicides doing their job. 9035
Survey observations on ovine mastitis in New Zealand stud Romney flocks. 1. The incidence of ovine mastitis. 9101
Some ectoparasites from West Virginia mammals, II. 9128
Recovery of 65 organophosphorus pesticides from Florisil with a new solvent elution system. 9148
The Scarabaeidae, Coleoptera of Pakistan. Part IV. Adoretint (Rutelinae) with descriptions of eight new species of Adoretus from West Pakistan. 9251
The dung-rollers of Pakistan with observations on the genus Anomala including the economic importance and descriptions of new species from Karachi (Coleoptera: Scarabaeidae). 9254
Distribution of ant species of Hawaii. 9291
Heliconius hecale and Xanthocles in Venezuela (Nymphalidae). 9301
The Rhaphidophoridae (Orthoptera) of Australia. Part 5. The Rhaphidophoridae of Flinders Island. 9313
The larvae of Australian Ixodidae (Acarina: Ixodoidea). 9316
Determination of mosquito hosts in salt marsh areas of Louisiana. 9318
The banana corm weevil, Cosmopolites sordidus in the cocoa region of Bahia, Brazil. 9319
Arthropoda associated with a nest of the Hawaiian crow. 9328
A study of the hibernation of bumblebees (Hymenoptera: Bombidae) in southern England. 9334
Trees for bees. 9361
Taxonomic composition, trophic structure and seasonal occurrence in a grassland insect community. 9377
Insect parasites of the insect galls in Europe. 9386
The brown recluse spider and loxoscelism in Tennessee. 9457
Aspects of the relationship between burying beetles, Necrophorus ssp. and the mite, Poecilochirus necrophori Vitz. 9476
Population studies on two species of Psyllidae (Homoptera, Sternorhyncha) on broom (Sarothamnus scoparius (L.) Wimmer). 9495
Abundance and habitat of five species of cockroaches on a permanent military base. 9506
Annual report, fiscal year 1967-1968. 9526

Occurrence and distribution of diseases and pests of rice and their control in Thailand. 9531

Progress on citrus virus diseases through international co-operation and some problems and research needs in the Pacific region. 9614

Pests and diseases of the date palm. Part I. Mites, insects and nematodes. 9626

Observations on crop pests in the Sudan in 1966-67. 9648

Assessment of crop losses caused by nematodes in the United States. 9653

Nematodes associated with declining coconut palms. 9655

A 10-year survey of Trinidadian arthropods for natural virus infections (1953--1963). 9758

Changes in sex ratio in Haemonchus contortus cayugensis. 9765

Records of Coleoptera associated with stored products in Australia. 9780

A short survey of the plant protection equipment, approved during 1966. 9860

Chloropidae (Diptera), unknown in the fauna of Bulgaria. 9871

The larvae of Odonata in the vascular territory of stagnant waters in Bulgaria. 9872

Yespidae from Bulgaria (Hymenoptera, Diploptera). 9873

Revision of the Nearctic moth genus Abagrotis Smith with descriptions of new species (Lepidoptera: Noctuidae). Part Vi The duanca and placida groups; checklist of the presently known species within the genus. 9879

Butterflies ht Collobrieres, var. Alpes Maures, Provence in July and August 1967. 9880

A change in the Lepidoptera of Hampstead after four decades. 9881

Study of the world Gyponinae (Homoptera: Cicadellidae). A synopsis of the genus Clinonaria. 9883

A note: Some records of Australian Noctuidae in New Zealand. 9886

Results of an Austrian Lepidoptera collecting trip to Syria and Lebanon. (Part V.: Epermeniidae). 9894

The tiger moths of the county of Cumberland, New South Wales. 9900

A key to the species of Carcinops Marseul (Coleoptera, Histeridae) associated with stored products, including C. troglodytes (Paykull) new to this habitat. 9901

Mites of the super-family Gamasoidea on micromammalia in the western Balkan Range. 9911

Three new records of Bryobiinae from India (Acarina: Tetranychidae). 9921

Presentation of aquatic heteropteran fauna II, aquatic Heteroptera from Evora, Portugal. 9922

Bulgarian grasshoppers (Homoptera: Auchenorrhyncha). 9928

The butterflies of Lord Howe Island. 9929

First record of Aewasius advena Compere (Encytridae: Hymenoptera) from India as a parasite of Ferrisia virgata Ckll.. 9932

New species and records of Nasutitermitinae (Isoptera: Termitidae) from Africa. 9936

Distribution and establishment of Tetrastichus incertus in the eastern United States. 9937

Mordellistena pumila group in Finland (Coleoptera, Mordellidae). 9941

Aphid fauna of Macedonia. 9943

Some new records of butterflies from Nepal. 9948

Several Globiceps-species (Heteroptera, Miridae). 9952

Ixodes pacificus Cooley and Kohls, 1943: Its life-history and occurrence. 9962

Pollens collected by species of Andrena (Hymenoptera: Apidae). 9986

Abundance of cottontails and their fleas at Red Bluff Ranch, New Mexico. 10007

Recent records of migrant Lepidoptera in Taranaki. 10008

Studies on the ecology of larval Tipulinae (Diptera, Tipulidae). 10011

Migrating butterflies in 1967 (Twentieth Annual Report). 10056

Aquatic insect communities of a small stream on Mont St. Hilaire, Quebec. 10060

New records of parasites of Plutella maculipennis Curt. in Gujarat, India. 10088

The epiphytotic of yellow orange leaf disease of rice in 1966 in Thailand. 10197

The presence of tristeza virus in certain species of citrus in Cyprus. 10212

Alternative host plants of tobacco leaf-miner (Phthorimaea operculella (Zell.)). 10239

Biochemical basis for plant competition. 10274

The relative incidence of Vibrio fetus infection in dairy and beef cattle in New South Wales. 10336

The occurrence of ephemeral fever of cattle in Victoria in 1968. 10347

An outbreak of vibriosis in sheep in New South Wales. 10351

Contribution to the research on the helminth fauna of wild birds in Thrace (southern Bulgaria) Acathocephala. 10371

Studies on the incidence and extent of damage due to insect pests in stored seeds--I. Cereal seeds. 10388

A survey of the chemical composition of Potamdgeton and Myriophyllum in New Jersey. 10448

Fauna of the springtails (Collembola) of the Ojcow. 10509

A survey of resistance to dieldrin-group in the German cockroach, Blattella germanica, collected from Kawasaki, japan. 10563

Annual report 1966-67. 10605

Clover viruses in eastern Canada in 1967. 10689

Virus vector nematodes. 10750

Beet cyst eelworm, (Heterodera schachtii). 10756

Experiences with Mycoplasma synoviae test program. (Abstract). 10884

The Chrysomelidae, Coleoptera of Pakistan. Part III. A key to the genera and species of the Galerucinae, with descriptions of new genera and species. 11101

Field notes and subspecific status of Oeneis melissa (Satyridae) in northern Quebec. 11106

Neuroptera and Trichoptera from the Holtmuhle in Tegelen (Limb.). 11139

Neuroptera, Mecoptera and Trichoptera. 11140

Leafhopper populations (Homoptera: Cicadellidae) on five pasture grasses in the Florida Everglades. 11141

Syrphidae in 1967. 11142

Pseudoscorpions and spiders from moss, fungi, Rhododendron leaf litter, and other microcommunities in the Highlands area of western North Carolina. 11144

Results of the Albanian 1961 Expedition of the German Entomological Institute. 64. Contribution. Hymenoptera: Tenthredinoidea. 11147

Second supplement to the Contribution to the lepidopteran fauna of the middle Rhine and adjacent territory . 11160

Millipeds from Jamaican caves. 11169

Injurious insects in 1967. 11194

On the biology of some species of Papilionidae from the island of Celebes (East-Indonesia). 11207

Macrolepidoptera in 1967. 11215

The foraging behaviour of Atta cephalotes L. (Hymenoptera, Formicidae). I. Foraging pattern and plant species attacked in tropical rain forest. 11244

Extension of the host range of Nosema locustae in Orthoptera. 11286

Comparative ecology of some hymenopterous egg parasites of the pine moth, Dendrolimus spectabilis Butler (Lepidoptera: Lasiocampidae), with special reference to the factors affecting their efficiency as natural enemies. 11289

Notes on remarkable color variations of Cryptocephalus amiculus Baly occurring on Mt. Hiko and its adjacent areas. 11309

Research on the forest ecosystem. Series C. The Galeobdolon oaks and Mesnil-Eglise wood sorrel (Ferage). Contribution no. 8. Diptera collected in water jars. 11318

Arthropod prepators of immature diptera developing in poultry droppings in northern California. Part I. Determination, seasonal abundance and natural cohabitation with prey. 11366

Hymenopteran Symphyta of Turkey. 11415

Research on the forest ecosystem. Series C. The Galeobdolon oaks and Mesnil-Eglise wood sorrel

(Ferage). Contribution no. 7. Hymenoptera collected in water jars.
11416

Medical and veterinary entomology in the USSR.
11435

Incidence of arthropod-borne encephalitic diseases in Mexico.
11438

A survey of viruses in cultivated strawberries in Oregon and Washington.
11458

Pests and diseases of the date palm. Part II. Diseases.
11464

An examination of fungi associated with groundnut pods.
11469

Significant specimens of Elsinoe and Sphaceloma taken by U. S. plant quarantine inspectors II.
11477

Occurrence of fungi antagonistic to Poria weirii in a Douglas-fir forest soil in western Oregon.
11491

A survey of pawpaw debility in Tanzania.
11496

Stem pitting of yellow bud mosaic virus--infected peaches.
11505

Epidemic decline of breadfruit in the Pacific Islands.
11518

Coccids (Coccoidea: Homoptera: Insecta) affecting fruit plants in Bihar (India).
11519

The phytophagous fauna of a mistletoe (Loranthus longiflorus Desr.: Loranthaceae) in West Pakistan.
11520

The campaign against the citrus blackfly. Aleurocanthus woglumi Ashby.
11528

Studies of the Byron Bog in southwestern Ontario XXXV. Insects reared from galls from the wooded slopes of the bog.
11529

New South Wales Department of Agriculture, Entomology.
11541

Aceria tulipae in North Dakota.
11546

Susceptibility of two citrus rootstocks to Pratylenchus spp.
11551

Plant parasitic nematodes associated with sugarcane production in Rhodesia.
11554

Stylet-bearing nematodes associated with plants in Iowa prairies.
11558

Investigations of nematode-destroying fungi in central Iowa.
11561

Composition of weed flora in spring cereals in Finland.
11575

Further studies on respiratory infections of poultry in Egypt.
11586

A survey on avian salmonellosis in U. A. R..
11595

Occurrence of staphylococci in cases of bovine mastitis.
11607

Presence of human enteropathogenic strains of Escherichia coli in dairy animals in upper Egypt.
11633

Ticks (Ixodoidea) of domestic animals in Iraq. Part 5. Infestations in the Liwas of Diwaniya and Nasiriya (spring), Karbala (winter), and Hilla (autumn and winter).
11638

Parasitic reports of foreigners from warm climates.
11643

A comparative study of the bacterial flora of the small intestine of normal and Ascaridia galli infested chickens with its relation to that of the included worms.
11648

Critical studies on the incidence and biological peculiarities of hydatid pathogens, Echinococcus granucosus and Echinococcus multilocularis in West Pakistan.
11649

Contribution to the knowledge of the fauna of the genus Bombus.Latr. of Bieszczady Mountains.
11717

A survey of the distribution and present status of the wood ant, Formica rufa L. (Hym., Formicidae), in England and Wales.
11718

Interesting catches of Hymenoptera-Aculeata in 1961 and 1968.
11742

Some Oriental-tropic species of Chloropidae (Diptera) in the fauna of South Primorye.
11751

Estimation of a total bacterial number in termite intestines.
11845

Bandicota indica and sylvatic plague in Vietnam.
11913

Surveys of apple scab infection severity in crabapple selections 1961-1965.
11942

Number of Salmonellae in commercially broken eggs before pasteurization.
12135

The physiology of wood fungi. A survey on recent research results.
12238

Drosophila andalusiaca, a polymorphic species new to Holland.
12337

The subspecies of Rhinocoris iracundus (Poda), 1761 (Heteroptera, Reduviidae).
12338

Studies on Indian crickets (Orthoptera: Insecta), Part 1.
12340

Occurrence of Culex pipiens quinquefasciatus Say in Nevada.
12344

The armored scale insects of Texas (Homoptera: Coccoidea: Diaspididae).
12368

A ten year survey of Trinidadian arthropods for natural virus infections (1953-1963).(Abstract).
12403

Populations of the ant Tetramorium caespitum Latreille.
12421

Genetically marked Aedes Aegypti in studies of field populations.
12452

The problem of age determination in Anopheles melas Theo. 1903, by Polovodova's method.
12455

Application of ovitraps in the U. S. Aedes aegypti eradication program.
12468

Observations on certain dragonflies (Odonata) in central Scotland.
12492

A device for protecting experimental huts from molestation.
12536

Parasites of mosquitoes in southwestern Wyoming and northern Utah.
12549

Entomological studies on the transmission of human malaria in a dense, humid forest zone, Sassandra region, Ivory Coast.
12580

Fungicides for deciduous top fruit: A survey in 1968.
12622

Corn stalk rot fungi in North Carolina.
12626

Incidences of Pythium wilt of snap beans in Colorado.
12637

Status of Dutch elm disease in Oklahoma.
12638

A blight of Aleppo pine (Pinus halepensis).
12655

Epidemiology of cocksfoot mottle virus.
12664

Assessment of the damage caused to potatoes by potatoes cyst eelworm, Heterodera rostochiensis Woll..
12696

Observations on meadow nematodes (Pratylenchus spp.) and their relation to declines of citrus in Florida.
12702

On the specificity of some helminths parasitizing Anseriformes.
12754

On the focus of trichinellosis of swine with epidemiologic implications.
12822

On the specificity of some species of the suborder Rhabditata.
12830

On the ubiquity of paramphistomaites in the ungulata.
12832

The helminth parasites of Hirundinidae of the neighborhood of Warsaw and Olsztyn.
12837

Round worm infestation in calves.
12842

Relation among liver fluke populations in cattle and the results of coprological examinations.
12849

Ecological specificity of intermediate hosts of Thelazia in cattle and the relation of their infective larvae to some unusual hosts.
12864

Coleoptera of northeastern Africa, Carabidae: Paussinae 25e. Contribution to the monographic study of the Paussidae.
12947

Soil Coleoptera of the light grey earth soils of the northern Tadjikistan.
12950

Some Torymidae (Hymenoptera: Chalcidoidea) new to Britain, with notes on other British species.
12962

Peculiarities of the fauna, ecology and geographic distribution of blood-sucking Arthropoda in Vietnam.
12964

Recent data on the Anopheles of the Maghreb.
12965

The nocturnal insect catches at predetermined time interval in the organic soil district of Ste. Clotilde, southwestern Quebec. Part II.
12972

Macroinvertebrates in the Green River below Flaming Gorge Dam, 1964-65 and 1967.
12980

Seasonal distribution of Tabanidae (Diptera) at Texas Hollow, New York in 1968.
12981

Distribution, standing crops, and drift of benthic invertebrates in a small Wisconsin stream.
12982

Biology of the Coreidae in Wisconsin.
13001

Effects of temperature and light on dispersal of the pea aphid, Acyrthosiphon pisum, and a braconid parasite, Aphidius pisivorus, in the field.
13021

Observations on Platypus flavicornis (Coleoptera: Platypodidae) in southern pine beetle infestations. 13033

Use of the spryte for ditching in sub-marginal areas. 13067

Host relationships in North American fungus-feeding moths (Oecophoridae, Oinophilidae, Tineidae). 13077

Microarthropods from two Quebec woodland humus forms. III. The Sarcoptiformes (Acarina). 13086

The phenology of linyphiid spiders on heathland in Dorset. 13088

Host records and phenology of louse-flies on Wisconsin birds. 13099

Notes on Wisconsin parasitic fungi.XXXIII. 13255

Exocortis in citrus in India. 13275

Studies on the bacterial diseases of Sudan crops. VII. New records. 13283

Dispersal of Bryobia spp. and Typhlodromus mcgregori Chant within apple trees in Central Utah. 13316

Ecological relationships of plant communities and ectoparasites of rodents in the Great Salt Lake Desert. 13364

The occurrence of Coxiella burnetii in north-western England and north Wales. A report from five laboratories of the Public Health Laboratory Service. 13396

Rabies and rabies control in Wisconsin. 13403

The endoparasite burden of cattle in the Kimberley region of North-Western Australia. 13410

Intestinal parasitism in swine in the northern department. 13414

Hydatid disease--dog testing results to 30th November, 1967. 13419

Salmonellae associated with further-processed turkey products. 13429

Salmonella senftenberg in the Sunderland area. 13432

New records and notes on streblid flies in California (Diptera: Pupipara). 13533

Not all diurnal butterflies have become rare. 13535

Review of recent literature on mosquitoes of North America. 13539

Some notes on the mosquitoes of Louisiana, including the addition of Aedes hendersoni Cockrell. 13540

Lepidoptera taken in 1967 by light traps near Sion abbey (gem. deep peat-soil). 13552

Some tineid moths (Lepidoptera) from Madagascar. 13560

Aedes melanimon in Saskatchewan. 13562

Results of the zoological research in Mongolia of Dr. Z. Kaszab. 197. Tenebrionidae (Coleoptera) of the 6th expedition. 13565

A contribution to the composition and origin of alpine faunas of Coleoptera. 13569

Hymenoptera-Aculeata from couch-grass, spring 1968. 13570

The representatives of the Syrphinae of the Netherlands (Diptera, Syrphidae). 13572

The scientific results of the Hungarian soil zoological expeditions to South America. 13. Acari: Pygmephoridae and Scutacaridae from the material of the second expedition (Brazil and Bolivia). 13573

A systematic study of Ovaticoccus Kloet and its relatives, with a key to North American genera of Eriococcidae (Homoptera: Coccoidea: Eriococcidae). 13577

A synopsis of the Phaenocarpa Forst. species of the Neotropic region (Hymenoptera: Braconidae, Alysiinae). 13581

Host associations and taxonomy of Nearctic conifer cone moths in the genus Eucosma (Lepidoptera: Tortricidae). 13584

Host specificity with Oncopeltus fasciatus (Heteroptera: Lygaeidae). 13608

The effect of improved rice farming techniques on mosquito populations in central Taiwan. 13614

The use of helicopters in Florida for rapid inspection for salt marsh Aedes larvae. 13637

Seasonal abundance of mosquitoes in southeastern Massachusetts. 13650

Further observations on Aedes vexans (Meigen) in Utah. 13655

Mosquito collections by CDC miniature light traps and livestock-baited stable traps at Callao, Utah. 13660

A history of grasshopper abundance surveys and forecasts of outbreaks in Saskatchewan. 13677

Mosquito control and survey in Jefferson County Kentucky. 13731

Sterile males for mosquito control: A field cage study with Culex pipiens quinquefasciatus. 13740

The presence of Curvularia in corn in the valley of Medellin. 13754

Food plants, bionomics and control of flea beetles. 13828

Section II.--DISEASE control. 13832

Natural enemies of the carob moth Ectomyelois ceratoniae (Zeller). 13839

Rabbit survey in West Wales (1961-67). 13846

Photochemical oxidant injury and bark beetle (Coleoptera: Scolytidae) infestation of ponderosa pine. I. Incidence of bark beetle infestation in injured trees. 13859

The association of root-lesion nematodes with reduced growth of tobacco in the Nelson district. 13867

Some weed hosts of the southern root-knot nematode, Meloidogyne incognita. 13875

Additions to host records of Meloidogyne sp., Helicotylenchus multicinctus and Rotylenchulus reniformis. 13897

Observations on parasitic protozoa in plant-parasitic and free-living nematodes. 13900

New host plants of Xiphinema basiri and X. indicum. 13901

Section III.--WEED control. 13912

Liver fluke disease appears to be spreading. 14023

Fly larval migration from residential refuse containers in the city of Fresno. 14033

Screening methods for organochlorine and organophosphate insecticides in foods and feeds. 14055

Section I.--Insect control. 14062

The existence of bark borers in Berlin (Lepid.). 14132

Dragonfly catches from the Gifhorn area (A contribution to the Odonata fauna of Lower Saxony). 14145

The insect fauna in the burrows of the long-clawed molevole, a Caucasian endemic species. 14154

Phycitinae from Turkey and Greece (Lep., Pyralidae). 14162

Insects Vs man. (Lep. Notodontidae). 14210

Cytology and cytochemistry of spermatogenesis in two millipedes Phyllogonostreptus nigrolabiatus and Gonoplectus malayas. 14219

Arbovirus studies in the Ohio-Mississippi basin, 1964--1967. IV. Cache Valley virus. 14226

Records of the orthopteroid insects in Ontario. 14276

A system for screening of rare events in genes of Drosophila melanogaster. 14289

Genetical relationship and isolating mechanisms in Ananassae species subgroup (Sophophora, Drosophila). III. Chromosome behaviour during meiosis in D. bipectinata, D. malerkotliana and their hybrid. 14290

Soil condition and the violet and white root rot diseases of fruit trees. 14343

Verticillium spp. and associated fungi from certified potato seed tubers. 14346

Tobacco diseases in Venezuela, Costa Rico and Nicaragua. 14407

Diseases of Annual Oleaceae in Colombia. 14427

Sugarcane diseases in the Punjab--A survey report. 14440

Powdery mildew of rubber in Papua. 14449

Pathogenicity of some species of Godronia occurring in Quebec. 14453

Fungal pathogenicity to sound and mechanically damaged blue lupine seed in anexic culture at two temperatures. 14470

Pests of legume covers. characteristic cocoon production. 14479

Observations on the tolerance and susceptibility of tea clones to shot-hole borer investigation--1969. 14500

The causes and dynamics of population explosions of M. arvalis: A survey of current French research. 14543

Isolation of Bunyamwera-group viruses from Wisconsin mosquitoes. 14553

Arbovirus studies in the Ohio-Mississippi basin, 1964--1967. I. Introduction. 14581

Arbovirus studies in the Ohio-Mississippi basin, 1964--1967. VII. Lone star virus, a hitherto unknown agent isolated from the tick Amblyomma americanum (Linn.). 14582

Arbovirus studies in the Ohio-Mississippi basin, 1964--1967. V. Trivittatus and Western equine encephalomyelitis viruses. 14583

Variations in isolations of pathogenic bacteria from the udders of cows during a six-month period. 14618

First records of eye-frequenting Lepidoptera from India. 14624

Epizootiologic factors of Fascioloides magna (Trematoda) in Oregon and southern Washington. 14632

Flight captures in 1967. 14709

The sphinx moths (Lepidoptera: Sphingidae) of Oklahoma. 14721

Butterfly collections in 1968. 14729

Chromosome numbers in the Lysandra coridon group (Lep., Lycaenidae). 14732

On the ecology of natural dispersal; Dione moneta poeyii in Texas (Nymphalidae). 14747

Contribution to the fauna of Iran. 15. Coleoptera. Tenebrionidae, genus Lobodera. 14754

A review of Glaucopsyche, the silvery blues in California (Lycaenidae). 14757

Faunistic data on aquatic Heteroptera III. Various localities in Europe. 14766

Uncommon butterflies of northeastern Indiana. 14770

The Corixidae (Hemiptera) of Oklahoma. 14773

The aquatic and semiaquatic Hemiptera (Belostomatidae and Saldidae) of Oklahoma. 14774

Lygaeidae (Hemiptera) of Oklahoma. 14775

Diaspididae of Taiwan based on material collected in connection with the Japan-U. S. Cooperative Science Programme, 1965 (Homoptera: Coccoidea). Part I. 14778

Sphecidae collected at Tenerife. 14779

The parasitism of various species of coccids of the Leucapis genus in the Alpes-Maritime Department of France and Corsica. I. Inventory and distribution of Leucapis genus and their parasites (Hymenoptera, Chalcidoidea). 14792

Measurement of field populations of Aedes aegypti with the ovitraps in 1968. 14817

Field observations on forest Oeneis (Satyridae). 14846

The influence of citricultural practices on the composition of soil Acari and Collembola populations. 14861

Lepidoptera associated with pig carrion. 14863

Trends of mite populations in lower Rio Grande Valley citrus groves in 1962-63 and 1966-67. 14867

Injurious insects in 1968. 14870

Studies on bionomics and control measures of Cnaphalocrocis medinalis Guenee; preliminary report. 14872

Development of the most important diseases and pests of crops grown in Poland in the year 1966 and forcast of their appearance in the year 1967. 14920

Influence of successive cereal crops on fluctuations in the gravity of the disease of white heads of wheat (Ophiobolus graminis Sacc.). 14963

Occurrence of zebra-necrosis in Sorghum. 14972

Characteristic of development and noxiousness of the most important diseases and pests of potatoes and sugar beets in the year 1967 in Poland and their forecast for 1968. 14980

Occurrence of physiologic races of wheat and barley rusts in India during 1962--64 and their sources of resistance. 14983

Incidence of and losses caused by some pod-infesting insects in different varieties of pigeon-pea (Cajanus cajan (L.) Millsp.). 15003

Characteristic of development and noxiousness of most important pests and some diseases of fruit trees and small fruits in Poland in 1967 and their forecast in 1968. 15013

Characteristic of development and noxiousness of most important pests and some diseases of leguminous and vegetable plants in Poland in 1967 and their forecast for 1968. 15014

Characteristic of development and noxiousness of the most important polyphagous pests present in Poland in the year 1967 and their forecast for 1968. 15022

Characteristic of development and noxiousness of the most important diseases and pests of industrial plants in Poland in the year 1967 and their forecast for 1968. 15032

Considerations of the results of tests run on wild animals living free and in captivity. 15162

Grain storage fungi associated with mites. 15228

Residues of chlortetracycline in the tissues of poultry after additive feeding with this antibiotic substance. 15245

Pesticides residues control. 15247

Lycia hirtaria (Cl., 1759, a Geometridae not yet identified on all Spanish black poplar trees. (Lep. Geometridae). (Part VIII.). 15310

New mesostigmatid mites from Pakistan with keys to genera and species. 15312

Endoparasitic chiggers: V. New genera, species and records from Venezuela and Brazil (Acarina: Trombiculidae). 15315

Study of entomological fauna of three biotypes at the Peyresq (Basses-Alpes) site with the aid of water jars. 15325

Dispersion and transport of pestiferous insects: Hermetia illucens L. (Diptera, Stratiomyidae). 15326

Contribution to the knowledge of the species of existing Mallophaga in Spain (Anop. Mallophaga). 15328

Coleoptera of the delta of the Llobregat River. VI Notes. 15329

An addition to the Psenini of Spain (Hym. Sphecidae). 15330

Results of a zoological expedition to the islands of Pitiusas III. Neuroptera and Odonata. 15336

Eumenidae captured in the district of Canet de Mar, province of Barcelona (Hym. Eumenidae). 15337

Plant geography of Dicranura iberica Templ. and Ort. (Lep. Notodontidae). 15338

Summary of Syrphidae in Albarracin, province of Teruel, during the summer of 1965. (Dipt. Syrphidae). 15339

Data for a Hymenoptera atlas of Western Europe. X. The Xiphydriidae (Symphyta) family. 15340

Tachinid parasites of the horned passalus beetle. 15363

Ten years of surveillance for western equine encephalitis in Utah. 15372

Epidemiological notes: Two bluetongue epizootics. 15382

Wild turkey ectoparasites collected in the southeastern United States. 15384

Arbovirus studies in the Ohio-Mississippi basin, 1964--1967. II. St. Louis encephalitis virus. 15385

Research on the forest ecosystem. Series Bi The mixed calcicolous oak-crop of Virelles-Blaimont. Contribution no. 23. Diptera collected in water jars. 15386

An oviposition trap for detecting the presence of Aedes triseriatus (Say). 15396

A comparsion of mosquito catches with miniature light traps and CO-2-BAITED traps. 15403

Rat-flea indices, rainfall, and plague outbreaks in Vietnam, with emphasis on the Pleiku area. 15407

Japanese encephalitis virus in Taiwan: Preliminary evidence for Culex annulus Theob. as a vector. 15443

Seasonal distribution of mosquitoes of Hancock County, Mississippi, 1964--1968. 15445

The mosquitoes of the Dar-es-Salaam area, Tanzania, with special reference to Aedes (Stegomyia) species and the epidemiology of yellow fever. 15453

How to collect, prepare and ship plant material for disease identification. 15467

Ornamental and floral crops disease control. 15469

Incidence of Macrophomina phaseoli (Maubl.) Ash., (Rhizoctonia bataticola Taub.) in French beans (Phaseolis vulgaris L.) and other cultivated plants. 15474

Field crop seed treatment. 15505

Virus diseases of horticultural plants in Denmark. 15533

On the occurrence of cocksfoot streak virus. 15578

Intensity of presence and economical importance of more important diseases and pests of small grains in the year of 1967 in Poland. 15592

Diseases--lawns and turf. 15609

Corn insects. 15625

Peanut insects. Seasonal control of thrips, leafhoppers, Southern corn rootworm and wireworm. 15626

Insects on alfafa, clovers and grasses. 15627

Soybeans. 15628

A new report on sugar-beet pests in the area of Baranja, soil Coleoptera taken into special consideration. 15632

Apple spray program. 15634

Peach spray program. 15635

Tree insects and mites. 15640

Certain minor crop pests hitherto unrecorded from the Gujarat State. 15656

Tobacco insects. Plant beds. 15659

Cotton insects. 15660

Flower and shrub insects. 15665

Greenhouse insects. 15666

Vegetable insects. 15668

Blackberry, dewberry and raspberry insects. 15678

Soil fumigants for nematode control in cotton. 15684

Fumigant nematocides for tobacco. 15690

Aquatic weeds. 15709

Chemical weed control in hay crops and pastures. 15719

Chemical control of aquatic plants. 15721

Chemical weed control in fruit crops. 15737

Chemical control of specific weeds. 15752

Chemical control of woody plants. 15753

Section VI.--ANIMAL control. 15758

Bovine brucellosis in the state of Sao Paulo. Incidence in the region of Ribeirao Preto. 15766

Livestock and poultry insects. 15812

Epidemiology of western encephalitis in Alberta: Response of natural populations of mosquitoes to avian host. 15816

Abundance of rodents and fleas as related to plague in Lava Beds National Monument, California. 15817

The effect of simultaneous treatment with hexachlorophene and nitroxynil upon immature Fasciola hepatica in rats and rabbits. 15829

Precipitating antibodies to infection with Fasciola hepatica in rabbits. Geometridae). (Part VIII.). 15830

Household pests. 15840

Chemicals for control of plant diseases. 15881

Weed control. 15884

SUSCEPTIBILITY

Changes in susceptibility of screw-worm flies to the chemosterilant N,N'-tetramethylenebis(1-aziridinecarboxamide), with time of administration. 9362

The presence of Trichinella spiralis (Owen, 1835) in carnivores and wild boars in the delta region of the Senegal River. 11647

SUTURES

The effects of ligaturing Galleria mellonella larvae on total haemocyte counts and on mitotic indices among haemocytes. 14218

SWARMING

An interesting case of swarming of Cicadatra xantes walk. (Homoptera). 15430

SWEET ORANGES

Effect of gibberellic acid on color changes in the rind of three sweet orange cultivars (Citrus sinensis Blanco). 10996

A color test for citrus exocortis in Japan. 14462

SWEET POTATOES

Sweet potato plant treatment. 15560

Sweet potato storage house sterilization. 15834

SWEETCLOVER

Growth regulator studies on soybeans, sweetclover, and alfalfa. 13488

SWEETCORN

Arrestant-feeding stimulant as an additive to shell SD-8447 for control of corn earworm larvae in sweet corn. 10732

SWEETPOTATOES

Metabolism of trifluralin in peanuts and sweet potatoes. 10273

Biochemical studies on the terpene metabolism in sweet potato root tissue with black rot. Effect of C10- and C15-terpenols on acetate-2-14C incorporation into ipomeamarone. 10446

Russet crack--a menace to the sweetpotato industry. III. Role of fungi in the root-lesion phase of russet crack. 10654

The effects of trifluralin on the nucleic acids and carbohydrates content of sweet potatoes and peanuts. (Abstract). 10979

The metabolism of trifluralin by peanuts and sweet potatoes. (Abstract). 10988

Induction of mutants in sweet potato by absorption of 32P. 14092

Sweet potato storage house sterilization. 15511

Sweet potato plant treatment. 15561

SWEP

Effect of herbicides on the valuations of made tea. 9212

SWINE

Swine salmonellosis in a Hawaiian piggery. 8457

Preventing and controlling internal parasites of hogs. 8510

Mycotoxicosis associated with hemorrhagic enterocolitis and abortion in swine. 9062

The effects of ICI 33828 and oxytocin on milk ejection and milk production in the lactating sow. 9074

Stimulation of porcine splenic cultures by a radiationinduced lymphoid leukemia filtrate: a preliminary report. 9078

Etiologic factors of gastric ulcers in swine. 9086

Intoxification of swine with noxious gases. 9095

A tool for combating trichinosis. 9125

Notice of filing of petition regarding pesticide chemicals. 9151

Prostaglandins: Enzymatic analysis. 9687

A biological control for Echinococcus. 9690

Several control measures used in an epizootic of transmissible gastroenteritis. 9738

Cardiovasuclar studies on copper deficient swine. XII. Partial purification of a soluble protein resembling elastin. 9752

Evaluation of parbendazole, a new broad spectrum anthelmintic for swine and sheep. 9762

Experimental production of Heinz bodies in the pig. 9819

Toxoplasma gondii: Isolation of samples starting from the diaphragms of clinically healthy pigs slaughtered in Sao Paulo, Brazil. 10327

Hog cholera and other communicable swine diseases. Miscellaneous amendments. 10328

Inactivated hog cholera virus vaccine. Patent 3,456,053. 10330

Foot lameness in pigs. 10332

Survey of yeastlike fungi and tissue changes in esophagogastric region of stomachs of swine. 10339

Schistosomal cirrhosis in pigs in Jabalpur, M. P.. 10381

Esophegal--gastric lesions in the pig. 10870

Diet consumption, bodyweight change, estrus inhibition and reproductive performance in gilts fed a dithiocarbamoylhydrazine (ICI 33828). 10896

Comparative protection tests of different commerical anti-hog cholera serums against regular and variant hog cholera viruses. 10898

Interference by transmissible gastroenteritis in the immunization of pigs against hog cholera with crystal violet glycerol vaccine. 10899

Effect of added ascorbic acid on copper dificiency in miniature swine. (Abstract). 10902

Recent advances in knowledge of pathogenesis and treatment of fascioliasis. 10916

Natural Streptobacillus moniliformis infection of turkeys, and attempts to infect turkeys, sheeps, and pigs. 11609

Diseases of animals. 11610

Investigations on the incidence of mycoplasma in swine and their significance in enzootic pneumonia and atrophic rhinitis. 11623

Study of gastric function in swine with gastroenteritis. 11629

Morphogenesis and migration of Ascaris suum larvae developing to fourth stage in swine. 11645

A serologic study of pseudorabies in swine. 12143

Investigations on the viruses of the Orphan type occurring in pigs in Poland. VI. Serological com-

parison of pig enteroviruses L1, R3, R16, R24, R36, R59 and C, and of the viruses of human origin REO (ECHO10), AD2, ECHO1 and ECHO2.
12148

Pathologic changes in edema disease of swine.
12152

Innervation of heart of domesticated animals: Pig.
12157

Effects of a pathogenic porcine adenovirus on porcine kidney cell culture.
12170

Rheumatoid arthritis of swine: A comparative pathologic study of clinical spontaneous remissions and exacerbations.
12173

Anthelmintic activity of parbendazole in swine.
12191

The toxicity of alpha-dihydroheptachlor and related compounds to the housefly (M. domestica L.) and their metabolism by housefly and pig liver microsomes.
12422

The metabolism of dihydrochlordene and related compounds by housefly (M. domestica L.) and pig liver microsomes.
12423

Nonstaining phenylenedimethylene-bis-(triphenylphosphonium) salt - inactivated hog cholera virus vaccine. Patent 3,455,782.
12753

Diagnosis of classical swine plague and titration of antisera by passive hemagglutination.
12768

Growth curves in pig kidney cells of three porcine adenoviruses.
12774

On the focus of trichinellosis of swine with epidemiologic implications.
12822

On the host specificity of ascarids of human and pig origin.
12847

On the specificity of the nematode Trichocephalus suis Schrank, 1788.
12848

Metastrongylosis of swine originating from the Lublin Palatinate.
12860

Oedema disease in pigs.
13370

Worms in pigs.
13411

Intestinal parasitism in swine in the northern department.
13414

Parasitic zoonoses of the food animals.
13949

A comparative study on the pathological picture of transmissible gastro-enteritis (TGE) and E. coli gastroenteritis in newborn piglets with special reference to the gastro-intestinal tract.
13951

Rhabdomyoma in pigs.
13961

Hyposiderosis and its specific therapeutics.
13982

Practical aspects in the application of iron-dextrin.
13985

Earthworms, Eutyphcus waltoni and Pheretima sp. as transport-hosts of swine kidney worm, Stephanurus dentatus in Bihar, India.
14025

Identification of hog-cholera virus in frozen pork imported from China.
14556

Isolation of Toxoplasma gondii from swine and cattle. following pesticide treatments.
14558

Studies on a new intramuscular haematinic for piglet anaemia.
14573

Attenuation of hog cholera virus in the carrier cell strains established from kidneys of pigs experimentally infected with the virulent virus.
14576

Study of the practicability of various diagnostic methods in the demonstration of swine fever virus of high and low virulence in organs of experimentally infected pigs.
14595

Experimental inactivated-virus hog cholera vaccines: Induction period of immunity.
14601

Vaccination against leptospirosis: Protection of hamsters and swine against renal leptospirosis by killed but intact gamma-irradiated or dihydrostreptomycin-exposed Leptospira pomona.
14617

Serological study on Brucellosis and Leptospirosis in swine of the Oriental Republic of Uruguay.
14938

Diagnostic importance of Taylor's tests used in pigs diseased by swine plague.
15169

Observations of a source of Strongyloides ransomi in the pig, dog and man, and of Strongyloides Westeri in the pig.
15204

Prophylactic efficacy of pyrantel against Ascaris suum in swine.
15207

Wild hogs as a source of trichinellosis epidemic in Vojvodina.
15212

Pesticides residues control.
15247

Comments on an outbreak of food toxiinfection with Salmonella typhimurium in an open community.
15763

On etiology and spread of atrophic rhinitis in swine at swine farms in Bosnia and Herzegovina.
15772

E. coli gastroenteritis in weaned piglets and attempts at the application of immunoprophylaxis.
15801

The role and importance of mold in the occurrence of alimentary intoxications in swine. (1.Experimental toxication of piglets with mold feed).
15802

Role of interferon in enhanced replication of Newcastle disease virus in swine cells infected with hog cholera virus.
15807

SWINE ADENOVIRUS
Growth curves in pig kidney cells of three porcine adenoviruses.
12774

SWINE PLAGUE
Diagnostic importance of Taylor's tests used in pigs diseased by swine plague.
15169

SYMBIOSIS
Fungal-insect mutualism in trees and timber.
8125

On the Schizophyta-like appearance of the flagella of termite symbionts.
8790

Observations on the life history and bionomics of Oligotoma ceylonica ceylonica Enderlein (Oligotomidae, Embioptera), commensal in the nest of the social spider Stegodyphus sarasinorum Karsch.
9978

Distribution of rickettsia Dermacentroxenus sibiricus in the organisms of ticks Ornithodoros lahorensis Neumann, Alveonasus canestrinii Bir. (Argasidae, Ixoidea).
10561

The coffee root mealybug complex.
10711

The effect of some trace elements on growth, reproduction, and symbionts of artificially fed Neomyzus circumflexus Buckt. (Aphidae, Homoptera, Insecta).
11265

Interpretation of the structures called centrioles in the Hypermastigian symbiotes of termites and of Cryptocercus.
11290

A study of the oxidases in the xylophagous insect, Ips sexdentatus and in its microbial flora.
11331

The chemical basis for the attine ant-fungus symbiosis. Absence of antibiotics.
11341

Symbiontic interrelationships between microbes and ambrosia beetles. III. Ergosterol as the source of sterol to the insect.
11359

Symbiosis of the Anobiidae with yeastlike fungi.
11838

Fig wasps: Mechanism of pollen transfer.
11872

Lysozyme action on the cockroach, Periplaneta americana, and its intracellular symbionts.
11898

The complex of fungi essential to the growth and development of Xyleborus sharpi in wood.
11927

On the symbiosis of xylo-mycetophagous and phloeophagous Scolytoidea with wood-inhabiting fungi.
12112

Shot-hole borer of tea plant in Japan.
12475

The insect fauna in the burrows of the long-clawed molevole, a Caucasian endemic species.
14154

Epizoic symbiosis.
14203

SYMPHORICARPOS
Response of ironweed and buckbrush to herbicides and to herbicides in combinations with mowing, nitrogen fertilizer, and surfactants.
10303

SYMPHYTA
New Bulgarian fauna of phytophageous wasps (Symphyta, Hymenoptera).
9946

Hymenopteran Symphyta of Turkey.
11415

Data for a Hymenoptera atlas of Western Europe. X. The Xiphydriidae (Symphyta) family.
15340

SYMPOSIA
Diseases of tea, coffee and rubber discussed at the First International Congress of Plant Pathology.
8280

The major insect pests of the rice plant - proceedings of a Symposium of International Rice Research Institute, September, 1964.
8352

Symposium on the principles of the application of microbiological preparations in nature.
10249

Symposium: Recent advances in veterinary research.
10838

Wood and organisms; International Symposium, Berlin-Dahlem, 1965.
11919

Report of the symposium on virus diseases of rice.
12074

Symposium on the action of entomopathologic viruses and fungi on the vertebrates.
12895

Proceedings of the first scientific Symposium on the Cultivated Mushroom and the Sixth International Congress on Mushroom Science, Amsterdam.
14918

SYMPTOMATOLOGY
The effects of an acute DDT exposure on the spontaneous electrical activity of goldfish cerebellum.
8558

A fruit rot of strawberries caused by Zythia fragariae.
8986

A fungus of the onion, new for italy: Botrytis squamosa Walker.
9562

Occurrence of rose streak virus in South africa.
9575

Blastemomorphous stage of formation of galls caused by infection by Ustilago maydis (D. C.) Cda on leaves of Zea mays L.
9606

Transmission intensity of stolbur virus by means of Hyalesthes obsoletus Sign. on some host plants.
9619

Sclerotinia rot (Sclerotinia sclerotiorum).
10678

Gum-pocket, a new virus-like disease of Poncirus trifoliata.
10700

Feline anaphylaxis: Some observations.
10841

A note on an outbreak of rabies in horses.
10875

Muscular dystrophy in the Cornish chicken. (Abstract).
10903

A contribution to the knowledge of the viruses and virussuspect diseases of oaks (Quercus spp.).
11949

Yellow virus effects on macro- and micro-elements in 'Montmorency' sour cherry leaves.
11989

Gnomonia erythrostoma (Pers.) Auersw.- A parasite of the apricot tree (Prunus armeniaca L.).
11997

A contribution to the study of the parasite Cercosporella herpotrichoides on the wheat.
13247

A contribution to the knowledge of speed of expansion of plum pox virus in natural conditions.
13264

Further investigations on an abnormality of potato tubers.
13280

Possible occurrence of tungro and yellow dwarf viruses on rice in Mysore.
14948

Brown rot of stone fruits.
14964

Cow-parsnip (Heracleum sphondylum) mosaic virus in Finland.
14981

Serious equine viruses.
15172

The identification, in France, of necrosis of the cerebral cortex (N.C.C.) in different types of ruminants.
15189

Infection by Brachylaema fuscata (Rudolphi, 1819) in the domestic pigeon.
15219

Some pathological aspects of animal schistosomiasis in the Sudan.
15221

On the chronic action of tetramethylthiuramidesulphide (TMTD) in hens and the quality of the eggs produced by them.
15268

Forage nitrate poisoning.
15270

SYNANTHEDON PICTIPES

Sex attraction and mating of lesser peach tree borer moths.
8214

SYNANTHEDON TIPULIFORMIS

The currant borer (Synanthedon tipuliformis).
12073

SYNCHYTRIUM ENDOBIOTICUM

Elements for the differentiated application of quarantine and control measures of potato canker.
10221

Breeding for disease resistance in the potato.
13765

Experiments on the effect of sludge compost on the wart disease of potatoes.
14986

SYNERGISM

Use of the multiple regression equation in the prediction of the insecticidal activity of anticholinesterase insecticides.
8143

Biological interaction between plasticizers and insecticides.
10058

The metabolism of dihydrochlordene and related compounds by housefly (M. domestica L.) and pig liver microsomes.
12423

SYNERGISTS

On the effect of synthetic synergists upon the knockdown speed of pyrethroids against larvae of the common house mosquito, Culex pipiens pallens Coquillett.
8158

Synergism in the chemotherapy of Fascioliasis.
9084

Some principles of the selection of the synergists for organophosphorous pesticides.
11072

The effects of synergized pyrethrins and lindane on pre-emergence mortality of Acanthoscelides obtectus (Say.) (Coleoptera: Bruchidae).
13314

The interaction of pesticides with other factors.
14063

Yorlex for plastic greenhouse soil fumigation.
14929

SYNGAMOSIS

Vaccination against syngamosis in chicks, young pheasants and turkey-poults.
14028

SYNOVIAL MEMBRANE

Tissue distribution of sulfadimethoxine and sulfamonomethoxine in horses after intravenous injection.
15798

SYNTHESIS

Quantitative determination of DNA content during formation of one of the puffs and one of the Balbiani rings in Chironomus dorsalis.
8264

Control of helminthiasis with a series of 2-(omega-(2-thienyl)alkyl)-, 2-(2-(2-thienyl)vinyl) and the corresponding isomeric 3-thienyl derivatives of thiazoline and 5,6-dihydro-4H-1,3-thiazine. Patent 3,458,633.
8447

RNA synthesis in chick embryo cells infected with defferent strains of NDV.
8449

Effect of 5-fluorouracil and 5-bromo-2'-deoxyuridine on the induction of thymidine kinase in polyoma virusinfected mouse embryo cells.
8488

Biochemical studies on Bakanae fungus. Part 74. Synthesis of substances related to gibberellins. Part XVI An alternate synthetic route to a gibbane-10-carboxylic acid.
8586

Isolation of the novel regulatory mutants of the tryptophan biosynthetic system in Escherichia coli.
8602

Nortricyclic-3-ureas and their herbicidal compositions and methods of use. Patent 3,454,393.
8606

Process for the manufacture of a pesticide from petroleum hydrocarbons. Patent 3,454,664.
8609

Nucleic acid synthesis in nurse cells of Rhynchosciara angelae Nonato and Pavan, 1951.
8705

Metabolism of insecticides. Microsynthesis of 14C-betadihydroheptachcor.
9452

Specific inhibition of TMV-RNA synthesis by blasticidin S.
9569

Synthesis of uridilic nucleotides and TMP in bone marrow of chicks infected with the avian myeloblastosis virus.
9706

The effects of hydroxyurea on cultured somatic cells of the Chinese hamster, Cricetulus griseus.
9733

Infection structures from rust urediospores: Effect of RNA and protein synthesis inhibitors.
9829

Effect of inhibitors of nucleic acid and protein synthesis on the reappearance of light interruption rhythm in a long-day duckweep, Lemna gibba G3.
9838

Synthesis of benzothiazolylguanidines as antituberculars and antibacterials.
9847

Effect of antiserum to E. coli DNA polymerase on synthesis of phi chi 174 DNA extracts of phi chi infected cells.
9848

Syntheses of pyridazine derivatives as herbicides Part III. Preparation of 3- and 4-phenoxypyridazines.
9851

Syntheses of 14C-labeled pyrethrin I, allethrin, phthalthrin, and dimethrin on a submillimole scale.
9859

Studies on the biosynthesis of TMV. I. A system approaching a synchronized virus synthesis in a tobacco leaf.
10210

Conversion of heptachlor to its epoxide.
10478

Effect of gibberellic acid on color changes in the rind of three sweet orange cultivars (Citrus sinensis Blanco).
10996

Biochemical and autoradiographic studies of DNA synthesis in the salivary gland of the melonfly, Dacus cucurbitae.
11278

Protein synthesis and nucleic acid metabolism in the fat body of the larva of the blowfly, Calliphora erythrocephala.
11372

Biosynthesis of glucosyl diglycerides by Mycoplasma laidlawii strain B.
11624

Synthesis and pesticidal activity of phenazines II.--ALKYL, alkoxy, alkylthio and alkylsulphonyl phenazines.
11707

Facet-inhibitory effect of certain chemicals on the compound eyes of Drosophila melanogaster.
11839

Programmed cell death. Activation of lysis by a mechanism involving the synthesis of protein.
11849

Experiments of in vitro cultures of larval epiderm of desert locust (Schistocerca gregaria Forsk).
11862

The synthesis in vitro of the protein calliphorin by fat body from the larva of the blowfly, Calliphora erythrocephala.
11866

An investigation of haemolymph protein economy during the fifth instar of Locusta migratoria migratorioides.
11889

Lipid metabolism in helminth parasites. VII. Triglyceride synthesis in Hymenolepis diminuta (cestoda).
12821

Synthesis and experimental investigation of a new anthelminthic, monopar. 12896

A preliminary study of the rodenticidal activity of some derivatives of 2-arylindandione-1,3 and 2-arylacylindandione-1,3. 12897

Beta-dialkylaminoalkyl ethers and thioethers. Patent 3,446,843. 12912

Product of catalyzing polyurethane formation by means of 2-mercaptobenzothiazoles,thiazoles, oxazoles, imidazoles and imidazolines. Patent 3,446,779. 12914

Process for producing an antifungal and antiprotozoal substance. Patent 3,458,402. 12919

Novel process for the preparation of transchrysanthemumic acid. Patent 3,445,499. 12922

Methods of manufacturing 2,6-dichlorobenzamide. Patent 3,444,166 (United States). 12924

DNA replication in salivary gland nuclei of Drosophila melanogaster at successive larval and prepupal stages. 13201

Sites of virus synthesis within cells. 13285

Hormonal control of enzyme synthesis: On the mode of action of gibberellic acid and abscisin in aleurone layers of barley. 13471

Effect of ethylene and gibberellic acid on auxin synthesis in plant tissues. 13496

Antidotes for organophosphate poisoning. I. Synthesis of 1-(quaternary ammonium)-3-(hydroxyiminomethylpyridinium)propane dibromides. 13514

Synthesis of new fungicides. 2-(4'-arylthiazolyl-2'-imino)3-aryl-4-thiazolidones. 13516

Studies of antibiotics and related substances. XXXII. Syntheses of neamine and its analogue. 13519

The utilization of glycine for protein sythesis in th silk gland by fifth-stage Bombyx mori larvae. 13671

Effect of leaf rust infection on the conversion of glucose-u-14C into amino acids in excised leaves of ponca wheat. 13763

Biosynthesis of sporidesmin from amino acids. 14097

Ecdysone and DNA synthesis in cultured wing disks of the wax moth, Galleria mellonella. 14250

Synthesis and reactions of a proposed DDT metabolite, 2,2-bis(p-chlorophenyl)acetaldehyde. 14701

Measurement of the synthesis of plant viruses through the incorporation of radioactive precursors of ribonucleic acid. 14962

Synthesis of RNA in extracts of leaf-cells infected by photoviruses. 14990

Characterization of ribosomes isolated from posterior silkgland. 15374

Developmental changes in the late larva of Calliphora stygia. II. Protein synthesis. 15397

RNA synthesis in tobacco leaves infected with tobacco mosaic virus. 15470

Considerations on chemotherapeutics research in plant virology. 15585

Effects of herbicides on rna and protein syntheses. 15887

The significance of alleleopathy for the synthesis of vegetation. 15897

SYRPHIDAE

Air swallowing- an effective protection against drowning in larvae of Epistrophe balteata (Syrphidae Dipt.). 8185

Materials concerning the knowledge of Syrphidae (Diptera) of Afghanistan. 9258

Height preferences for oviposition of aphidophagous Syrphidae (Diptera). 9356

The effect of removal of arthropod predators on an infestation of Brevicoryne brassicae (Hemiptera, Aphididae) on brussels sprouts. 10260

Syrphidae collected mostly in southern areas of the Okanagan Valley, British Columbia. 11104

A new Eristalis species from east Slovakia. (Diptera, Syrphidae). 11125

Syrphidae in 1967. 11142

A new Eumerus (Syrphidae, Diptera) from Corsica. 11143

Italian Syrphidae (Dipt.). 13557

The representatives of the Syrphinae of the Netherlands (Diptera, Syrphidae). 13572

Laboratory investigations on the effect of aphicides available in Poland on the most important natural enemies of aphids. 13702

Cytology and cytochemistry of spermatogenesis in two millipedes Phyllogonostreptus nigrolabiatus and Gonoplectus malayas. 14219

Flight captures in 1967. 14709

Contribution to the biological study of Xanthandrus comtus Harr. (Diptera, Syrphidae). 14841

Summary of Syrphidae in Albarracin, province of Teruel, during the summer of 1965. (Dipt. Syrphidae). 15339

SYSTEMIC FUNGICIDES

Uptake of Vitavax (DCMO) by germinating cottonseed. 9825

Chemical control of loose smut in barley in Minnesota. 10174

Methods of determination of the systemic and fungitoxic properties of chemicals applied to plants with emphasis on control of Verticillium wilt with Thiabendazole and Benlate. 10181

A systemic oxathiin fungicide to control loose smuts, covering smuts, seed rots, and seedling blights of wheat, barley, oats, and sorghum. 10189

Control of loose smut of wheat and barley in Arkansas with fungicides. 10192

Chemical control of wheat and barley loose smut. 10194

Effect of two systemic fungicides on control of loose smut in wheat. 10195

Efficacy of oxathiin fungicides for control of loose smut in barley. 10199

Preliminary observations on the treatment of wheat and barley with a fungicide to control loose smut in England. 10200

Chemical control of loose smut in barley. 10214

Results obtained with a systemic oxathiin fungicide in France. 10220

The systemic fungicide 2,3-dihydro-5-carboxanilido-6-methyl1,4-oxathiin. 10222

Seed treatment trial, 1967. 10229

Fungicides in perspective. 13240

A system for screening of rare events in genes of Drosophila melanogaster. 14289

Control of powdery mildew of cucurbits with systemic and nonsystemic fungicides. 14428

On the control of primary infections caused by Pseudoperonospora humuli. 14958

SYSTEMIC INSECTICIDES

Pesticide usage in relation to beekeeping. 8075

Viruses-agents of disease. 8281

Systemic insecticides in trees. 8585

Selective toxicity of systemic insecticides. 8845

The effects of combinations of preemergence herbicides and systemic insecticides on cotton stands and yields. 9196

Alkyl and aryl 4-(methylcarbamoyloxy) carbanilates. Patent 3,450,745. 9447

Systemic control of Exobasidium vexans on tea with 1,4-oxathiin derivatives. 9613

Preliminary studies on toxicity of Ronnel-Dow Et 57 in sheep. 9814

Influence of the quantity of insecticide per seed and per hectare on seed treatments for cereal leaf beetle larvae control on oats. 12080

Control of aphids in seed potato production. 13322

Trials with Neguvon in the control of Hypoderma lineatum. 13404

New double-duty insecticide. 13825

Persistent toxicity of some systemic insecticides to little honey bees. 14260

The importance of the site of food up-take of plant-sucking insects for use of systemic insecticides. 14835

The use of systemic insecticides to reduce the incidence of curly top virus disease in sugarbeets. 15019

T, 2,4,5-

Some ecological benefits of woody plant control with herbicides. 8395

Some ecological henefits of woody plant control with herbicides. 8396

Control and elimination of noxious weeds. 8404

The response of brush to picloram, dicamba, 2,3,6-TBA and phenoxy herbicides. 8435

Effects of five herbicides on three green algae. 9048

Note on the determination of some chlorophenoxy herbicides and their esters in water.
9143

Response of tropical vegetation to herbicides.
10275

Light intensity and the absorption and translocation of 2,4,5-T by woody plants.
10276

Effects of 2,4,5-T during the approach of woody plant dormancy.
10311

Growing Christmas trees on a power line right-of-way.
10485

Winged elm control with picloram and 2,4,5-T with additives (Abstract).
10777

Control of winged elm (Ulmus alata Michx.). (Abstract).
10789

Comparison of radioisotopic and gas chromatographic methods for measuring absorption and translocation of 2,4,5-T by mesquite. (Abstract).
11015

Weed control in the forest.
11564

Nursery investigations. Weed control.
11565

The present stage of weed chemical control in rice fields.
11574

Direct detection of ionizable herbicides by electrophoresis.
11710

New cactus weed danger in Natal.
12095

Herbicides have little effect on plant-animal relationships.
12212

Effects of 2,4,5-T and dibutyl phthalate on bloodwood (Eucalyptus dichromophloia).
12705

Control of live oak by herbicides applied at various rates and dates.
12707

Effect of simulated rainfall on herbicide performance.
12708

Winged elm control with picloram and 2,4,5-T with and without additives.
12720

Response of oak and red maple to herbicides applied with an injector.
12742

Woody plant shoot management and response to herbicidal treatment.
12745

Bushes in natural grasslands can be controlled.
13915

Control of plumeless thistle.
15107

Chemical weed control in pasture, range and hayland.
15129

Sandalwood (Eremophila mitchellii) control in gidyea country.
15135

Studies on the effect of plant growth regulators on the rooting of air layers of Darcaena rosea-ferrea L.
15279

Herbicide concentrations in live oak treated with mixtures of picloram and 2,4,5-T.
15697

Herbicides in forestry.
15701

Response of turkey oak to 2,4,5-T as a function of final formulation oil content.
15744

Selective control of plains pricklypear in rangeland with herbicides.
15749

TABANIDAE

The types of tabanids in the zoological collection of the Bavarian States in Munich (Diptera, Tabanidae).
8049

Descriptions of new Neotropical Tabanidae and new records for Argentina.
8658

Culicidae and Tabanidae as potential vectors of anaplasmosis in Mississippi.
9107

Notes on parasites of immature Tabanídae (Diptera) and descriptions of the larva and puparium of Carinosillus pravus (Diptera: Tachinidae).
9392

Studies on Tabanus (Lophotabanus) importunus Wiedeman, 1828 (Diptera, Tabanidae).
11151

Tabanidae (Diptera) of Morocco. IV. Identification of Pangonius hassani n. sp..
11164

The males of Tabanus spodopteroides.
11182

Tabanidae.
12336

Tabanidae (Diptera) of Morocco, III. description of Tabanus choumarae n. sp.
12364

Tabanidae of Cameroon. I. Description of new species.
12374

Seasonal distribution of Tabanidae (Diptera) at Texas Hollow, New York in 1968.
12981

Effect of starvation on the sensitivity of tarsal and labellar contact chemoreceptors in Hybomitra lasiophthalma (Diptera: Tabanidae).
13075

Biological studies of Tabanidae: A preliminary study of female tabanids attracted to a bait animal.
13116

Unique problems in insect and pest control of NASA'S Mississippi test facility.
13221

A feeding association between Hippelates (Diptera: Chloropidae) and Tabanidae on cattle: Its possible role in transmission of anaplasmosis.
13406

Phosphorus-32 for marking Tabanidae (Diptera).
13604

Notes on Argentine tabanids (Insecta, Diptera). VII. The tabanids of the Parana River delta.
14728

Epidemiological notes: Two bluetongue epizootics.
15382

TABANUS

Supplemental notes on the far eastern Biannularis group of Tabanus.
9311

The males of Tabanus spodopteroides.
11182

Arthropods in the diet of the cattle egret, Bubulcus ibis, in southern Louisiana.
12812

Tabanid larval habitats and population densities in an alluvial area in southern Louisiana.
13146

Tabanid hosts in estuarine and alluvial areas of Louisiana.
13407

TABANUS BROMIUS

Electrophysiological study of contact chemoreceptors in bloodsucking Diptera.
8907

TABANUS LINEOLA

Daily flight activity of male Tabanus lineola var. hinellus Philip (Diptera: Tabanidae) in the estuarine area of Louisiana.
15423

TABLES (DATA)

Variation-statistical research on the female of Formica lugubris Zett.
8153

On the arrangement of genes of 28s and 18s ribosomal RNA'S in Drosophila melanogaster.
8259

Nematodes associated with soybeans in Alabama, Florida, and Georgia.
8389

Pathogenicity of a nuclear-polyhedrosis virus of the beet armyworm, Spodoptera exigua.
8774

Etiella zinckenella Treit-a pod borer pest of Crotalaria anagyroides H.B.K.
8778

Simultaneous infection with the nucleopolyhedrosis and granulosis viruses of Trichoplusia ni.
8800

Trithion-a new acaricide.
8814

The method and role of vertical transmission of a nucleopolyhedrosis virus in the European spruce fly, Diprion hercyniae.
8818

Preliminary studies of the release in 1965 on the island of Chalki, of Opius concolor Szepl. (Hymen, Braconidae) a parasite of Dacus oleae Gmel. (Dipt. Trypetidae).
8864

Factors affecting the sex ratio of Aphytis proclia Wlk. (Hymenoptera, Aphelinidae), external parasite on the San Jose scale.
8873

The development of resistance in Cladosporium cucumerinum against 6-azauracil, a chemotherapeutant of cucumber scab, and its relation to biosynthesis of RNA-PRECURSORS.
8944

Integrated chemical control of insects and biological control of mites on apple in Washington.
9010

A review of lepidopterous pests of coniferous forests in the Baykal Region.
9019

On the merit of simple pricking with R2B (Mukteswar strain) for effective vaccination against New Castle (Ranikhet) disease.
9092

Effect of herbicides on the valuations of made tea.
9212

Artificial biological control of the olive fruit fly (Dacus oleae Gmel.) by means of Opius concolor Sz. siculus Mon. on the Lipari Islands (Sicily). July-September 1965.
9429

Studies on the yellow fever in Ethiopia. 4. Entomological research at the Manera station.
9522

Weather, development of vines, diseases, pests and damages in the wine-growing areas of the Federal Republic of Germany in 1967.
9528

Mississippi hybrid corn performance tests, 1968.
9534

Virus ratings of corn strains in missouri, 1968.
9617

Synthesis of uridilic nucleotides and TMP in bone marrow of chicks infected with the avian myeloblastosis virus.
9706

An attempt to isolate high polymerized deoxyribonucleic acid from Brucella abortus.
9707

The effects of hydroxyurea on cultured somatic cells of the Chinese hamster, Cricetulus griseus.
9733

Heterogeneity values of insecticide, fungicide or herbicide deposits and of their residues.
9853

Designation used, chemical name, source, and trademark name of each fungicide mentioned in this compilation.
10172

Research on pollution of crops, soil and shallow bodies of water in Liguria, through residues of some organochlorinated pesticides.
10395

Tests of the control of potato mildew in the Trentino region.
10647

Experimental tests in the control of Heterodera schachtii Schm.
10762

Problems of the use of herbicides in potato cultures.
10771

The effect of the rimino phenazene B663 (G30320) on preclinical M. johnei infections in sheep.
10864

The use of Tetrahymena pyriformis Ehren. for the detection of residues of organic fungicides.
10937

Interaction of gibberellic acid and light on the germination and growth of seedlings of Gossypium herbaceum L. var. Digvijay.
10968

Investigation of the interaction between weed control and fertilization of vineyards.
11024

Report of the 1965 West Virginia oak wilt program.
11462

A new contribution to the use of damp sulphur against the mildew of grapes: Experimental results.
11484

Research on the ecological system of the forest. Series C: Oaks of Mesnil-Eglise (Ferage) with Galeoblolon and Oxalis. Contribution no. 5. Insects collected in water jars.
11819

About foot- and stem diseases of wheat with special consideration of (2-chloroethyl) trimethylammonium chloride.
11951

Studies in fungitoxicity, VI. Fungicidal activity of certain 2-(substituted thio)-5-(2,4-dinitrophenylthio)-1,3,4-thiadiazoles and related compounds.
12010

The possibilities of using methylmercaptotriazines for the chemical control of weeds in cultivated plants in agriculture and horticulture. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
12100

Experiences with the use of herbicides in cabbage cultures. In: collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
12105

Tests aimed at the determination of the sensitivity of fruit trees to simazine. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
12250

Evaluation of post-emergence herbicides in the greenhouse. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
12295

Organophosphorus compounds. VI. -Structure and activity of certain 4-(diethoxyphosphino hioylthiomethyl)4H-1,3,4-oxadiazoline-5-thiones, of certain 4-diethoxyphosphino hioylthiomethyl-thiazoles, and related compounds.
12514

Control of leaf and stem rusts of wheat by combinations of soil application of an 1,4-oxathiin derivative with foliage sprays.
13234

Occurrence in Cochliobolus heterostrophus of capacities to blight gramineous hosts.
13276

Tests on the control of nematodes of the genus Meloidogyne on tobacco.
13343

Chemical weed control in wheat: Comparison among various time periods of application and among old and new herbicides.
13345

Relative efficacy of different insecticides, as contact poisons, to the larvae of the diamond-black moth, Plutella maculipennis Curtis (Lepidoptera: Plutellidae).
14122

Aziridinyl chemosterilants for house flies.
14186

Effect of silvicultural practices upon arthropod, annelid, and nematode populations in coniferous forest soil.
14317

Effects of gamma irradiation on prickly pear cactus.
14325

Sugarcane diseases in the Punjab--A survey report.
14440

A study on the correlation of citrus nematode population with decline of citrus.
14505

Simultaneous control of Apera spica venti and broad leaf weeds through soil herbicides. (Test results in upper bavaria 1965-1967).
14529

Systemic activity of zectran, matacil and bidrin injected into conifer trunks.
14656

Sprayer calibration and nozzle selection charts.
15304

Method for testing the health condition of lettuce seeds.
15544

Resistance of varieties of Portuguese wheat, Triticum aestivum L. em. Thell., to the wheat stem sawfly.
15677

Endrin induced trace metal alterations following acute exposure.
15849

TACHINIDAE

Insect parasite complex berseem armyworm Spodoptera exigua (Hubn.) (Lepidoptera, Noctuidae).
8082

Effect of temperature on the progeny production and longevity of Lespesia archippivora in the laboratory.
8093

Rearing Phryxe caudata Rond. (Larvaevoridae), a parasite of Thaumetopoaea pytocampa Schiff. on an alternate host: Galleria mellonella.
8744

Hyalomyodes triangulifer parasitizing the cereal leaf beetle, Oulema melanopus.
8897

Several new Tachinidae of Melanesia (Dipt., Tachinidae).
9302

Observations on the parasites (Hymenoptera, Diptera) of Trichotaphe levisella Fyles (Gelechiidae, Lepidoptera) with nottes on the host.
9342

Notes on parasites of immature Tabanidae (Diptera) and descriptions of the larva and puparium of Carinosillus pravus (Diptera: Tachinidae).
9392

Materials for identification of parasites of some noxious forest insects.
9469

Laboratory studies of Eucelatoria armigera, a tachinid parasite of Heliothis spp.
10040

New hosts of two tachinid flies (Diptera).
11765

Parasitization of Nabis alternatus by Leucostoma simplex in eastern South Dakota.
12072

The first instar larvae of the genus Trixa Meigen and remarks on the systematics and nomenclature of this genus (Diptera, Larvaevoridae).
12401

A study of the mortality factors acting upon Cyzenis albicans (Fall.), a tachinid parasite of the winter moth (Operophtera Brumata (L.)).
12462

An index-catalogue of the genus-group names of Oriental and Australasian Tachinidae (Diptera) and their type-species.
14129

Tachinid parasites of the horned passalus beetle.
15363

TAENIA

Parasites as biological models.
8507

Parbendazole in treatment of intestinal nematodes of dogs and monkeys.
9775

Early development of Taenia crassiceps in the intermediate host,with a note on primitive cell types.
11642

Growth rate of two Taenia crassiceps strains.
12828

Taenia crassiceps: Insulin and carbohydrate metabolism in larval forms.
13415

TAENIA HYDATIGENA

Immunological responses of the mammalian host against tapeworm infections. VIII. Some evidence against cellular immunity induced in sheep by activated embryos of Taenia hydatigena and T. ovis.
8491

The effect of gastro-intestinal secretions on taeniid egg membranes.
10374

TAENIA OVIS

Immunological responses of the mammalian host against tapeworm infections. VIII. Some evidence against cellular immunity induced in sheep by activated embryos of Taenia hydatigena and T. ovis.
8491

Sheep measles.
15831

TAENIA PISIFORMIS

Does cottontail sex or age affect incidence of Taenia pisiformis cysticerci.
8511

The effect of gastro-intestinal secretions on taeniid egg membranes.
10374

TAENIA SAGINATA

The effect of gastro-intestinal secretions on taeniid egg membranes.
10374

TAENIA SOLIUM

Epidemiological considerations on Teniasis in the Birlad District.
15828

TAENIA TAENIAEFORMIS

Efficacy of niclosamide in the treatment of Taenia taeniaeformis infections in cats.
14646

Aerobic and anaerobic metabolism of larval and adult Taenia taeniaeformis. III. Influence of some cations on glucose uptake, glucose leakage, and tissue glucose.
15203

TAENIASIS

Efficacy of niclosamide in the treatment of Taenia taeniaeformis infections in cats.
14646

Epidemiological considerations on Teniasis in the Birlad District.
15828

TAENIOTHRIPS

Thaeniothrips vuilleti Bagnall 1933 and Thaeniothrips falsus Priesner 1936.
8061

Investigations concerning the taxonomy of German Thysanoptera. 5. Thaeniotrips linariae Pr. 1928 and Thaeniotrips hildae Tck. 1956.
8062

A preliminary review of the genus Homochaetothrips gen.-n., with brief description of a new species (Thysanoptera: Thripidae).
11757

On some species of Taeniothrips Serville and Thrips Linn with further notes on Hyaloptérothrips roonnsali Bhatti from India.
12335

TAGETES
Chemical weed control in direct seeded marigolds.
8412

Effect of several herbicides on flower production, growth and weed control in marigolds.
8590

TAGETES ERECTA
Effect of root extract of Asparagus racemosus Tagetes erecta on hatching of eggs of Meloidogyne javanica Meloidogyne arenaria.
11559

TAGETES PATULA
Influence of growing marigolds, weeds, two cover crops and fumigation on subsequent populations of parasitic nematodes and plant growth.
13889

TAHYNA VIRUS
The relation of virus Tahyna to some species of mosquitoes of the genera Aedes, Culex and Anopheles.
15444

TAKE-ALL
Studies on the nutrition and development of Gaeumannomyces graminis (Sacc.) von Arx et Olivier, the causal organism of the take-all disease of cereals.
8951

Eyespot and take-all disease trends in continuous malting barley growing trials.
10636

Relationship of take-all infection levels and reduction of wheat and barley grain yields.
10637

TALITRUS SALTATOR
Ecological research on arthropods of a sandy beach of the Mediterranean. II. The migrations of Talitrus saltator (Montagu) (Crustacea-Amphipoda).
8122

TAMARIX PENTANDRA
Greenhouse studies with hygroscopic compounds as additives to phenoxy herbicides for control of saltcedar (Tamarix pentandra Pall.). (Abstract).
10785

TANNIC ACIDS
Effect of tannic acid and ellagic acid on the infectivity of potato virus X in tissue culture.
12038

TANNINS
Pathological changes in the trunk of Prunus armeniaca L. and their relationship to the premature death of apricots. 1. Investigations in the area of wood structure.
8308

Hormonal control of turnover of tyrosine and tyrosine phosphate during tanning of the adult cuticle in the fly, Sarcophaga bullata.
9465

Internal perfusion of crayfish giant axons: Action of tannic acid, DDT, and TEA.
11393

TANYTARSUS GRACILENTUS
Population differences in Tanytarsus gracilentus (Holmgr.) (Dipt., Chironomidae).
11335

TAPHRINA
Studies on hypertrophic disease of cherry (genus Prunus), so-called witch's broom caused by Taphrina wiesneri. Ii On the phenolic acids and their related compounds, especially on melilotic acid in infected Japanese flowering cherry leaves.
11968

Studies on the hypertrophic disease of cherry (genus Prunus), so-called witch's broom caused by Taphrina wiesneri. I. On the metabolites of T. wiesneri.
11969

TAPHRINA DEFORMANS
Peach leaf curl (Taphrina).
14413

TAPHRINA MACULANS
Some factors affecting incidence of leaf spot of turmeric by Taphrina maculans butler.
14468

TAPINOMA SESSILE
Odorous house ant feeds on photographic film.
10386

TARAXACUM OFFICINALE
Control of dandelion and spotted-spurge in lawn turf with herbicides.
8423

TARSONEMIDAE
Further studies on the Tarsonemidae, II (Acarina).
8672

Fine structure of leukocytes adhering to the cuticle of Ascaris suum larvae. II. Polymorphonuclear leukocytes.
14638

Review o[illegible]olarctic tarsonemid mites (Acarina: Prostigmata)parasitizing eggs of pine bark beetles.
14761

Problems posed by Acarina to floriculture.
15637

TARSONEMUS ADAMSI
Further studies on the Tarsonemidae, II (Acarina).
8672

TARSONEMUS CONFUSUS
Further studies on the Tarsonemidae, II (Acarina).
8672

TARSONEMUS SUMMERSI
Further studies on the Tarsonemidae, II (Acarina).
8672

TARTRATES
Study of the antifungal properties of 8-Hydroxyquinoline tartrate.
14651

TASTE
The effects of pH on the labellar sugar receptor of the fleshfly.
10560

TAXODIUM DISTICHUM
New hosts, distribution, and biological notes on an imported ambrosia beetle, Xylosandrus germanus (Coleoptera: Scolytidae).
9642

TAXONOMY
Biochemistry and taxonomy.
8060

A critical review of Bacillus thuringiensis var. Thuringiensis berliner and other crystalliferous bacteria.
8132

Entomophthora pyriformis sp. n. a fungus parasite of the Aphididae.
8204

Contributions to the knowledge of the Italian nematode fauna. I. Genus Meloidgyne Goeldi, 1887.
8388

The vulvar region of Haemonchus contortus (Nematoda Trichostrongylidae) in Spanish sheep, with the description supporting possible subspecies, H. contortus hispanicus.
8496

Redescription of Ornithobilharzia canaliculata (Rud.) Odhner, with notes on classification of the genus Ornithobilharzia and the subfamily Schistosomatinae (Trematoda).
8516

The electrical resistivity of suspensions of mycobacteria. Comparative study on various species. Taxonomic applications.
8611

Wetanema hula n. gen. et sp., a nematode from the weta Hemideina thoracica (White).
8737

Nematodes of the family Tetradonematidae, parasitizing in members of the family Simuliidae (Diptera).
8844

New symphoriont intranstylum - species (Peritricha, Ciliata) on larvae of Chironomous plumosus.
8869

A foliar disease of tuberose caused by Aphelenchoides besseyi.
9031

DNA base composition and taxonomy of phytopathogenic and other enterobacteria.
9608

A new genus and species, Psilotornus audacirrus (Trematoda: Digenea: Psilostomatidae), from the wild turkey in Alabama.
9764

Gnathostomulida from America.
9774

Description, biology, and importance of a new species of Allantonematidae (Nematoda), parasite of the aphidiphagous Coccinellidae: Parasitylenchus coccinellinae, n. sp.
10039

Heterobasidion annosum.
10215

Phellinus pomaceus.
10217

Inonotus hispidus.
10218

Notes on Parasitology: (A). Canine hookworm (Ancylostoma caninum (Ercolani 1859, Hall, 1913) and (B) Canina coccidiosis (Eimeria canis, Wenyon 1923).
10366

Spirurata of animals and humans and the diseases.
10382

A tentative arrangement of the genera in Actinomycetales.
10617

New phytonematode for the fauna USSR.
10759

Contribution to the knowledge of the scorpions of India. 2. Iomachus laeviceps Pocock, 1893 (Scorpionidae, Ischnurinae).
11204

Gregarinidae: New Orthopteran parasites.
11246

Pasteurellosis: Pasteurella multocida and Pasteurella hemolytica.
11592

An attempt at an objective evaluation of the oxidase reaction in Leptospira cultures.
11614

Oxyurata of the central elevated plain on the genus strongyluris Mueller, 1894 with description of two new species.
11641

Interesting perineal patterns in species of the genus Meloidogyne Goeldi,1887.
11653

A new British species of the genus Trioxys haliday (Hym., Braconidae).
11760

A study of the eugregarines of the grass-grub (larva of Costelytra zealandica (White), Melolonthinae), with a description of three new species.
11776

Pahayokee and Shark River, two new arboviruses related to Patois and Zegla from the Florida Everglades.
12582

On a new cestode, Raillietina (Raillietina) streptopeliae sp. n. from red turtle dove, Streptopelia tranquebarica tranquebarica.
12834

Spirurata of animals and humans and their diseases.
12858

A strain of Holmes' ribgrass virus occurring in Yugoslavia. 13265

Some properties of pea enation mosaic virus isolated from field pea and broad bean plants in Bohemia. 13274

Taxonomic problems concerning the phytoparasitic nematodes. 13333

Studies of plant and soil nematodes. 13. Tylenchulus clavicaudatus n. sp. (Nematoda: Tylenchulidae), a parasite of the liana Deeringia arborescens (R. Br.) Druce. 13336

Morphological observations on Fasciola gigantica Cobbold, 1855, with remarks on the validity of Fasciola indica Varma, 1953. 13392

Criconemoides grassator n. sp. from yellow poplar (Liriodendron tulipifera) in West Virginia. 13864

Aphelenchoides goodeyi n. sp. (Nematoda: Aphelenchoidea), a mycophagous nematode from South India. 13895

Identification key to the leech (Hirudinoidea) genera of the world, with a catalogue of the species. VI. Family: Glossiphoniidae. 14026

A new species of Ichneumonidae from Rumania. 14128

The occurence of Ectoedemia libwerdella Zimm. in Western Germany (Lepidoptera, Nepticulidae). 14151

A further representitive of the sub-species Betuloxys Mackauer (Hymenoptera: Braconidae, Aphidiinae). 14155

Contributions to the knowledge of the Heleide fauna (Dipt. Nemat.) of Berlin. 14157

A comparative study of gastric caeca in adult and larval stages of bark beetles (Coleoptera: Scolytidae). 14170

Remarks concerning some species of spider wasps (Hym. Pompiloidae)(2.). 14174

Remarks concerning some species of wasps (Hym. Pompiloidae (3.). 14175

Concerning some West German bees and digger wasps (Hym. Apoidea, Sphecoidea). 14176

Rutstroemia cuniculi, a coprophilous species of the Sclerotiniaceae. 14310

Bean yellow mosaic and tobacco ringspot virus isolated from Crotalaria (Crotalaria spectabilis). 14388

A new leaf spot disease of Gardenia jasminoides from India. 14406

A new bacterial leaf spot of Antirrhinum seedlings caused by a subspecies of Pseudomonas fluorescens Migula, 1895. 14410

Bacterial leaf spot of cape gooseberry in Queensland. 14411

A new nematode-destroying Harposporium. 14508

Isolation and characterization of Mycoplasma arginini: spec. nov. 14555

On the classification of the insect parasitic nematodes of the Sphaerulariidae Lubbock, 1861 (Tylenchoidea: Nematoda). 14860

Tylenchorhynchus palustris n. sp. (Nematoda: Tylenchinae) inhabitant of the rice fields of Ivory Coast. 15043

Proposal for subgrouping of bovine adenoviruses. 15160

On adults of the subulurid infective larva from tenebrionid beetle with remarks on the validity of Subulura minetti Bhalerao. 15220

Studies of plant and soil nematodes. 14. Five new species of Tylenchorhynchus Cobb, Paratylenchus Micoletzky, Morulaimus Sauer and Hemicycliophora De Man (Nematoda: Tylenchoidea. 15682

TAXUS
Effects of several herbicides on yews and Japanese maples. 10280

TDE
Toxicology and physiology of DDT resistance in the German cockroach. 8138

Absorption of DDT and metabolism of DDT and related compounds by DDT-RESISTANT codling moths. 8180

Evidence for conversion of DDT to TDE in rat liver: I. Liver/body fat ratios of TDE. 8472

DDT residues in Adelie penguins and a crabeater seal from Antarctica. 8552

Fish losses after forest sprayings with insecticides in New Brunswick, 1952-62, as shown by caged specimens and other observations. 8567

Degradation of organochlorine pesticides with special reference to 1,1-bis(4-Chlorophenyl)-2, 2-dichloroethylene. (abstract). 9850

Comparison of ten methods for the analysis of milk for residues of chlorinated pesticides. 10470

Effect of isomers of DDD on thyroid and adrenal function in rats. 11680

Field evaluations in spray programs for control of the fruit-tree leaf roller on sweet cherry. 12694

Note on a two-dimensional thin layer chromatographic technique for identification of pesticide residues in troublesome samples. 13445

TEA
Diseases of tea, coffee and rubber discussed at the First International Congress of Plant Pathology. 8280

Trithion-a new acaricide. 8814

Eelworms-a progress report on a few more groups found in North-East Indian tea soils. 9025

Effect of herbicides on the valuations of made tea. 9212

Systemic control of Exobasidium vexans on tea with 1,4-oxathiin derivatives. 9613

Internal perfusion of crayfish giant axons: Action of tannic acid, DDT, and TEA. 11393

Susceptibility of tea clones to collar and branch canker disease (Phomopsis theae). 11501

Forest microfungi. I. Ampulliferina persimplex n. gen., n. sp. on leaves of labrador tea. 11510

Shot-hole borer control recommendations--1969. 11525

The use of diuron for weed control in mature low-grown tea. 11582

Experiments with the propagation of Polyantha and hybrid tea roses by softwood cuttings. 11691

Tea Research Association. Annual scientific report 1967-68. 12109

Shot-hole borer of tea plant in Japan. 12475

Rigidoporus lignosus. 12640

Phellinus noxius. 12645

Chemical control of grass weeds in tea fields. 13920

The Tea Research Institute of Ceylon. Annual Report for the year 1966. Part II. 14304

Epidemiology of tea blister blight (Exobasidium vexans). the genus Graphelysia Hampson, 1911 (Lepidoptera -Heterocerca). 14384

Studies on the parasitsm and control of tea root disease fungi in Ceylon. Heteroptera. 14448

Studies on the insecticide resistance of the tea red spider mite, Tetranychus kanzawai Kishida. II. The mite resistance to phenkapton, estox, and kelthane in the tea growing areas in Japan. 14493

Observations on the tolerance and susceptibility of tea clones to shot-hole borer investigation--1969. 14500

Investigations into the cause of leaf tumors of tea seedlings. 14991

TECTONA
Field observations on root rot of teak in Tanzania. 9570

TEICHOIC ACID COMPOUNDS
On the structure of the glycerol teichoic acid from the cell wall of Actinomyces antibioticus-39. zaretskaja, m s. 9238

TELDENIA
Some aspects of zoogeography and speciation in the genus Teldenia Moore (Drepanidae: Lepidoptera). 11213

TELENOMUS
Palearctic species of egg parasites of the genus Telenomus haliday (Hymenoptera, Scelionidae, Telenominae). 8645

The egg parasite complex of British Pentatomoidea (Hemiptera): Taxonomy of Telenominae (Hymenoptera: Scelionidae). 11739

TELEOGRYLLUS COMMODUS
Permeability to water of the shell of the egg of Locusta migratoria migratoriodes, with observations on the egg of Teleogryllus commodus. 11793

TELIOSPORES
Teliospore morphology of some smut fungi. II. Light microscopy. 8300

TELODRIN
Resistance to Telodrin in the German cockroach, Blattella germanica. 8731

TELONE
Tests on the control of nematodes of the genus Meloidogyne on tobacco. 13343

Effect of soil fumigants on control of pea root rot pathogens. 14391

Multipurpose disease control soil fumigants for tobacco. Nemotodes, black shank and black root rot. 15691

TEMIK
Rapid method for the extraction, cleanup, and GLC determination of toxic residues of temik. 10471

Tests on the control of nematodes of the genus Meloidogyne on tobacco.
13343

TEMPERATURE

Biology of Bracon mellitor, a parasite of the boll weevil.
8070

Effect of carbon dioxide on toxicity of hydrocyanic acid and methyl bromide to adults of the confused flour beetle and granary weevil at two different temperatures.
8074

Effect of temperature on the progeny production and longevity of Lespesia archippivora in the laboratory.
8093

Estimating temperatures and heat flux in insect environments in stubbed cotton fields in the winter.
8121

Research on the pathogenesis of Nosema melolonthae Krieg..
8146

The biology and life cycle of Chilo suppressalis (Walker) and Tryporyza (Schoenobius) incertulas (Walker) in temperature-climate areas.
8149

Biological investigations on Pandemis heparana (Den. and Schiff.) with special consideration given to the factors inducing diapause and influencing egg laying.
8155

Photoperiod and temperature as factors controlling the diapause of the sunflower moth, Homoeosoma electellum.
8201

Development of controlled conditions for the study of red stele disease on strawberries.
8216

The influence of linkage phase on recombination rates in Tribolium.
8226

Genetic and environmental variability for bristles in Drosophila.
8227

Degradation of turnip yellow mosaic virus by freezing and thawing in vitro: a new method for studies on the internal organization of the viral components and for isolating native RNA.
8299

Semliki Forest virus temperature-sensitive mutants. isolation and characterization.
8318

Neodiprion taedae linearis: A sawfly pest of loblolly and shortleaf pines.
8334

Recombination in Newcastle disease virus (NDV): the problem of complementing heterozygotes.
8453

Aldrin epoxidase activity of rat liver and rat liver microsomes under various conditions of storage.
8560

The elongation of stamen filaments in Graminaceae.
8589

The electrical resistivity of suspensions of mycobacteria. Comparative study on various species. Taxonomic applications.
8611

Anomalous dimorphism in Aedes vexans.
8736

Time required for development of Voria ruralis and its host, the cabbage looper, at different temperatures.
8775

Life history of Upis ceramboides at Fairbanks, Alaska.
8780

Heat effects on the infectivity of the nuclear polyhedrosis virus of Heliothis spp.
8801

Humidity preference of the alfalfa weevil, Hypera postica, as affected by microenvironmental and physiological conditions.
8863

Some effects of sublethal heat on spores of Nosema apis.
8890

Oxygen consumption of the western horse lubber grasshopper.
8899

A temperature effect on nondisjunction of the X chromosomes among eggs from aged Drosophila females.
8912

Genetic loads and cold temperature resistance in Drosophila pseudoobscura.
8916

Effect of storage treatments and fungicides on sprouting, flowering and gladiolus corm production.
8947

Factors affecting severity of seedling blight of corn in the United Arab Republic.
8976

Temperature response of seeds during the early phases of germination and its relation to injury by Rhizoctonia solani.
8983

On the knowledge of the seasonal dynamics of heterodcrosis in sugar beets in East-Slovakia (CSSR).
9027

Nutritional requirements for reproduction of a temperature sensitive nematode, reared in axenic culture.
9030

The influence of environment on the phytotoxicity of dicamba, picloram, bromoxynil and 2,4-D ester.
9041

Study of the thermosensitive mutants of the vesicular stomatitis virus. Evidence from a complement test.
9071

A study of the thermosensitive mutants of the vesicular stomatitis virus (VSV). The classification of several mutants by the criteria of function.
9088

Larval development of Mansonia mosquitoes in Central Florida.
9261

Changes in temperature tolerance during the life cycle of Calliphora erythrocephala.
9364

The influence of light and temperature on the pupal emergence activity of Chironomus nuditarsis Str.
9381

Selection for generation time in Drosophila melanogaster.
9403

The laboratory breeding and embryonic development of Chorthippus brunneus Thunberg (Orthoptera: Acrididae).
9432

Psallus ambiguus (Fall.) (Heteroptera, Miridae). Part II, Nutrition and role in the biocenosis of orchards.
9438

Study of a biting midge, Forcipomyia (Lasiohelea) taiwana (Shiraki) (Diptera: Ceratopogonidae)I. Description of the complete life cycle of the midge reared in the laboratory.
9479

The effect of temperature on the number of eggs deposited and on the production of hatching larvae in versene-treated Drosophila melanogaster.
9511

Artificial feeding of Simulium vectors of human and bovine onchocerciasis.
9520

A fungus of the onion, new for italy: Botrytis squamosa Walker.
9562

A contribution to the study of Alternaria tenuis Nees causer of the leaf spot of tomato.
9581

A study of the biology of Stemphylium botryosum Wall. -Pleospora herbarum (Pers.) Rabenh.- the causer of brown spots on alfalfa leaves.
9591

Investigations on the susceptibility of potato tubers to Fusarium caeruleum (Lib.) Sacc., the fungus causing dry rot.
9602

Influence of high temperatures on the pathogenicity and survival of Western X-disease virus in leafhoppers.
9632

Note on the effects of certain wild plants, temperature and insecticides on the growth and development of Agrotis segetum Schiffer-Mueller (Lepidoptera: Noctuidae).
9638

Cardiovasuclar studies on copper deficient swine. XII. Partial purification of a soluble protein resembling elastin.
9752

A comparative study of the effectiveness of chemical ovicides on the survival of the soil-transmitted intestinal nematodes.
9768

The incubation period of Phytophthora citrophthora in citrus fruits stored at different temperatures.
9777

Bionomics of Androlaelaps casalis (Berlese) (Acarina: Laelapidae) a predator of mite pests of stored cereals.
9778

The growth and activity of cellulose decomposing fungi as influenced by culture conditions.
9845

Determination of terbacil residues using microcoulometric gas chromatography.
9855

Effect of temperature on the development of mustard sawfly, Athalia proxima Klug. (Hymenoptera: Tenthredinidae).
9976

The external morphogenesis of grasshopper embryos.
9987

The influence of the rearing temperature on larval and pupal mortality and the duration of development of Drosophila.
9995

Effect of temperature on water absorption, development, and hatching in eggs of the prairie grain wireworm, Ctenicera destructor.
9999

The influence of ecological and genetic factors on the birth and death of Macrocheles robustulus (Berlese,1904).
10005

Development of Chrotogonus trachypterus (Blanch.) (Orthoptera: Pyrsgomorphidae) in relation to different levels of temperature and humidity.
10026

The influence of temperature on reproduction and development in four species of Glossina (Diptera: Muscidae).
10028

Temperature effects on embryonic development in insects.
10035

Laboratory studies of Eucelatoria armigera, a tachinid parasite of Heliothis spp.
10040

Experimental studies on diapause in stoneflies. III. Eggs of Brachyptera risi (Morton).
10051

Puparial duration in Glossina morsitans orientalis under conditions of constant temperature.
10091

Lethal temperatures for puparia of Glossina morsitans orientalis.
10092

Seasonal evolution of the honey bee thermogenesis. Oxygen consumption of the isolated bee at five different temperatures in summer and in winter.
10123

Experiments on larval diapause in the carabid Pterostichus vulgaris L.
10129

Meiosis in the grasshopper: Chiasma frequency after elevated temperature and X-rays.
10151

Biochemical basis for plant competition.
10274

The response of fumitory to various herbicides.
10293

Absorption and penetration of picloram in potato tuber discs.
10308

Seed dormancy and germination in ecotypes of johnsongrass.
10309

Problems in raising ducks.
10357

Observations on prolonged grain storage with forced aeration in Israel.
10389

Analysis of grain storage problems in India.
10390

Photocontrol of rough cinquefoil seed germination and its enhancement by temperature manipulation and KNO3.
10451

Some ecological studies on Agrotis segetum Schiff. (Lepidoptera, Noctuidae).
10531

Experimental conditions for feminization of the gonads of triploid intersexes in Drosophila melanogaster.
10543

Bands on peach trees as shelters for predators of the green peach aphid.
10566

A new race of stripe rust pathogenic on the wheat variety Moro, CI 13740.
10622

Comparative pathogenicity of Cephalosporium acremonium Cords, and Fusarium moniliforme Sheldon, (Emend Snyder and Hansen (Gibberella fujikuroi) (Saw.)Wr.) on maize.
10645

Russet crack--a menace to the sweetpotato industry. III. Role of fungi in the root-lesion phase of russet crack.
10654

Leaf and bud eelworm, (Aphelenchdides sp.).
10751

Herbicides can be used while establishing warm season turfgrasses vegetatively. (Abstract).
10772

Response of crabgrass seedlings to various herbicides. (Abstract).
10818

Host susceptibility and the effect of aging, freezing, heat and chemicals on spores of Myxosoma cerebralis.
10868

Root temperature and transpiration influences on atrazine absorption and translocation. (Abstract).
11049

Effects of decenylsuccinic acid and subfreezing conditions on germination of citrus seed.
11054

Sorption of diuron and propanil to proteins. (Abstract).
11060

Survival of Myzus persicae (Aphididae) treated with heat and then exposed to different temperatures.
11252

Influence of temperature inversion on development of spruce beetle, Dendroctonus obesus (Mannerheim) (Coleoptera: Scolytidae).
11263

Oxygen consumption of the scorpion Centruroides sculpturatus.
11283

Studies on the utilization of natural enemies as biotic insecticides . Effect of physical factors on the culture of Pseudaphycus malinus Gahan.
11304

H thermistor thermometer for physiological preparations.
11352

Habitat selection of laboratory populations of Tribolium.
11355

The influence of temperature on the development of armyworm, Leucania separata Walker (Lepidoptera: Noctuidae).
11394

Influence of temperature on development of the lesser mealworm, Alphitobius diaperinus (Coleoptera: Tenebrionidae).
11412

Problems with mercury vapor light traps.
11413

Forest pathology.
11455

Ecology of slash pine stumps: Fungal colonization and infection by Fomes annosus.
11463

Emergence of the overwintering generation of gallmidges living on alfalfa.
11544

2-chloro-2',6'-diethyl-N-(methoxymethyl)-acetanilide.
11570

Effects of desiccation and temperature on survival of Cyperus esculentus tubers and Cynodon dactylon rhizomes.
11580

Heat stability and kinetics of heat inactivation of non-specefic specific Brucella agglutinins in cattle buffalo serum.
11612

Effect of temperature on survival of airborne Mycoplasma pneumoniae.
11631

The influence of some physical factors on the exogenous development of the eggs of Trichocephalus trichiurus and Ascaris lumbricoides under laboratory conditions.
11652

Relative toxicity of certain fumigants to Trogoderma granarium Everts (coleoptera, Dermestidae).
11660

Mode of multiplication of the nuclear-polyhedrosis virus of the silkworm.
11773

Artificial parthenogenesis and experimental polyploidy in silkworm.
11778

Masonaphis maxima (Mason) (Homoptera: Aphididae), an aphid on thimbleberry with an unusual life history.
11816

Effects of environmental factors on the markings of Pieris rapae (Pieridae).
11843

The influence of abiotic factors on the development cycle of the grape phylloxera (Dactylosphaera vitifolii Schim.) and on a population of jassids (Homoptera, Auchenorrhyncha, Jassidae).
11856

The occurrence of house crickets (Acheta domesticus (Linnaeus, 1758)) on mountain slopes.
11864

Orientation and biorhythms in jumping spiders (Araneida: Salticidae).
11869

Calcium, potassium, and sodium content of forest floor arthropods.
11874

Physical methods of pest control.
11921

Genetic effect of irradiation by X-rays on seeds of Zea mays. finfluence of high-temperature treatment before the irradiation on the immediate effect.
11924

Uredospore storage in breeding for crown rust resistant annual ryegrass.
11946

Ecology of wood-destroying and wood-inhabiting fungi.
11966

The effect of a temperature of 35 degrees C. on Vitis rupestris affected by courtnoue.
11970

Seasonal changes in sugar alcohols and sugars in peach bark: A possible relationship to Cytospora canker susceptibility.
12016

Pathogens as organisms out of place.
12041

The ecology of cold hardiness in different populations of the black currant gall mite, Cecidophyopsis ribis.
12086

Effect of temperature and host on Paratylenchus neoamblycephalus and effect of the nematode on the host.
12091

Research on the resistance of microfilariae of Dirofilaria repens at different temperatures.
12162

Ecology of lice on sheep. VI. The influence of shearing and solar radiation on populations and transmission of Damalinia ovis.
12186

The growth of storage fungi and aflatoxin production in corn as related to moisture and temperature.(Abstract).
12203

The influence of temperatures on the growth of blue-staining fungi.
12278

Interaction of triiodobenzoic acid and indoleacetic acid in development and flowering of Kalanchoe.
12301

The distribution and biology of Tribolium castaneum (Coleoptera, Tenebrionidae) on temperature gradients varying in steepness.
12404

Effect of winter precipitation and temperature on overwintering eggs of Northern and Western corn rootworms.
12432

Effects of temperature on Drosophila. IV. Adaptation of D. immigrans.
12466

Growth, longevity, and the frequency of feeding of Glossina pallidipes Austen.
12504

House fly response to fluorescent lamps: Influenced by fly age and nutrition, air temperature, and position of lamps.
12515

Comparative resistance to sedimentation of three different strains of sigma virus of Drosophila.
12517

Efficacy of malathion on wheat grains against Trogoderma granarium Everts at constant temperatures.
12527

Influence of temperature and diet on attainment of firm diapause in the boll weevil.
12547

The pollinating activities of bumble bees and honeybees in relation to temperature, competing forage plants, and competition from other foragers.
12557

Temperature induction of phenodeviants in Drosophila melanogaster mutants.
12565

Cronartium comandrae in the Rocky Mountain States.
12625

Environmental influence on bentgrass treated with silvex. 12712

Thermal resistance of Salmonella senftenberg 775W in dry animal feeds. 12780

Eimeria tenella: Temperature and asexual development in cell culture. 12799

Influence of temperature on Botryodiplodia rot of citrus and sapodilla. 12872

Influence of temperature on the effectiveness of paradichlorobenzene fumigation of black carpet beetle larvae. 12874

Ecology of stored grain insect pests. 12876

A comparison of three strains of Oryzaephilus surinamensis (L.) (Col., Silvanidae) on a temperature--moisture gradient. 13005

Development of Crambus trisectus at controlled constant temperatures in the laboratory. 13009

Effects of temperature and light on dispersal of the pea aphid, Acyrthosiphon pisum, and a braconid parasite, Aphidius pisivorus, in the field. 13021

Effects of temperature and light on takeoff of Rhopalosiphum maidis and Schizaphis graminum in the field (Homoptera: Aphididae). 13022

The effect of parental temperature upon filial egg period in Drosophila melanogaster. 13043

The temperature-sensitive period in the development of rolled hemizygotes of Drosophila melanogaster. 13062

Rearing technique for the granulate cutworm and some effects of temperature on its life cycle. 13078

Freezing tolerance in an adult insect. 13090

Freezing tolerance in an adult insect. 13091

An experimental study of the mortality factors of larval Musca autumnalis DeGreer. 13139

Selection and the effect of temperature on scutellar bristle number in Drosophila. 13168

The effect of temperature on crossvein formation in crossveinless-like strains of Drosophila melanogaster. 13212

Cultivation of the cricket bat willow. 13231

Southern corn leaf blight on sweet corn ears in transit. 13243

Control of diseases of fruits and vegetables by postharvest treatment. 13248

A comparison of the behavior of two pea pathogens in cut-away peat and loam. 13286

Effect of temperature on the ability of Colletotrichum graminicola to form appressoria and penetrate barley leaves. 13287

Factors influencing the tolerances of seeds to fumigants. 13426

The effects of moisture and temperature on growth and spore germination in some fungi. 13468

Distribution and abundance of Hylotrupes bajulus L. (Col., Cerambycide) and Anobium punctatum de Geer (Col., Anobiidae) along the Sogneford in West Norway. 13566

Biology of the trefoil seed chalcid, Bruchophagus kolobovae Fedoseeva (Hymenoptera: Eurytomidae). 13601

Temperature acclimation of respiration in Culex pipiens pipiens (Diptera: Culicidae) and the influence of seasonal selection. 13611

Effect of temperature on the endogenous activity of Periplaneta americana L. nerve cord. 13620

The influence of temperature on host orientation by the alfalfa weevil, Hypera postica. 13630

Investigation on the variability of the thermic preferendum for chosen insects of the family Chrysomelidae (Coleoptera). 13639

Habitat selection of laboratory populations of Tribolium. 13657

Evaluation of some abiotic factors influencing captures of the codling moths by black-light traps. 13670

Pinus sabiniana and Pinus muricata as hosts for Diplodia pinea in California. 13786

Studies on Botrytis allii Munn.. The cause of neck rot of onion bulbs in U.A.R.. 1.The disease and the causal organism. 13792

Effectiveness of an extended Agri-mycin-17 spray schedule against fireblight. 13812

Study of the life cycle of Aphelenchoides composticola. 13868

Acclimatization in the eccritic thermal response of Ditylenchus dipsaci. 13871

Tissue culture and maintenance of the root-lesion nematode, Pratylenchus vulnus. 13888

Effect of temperature on the rate of development of Nacobbus serendipiticus in excised tomato roots. 13892

Pseudomonas aeruginosa contamination of a warm water system used for pre-milking udder washing. 13943

Studies on the peritoneal exudate of animals experimentally infected with Toxoplasma gondii. I. Effect of heat on activity. 13994

Infectious bovine kerato-conjunctivitis: A review. 14018

Vaccination against syngamosis in chicks, young pheasants and turkey-poults. 14028

Temperature dose relationships with aflatoxin on the brine shrimp, Artemia salina. 14061

The pheromone of the queen of the Oriental hornet, Vespa orientalis. 14214

Caterpillar polymorphism of Pergesa elpenor L. 14221

A correlation between the ability to withstand high temperatures and radioresistance in Drosophila melanogaster. 14252

Diapause in the neuropteran Chrysopa oculata. by ultracentrifugation and identification of N- and Cterminal ends. 14256

Hydrolysis of acetylthiocholine and butyrylthiocholine by cholinesterases of insects and a mite. 14261

Tension transients in glycerol-extracted fibres of insect fibrillar muscle (Lethocerus maximus). 14262

Natural mortality of overwintering eggs of Longiunguis donacis (Pass.). 14266

A thymidine-induced sex-linked, sex-limited temperature-sensitive lethal and the significance of modifier genes in Drosophila melanogaster. 14292

Inheritance of split cotyledons in swede turnips (Brassica napus). 14326

The low maximum temperature for growth of the psychrophile Sclerotinia borealis; evidence for the uncoupling of growth from respiration. 14336

Soil condition and the violet and white root rot diseases of fruit trees. 14343

Evidence for the release of 28 S RNA from turnip yellow mosaic virus heated in vitro. 14370

Yellow dwarf of pea and broadbean caused by milk-vetch dwarf virus. 14378

On the longevity of Conidia of cucumber downy mildew fungus, with special reference to the influence of sunlight. 14382

Damage and evolution disturbance through weather influence. 14426

Inheritance of resistance in tomato (Lycopersicon spp.) to the anthracnose pathogen Colletotrichum coccodes. 14437

Evidence of phenotypic mixing between two strains of tobacco mosaic virus. 14441

Radish enation mosaic virus. 14465

Some factors affecting incidence of leaf spot of turmeric by Taphrina maculans butler. 14468

Hard-to-kill pests of fruit trees;the mites. 14488

The temperature requirements for interferon production in cells stimulated by Newcastle disease virus or microbial agents in vitro. 14585

Lyophilizing foot-and-mouth disease virus at low drying temperature. 14604

Preparation of dehydrated tomato powder samples for Howard mold count. 14650

Excretion of aflatoxin in a lactating cow. Drosophila melanogaster to anesthesia. 14660

Is it possible to draw any conclusions from the red epidemic of 1967, in regard to the appearance of the disease during this year . 14678

Inhibitory effect of pentachlorobenzyl alcohol (PCBA) on sporulation of Piricularia oryzae cavara. 14691

Preparation of the new fungicide heximide. 14703

The effect of temperature on the pathogenicity of the fungus, Ascosphaera apis, for larvae of the honey bee, Apis mellifera. 14787

The reactions of three species of grasshopper to simple visual stimuli at different temperature-humidity conditions. 14819

On the knowledge of the biologic valence of Onychiurus carvernicolus and O. vornatscheri Collembola, Insecta apterygota . On temperature, humidity, and light reactions. 14843

The action of different factors on the number of larval stages in the tomato night moth Helicoverpa armigera Hbn. 14865

An extreme phenotype of Pieris protodice)Pieridae). 14877

Population dynamics of rice stink-bug (Leptocorisa varicornis Fabr.) in relation to weather factors. 14879

The effect of acclimation and glycerol injection on mortality and pupation in larvae of Ephestia kuehniella after exposures at low temperatures. 14882

Study of cold resistance and acclimatization capacity in Psylla buxi L. (Homoptera; Psyllidae). 14885

Thermal acclimation and heat resistance in Drosophila species. 14900

Contribution to the biology of Brunchorstia pinea (Karst.) Hohn., the cause of a die-back in Austrian and Corsican pine. 14949

Effect of temperature and humidity on the toxicity and persistence of parathion, malathion and endrin deposits. 15039

Effects of moist and dry chilling periods before germination of four thistle species. 15109

Influence of late fall application of herbicides for control of musk thistle. 15125

A study of experimentally induced bovine viral diarrhea-mucosal disease in pregnant cows and their progeny. 15193

Sequelae of the delayed postdiapause development of the embryo of B. mori L. eggs. 15360

The influence of temperature in the response of Drosophila melanogaster to anesthesia. 15426

A study of factors affecting the susceptibility of mosquito larvae to insecticides in laboratory resistance tests. 15450

Stem canker. I. Observations on knobby second growth. 15478

Physiological diseases in potatoes (Solanum tuherosum L.). I. Observations on knobby second growth. 15479

Resistance of the red beet cultivar Avonearly to infection by Peronospora farinosa f.sp. betae. 15482

Mechanism of photoreactivation of plant viruses. 15483

The effect of temperature on the attack of Cercosporella herpotrichoides Fron. 15534

The shot-hole disease of the melon. Preliminary study of a new viral disease of the glass-house-grown melon. 15543

Modification in the nuclear structure of tobacco infested with tobacco mosaic virus at 32 degrees C. 15571

Shallot aphid in south-east England. 15644

Sugar solution feeding and its effect on the retention of infective Dirofilaria immitis larvae in Anopheles quadrimaculatus. 15811

Experimental studies on ancylostomiasis in cats. III. Egg culture of Ancylostoma tubaeforme Zeder, 1800 and Ancylostoma caninum Ercolani, 1859. 15826

Phytotoxicity of methyl bromide to some plant hosts of San Jose scale. 15882

Chytids and algae. II. Factors influencing parasitism of Rhizophydium sphaerocarpum on Spirogyra. 15891

Temperature and the synthesis of viral protein material in Nicotiana Xanthi n. c. infected with tobacco mosaic. 15894

Dormancy of wild oat seed produced under various temperature and moisture conditions. 15902

The TAS-METHOD for rapid separation of pesticides and preservatives. 15916

Equipment for aerated steam treatment of small quantities of soil and soil mixes. 15917

TENEBRIO

Natural and synthetic materials with insect hormone activity--VI. Juvenile hormone effects of some alkyl-ethers derived from aliphatic beta-hydroxy acids. 13113

TENEBRIO MOLITOR

Bioassay, preliminary purification, and effect of age, crowding, and mating on the release of sex pheromone by female Tenebrio molitor. 8765

Teratology of the beetle Tenebrio molitor. IV. Ultrastructure of the necrotic fat body and foregut associated with the pupal-winged adult. 8866

Quantitative determination of uric acid in insect feces by lithium carbonate extraction and the enzymatic-spectrophotometric method. 9973

A simple starch-gel electrophoretic method to investigate esterase inhibition hy common organic insecticides. 10044

Radiation sensitivity of twelve species of arthropods. 10069

Isolation and hiological properties of the juvenile hormone. 10106

Spectral efficiency as function of latency in the visual mechanism of insect (Tenebrio molitor L.). 10142

Influencing the metabolism in Tenebrio monitor (Coleoptera) during the pupal stages by farnesyl-methyl-ether. 10528

Cytostatic effects on the hemocytes of Tenebrio molitor L. (Coleoptera). 10572

In vitro culture of the nymphal ovary of Tenebrio molitor (Coleoptera) in the presence of ecdysone. 11327

Electrophoretic studies of serum proteins obtained from radiofrequency-treated yellow mealworm larvae. 12473

Compounds related to juvenile hormone. III. 12533

Compounds related to juvenile hormone. II. 12539

Free amino acids and derivatives in eggs of Tenebrio molitor during development. 13666

Organochlorine insecticide residues in complete prepared meals: A 12-month survey in S. E. England. geometrical isomers of chrysanthemic, pyrethric and related acids and optical isomers of cinerolone and allethrolone. 14657

Viruses of the mealy bug larvae, Tenebrio molitor. of granular insecticides in coconut leaf axils. 15379

Insecticidal activity of pyrethrins and related compounds. II. Relative toxicity of esters from optical and geometrical isomers of chrysanthemic, pyrethric and related acids and optical isomers of cinerolone and allethrolone. 15879

TENEBRIONIDAE

Life history of Upis ceramboides at Fairbanks, Alaska. 8780

Notes on the natural history of Tenebrionidae (Coleoptera) in Canterbury. 10140

Fecal filaments produced by fungus infesting larvae of Platydema oregonense. 11235

Mating behavior of 8 stored-product beetles (Coleoptera, Dermestidae, Tenebrionidae, Cucujidae, and Curculionidae). 11414

Coleoptera, Tenebrionidae, Erodiini, Tentyriini and Adesmiini collected by J. Mateu in the mountain mass of Ennedi. 11735

The life history and feeding habits of Opatroides punctulatus in Tiberias, Israel. 11842

Efficacy of different insecticides against tobacco ground beetles in the field. 12674

Alphitobius diaperinus Pz. (Col., Tenebrionidae) in broiler houses. 13044

Chemical substances for defense of insects. 13136

Results of the zoological research in Mongolia of Dr. Z. Kaszab. 197. Tenebrionidae (Coleoptera) of the 6th expedition. 13565

Selection for larval growth in Tribolium under two levels of nutrition. 13706

Tenebrionidae collected hy Mr. L. Bigot in southwestern Madagascar. 14712

Contribution to the fauna of Iran. 15. Coleoptera. Tenebrionidae, genus Lobodera. 14754

On adults of the subulurid infective larva from tenebrionid heetle with remarks on the validity of Suhulura minetti Bhalerao. 15220

TENEBROIDES MAURITANICUS

Quantitative determination of uric acid in insect feces by lithium carbonate extraction and the enzymatic-spectrophotometric method. 9973

TENOSYNOVITIS

Tenosynovitis in the horse. 9121

TENSION

Tension transients in glycerol-extracted fibres of insect fibrillar muscle (Lethocerus maximus). 14262

Mechanical properties of insect fibrillar muscle at large amplitudes of oscillation. 15417

TENTHREDINIDAE

The genus Craterocercus Rohwer (Hymenoptera: Tenthredinidae). 8673

Problems of the month. 8932

Effect of temperature on the development of mustard sawfly, Athalia proxima Klug. (Hymenoptera: Tenthredinidae). 9976

Discovery of sinigrin as a phagostinmulant hy Athalia proxima Klug. (Hymenoptera: Tenthredinidae). 10433

Hymenopteran Symphyta of Turkey. 11415

Galls and larvae of the European species of genera Phyllocolpa and Pontania (Hymenoptera, Tenthredinidae). 12052

Some observations on Hoplocampa crataegi Klug (Hym., Tenthredinidae). 13672

Endophytus anemones (Hering) in Finland (Hym., Tenthredinidae). 14172

Blossom visitations of domestic Allantus species, and places where they are found. 14263

Contribution to the knowledge of Stauronematus compressicornis (F.). (Hymenoptera-Tenthredinidae). 14804

Investigations on the biology and means for control of Neurotoma nemoralis L., Tenthredinidae, Thysanoptera. 15037

Croesus septentrionalis L. (Hymenoptera Tenthredinidae) a pest of the alder. 15038

TENTHREDINOIDEA

Results of the Albanian 1961 Expedition of the German Entomological Institute. 64. Contribution. Hymenoptera: Tenthredinoidea. 11147

TENUIPALPIDAE

Three genera of family Tenuipalpidae (Acarina) in the U. A. R. with description of three new species. 11218

TENUIPALPUS

Control of vine bunch mite this season. 12053

Phalaenopsis mite, Tenuipalpus pacificus Baker. 14813

TEPA

The action of Tepa on the adults of Dacus oleae Gmel. (Diptera: Tephritidae) as a function of the quantity of the chemosterilant used. 8757

Mutagenic effects of TEPA and METEPA in mice. 10333

Mating of untreated and tepa-chemosterilized fall armyworm moths. 10575

Longevity, resistance to deprivation of food and water, and susceptibility to malathion and DDT of Oriental fruit flies, melon flies, and Mediterranean fruit flies sexually sterilized with tepa or radiation. 12479

Laboratory studies of the mating habits of the face fly. 12482

A chemosterilant feeder for insects. 12934

Chemosterilants for control of reproduction in the eye gnat (Hippelates collusor) and the mosquito (Culex quinquefasciatus). 15448

TEPHRITIDAE

Studies of fruitflies associated with mistletoe in Australia and Pakistan with notes and descriptions on genera related to Perilampsis Bezzi Diptera: Tephritidae. 8635

The action of Tepa on the adults of Dacus oleae Gmel. (Diptera: Tephritidae) as a function of the quantity of the chemosterilant used. 8757

Low-cost larval rearing medium for mass production of Oriental and Mediterranean fruit flies. 8879

Infestation of peaches by Rhagoletis suavis. 9006

Visual responses of apple maggot flies, Rhagoletis pomonella (Diptera: Tephritidae): Orchard studies. 11373

A record of Rhagoletis indifferens Curran from Creston, British Columbia. 11716

A new North American species of Tephritis with some observations on its generic position. 11732

Fertilization in Drosophila. III. A revaluation of the role of polyspermy in development of the mutant deep orange. 13633

TEPHROSIA VOGELII

Thin layer densitometric determination of rotenone and deguelin. 10461

TERBACIL

Determination of terbacil residues using microcoulometric gas chromatography. 9855

Comparison of substituted uracils for weed control in sugarcane. (Abstract). 10799

The tolerance of several fruit crops to applications of terbacil. (Abstract). 10809

The distribution of terbacil, DuPont herbicide 733 and amizine in two orchard soils, under two precipitation levels. (Abstract). 11073

TERMITES

The Gold Crest Pest Control Program for the pest control industry. 8614

A new Coptotermes (Isoptera, Rhinotermitidae) from Gabon. 8636

On the Schizophyta-like appearance of the flagella of termite symbionts. 8790

The intestine of a higher termite (Microcerotermes edentatus, Wasman, Amitermitinae). Histophysiology and symbiotic bacterial flora. 9411

Feeding responses to sound wood by the eastern subterranean termite, Reticulitermes flavipes. 9474

Mid-state of Nebraska: There's no magic in pest control. 9861

A new family Turanoniscidae fam. n. (Isopoda, Oniscoidea) from termitaria of Middle Asia. 9874

New species and records of Nasutitermitinae (Isoptera: Termitidae) from Africa. 9936

The neutral lipids from various organs of the termite Macrotermes goliath. 9991

Antennopsis gallica Heim and Buchli (hyphomycetes: Gloeohaustoriales), an entomogenous fungus on subterranean termites in Florida. 10022

Foraging galleries of the Formosan subterranean termite, Coptotermes formosanus, in Louisiana. 10052

A new record, Dorylus labiatus Shuck. (Hymenoptera: Formicidae) as a predator of Microtermes mycophagus Desn. (Isoptera: Termitidae). 10112

On the effect of molds on various animal species. Part 2. 10343

Some suggestions for control of white ant damage on dadaps (Erythrina indica L.). 10710

Amitermes pallidiceps, a new name for A. pallidus Gay (Isoptera: Termitidae). 11138

Interpretation of the structures called centrioles in the Hypermastigian symbiotes of termites and of Cryptocercus. 11290

Preference for wood of different degrees of dampness in some termites from Cuba (Isoptera). 11293

Influences of physical factors on termites. 11783

Composition of the neutral lipids from termite queens. 11801

Soldier-reproductive intercastes in a species of Tumulitermes (Isoptera: Termitidae). 11820

Estimation of a total bacterial number in termite intestines. 11845

Subterranean termites and fungal-bacterial relationships. 11852

Subterranean termites: Their prevention and control in buildings. 12206

Insect-proffing during building construction. 12328

Treating pine lumber with insecticide and preservative prevents tubing by subterranean termites. 12875

Distribution of alkaline phosphatase in the castes of the termite Odontotermes redemanni (Wasmann) and its role in caste formation. 13598

New experiments with Mueller termites (Macrotermes muelleri) and considerations of the stigmergy theory. 13631

Possible factor responsible for the specific growth of Xylaria nigripes in the fungus gardens of the mounds of the termite, Odontotermes redemanni. 13679

Surface sterilization and dissection of termites as related to their enteric microflora study. 13682

Water movement in two termite mounds in Rhodesia. 13701

Isoptera from Vietnam, Cambodia and Thailand. 14141

Termites and powder-post beetles. 15653

Termites and powder-post beetles. 15838

TERMITIDAE

Amitermes pallidiceps, a new name for A. pallidus Gay (Isoptera: Termitidae). 11138

Corpora allata and genetic instinct in Calotermes flavicollis Fabr. The release of sexual activity in young winged imagos of Calotermes flavicollis Fabr. necessitates the presence in the organism of an elevated amount of juvenile hormone. 15392

TERPENES

Some quantitative aspects of the phytotoxicity of monoterpenes. 15876

TERPENOIDS

Sex pheromone of the queen butterfly: Chemistry. 11861

The action of plant growth retardants on terpenoid biosynthesis. Inhibition of gibberellic-acid production in Fusarium moniliforme by CCC and AMO-1618; action of these retardants on sterol biosynthesis. 13469

TERSILOCHUS

A new parasite of the vegetable weevil in southern California. 12436

TERTIARY PERIOD

A new species of Tertiary water bug from the Bechlejovice diatomites (Heteroptera, Belostomatidae). 14161

TESCHEN DISEASE

Investigations on the viruses of the Orphan type occurring in pigs in Poland. VI. Serological comparison of pig enteroviruses L1, R3, R16, R24,

R36, R59 and C, and of the viruses of human origin REO (ECHO10), AD2, ECHO1 and ECHO2.
12148

TESCHEN DISEASE VIRUS
Electron microscopic observation of crystalline arrays of virus-like particles in tissues of mink with Aleutian disease.
9611

TESTES
Lactic dehydrogenase isozymes in the grasshopper.
9961

Damage to testes and recovery of fertility in boll weevils fed chemosterilants.
10100

The difference in sensitivity to the sterilizing action of O,O-diethyl-O-paranitrophenyl thiophosphate of the embryonic testicles of quails and chickens in in vitro culture.
10430

Hormonal effect on cultivated insect tissues. I. Effect of ecdysterone on cultivated testes of diapausing rice stem borer larvae (Lepidoptera: Pyralidae).
11417

TESTING
Tests of the control of potato mildew in the Trentino region.
10647

Cabbage root fly, (Erioischia brassicae).
10723

Chemical control of growth and flowering of woody ornamental plants in the landscape and nursery: Tests with maleic hydrazide and Alar.
11026

Analysis of commercial pesticides.
11056

Comparison tests of insecticides in the control of Sesamia nonagrioides Lef., (Lepidoptera: Noctuidae) on corn.
12081

Evaluation of post-emergence herbicides in the greenhouse. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
12295

Adsorption of drugs and poisons by activated charcoal.
15263

TESTOSTERONE
Interaction between cockrels treated with Testosterone and untreated cockrels when housed together.
15159

TETANOPS MYOPAEFORMIS
Color and natural products attracting the adult sugarbeet root maggot in Southcentral Idaho.
8197

TETANUS
Equine vaccines and vaccinations.
10344

Tetanus in a grey squirrel.
12183

TETANY
Magnesium alloy bullets for suckling calves.
13955

TETRACAINE HYDROCHLORIDE
Ocular sensitivity of dogs to topical tetracaine HCl.
9721

TETRACHLOROETHYL)THIO)-4-CYCLOHEXENE-1,2-DICARBOXIMIDE, CIS
Notice of filing of petition regarding pesticide chemicals.
9786

Tests for the control of mildew of the tomato.
10625

Results of three years of the control of Marssonina brunnea in poplars.
10626

Comparative tests between and various time periods of treatment in the control of gray mold of strawberries.
10628

A second three year period of the fight against Botrytis in the vineyards of friuli.
10630

Fungicides for the control of leaf spot (Pseudopeziza ribis) of black currants.
13281

Protection of apples against diseases and pests, and the value of some pesticides.
13747

Three years of tests with new anti-peronosporic preparations.
14400

TETRACHLOROISOPHTHALONITRILE
Fungicides for the control of leaf spot (Pseudopeziza ribis) of black currants.
13281

TETRACHLOROTEREPHTHALIC ACID, 2,3,5,6-
Notice of filing of petition regarding pesticide chemicals.
12215

TETRACYCLINE
Tetracycline antibiotic compositions for oral use. Patent 3,454,697.
10337

The presence of mycoplasma-like particles in the phloem of plants infected with three European yellow diseases: tomato stolbur, gladiola aster yellow, and clover phyllody. Cytological and ultrastructural studies. Preliminary remarks on chemical control.
10633

The efficiency of zinc bacitracin in the feeding ration for piglets.
10895

The Capillary Tube Agglutination Test in the control of anaplasmosis.
10904

Prevention of abortions in dairy cattle due to a psittacosis-lymphogranuloma venereum (bedsonia) agent by treatment with tetracycline (a field trial).
13934

The action of some divalent metals over the inhibition of pancreatic lipase by tetracycline and 4-epi-tetracycline.
15158

Intraarticular application of oxytetracycline and tetracycline in horses and cattle.
15174

TETRACYCLINE HYDROCHLORIDE
Tetracycline hydrochloride powder with benzocaine for topical use. Drugs for veterinary use; drug efficacy study implementation.
9718

TETRADIFON
Control of mites and aphids on and in bulbs.
8850

The chemical control of red spider mite on glasshouse roses.
15619

TETRAETHYLAMMONIUM CHLORIDE
Tetraethylammonium chloride as an antidote for certain insecticides in mice.
12893

TETRAGNATHA MONTANA
Studies on the incidence of mosquitoes in the food of Tetragnatha montana Simon and its food activity in the natural habitat.
11248

Prey and predator density and their reactions in the process of mosquito reduction by spiders in field experiments.
11249

TETRAHYDRONAPHTHALENE
Methods of destroying weeds with substituted tetralins. Patent 3,442,640.
11083

TETRAHYMENA
Tetrahymenid ciliates as parasites of the gray garden slug.
13922

Degradation of pure aflatoxin by Tetrahymena pyriformis.
14333

TETRAHYMENA PYRIFORMIS
Immunological response of male cockroaches to injection of Tetrahymena pyriformis.
10559

The use of Tetrahymena pyriformis Ehren. for the detection of residues of organic fungicides.
10937

TETRALONIA MINUTA
Biological notes on the bee Tetralonia minuta and its cleptoparasite, Morgania histrio transvaalensis (Hymenoptera: Anthophoridae).
10109

TETRAMETHYL O,O'-THIODI-P-PHENYLENE PHOSPHOROTHIOATE, O, O,O',O'-
Abate and Dursban against Aedes aegypti (L.) breeding in concrete water jars in Bangkok, Thailand.
13219

Drip application of three organophosphorus insecticides for mosquito control.
13225

TETRAMETHYL-CYCLOPROPANECARBOXYLIC ACID, 2,2,3,3-
Studies on chrysanthemic acid. Part XVIII. A new biologically active acid component related to chrysanthemic acid.
8806

TETRAMETHYL-P-PIPERIDINOPHOSPHONIC DIAMIDE, N,N,N',N'
The residual of N,N,N',N'-tetramethylppiperidinophosphonic diamide after injection, tarsal contact, and topical application to the boll weevil.
8202

TETRAMETHYL-2-BUTYNYLAMINE, N,N,1,1-
Faunatrol, a new chemical livestock repellent.
13507

TETRAMETHYLENE BIS(1-AZIRIDINECARBOXAMIDE), N,N'
Changes in susceptibility of screw-worm flies to the chemosterilant N,N'-tetramethylenebis(1-aziridinecarboxamide), with time of administration.
9362

TETRAMISOLE
Anthelmintic efficacy and toxicity studies of 1-tetramisole in feedlot cattle.
9821

TETRAMORIUM CAESPITUM
Populations of the ant Tetramorium caespitum Latreille.
12421

TETRANYCHIDAE
Oligonychus araneum sp n. and Oligonychus digitatus Davis (Acarina: Tetranychidae) as pests of grasses in eastern Australia.
8622

Trithion-a new acaricide.
8814

Problems of the month.
8932

A new species of Schizotetranychus (Acarina: Tetranychidae) from Queensland.
9271

A new genus and species of the tribe Hystrichonychini (Acarina: Tetranychidae) from Queensland.
9272

The enemies of the predaceous mites as a reducing factor of spider mites.
9369

Three new records of Bryobiinae from India (Acarina: Tetranychidae).
9921

Some problems regarding the protection of apples against some species of Acaridae.
10739

A new species of the genus Tetranycopsis Canestrini from Japan (Acarina: Tetranychidae).
11129

The photoresponse to skyshine of the two-spotted spider mite, Tetranychus urticae K. (Acarina: Tetranychidae).
11346

Profit by pest control in CSH-1 and CSH-2 sorghums. 11532

Effects of road dust on spider mites. 11818

Microbial insecticides for control of grape leaf folder. 11837

The development of Pentac resistance in an outcrossing swarm of the two-spotted spider mite. 11860

Newer insecticides for the control of grape insect and spider mite pests. 11886

Mites or red spiders on ornamentals. 11893

Spider mites on soybeans: Injury and control. 12054

Ecology and integrated control of spider mites in San Joaquin vineyards. 12058

Agistemus exsertus as a predator of two tetranichid mites. 12448

Control of acarids with triphenyl tin compounds. patent 3,445,575. 12545

Karyotypes and sex determination in spider mites (Tetranychidae). 13719

Fine structure of leukocytes adhering to the cuticle of Ascaris suum larvae. II. Polymorphonuclear leukocytes. 14638

Problems posed by Acarina to floriculture. 15637

The two spotted (carmine) spider mite (Tetranychus cinnabarinus Boisd.) on apple in Israel. 15657

TETRANYCHUS

Studies of Queensland Tetranychidae. 7. Records of the genus Eotetranychus (Acarina: Tetranychidae). 8621

Biology of the spider mite, Tetranychus evansi. 8838

Research on the biology and control of Tetranychus viennensis Zacher in the region of Marmara. 10530

TETRANYCHUS ATLANTICUS

Mortality, longevity, and fecundity of spider mites on cotton treated with systemic acaricides. 8692

TETRANYCHUS CINNABARINUS

Mortality, longevity, and fecundity of spider mites on cotton treated with systemic acaricides. 8692

Metabolism of 2,2-dimethyl-2,3-dihydrobenzofuranyl-7 Nmethylcarbamate (Furadan) in plants, insects, and mammals. 9424

The relationship of glandular hairs on tomatoes to spider mite resistance. 12085

The two spotted (carmine) spider mite (Tetranychus cinnabarinus Boisd.) on apple in Israel. 15657

TETRANYCHUS KANZAWAI

Studies on the insecticide resistance of the tea red spider mite, Tetranychus kanzawai Kishida. II. The mite resistance to phenkapton, estox, and kelthane in the tea growing areas in Japan. 14493

TETRANYCHUS MARIANAE

A note on cuticular lobes of Tetranychus marianae McGregor (Acarina: Tetranychidae) from Papua. 11123

TETRANYCHUS MCDANIELI

Integrated chemical control of insects and biological control of mites on apple in Washington. 9010

A model outbreak of the mite Tetranychus mcdanicli McGregor in Ontario. 10721

TETRANYCHUS PACIFICUS

Spider mites on soybeans: Injury and control. 12054

TETRANYCHUS TELARIUS

Lycopersicon an Solanum spp. resistant to the carmine and the two-spotted spider mite. 8343

Ovicidal and larvicidal actions of Petkolin against red spider mites (Acarina: Tetranychidae). 9618

Effect of fertilizers on the reproduction of Tetranychus telarius (L.), Myzus persicae (Sulz.) and Acyrthosiphon pisum Harris. 11338

Agistemus exsertus as a predator of two tetranichid mites. 12448

Organophosphorus compounds. VI. -Structure and activity of certain 4-(diethoxyphosphino hioylthiomethyl)4H-1,3,4-oxadiazoline-5-thiones, of certain 4-diethoxyphosphino hioylthiomethyl-thiazoles, and related compounds. 12514

Mites. 14531

TETRANYCHUS TUMIDUS

Mortality, longevity, and fecundity of spider mites on cotton treated with systemic acaricides. 8692

TETRANYCHUS URTICAE

Lycopersicon an Solanum spp. resistant to the carmine and the two-spotted spider mite. 8343

Mortality, longevity, and fecundity of spider mites on cotton treated with systemic acaricides. 8692

A laboratory testing programme for assessing field performance of acaricides against Tetranychus urticae (Koch). 8857

Preliminary observations on the hiology of Amhlyseius tardi Lomb. (Acarina-Phytoseiidac) a predator of Tetranychus urticae Koch. 9455

Histological, behavioral, and symptomatic effects of Pentac on Tetranychus urticae. 10018

Eyes of the female two-spotted spider mite, Tetranychus urticae. i. Morphology. 10067

Toxicity of selected acaricides to susceptible and resistant strains of Tetranychus urticae Koch. 10128

European red mite and two-spotted spider mite control on apples in California. 10236

Organophosphorus acaricides for controlling the two-spotted spider mite on strawberries. 10248

Control of certain cotton pests with union carbide UC21149. 10564

Mass-rearing of Phytoseiulus riegeli Dosse for use in commercial horticulture. 11714

Spider mites on soybeans: Injury and control. 12054

Eyes of the female two-spotted spider mite, Tetranychus urticue. III Behavioral analysis of the photoreceptors. 12526

Research on the acaricide effect of some anti mildew products. 13138

Use of growth retardants on chrysanthemums: Effect on pest populations. 13331

Geotactic response of the two-spotted spider mite. Tetranychus urticae Koch (Acarina: Tetranychidae). 14137

The chemical control of red spider mite on glasshouse roses. 15619

The two spotted (carmine) spider mite (Tetranychus cinnabarinus Boisd.) on apple in Israel. 15657

TETRASTICHUS

Insect parasites in the natural control of species of rice stem borers on Luzon Island, Philippines. 9012

Some ecological observations and results of the control of Argyresthia fundella F. R. 9022

A comparative biological study of three ceroplastes species (Hem. Coccideae) and their natural enemies. 9990

TETRASTICHUS INCERTUS

Distribution and establishment of Tetrastichus incertus in the eastern United States. 9937

Biological control of the Egyptian alfalfa weevil in California and Arizona. 11799

TETRASUL

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. p-Chlorophenyl-2,4,5-trichlorophenyl sulfide. 9155

The influence of spray programs on the fauna of apple orchards in Nova Scotia. XIX. Apple rust mite, Vasates schlechtendali, a food source for predators. 11925

Notice of filing of petition regarding pesticide chemical. 15860

TETROPIUM VELUTINUM

Final-instar larvae of two hymenopterous parasites of a wood-boring beetle, (Etropium velutinum LeConte (Coleoptera: Cerambycidae). 11135

TETTIGONIIDAE

The Tettigoniidae (Orthoptera) of Oklahoma. 8660

Feeding response of Lepomis cyanellus to blister beetles (Meloidae). 9481

The Ephippigerinae (Orthoptera, Tettigoniidae) occasional but important predators of Thaumetopoca pityocampa Schiff. 9996

Artificial stimulations in encounter behavior of Vestria viridis (Redt.) (Orthoptera Tettigonidae Copiphorinae de La Trinite). 14232

Results of the Peris-Alvarez expedition to the island of Annobon. (12). Mantodea, Tettigonoidea and Acridoidea I. (Orthoptera). 14762

In vitro: Ending of egg diapause in some Tettigoniids. 15361

THALLIUM SULFATE

Application of T.K.T. medium for screening bulk milk samples for Streptococcus agalactiae. 13398

THANATEPHORUS CUCUMERIS

Penetration and feeding by Aphelenchus avenae. 13880

THANITE

The potentiation between thanite and arprocarb in their action on houseflies. 12464

THAUMETOPEINID CATERPILLAR
The Ephippigerinae (Orthoptera, Tettigoniidae) occasional but important predators of Thaumetopoea pityocampa Schiff.
9996

THAUMETOPOEA
Biology of Thaumetopoea wilkinsoni Tams in Jordan.
14893

THAUMETOPOEA PITYOCAMPA
The poisoner's primer. caused by a cytoplasmic virus Smithiavirus pithyocampae Vag..
15759

THEILERA
An improvement of the indirect Coons' test for detecting antibodies against intraerythrocytic protozoa, with special reference to the genus Theileria.
10890

THEILERIA ANNULATA
Transmission of Theileria annulata by the crushed infected unfed Hyalomma dromedarii.
12198

THEILERIA PARVA
The use of parasympathomimetic drugs to stimulate salivation in the tick Rhipicephalus appendiculatus, and the transmission of Theileria parva using saliva obtained by this method from infected ticks.
12187

Serological response in cattle to East Coast fever (Theileria parva infection) as measured by the indirect fluorescent antibody test.
14588

THELAZIA
Ecological specificity of intermediate hosts of Thelazia in cattle and the relation of their infective larvae to some unusual hosts.
12864

THELAZIA RHODESII
Kerato-conjunctivitis in cattle in the plateau area of Northern Nigeria. A study of Thelazia rhodesii as a possible aetiological agent.
14634

THELAZIASIS
Kerato-conjunctivitis in cattle in the plateau area of Northern Nigeria. A study of Thelazia rhodesii as a possible aetiological agent.
14634

THERAPEUTICS
Bovine horn cancer: therapeutic experiments with autogenous vaccine.
9098

The toxicity of nine therapeutic and herbicidal compounds to striped bass.
10954

Total-body irradiation of canine lymphoma.
12150

Dry cow therapy as a means of controlling bovine mastitis.
12159

Prevention of abortions in dairy cattle due to a psittacosis-lymphogranuloma venereum (bedsonia) agent by treatment with tetracycline (a field trial).
13934

Hyposiderosis and its specific therapeutics.
13982

Practical aspects in the application of iron-dextrin.
13985

A result of ethylene imine treatment in malting barley.
14083

Mutagenic effects of several alkylating substances in rice with reference to the method of treatment.
14100

Forage nitrate poisoning.
15270

Aspergillosis of ducklings.
15776

E. coli gastroenteritis in weaned piglets and attempts at the application of immunoprophylaxis.
15801

THEREVIDAE
Notes on British Therevidae (Diptera).
8047

THERIOAPHIS
Two new species of the genus Therioaphis Walk. (Homoptera: Aphididae) from Hungary.
13591

THERIOAPHIS MACULATA
Migration of an anholocyclic strain of the spotted alfalfa aphid into Nebraska.
8848

THERMAL ANALYSIS
H thermistor thermometer for physiological preparations.
11352

THERMOBIA DOMESTICA
Water balance in the firebrat, Thermobia domestica (Packard). Exchanges of water with the atmosphere.
8820

THERMOPERIODISM
The elongation of stamen filaments in Graminaceae.
8589

THERMOTHERAPY
Influence of high temperatures on the pathogenicity and survival of Western X-disease virus in leafhoppers.
9632

Postharvest heat treatment to control storage rots of Spadona pears.
13238

Eelworm control: A practical method for the sterilization of casing soils.
15042

THIABENDAZOLE
Field trials on the efficacy of thiabendazole against Haemonchus contortus in West African dwarf forest sheep and goats.
14635

Activity of three anthelmintics against mixed infections of two Trichostrongylus species in gerbils, sheep, and goats.
15216

Action of thiabendazole compared to that of ethylparathion on rye-grass crown rust.
15514

THIADIAZOLE COMPOUNDS
Studies in fungitoxicity, VI. Fungicidal activity of certain 2-(substituted thio)-5-(2,4-dinitrophenylthio)-1,3,4-thiadiazoles and related compounds.
12010

THIAMINE
Polioencephalomalacia (cerebrocortical necrosis).
9090

Nutrition of the silver-leaf pathogen Stereum purpureum (Pers.) Fri.
10175

S-benzoyloxymethyl-thiamine esters. Patent 3,429,883.
12111

Increasing egg production in poultry by administering poultry feeding thiamine derivatives and poultry feed compositions containing said derivatives. Patent 3,439,095.
12114

Effect of some vitamins on growth of Fomes lividus Kalchbr. in culture.
12288

An interaction of dieldrin with thiamine.
14664

An outbreak of polioencephalomalacia in calves.
15180

The identification, in France, of necrosis of the cerebral cortex (N.C.C.) in different types of ruminants.
15189

Effect of thiamine on growth of roots of Dolichos biflorus and Eleusine coracana.
15297

THIAZINES
Control of helminthiasis with a series of 2-(omega-(2-thienyl)alkyl)-, 2-(2-(2-thienyl)vinyl) and the corresponding isomeric 3-thienyl derivatives of thiazoline and 5,6-dihydro-4H-1,3-thiazine. Patent 3,458,633.
8447

THIAZOLE
Chemical control of wheat and barley loose smut.
10194

THIAZOLE COMPOUNDS
Certain 2-alkanoylamino-5-halothiazoles. Patent 3,427,318.
9036

Organophosphorus compounds. VI. -Structure and activity of certain 4-(diethoxyphosphinohioylthiomethyl)4H-1,3,4-oxadiazoline-5-thiones, of certain 4-diethoxyphosphinohioylthiomethyl-thiazoles, and related compounds.
12514

2-Amino-5-(1-methyl-5-nitro-2-imidazolyl)-1,3,4-thiadiazole A new antimicrobial agent.
15163

THIAZOLINES
Control of helminthiasis with a series of 2-(omega-(2-thienyl)alkyl)-, 2-(2-(2-thienyl)vinyl) and the corresponding isomeric 3-thienyl derivatives of thiazoline and 5,6-dihydro-4H-1,3-thiazine. Patent 3,458,633.
8447

THIAZOLYL)-BENZIMIDIZOLE, 2-(4-
The therapeutic effect of Thiabendazole, 2-(4-thiazolyl) benzimidazole, against Cercospora leaf spot on sugar beets when applied as a soil drench.
8991

Further experiments with low-level feeding of Thiabendazole to lambs.
9135

Anthelmintic efficacy and toxicity studies of 1-tetramisole in feedlot cattle.
9821

Methods of determination of the systemic and fungitoxic properties of chemicals applied to plants with emphasis on control of Verticillium wilt with Thiabendazole and Benlate.
10181

The course of naturally acquired helminth infections of horses given regular anthelmintic treatment.
10380

Fungicidal action of thiabendazole. Its providential efficacy against Pyphomyces charteron, the causal agent of enzootic facial eczema of sheep in New Zealand.
12175

Increased live weight gain and wool weight from anthelmintic drenching of ewe hoggets in South Canterbury.
12199

Critical trials on the efficacy of thiabendazole against Ostertagia ostertagi, Cooperia oncophora, and Nematodirus helvetianus.
12859

Comparative anthelmintic efficiencies of parbendazole, thiabendazole, and phenothiazine in lambs.
14630

Treatment of intestinal strongyloids of the horse using thiabendazole (2-(4'thiazolyl)-benzimizole).
15222

THIELAVIOPSIS BASICOLA
Survival of root-infecting fungi in soil. XII: Germination and survival of endoconidia and chlamydospores of Thielaviopsis basicola in fallow soil and in soil adjacent to germinating bean seed.
10213

Inhibition of tobacco mosaic virus infectivity by the fungus Thielaviopsis basicola (Berk. Br.) Ferr..
12615

THIN-LAYER CHROMATOGRAPHY
Determination and separation of some uracil herbicides by thin-layer chromatography.
13518

THINNING (TREES)
Effect of silvicultural practices upon arthropod, annelid, and nematode populations in coniferous forest soil. 14317

THIOACETAMIDE
Biochemical changes in rat liver in response to treatment with drugs and other agents--II. effects of halothane, DDT, other chlorinated hydrocarbons, thioacetamide, dimethylnitrosamine and ethionine. 8571

THIOCARBAMATES
Save your potato crop from fungal and bacterial diseases. 8286
Neck rot in onions. 8296
Modification of the carbon disulfide evolution method for dithiocarbamate residues. 8604
Wound dressings for the prevention of silver-leaf in fruittrees caused by Stereum purpureum (Pers.) Fr. 8946
Home orchard pest control. 9643
Effectiveness of fungicides in controlling barley loose smut. 10196
On the subject of certain limits noted in the control of the seed-corn maggot. 10519
Trapping of bullfinches. 10594
Results of three years of the control of Marssonina brunnea in poplars. 10626
Comparative tests between and various time periods of treatment in the control of gray mold of strawberries. 10628
Some remarks on tests and several applications during the year, conducted with a new preparation against Cryptogamia, on numerous cultures. 10629
A second three year period of the fight against Botrytis in the vineyards of friuli. 10630
Basic tests concerning the control of Marssonina brunnea in poplars. 10631
Various formulations of products for the control of leaf spot on olives. 10638
Comparison between products effective against both powdery mildew and oidium. 10641
Some aspects of the chemical control of tobacco Peronospora. 10642
Tests of the control of potato mildew in the Trentino region. 10647
Experiments in the comparative control of Aculus pelekassi Keif. 10731
Adsorption, leaching and lateral diffusion of four thiolcarbamate herbicides in soil. (Abstract). 11002
Soil sub-surface applications of selective thiocarbamate herbicides. (Abstract). 11084
Herbicide combinations. (Abstract). 11094
Study on the determination of the moisture content in the fungicides with a dithiocarbamic base. 12309
Adsorption, volatility, and migration of Thiocarbamate herbicides in soils. 12886
Fungicides for the control of leaf spot (Pseudopeziza ribis) of black currants. 13281
Control of late blight of potato with maneb in Nilgiri hills. 13750
Influence of fungicides and insecticides on the occurrence of Aspergillus on peanut seedlings. I. Investigations in vitro. 13767
Effects of Cercospora leaf spot and dates of harvest on sugar beet varieties with or without Maneb treatment. 14358
Isolation of Toxoplasma gondii from swine and cattle. following pesticide treatments. 14558
A further field experiment regarding the effect of fentin acetate, maneb and copper oxychloride fungicides on the population density of the Colorado beetle (Leptinotarsa decemlineata Say.). 14858
Experiments with soil disinfectants for casing material and their effect on yield. 14934
Fungicide trials for the control of sore shin of tobacco. 14952
On the control of primary infections caused by Pseudoperonospora humuli. 14958
Eelworm control: A practical method for the sterilization of casing soils. 15042
Effect of herbicides used for wild cane control in corn on subsequent oat yields. 15057
Herbicidal control of weeds in sugarbeets. 15141
Winter necrosis of peach twigs. Experimental reproduction following pesticide treatments. 15641

THIOCRON
Investigations of the control of Lixus junci Boh. 10730

THIOCYANATES
The potentiation between thanite and arprocarb in their action on houseflies. 12464
Preliminary toxicity studies on the yellowjacket Vespula pensylvanica (Saussure) in California. 13644

THIONAZIN
Chrysanthemum eelworm. 11556
Persistence and effectiveness of thionazin against potato aphids on three soils in southern England. 15872

THIOPHOSPHATES
Determination of hydrolytic metabolites of organophosphorus insecticides in cow urine using an improved thermionic detector. 9820

THIOURACIL
The structure of tobacco mosaic virus from base analogue treated tobacco leaves. 11493

THIOUREA COMPOUNDS
Synthesis of new fungicides. 2-(4'-arylthiazolyl-2'-imino)3-aryl-4-thiazolidones. 13516
Cytokinin activity and chemical structure of certain derivatives of N-allyl-N'-phenylthiourea. 14078

THIOZOLIDONE COMPOUNDS
Synthesis of new fungicides. 2-(4'-arylthiazolyl-2'-imino)3-aryl-4-thiazolidones. 13516

THIRAM
Contribution to the etiologic study and control of beet germ rotting. 8311
Sensitivity of Rhizobium species to certain fungicides. 8933
Wound dressings for the prevention of silver-leaf in fruittrees caused by Stereum purpureum (Pers.) Fr. 8946
Seed-mycoflora of musk-melon. 10193
Effectiveness of fungicides in controlling barley loose smut. 10196
Chemical control of loose smut in barley. 10214
On the subject of certain limits noted in the control of the seed-corn maggot. 10519
Trapping of bullfinches. 10594
Comparative tests between and various time periods of treatment in the control of gray mold of strawberries. 10628
Comparison between products effective against both powdery mildew and oidium. 10641
Experiments with tetrasyston and granular VUAGT-I-4 for sugar beet protection, in 1965-1966. 10736
Study on the determination of the moisture content in the fungicides with a dithiocarbamic base. 12309
Phytotoxicity of dithiocarbamate fungicides on Worcester Pearmain. 12871
Influence of fungicides and insecticides on the occurrence of Aspergillus on peanut seedlings. I. Investigations in vitro. 13767
On the chronic action of tetramethylthiuramidesulphide (TMTD) in hens and the quality of the eggs produced by them. 15268
Strawberry disease control. 15484
Influence of fungicides and insecticides on the occurence of Aspergillus on peanut seedlings. II. Seed treatments. 15498
Vegetable seed treatment. 15508

THORAX
The adult cervicothoracic musculature of the cockroach, Nauphoeta cinerea (Olivier). 8871
Polymethacrylic acid: Effects on lymphocyte output of the thoracic duct in rats. 9741
Incidence of genetic mutations in Culex pipiens. 13215
Allomorphosis and geography in insect populations. 14844

THORICTIDAE
Addendum to the revision of the genus Thorictus Germ. 8642

THORICTUS
Addendum to the revision of the genus Thorictus Germ. 8642

THREONINE
Biochemical studies of plants of Cucurbita pepo L. varieties as related to feeding response of squash bug Anasa tristis DeGeer. 10713

THRIPIDAE
Postembryonic development of the male and female reproductive systems of Frankliniella fusca (Hinds) (Thripidae) and Haplothrips verbasci (Osborn) (Philaeothripidae) (Thysanoptera). 9397
New species and subspecies of the genus Chaetisothrips from the Caribbean and Central American region (Thysanoptera, Thripidae). 11196

A preliminary note on a review of the genus Neurisothrips, new genus (Thysanoptera: Thripidae). 11197

New species of subgenera Isothrips and Isochaetothrips from Oceania and Australia, with note on changes in nomenclature (Thysanoptera: Thripidae). 11198

Observations and records for some British Thysanoptera. XI Thripidae, Belothrips acuminatus Haliday. 11356

A preliminary review of the genus Homochaetothrips gen-.n., with brief description of a new species (Thysanoptera: Thripidae). 11757

Studies on the species of Xylaplothrips Priesner from India. 12334

The Tryphactothrips-complex in India, with a key to the world genera (Thysanoptera: Thripidae). 12339

A preliminary note on a review of the genus Neurisothrips, new genus (Thysanoptera: Thripidae). 12988

Determination of thrips in crops in the Centro-Chaquena area with special reference to cotton. 13827

THRIPS

Some remarks on the corky triangle abnormality of the peach tree. 12018

On some species of Taeniothrips Serville and Thrips Linn with further notes on Hyalopterothrips roonnsali Bhatti from India. 12335

Peanut insects. Seasonal control of thrips, leafhoppers, southern corn rootworm and wireworms. 15624

Peanut insects. Seasonal control of thrips, leafhoppers, Southern corn rootworm and wireworm. 15626

Comparative effectiveness of some modern insecticides against the blossom thrips of red-gram (Cajanus cajan (L.) Millsp.). 15673

THUJA

Rooting of narrowleaf evergreen cuttings as influenced by various hormone treatments. (Abstract). 14318

THUJA OCCIDENTALIS

N,n-dinitroethylenediamine retards growth of red cedar and American arborbitae. 12908

THURICIDE

Susceptibility of several forest insects of British Columbia to commercially produced Bacillus thuringiensis. II. Laboratory and field pathogenicity tests. 10257

THYLACITES

Revision of the genus Brachyderes Schonherr, with special reference to the study of its generative organs and its geographic distribution in the Iberian peninsula. 13543

THYMELAECEAE

The isolation of the toxic principle of Daphne. 10945

THYMELICUS LINEOLA

Oviposition sites and the viability of eggs of Thymelicus lineola (Ochs.) (Lepidoptera: Hesperiidae). 14253

THYMIDINE

Synthesis of uridilic nucleotides and TMP in bone marrow of chicks infected with the avian myeloblastosis virus. 9706

The action of indoleacetic acid and kinetin on the mitotic cycle of proliferative and stationary phase excised root meristems. 12297

A thymidine-induced sex-linked, sex-limited temperature-sensitive lethal and the significance of modifier genes in Drosophila melanogaster. 14292

THYMIDINE KINASE

Effect of 5-fluorouacil and 5-bromo-2'-deoxyuridine on the induction of thymidine kinase in polyoma virusinfected mouse embryo cells. 8488

THYMINE

Deoxyribonucleoside monophosphokinases of silkworm pupae infected and uninfected with nuclear polyhedrosis virus. 15408

THYMUS GLAND

Demonstration with indirect immunofluorescence of a cellular epsilon-antigen of the mouse. 8459

THYRIDOPTERYX EPHEMERAEFORMIS

Lethal effects of gamma radiation on eggs and larvae of the bagworm, Thyridopteryx ephemeraeformis. 13114

THYROID GLAND

Effect of isomers of DDD on thyroid and adrenal function in rats. 11680

THYROPROTEIN

Secretion of DDT by lactating cows fed thyroprotein. 8553

THYSANOPTERA

Thaeniothrips vuilleti Bagnall 1933 and Thaeniothrips falsus Priesner 1936. 8061

Investigations concerning the taxonomy of German Thysanoptera. 5. Thaeniotrips linariae Pr. 1928 and Thaeniotrips hildae Tck. 1956. 8062

Insect parasites of the insect galls in Europe. 9386

Wing coloration of Dendrothrips ornatus (Jablonowski). 9485

On two new species of Terebrantian Thysanoptera with remarks on a new genus Pellothrips. 9958

A preliminary note on a review of the genus Neurisothrips, new genus (Thysanoptera: Thripidae). 11197

Notes on the Thysanoptera collected during western and southern India Survey, 1962, with a review of the Thysanoptera complex of the hosts. 11325

Observations and records for some British Thysanoptera. XI Thripidae, Belothrips acuminatus Haliday. 11356

A taxonomic revision of the Australian Aeolothripidae (Thysanoptera). 11749

19. Thysanoptera (Physopoda). 11870

Some remarks on the corky triangle abnormality of the peach tree. 12018

Studies on the species of Xylaplothrips Priesner from India. 12334

On some species of Taeniothrips Serville and Thrips Linn with further notes on Hyalopterothrips roonnsali Bhatti from India. 12335

The Tryphactothrips-complex in India, with a key to the world genera (Thysanoptera: Thripidae). 12339

Color preference and flight habits of thrips associated with cotton. 13016

Contribution to the study of Thysanoptera in Bulgaria. 13545

Enemies of Acaridae. 13607

Pests of the grapevine. 14485

Thysanoptera of France IV. 14717

Remarks on the nomenclature and fauna of some west-palearctic Haplothrips species. (Thys. Phlaeothripidae). 14785

THYSANOSOMA ACTINOIDES

Trials with Yomesan and other selected chemicals against Thysanosoma actinioides, the fringed tapeworm of sheep. 15201

THYSANURA

Water balance in the firebrat, Thermobia domestica (Packard). Exchanges of water with the atmosphere. 8820

Two new South African machilids of the genus Machiloides (Microcoryphia, Insecta). 12399

The synonymy of Petromachilis longicornis Reilly 1915 (Thysanura). 14731

TIDAL MARSHES

Biological effects and persistence of dursban insecticide in a salt-marsh habitat. 10545

TILLAGE

Control and elimination of noxious weeds. 8404

The effects of soil management and fungicides on the development of grey mould (Botrytis cinerea) of strawberries. 10658

Vertical distribution of fungus suggests...rigolen plowing for control of Verticillium wilt in cotton. 10709

Chemical weed control on summerfallow. 12104

The changing population of viable weed seeds in an arable soil. 13357

Wheatgrass establishment with tillage and herbicides in a medusahead community. 13363

Application of the herbicide 2,4-D in summer wheat crops. rakitin, y v mikhailova, t p. 13905

The European corn borer; how to control it. 14301

Plant care on the North Sea coast. 14375

Onion weed control on Mallee soils. 14518

Contribution to the knowledge of Stauronematus compressicornis (F.). (Hymenoptera-Tenthredinidae). 14804

Experiments summary beans: 1966. 14923

Contribution to the study of Diehliomyces microsporus. 14989

Effect of herbicides used for wild cane control in corn on subsequent oat yields. 15057

Chemical and mechanical control of wild cane in corn. 15060

Control of Agropyron repens (quackgrass) by rotavator. 15068

Evaluation of preemergence herbicides on crop and weed species. 15100

Weed control in corn at Morris, Minnesota. 15114

Preplant application of herbicides for weed control in corn. 15140

Dryland sorghum production and weed control with minimum tillage. 15729

TILLAGE EQUIPMENT
Oat yields one year after trifluralin applications. 15055
Soil incorporation of TCA at different times to control Agropyron repens (quackgrass). 15062
TCA, tillage and nitrogen for the control of Agropyron repens (quackgrass). 15065
Incorporation of trifluralin with the disk harrow and power rotary cultivator. 15088

TIMBER
The infestation of timber by bark beetles (Col., Scolytidae) and their enemies in different zones of the Finnish southwestern archipecago. 8823
Lignicolous fungi of freshly felled timber in tropical Africa. 11967

TIME
Research on bio-ecology of Sitona crinitus (Herbst) and method for chemical control. 8148
Time required for development of Voria ruralis and its host, the cabbage looper, at different temperatures. 8775
Changes in susceptibility of screw-worm flies to the chemosterilant N,N'-tetramethylenebis(1-aziridinecarboxamide), with time of administration. 9362
Nocturnal copulation of Rhopalocera. 9396
Effect of time of application of gibberellic acid and parachlorophenoxyacetic acid on berry and bunch weight, yield and seedlessness in grape (var. Anab-e-Shahi). 9839
Relationship between amount of thinning, time of care, and damages caused by red deer. 10323
Difference of larval period observed between males and females of Culex pipiens pallens. 10567
Results of three years of the control of Marssonina brunnea in poplars. 10626
Comparative tests between and various time periods of treatment in the control of gray mold of strawberries. 10628
Tests of the control of potato mildew in the Trentino region. 10647
Fall and winter application of trifluralin, a new concept in weed control. (Abstract). 10806
Response of crabgrass seedlings to various herbicides. (Abstract). 10818
The regulatory and research efforts in response to the occurrence of equine infectious anemia at racetracks in 1965-1966. 10892
Effect of time and temperature of storage on viability of Botrytis convoluta conidia and sclerotia. 11007
Growth and control of Johnsongrass ecotypes. (Abstract). 11011
Effect of time of postemergence applications of pyrazon and dalapon on sugar beets. (Abstract). 11029
Attraction of the Nantucket pine tip moth, Rhyacionia frustrana, to incandescent light and blacklight, and to virgin females. 11337
Selection for mating speed in Drosophila pavani. 11425
Some observations on the pentatomides of cereals and their parasitism in 1965. 11902
Effect of relative humidity and length of storage period upon fungal invasion and germination percentage of bajra seeds. 12869
Emergence periods and population fluctuations of the frit fly Oscinella frit L. (Dipt.: Chloropidae) in Norway. 13693
Desert locust situation and control in India during 1962-63. 13858
Effects of gamma irradiation on prickly pear cactus. 14325
Degradation of pure aflatoxin by Tetrahymena pyriformis. 14333
Virulence of uredial and aecial isolates of Puccinia coronata Corda f.sp. avenae identified in Canada from 1952 to 1966. 14359
Yellow dwarf of pea and broadbean caused by milk-vetch dwarf virus. 14378
On the longevity of Conidia of cucumber downy mildew fungus, with special reference to the influence of sunlight. 14382
Anatomical studies of rice plant infected with bacterial leaf blight, with special reference to wilt symptom. 14460
Transmission experiments with the latent Prunus-virus and the gall mite Vasates fockeui Nal. 14495
Time course variations of the infectivity of the cucumber mosaic virus in different vegetable species. 14968
Fall vs. spring applications of atrazine for weed control in corn. 15074
Preplant application of herbicides for weed control in corn. 15140

TIN COMPOUNDS
Process for desiccating plants. Patent 3,454,390. 8434
Tributyltin molluscicides. Patent 3,439,098. 11817

TINEIDAE
Taxonomy and phylogeny of the clothes moth family (Lepidoptera, Tineidae). 10516
Amydria effrentella from nests of mountain beaver, Aplodontia rufa. 11300
Host relationships in North American fungus-feeding moths (Oecophoridae, Oinophilidae, Tineidae). 13077
Some tineid moths (Lepidoptera) from Madagascar. 13560
Moths--pest in dwelling places and national economy. 15839

TINEOLA BISSELLIELLA
Gardona as a mothproofer of woolen fabric. 8518

TINGIDAE
Lannate - a new insecticide for the control of the giant looper and other pests. 8751
Morphological and phylogenic studies on the larvae and male genitalia of the East Asiatic Tingidae (Heteroptera). 11165
Pattern of distribution of Stephanitis typicus Distant (Heteroptera: Tingidae), a pest of coconut palm, on its host plant. 15546

TIPBURN
Morphological studies of laticifer rupture and leaf development in lettuce, Lactuca sativa L. 10685
Morphology and significance of laticifer rupture in lettuce tipburn. 10686
Light intensity and duration in the development of lettuce tipburn. 12033

TIPULA IRIDESCENT VIRUS
Purification and some properties of Chilo iridescent virus. 8883
Virus-cell studies of Tipula iridescent virus in Galleria mellonella (L.). I. Electron microscopy of infection and synthesis of Tipula iridescent virus in hemocytes. 11420
A serological comparison of some iridescent non-occluded insect viruses. 14193

TIPULA PALUDOSA
Research on cranefly populations. The effect of certain ecological factors on Tipula paludosa Meig. 15424

TIPULIDAE
Undescribed species of Nearctic Tipulidae (Diptera). X. 9256
Studies on the ecology of adult Tipulidae (Diptera) in southern England. 9383
New species of crane flies from tropical America. V. (Diptera: Tipulidae). 9865
New or little-known species of exotic Tipulidae (Diptera). XVI. 9866
Studies on the ecology of larval Tipulinae (Diptera, Tipulidae). 10011
Leaterjackets. 10526
Undescribed species of Nearctic Tipulidae (Diptera), X. 11103
New and little-known Indian craneflies (Tipulidae, Diptera) I. 12333
Research on cranefly populations. The effect of certain ecological factors on Tipula paludosa Meig. 15424

TISCHERIIDAE
Oinophila v-flava Haw. (Lep., Tischeridae) in a distillery warehouse. 12499

TISSUE CULTURE
Aggregation of Drosophila embryonic cells and effects of proteolytic enzymes. 8077
In vitro synthesis of injury protein and a companion protein in organs of prepupa of Galleria mellonella L.. 8156
In vitro growth of the infective agent responsible for the Sex Ratio condition in Drosophila bifasciata. 8243
The demonstration of a single species of an unclassified bacterium in five cases of bovine lymphosarcoma. 8469
The maturation of the oocytes in the isolated abdomen of Leucophaea maderae. 8719
Cytopathology of a nucleopolyhedrosis of the beet armyworm, Spodoptera exigua. 8773
Nutritional requirements for reproduction of a temperature sensitive nematode, reared in axenic culture. 9030

Growth of Rift Valley fever virus in human diploid (WI-38) cells. 9082

Ribonucleic acid synthesis in chick embryo cells infected with fowl-plague virus. 9114

Interference between vaccinal virus and rabies virus. 9122

Fine structure of healthy and TMV-INFECTED tobacco cells grown in tissue culture. 9206

The propagation and cytomorphological effects of bovine parainfluenza type 3 virus in organ cultures of bovine fetal tissues. 9720

Preliminary observations on possible synergism between infectious laryngotracheitis virus and Hemophilus gallinarum. 9732

A plaque system for study of infectious laryngotracheitis virus in adult chicken kidney cultures. 9750

The utilization of C14-labelled adenosine diphosphate during the in vitro respiration of housefly sarcosomes. 9984

Action of honey bee venom on development of epithelial cellular cultures of monkey's kidneys. 9997

Vitellogenic blood protein synthesis by insect fat body. 10083

Immunogenicity of concentrated and purified rabies vaccine of tissue culture origin. 10360

The in vitro metabolism of organophosphorus insecticides by tissue homogenates from mammal and insect. 10426

The difference in sensitivity to the sterilizing action of O,O-diethyl-O-paranitrophenyl thiophosphate of the embryonic testicles of quails and chickens in in vitro culture. 10430

Cytokinins and transfer ribonucleic acids. II. Presence of cytokinins in different amino-acid specific transfer ribonucleic acids of brewer's yeast as revealed by the growth response of tobacco-pith callus tissue and Scorzonera crown-gall tissue. 10439

Formation of tobacco mosaic virus in an animal cell culture. 10616

Neonatal canine herpesvirus infection: A review of present knowledge. 10850

Analysis of the production of interferon in cell culture with chick embryo fibroblasts under the influence of living or inactivated Newcastle disease virus. Comparison with production in the egg. 10863

Comparative effects of tretamine, tepa, apholate and their structural analogs on human chromosomes in vitro. 10948

The action of gibberillic acid on rhizogenesis in stem pieces of peas (Pisum sativum L.) cultivated in vitro in presence of auxin in darkness or in light. 11005

In vitro culture of ovary of the plant bug, Iphita limbata Stal. 11297

In vitro culture of the nymphal ovary of Tenebrio molitor (Coleoptera) in the presence of ecdysone. 11327

Results of organotypic cultures of the cerebral ganglion and the sub-esophagial ganglion of Aeschna cyanea Mull (Insecta, Odonata). Survival of the organs and development of the neurosecretory elements. 11384

Hormonal effect on cultivated insect tissues. I. Effect of ecdysterone on cultivated testes of diapausing rice stem borer larvae (Lepidoptera: Pyralidae). 11417

Tissue culture from bulbil of Dioscorea sansibarenis. 11444

Nutritional requirements of Xanthomonas phaseoli var. fuscans. 11514

Pasteurellosis: Pasteurella multocida and Pasteurella hemolytica. 11592

Augmentation of the pathogenicity of the ribonucleic acid of foot-and-mouth virus by addition of diethylaminoethyl-dextran. 11596

The adaptation of a strain of canine distemper virus to chick embryonic cells and the utilization of its cytopathogenic effect in seroneutralisation. 11613

An attempt at an objective evaluation of the oxidase reaction in Leptospira cultures. 11614

Use of the nucleic acid hybridization method for the demonstration of DNA homologous to Rous virus RNA in RSV-TRANSFORMED mammalian cells. 11617

Production of acid mucopolysaccharides in mammalian fibroblast tissue cultures transformed by Rous sarcoma virus. 11618

The secretion in vitro of hyaluronic acid and collagen by embryonic human cells transformed in culture by Rous sarcoma virus. 11628

Early development of Taenia crassiceps in the intermediate host,with a note on primitive cell types. 11642

Control of cell multiplication in uninfected chicken cells and chicken cells converted by avian sarcoma viruses. 11688

Experiments of in vitro cultures of larval epiderm of desert locust (Schistocerca gregaria Forsk). 11862

Histological changes in the gonads of house flies fed nmethyl p,p-bis(1-aziridinyl) phosphinic amide and p,p-bis(1-aziridinyl)-n-(3-methoxypropyl) phosphinothioic amide. 11899

The disruption of lysosome-like particles of Solanum tuberosum cells during infection by Phytophthora erythroseptica Pethybr. 12011

Effect of tannic acid and ellagic acid on the infectivity of potato virus X in tissue culture. 12038

Avian pox virus vaccine and process of preparing same. Patent 3,429,965. 12113

Pathology in redear sunfish exposed to Hydrothol 191. 12216

Some factors affecting the in vitro development of strawberry fruits. 12234

Intracellular avian infectious bronchitis virus: Detection by fluorescent antibody techniques in nonavian kidney cell cultures. 12757

Trypanosoma cruzi: Effects of gamma radiation on growth and infectivity. 12781

Antigenic type of first relapse variants arising from a strain of Trypanosoma (Trypanozoon) brucei. 12783

Attenuation of the hog cholera virus by continuous cell-virus propagation. III. Growth interference of Newcastle disease virus by attenuated hog cholera virus and its application to virus titration and the neutralization test. 12790

Eimeria tenella: Temperature and asexual development in cell culture. 12799

Syncytia formation of mosquito cell cultures mediated by type 2 dengue virus. 12800

Enhancement and inhibition of avian sarcoma viruses by polycations and polyanions. 12806

Investigation into the culturing of Salmonella and Shigella organisms from milk and milk product mediums of enrichment procedures. I. The inhibitory activity of the enrichment substrate on the milk organisms. 12884

Metabolic fate of monuron and diuron in isolated leaf discs. 12909

Effects of substrates on gene-controlled enzyme activities in cultured embryonic cells of Drosophila. 13063

Establishment of three diploid cell lines of Anopheles stephensi (Diptera: Culicidae). 13123

Partial purification of the organism of psittacosis grown in chicken emhryo yolk sac. 13374

Rapid transformation of cells by Rous sarcoma virus. 13382

Alkaline phosphatase changes in chicken tissues during Newcastle disease virus infection. 13390

Chemically characterized media for study of foot-and-mouth disease virus in baby hamster kidney cells. 13397

Interactions of aflatoxin with histones and DNA. 13458

Action of plant growth regulators. IV. ADSORPTION of unsubstituted and 2,6-dichloro-aromatic acids to oat monolayers. 13470

Axonal outgrowth and cell migration in vitro from nervous system of cockroach embryos. 13617

Tissue culture and maintenance of the root-lesion nematode, Pratylenchus vulnus. 13888

Bovine diarrhea virus. II. END phenomenon: Exaltation of Newcastle disease virus in bovine cells infected with bovine diarrhea virus. 13957

Characteristics in tissue culture of infectious canine hepatitis virus-induced hamster tumor cells. 13962

Oncogenicity of infectious canine hepatitis virus in hamsters. 13963

Antigenic relationship among strains of infectious canine hepatitis virus. 13964

Replication of vaccinia virus in the embryonated egg in the presence of methisazone. An electron microscope study. 13970

Bovine adenovirus. I. Recovery of a serotype, nagano, from Japanese cattle. 14008

Diplococcus pneumoniae. A comparative study on the antibiotics effectiveness in vitro and in vivo. 14016

Zebra fish eggs and larvae as aflatoxin bioassay test organisms. 14060

Aflatoxin B1 hemiacetal.
14068

Ecdysone and DNA synthesis in cultured wing disks of the wax moth, Galleria mellonella.
14250

Development of the virus with inclusion bodies, of the Lepidoptera Lymantria dispar in cell cultures.
14275

Attenuation of hog cholera virus in the carrier cell strains established from kidneys of pigs experimentally infected with the virulent virus.
14576

Study of the practicability of various diagnostic methods in the demonstration of swine fever virus of high and low virulence in organs of experimentally infected pigs.
14595

Effect of gamma-radiation on callus growth of Phylloxera gall and normal grape stem tissues in culture.
14932

Studies on a mosaic disease of Tylophora indica (Burm. F.) Merr..
14987

Isolation of bovine adenoviruses from tissue cultures of calf testicles.
15161

Cultivation of the turkey coccidium, Eimeria meleagrimitis Tyzzer, 1929, in mammalian kidney cell cultures.
15168

Utilization of various cell culture systems for propagation of certain feline viruses and canine herpesvirus.
15175

Production of acid mucopolysaccharides in mammalian fibroblast tissue cultures transformed by Rous sarcoma virus.
15183

Use of the nucleic acid hybridization method for the demonstration of DNA homologous to Rous virus RNA in RSV--TRANSFORMED mammalian cells.
15184

Interaction of Rous sarcoma virus with rat embryo fibroblasts of inbred Lewis strain in vitro.
15191

Residues of chlortetracycline in eggs after additional feeding with this antibiotic substance.
15244

Residues of chlortetracycline in the tissues of poultry after additive feeding with this antibiotic substance.
15245

Glomerular lesions induced in Pekin ducks by dietary administration of dimethylnitrosamine.
15262

Further description of a subline of Grace's mosquito (Aedes aegypti L.) cells adapted to hemolymph-free medium.
15378

Antigenic analysis of bovine enteroviruses through studies of the kinetics of neutralization.
15768

Stimulation of DNA synthesis in bovine leukocyte cultures by Trypanosoma theileri antigen.
15775

Masking of the aggregation phermone in Dendroctonus pseudotsugae Hopk.
15805

Role of interferon in enhanced replication of Newcastle disease virus in swine cells infected with hog cholera virus.
15807

Differential sensitivities to gamma radiation of Phylloxera gall and normal grape stem cells in tissue culture.
15890

TISSUE EXTRACTS

Lactic dehydrogenase isozymes in the grasshopper.
9961

The in vitro metabolism of organophosphorus insecticides by tissue homogenates from mammal and insect.
10426

Excision of gonads from immature Diatraea.
11408

TISSUE GRAFTING

The maturation of the oocytes in the isolated abdomen of Leucophaea maderae.
8719

Homograft of the tarsus into the place of the eye in the phasmid Sipyloidea sipylus W.
8888

Further studies on gradient-dependent diversification in the pupal cuticle of Galleria mellonella.
11887

TISSUE TRANSPLANTS

Resumption of yolk formation after the implantation of corpora allata in Pieris brassicae L. (Lepidoptera).
11305

Juvenile hormone and the formation of warriors in the yellow necked termite, Calotermes flavicollis Fabr..
11332

TISSUES

Improved extraction of chlorinated hydrocarbon pesticides from animal tissues.
8547

Distribution of pesticide residues in human body tissues from Montgomery County, Ohio. in: Organic pesticides in the environment; symposium...American Chemical Society Atlantic City, N.J., Sept. 13-15, 1965. robert J. Gould, ed.
8573

Distribution of wheat streak mosaic virus-like particles in Aceria tulipae.
8876

Pattern of cell death in sorghum stalk tissue as a measure of the susceptibility to spread of Colletotrichum graminicola in fifty-five sorghum varieties.
8965

Alteration of plant growth habit as a means of controlling rhizomatous species.
9037

Actinobacillus lignieresii infection in a dog.
9067

Multiple antigenic components of the group-specific antigen of the avian leukosis-sarcoma viruses.
9109

Electron microscopical observations on Mycobacterium johnei.
9115

Influence of Botrytis cinerea infection on ribosomal properties and functions in cabbage tissues.
9539

Physoderma citri in citrus albedo and callus tissue.

The detection of autoantibodies to kidney tissue in a dog experimentally infected with Leptospira canicola.
14010

Extraction procedures for DDT residues in firm fruits and in hay: Colorimetric method.
14059

The effect of succinic acid 2,2-dimethyl hydrazide on stem and leaf tissues of Chrysanthemum morifolium Bright Golden Anne. (Abstract).
14324

Effect of beta-acylphenylhydrazine derivatives on blast fungus upon leaves and in tissues of rice plants.
14459

Pseudomonas infections in mink with special reference to Pseudomonas vasculitis in pulmonary lesions.
14598

Determination of insecticide residue in animal and plant tissues. iV: Determination of residual amount of Sumithion and some of its metabolites in fresh milk.
14659

Calcium localization in Hypomyces-infected squash hypocotyls and effect of calcium on pectase lyase and tissue maceration.
14677

Structural and biochemical changes in tissues isolated from the cantharidin-poisoned rat with special emphasis upon hepatic subcellular particles. 15261

Feeding habits of two Phylloxera species (Phylloxeridae, Aphidina) on oak leaves. 15387

Research concerning leaf scorch (species Aphelenchoides fragariae(infecting strawberries. 15591

Tissue distribution of sulfadimethoxine and sulfamonomethoxine in horses after intravenous injection. 15798

TOBACCO

A black mildew, of the genus Diporotheca, found on roots of Nicotiana tabacum in Connecticut. 8278

Tobacco mosaic virus in dividing mesophyll cells of Nicotiana. 8290

How to control insects on field tobacco. 8347

GLC determination of residues of disulfoton, oxydemetonmethyl, and their metabolites in tobacco plants. 8596

Effect of TMV multiplication on RNA and protein synthesis in tobacco chloroplasts. 8956

Tobacco etch virus cylindrical inclusions: antigenically unrelated to the causal virus. 8984

Occurrence of brown spot on tobacco in Kentucky in 1966. 8989

Partial reconstitution of tobacco mosaic virus. 8993

Calcium nutrition and black shank of tobacco. 8999

House sparrows and a field infestation of tobacco hornworm larvae. 9023

Mortality of the earthworm Lumbricus terrestris L. following soil applications of insecticides to a tobacco field. 9175

Fine structure of healthy and TMV-INFECTED tobacco cells grown in tissue culture. 9206

Importance of irregular local and systemic infections for the interference of tobacco mosaic virus strains. 9550

Suppression of ozone toxicity symptoms in virus-infected tobacco. 9551

Specific inhibition of TMV-RNA synthesis by blasticidin S. 9569

Dicarbamate derivatives of alkyladamantanes. Patent 3,450,744. 9585

Clover yellow vein virus in North America. 9593

Functions of the two particles of tobacco rattle virus. 9601

Sequence studies of satellite tobacco necrosis virus RNA; isolation and characterization of a 5'-terminal trinucleotide. 9615

Transmission of tobacco ringspot virus to the roots of a conifer by a nematode. 9652

Interaction between chilli mosaic and powdery mildew in tobacco. 10176

Verticillium wilt of tobacco. VI. The influence of roots and stems on Verticillium wilt symptoms in tobacco. 10186

Effect of cytokinins on tobacco mosaic virus production in local-lesion and systemic hosts. 10204

Translocation of tobacco ringspot virus in cucumber and zinnia. 10206

Studies on the biosynthesis of TMV. I. A system approaching a synchronized virus synthesis in a tobacco leaf. 10210

A necrotic type virus occurring on a weed in Germany. 10227

Verticillium wilt of tobacco. VIII. Movement of conidia of Verticillium dahliae Kleb. in tobacco plants. 10230

Verticillium wilt of tobacco. VII. Pathogenicity of isolates of Verticillium dahliae Kleb. on New Zealand tobacco. 10231

Distribution of larval and pupal instars of Plusia argentifera Guen. on tobacco plants. 10240

GLC determination of residues of disulfoton, oxydemetonmethyl, and their metabolites in tobacco plants. 10404

Cytokinins and transfer ribonucleic acids. II. Presence of cytokinins in different amino-acid specific transfer ribonucleic acids of brewer's yeast as revealed by the growth response of tobacco-pith callus tissue and Scorzonera crown-gall tissue. 10439

Formation of tobacco mosaic virus in an animal cell culture. 10616

Some aspects of the chemical control of tobacco Peronospora. 10642

Adult hornworm populations and degree of infestation on tobacco in relation to community-wide grower use of blacklight traps. 10752

Identification of tobacco mosaic coat protein after the injection of tobacco mosaic virus RNA into the common slime mold. (Abstract). 10995

Form and mechanism of transmission of plant viruses. Transmission of viruses by fungi. 11466

The structure of tobacco mosaic virus from base analogue treated tobacco leaves. 11493

Stimulation of biosynthesis of tobacco mosaic virus by antimetabolites. 11498

Freeze-etching observations on tobacco leaves infected with tobacco mosaic virus. 11516

Research on the metabolism of virus-infected plants. V. Influence on the changes in metabolism in Phaseolus vulgaris L. after infection with tobacco necrosis virus by light deficiency. 11979

Unusual strains of phytopathogenic viruses. 11986

Penalty for spot . 12029

Influence of quaternary structure on antigenic configuration of tobacco mosaic virus. (Abstract). 12321

Reproductive capacity of the green peach aphid on Maryland tobacco. 12461

Tobacco mosaic virus in dividing mesophyll cells of Nicotiana. 12607

Relation of tobacco mosaic virus to the host cells. 12608

Inhibition of tobacco mosaic virus infectivity by the fungus Thielaviopsis basicola (Berk. Br.) Ferr.. 12615

Isolation of Staphylococcus epidermidis from tobacco. 12647

Efficacy of different insecticides against tobacco ground beetles in the field. 12674

Insecticide trials in tobacco seedbeds, 1962--1965. 12715

Fungi isolated from tobacco leaves and brown-spot lesions before and after flue-curing. 13295

Tests on the control of nematodes of the genus Meloidogyne on tobacco. 13343

Mycotoxicosis: Toxicity to chicks of Alternaria longipes isolated from tobacco. 13375

Differentiation of pathotypes among isolates of Xanthomonas vesicatoria. 13760

Veinbanding (potato virus Y) on tobacco in eastern North Carolina. 13773

Investigations on the influence of crop rotation on the population density of free-living nematodes in connection with potato corky ringspot. II. Occurrence of the virus disease. 13808

The association of root-lesion nematodes with reduced growth of tobacco in the Nelson district. 13867

The effect of sodium replacement on the electroretinogram recorded from the cockroach ocellus. 14179

Ecdysone and DNA synthesis in cultured wing disks of the wax moth, Galleria mellonella. 14250

Sperm activation and migration in bed bugs. size in hypersensitive hosts in the presence of chloramphenicol. 14257

The ultrastructure and physiology of the abdominal air-guide retractor muscles in the giant water bug, Lethocerus. 14277

Lysozyme action in the cockroach--blood changes. while probing intercellularly. 14279

The effect of inoculum concentration on virus multiplication in cucumber cotyledons. II. Cucumber mosaic and tobacco mosaic viruses. 14367

An apparently two-factor dose-response dependence in lucerne mosaic virus assay. 14368

Removal of pseudomonads from plant leaves and measurement of their in vivo beta-glucosidase synthesis. 14369

Bean yellow mosaic and tobacco ringspot virus isolated from Crotalaria (Crotalaria spectabilis). 14388

Strains of tobacco mosaic virus contained in cigarettes, with especial reference to the infection source for mosaic disease of tomato. 14389

Breeding for disease resistance and yield improvement in flue-Cured tobacco. 14394

Identification of a bacterial strain Pseudomonas solanacearum E. F. Sm. of tobacco (Nicotiana tabacum L.) in Colombia. 14396

Is an early infection by Peronospora tabacina Adam controlable in the field . 14397

Tobacco diseases in Venezuela, Costa Rico and Nicaragua. 14407

Peroxidase isozymes in virus-infected plants. 14418

Preliminary report on the amino acid composition of TMV-C protein. 14422

Evidence of phenotypic mixing between two strains of tobacco mosaic virus. 14441

Enhancement of tobacco rattle virus stable form infection by heterologous short particles. 14447

Occurrence of Phyllosticta leaf spot on Florida cigar-wrapper tobacco. 14456

Economically important nematodes in Ontario--1966. 14516

Blue light promotes symptom formation and virus multiplication in plants. 14669

2,4-D,to ripen tobacco may be detriment to producer and industry. 14688

Fungicide trials for the control of sore shin of tobacco. 14952

Test for fungicidal activity against blue mold on tobacco using cotyledons. 14961

Measurement of the synthesis of plant viruses through the incorporation of radioactive precursors of ribonucleic acid. 14962

Characteristic of development and noxiousness of the most important diseases and pests of industrial plants in Poland in the year 1967 and their forecast for 1968. 15032

Interrelationship between use of herbicides and growing technique of tobacco. 15098

A virus disease of Pieris rapae (L.) in Queensland. 15428

RNA synthesis in tobacco leaves infected with tobacco mosaic virus. 15470

Contribution to the study of soybean bacterial disease in western Serbia. 15471

Infection of bean root- meristems by tobacco ringspot virus. 15488

Observation on negatively stained tobacco ringspot virus and its two RNA-DEFICIENT components. 15489

Association of tobacco rattle virus with mitochondria. 15517

Photoreactivation spectrum of tobacco mosaic virus-ribonucleic acid inactivated by ultraviolet radiation. 15519

Cross protection test with four strains of potato virus Y in Nicotiana tabacum L. cv. Samsun. 15523

Interaction between viral RNA and cellular components in tobacco leaves infected with tobacco mosaic virus. 15527

Dark reactivation of UV-IRRADIATED tobacco necrosis virus. 15529

Aphids may not acquire and transmit stylet-borne viruses while probing intercellularly. 15537

Control of mosaic of tobacco, peppers, and tomatoes with milk. 15538

Control of mosaic of tobacco, peppers, and tomatoes with milk. 15539

Inhibitory effect of red-pepper leaves (Capsicum annuum L.) on the infection of some viruses of their ultra-susceptible hosts. 15542

Infection through cell lesions and investigation into the infectious dilution curves of tobacco mosaic virus. 15554

On the partial purification of Chrysanthemum B-virus and production of a high titer antiserum. 15555

The incidence of tobacco mosaic virus in plastids of etiolated tobacco leaves. 15564

Modification in the nuclear structure of tobacco infested with tobacco mosaic virus at 32 degrees C. 15571

Properties and serology of plum pox virus. 15572

Increase of tobacco mosaic virus multiplication and lesion size in hypersensitive hosts in the presence of chloramphenicol. 15583

Considerations on chemotherapeutics research in plant virology. 15585

Tobacco--wildfire control in burley plant beds. 15596

Tobacco--blue mold and anthracnose control, asheville. 15597

Tobacco--blue mold and anthracnose control. 15598

Virulence on various solanaceae of three strains of the stolbur virus and a virus infecting tomato plants in Tunisia. 15652

Tobacco insects. Plant beds. 15659

Tobacco insects. 15663

Tobacco--wildfire control in burley plant beds. 15672

Note on effects of nematicides and heat treatment on the control of root-knot nematode in tobacco nurseries. 15686

Fumigant nematocides for tobacco. 15690

Multipurpose disease control soil fumigants for tobacco. Nemotodes, black shank and black root rot. 15691

Soil fumigants for control of nematode diseases of tobacco. 15692

Temperature and the synthesis of viral protein material in Nicotiana Xanthi n. c. infected with tobacco mosaic. 15894

Qualitative development of certain phenolic substances during a decrease in the phenomenon of hypersensitivity to tobacco mosaic virus in Nicotiana Xanthi n. c. 15907

TOBACCO MOSAIC VIRUS

Viruses-agents of disease. 8281

Tobacco mosaic virus in dividing mesophyll cells of Nicotiana. 8290

An electron microscopy study of the penetration of tobacco mosaic virus into leaves following experimental inoculation. 8292

Tomato virus diseases in closed and opened soil of the Estonian SSR. 8293

Fluorescent antibody staining of tobacco mosaic virus antigen in tobacco mesophyll protoplasts. 8307

The pitch of tobacco mosaic virus. 8948

Effect of TMV multiplication on RNA and protein synthesis in tobacco chloroplasts. 8956

Partial reconstitution of tobacco mosaic virus. 8993

The metabolism of carbon-14 specifically labelled glucose in leaves showing tobacco mosaic virus induced local necrotic lesions. 9205

Fine structure of healthy and TMV-INFECTED tobacco cells grown in tissue culture. 9206

Specific inhibition of TMV-RNA synthesis by blasticidin S. 9569

Effect of cytokinins on tobacco mosaic virus production in local-lesion and systemic hosts. 10204

Studies on the biosynthesis of TMV. I. A system approaching a synchronized virus synthesis in a tobacco leaf. 10210

On the inhibitory effect of yeast ribonucleic acid on the infection of Nicotiana glutinosa by tobacco mosaic virus. 10443

The structure of tobacco mosaic virus from base analogue treated tobacco leaves. 11493

Tobacco mosaic virus in dividing mesophyll cells of Nicotiana. 12607

An electron microscopy study of the penetration of tobacco mosaic virus into leaves following experimental inoculation. 12611

A kinetic isotope effect in the photoreactivation of u. v.-inactivated tobacco mosaic virus RNA. 13250

The effect of sodium replacement on the electroretinogram recorded from the cockroach ocellus. 14179

Sperm activation and migration in bed bugs. size in hypersensitive hosts in the presence of chloramphenicol. 14257

The effect of inoculum concentration on virus multiplication in cucumber cotyledons. II. Cucumber mosaic and tobacco mosaic viruses. 14367

Strains of tobacco mosaic virus contained in cigarettes, with especial reference to the infection source for mosaic disease of tomato. 14389

Preliminary report on the amino acid composition of TMV-C protein. 14422

Evidence of phenotypic mixing between two strains of tobacco mosaic virus. 14441

Effect of the tobacco mosaic virus on growth and fruiting of outdoor tomato culture in south-eastern France. 14971

Haemagglutination test to detect tobacco mosaic virus antigens. 14985

RNA synthesis in tobacco leaves infected with tobacco mosaic virus. 15470

Interaction between viral RNA and cellular components in tobacco leaves infected with tobacco mosaic virus. 15527

Heat treatment of tomato seeds. 15535

Infection through cell lesions and investigation into the infectious dilution curves of tobacco mosaic virus. 15554

The incidence of tobacco mosaic virus in plastids of etiolated tobacco leaves. 15564

Modification in the nuclear structure of tobacco infested with tobacco mosaic virus at 32 degrees C. 15571

Investigation into the influence of day length on the reproduction of potato-X and tobacco mosaic virus in Solanaceae of differing photoperiodic sensitivity. 15579

Increase of tobacco mosaic virus multiplication and lesion size in hypersensitive hosts in the presence of chloramphenicol. 15583

Temperature and the synthesis of viral protein material in Nicotiana Xanthi n. c. infected with tobacco mosaic. 15894

Modification of nuclear structure in tobacco, Nicotiana tabacum var. Samsun, infected at 32 degrees C by tobacco mosaic virus. 15901

Qualitative development of certain phenolic substances during a decrease in the phenomenon of hypersensitivity to tobacco mosaic virus in Nicotiana Xanthi n. c. 15907

TOLERANCES

Tolerances of three species of anuran amphibians to five chlorinated hydrocarbon insecticides. 8541

Effect of forage processing on dalapon residue. 8548

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O,O-diethyl O-(2-isopropyl-4-methyl-6-pyrimidinyl) phosphorothioate. 9532

Tolerance. of Sorghum bicolor (L.) Moench to several herbicides. 9670

Notice of filing of petition regarding pesticide chemicals. 9786

Notice of filing of petition regarding pesticide chemicals. 9788

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Norea. 9789

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O,O-dimethyl S-(4-oxo-1,2,3-benzotriazin-3(4H)-ylmethyl) phosphorodithioate. 9790

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-(p-tertbutylphenoxy)cyclohexyl 2-propynyl sulfite. 9791

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-ethylamino-4-isopropylamino-6-methylthio-s-triazine. 9795

Notice of filing of petition for food additives. 10417

Notice of filing of petition regarding pesticide chemicals. 10930

Notice of filing of petition regarding pesticide chemicals. 10931

2-ethylamino-4-isopropylamino-6-methylthio-s-triazine. Notice of establishment of temporary tolerance. 10932

Methyl m-hydroxycarbanilate m-methylcarbanilate. Notice of establishment of temporary tolerance. 11000

Amprol for the prevention of coccidiosis in growing turkeys. 11608

Carbofuran. Notice of establishment of temporary tolerances. 11671

Isopropyl 4,4'-dibromobenzilate. Notice of establishment of temporary tolerance for pesticide chemical. 11672

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Insecticide mixture. 12217

N'-(4-chloro-o-tolyl)-N,N-dimethylformamidine. Notice of establishment of temporary tolerance for pesticide chemicals. 12218

Be alert to pesticide use changes. 12935

Tolerance of fungi to organic fungicides. 13253

Pesticide quest: residue surveys and tolerances. 13442

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-chloro2',6'-diethyl-N-(methoxymethyl) acetanilide. 13446

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O-Ethyl S,S-dipropylphosphorodithioate. 13447

Bases for the toxicological evaluation of pesticide residues and establishment of tolerances in food. 13456

Arsenic: Science or superstition. 15156

Esterase activity in organophosphorus- tolerant strains of Aepes aegypti. 15454

TOLUENE

Gas chromatographic determination of ethyl O,O-dimethyl-dithiophosphoryl-l-phenyl acetate in technical grade cidial and its 50 percent liquid formulation. 9216

Oxidative degradation of aromatic hydrocarbons by microorganisms. II. Metabolism of halogenated aromatic hydrocarbons. 9831

Preparation of the new fungicide heximide. 14703

TOMATINE

Inheritance of resistance in tomato (Lycopersicon spp.) to the anthracnose pathogen Colletotrichum coccodes. 14437

TOMATOES

Tomato virus diseases in closed and opened soil of the Estonian SSR. 8293

Bacterial spot of tomato in United Arab Republic. 8304

Restricted local spread of curly top in tomatoes. 8332

A study of the activity of diphenamid and three analogs. (abstract). 8582

Corn carworm infestation in ripe strawberries. 9017

Notice of filing of petition regarding pesticide chemicals. 9150

Occurence of tomato ringspot virus in red raspberries in the eastern United States. 9556

A contribution to the study of Alternaria tenuis Nees causer of the leaf spot of tomato. 9581

Transmission intensity of stolbur virus by means of Hyalesthes obsoletus Sign. on some host plants. 9619

The eelworm problem in glasshouse tomatoes. 9651

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O,O-dimethyl S-(4-oxo-1,2,3-benzotriazin-3(4H)-ylmethyl) phosphorodithioate. 9790

Effects of succinic acid 2,2-dimethyl hydrazide and (2-chloroethyl) trimethylammonium chloride on tomatoes (Lycopersicon esculentum Mill.) and on tuberous root formation in Dahlia pinnata Cav. 9841

A new tomato virus found in the Estonian SSR (Aspermy-virus). 10187

Phytotoxicity of bemethylated analogs of diphenamid.. 10290

Effect of nitrogenous materials on the uptake of triazine herbicides. 10298

Treated water curbs tomato decay. 10384

Gibberellin induced heterostyly in the tomato and its implications for hybrid seed production. 10593

Tests for the control of mildew of the tomato. 10625

The presence of mycoplasma-like particles in the phloem of plants infected with three European yellow diseases: tomato stolbur, gladiola aster yellow, and clover phyllody. Cytological and ultrastructural studies. Preliminary remarks on chemical control. 10633

Root knot eelworm, (Meloidogyne species). 10747

Selective weed control in direct-seeded tomatoes. (Abstract). 10822

The influence of magnesium on the toxicity of atrazine. (Abstract). 10962

Selectivity of linuron on parsnip and tomato. (Abstract). 10994

The mode of action of diphenamid in plants. (Abstract). 10999

Toxic effects of black fiber pots on tomato transplants. 11006

The disappearance of atrazine when in contact with polyvinyl chloride tubing. (Abstract). 11067

Interrelationship of root-knot nematode leaf curl virus in tomato. 11445

Principal diseases of tomatoes, Licopersicum esculentum, L. 11448

Growing trellised tomatoes in western North Carolina. 11917

Preliminary studies on the effect of single and combined treatments of X-rays and gibberellic acid on the growth of rice and tomato seedlings. 11920

Remarks on the practice of grafting and soil disinfection with methyl bromide and with di-trapex in the control of verticillium wilt of greenhouse tomato plants. 11947

Remarks on the efficiency of soil disinfection, using steam and various fumigants, in the control of verticillium wilt of greenhouse tomato plants. 11948

Blossom-end rot of 'Chico' and 'Chico Grande' tomatoes. 11973

Polyphenoloxidase activity in bacterially induced graywall of tomato fruit. 11978

The relationship of glandular hairs on tomatoes to spider mite resistance. 12085

Physiological studies of gamma-irradiated tomato fruits. III. Effects on ascorbic acid content, acidity and texture. 12229

Morphogenetic responses of tomato plants to combined and individual applications of gibberellic acid, Phosfon and B-nine. 12271

The effect of herbicides on quality of tomato and snap beans. 12292

Feeding response of larvae of the corn earworm (Lepidoptera: Noctuidae) to water extracts of 16 host plants. 12556

Tomato virus diseases in the Lithuanian SSR. 2. The method of group sampling. 12613

The reactions of susceptible and resistant tomato cultivars to strains of Verticillium albo-atrum. 12639

Field trials for the control of Stemphylium botryosum f. lycopersici. 12653

Transmission of the disease Brazilian tomato ringspot through the soil. 12658

Transmission of strains of raspberry ringspot and tomato black ring viruses by Longidorus elongatus (de Man). 12662

The effect of linuron on 32P and 45Ca uptake in tomato and parsnip. 12724

Didymella stem and fruit rot of tomato. 13273

Hereditary resistance to disease in tomato. 13294

Grave damage to greenhouse tomatoes by Liriomyza-solani Macquart. 13304

Differentiation of pathotypes among isolates of Xanthomonas vesicatoria. 13760

Effect of fungal infection in tomato fruits on seed germination. II.--ALTERNARIA tenuis. 13770

Effect of fungal infection to tomato fruits on seed germination. I.--Rhizopus nigricans. 13772

Veinbanding (potato virus Y) on tobacco in eastern North Carolina. 13773

Some viruses affecting tomatoes and peppers in Argentina. 13776

The development and life history of the false root-knot nematode, Nacobbus serendipiticus. 13869

Effect of temperature on the rate of development of Nacobbus serendipiticus in excised tomato roots. 13892

Tests on induced disturbances of plant regulators on the fruit of the tomato plant cv. 'Super-Marmamde'. 14072

Relative radiosensitivities of three developmental stages, i.e., floral development, gametogenesis and embryogenesis under chronic gamma irradiation. 14101

Stimulation of flower bud abscission and concentration of fruit set in tomato, (Abstract). 14312

Stimulation of tomato ripening by Amchem 66-329. (Abstract. 14313

Identification of the virus causing papaw yellow crinkle with tomato big bud virus by transmission tests. 14365

Strains of tobacco mosaic virus contained in cigarettes, with especial reference to the infection source for mosaic disease of tomato. 14389

New tin complex compounds as plant protection fungicides. 14445

Preparation of dehydrated tomato powder samples for Howard mold count. 14650

Effect of the tobacco mosaic virus on growth and fruiting of outdoor tomato culture in south-eastern France. 14971

Weed control in horticultural crops: Vegetables; fruit. 15092

Some effects of the growth regulators CCC and Alar (B-995) on the tomato (Lycopersicum esculentum, Mill.). I. Effects on leaf area, plant spread, dry weight, height and leaf numbers. 15290

On the transmission of tomato black ring virus by Longidorus attenuatus (Nematoda). 15518

Heat treatment of tomato seeds. 15535

Control of mosaic of tobacco, peppers, and tomatoes with milk. 15538

Control of mosaic of tobacco, peppers, and tomatoes with milk. 15539

Combined application of leaf fertilizers and fungicides. 15576

Identification and determination of organomercurial fungicide residues by thin-layer and gas chromatography. 15594

Resistance to bacterial canker in tomato, and its evaluation. 15595

Comparated study on (Vinca rosea) L. of 3 virus diseases: (western aster yellow) isolated from (gladiolus,) (clover phyllody) and (tomato stolbur). 15612

Virulence on various solanaceae of three strains of the stolbur virus and a virus infecting tomato plants in Tunisia. 15652

Azinphos-ethyl residues on field grown tomatoes. 15857

Persistence of bhc (hexachlorocyclohexane) on tomato crop (Lycopersicon esculentum Mill.). 15873

TOMICUS PINIPERDA

Experiments with Beauveria bassiana (Bals) Vuill. against Blastophagus piniperda L. (Col., Scolytidae). 8822

The infestation of timber by bark beetles (Col., Scolytidae) and their enemies in different zones of the Finnish southwestern archipecago. 8823

The influence of colony density and other factors on the number of offspring in Blastophagus piniperda L. (Col., Scolytidae). 13046

Laboratory experiments on the olfactory orientation of Blastophagus piniperda L. (Coleoptera, Scolytidae) to substances isolated from pine rind. 13069

TOMOCERUS

The photoreceptors of the Collembola. New formations of the rhabdomeric structure belonging to the genus Tomocerus (Insecta, Collembola). 11228

TONGUE

Localization of Trichinella spiralis larvae. 15209

Larval location of the Trichinella spiralis. 15210

TOOLS

Citrus exocortis virus--Chemical inactivation on tools, tolerance to heat and separation of isolates. 10696

TORTRICIDAE

New species of the Laspeyresia succedana Schiff. group (Lep. Tortricidae). 8052

Biological investigations on Pandemis heparana (Den. and Schiff.) with special consideration given to the factors inducing diapause and influencing egg laying. 8155

Sex pheromone specificity: Taxonomic and evolutionary aspects in Lepidoptera. 8178

How to control insects on field tobacco. 8347

Problems of the month. 8932

Records of parasites of sunnhemp shoot-borer, Laspeyresia tricentra Meyr. (Tortricidae: Lepidoptera) in Uttar Pradesh. 12682

Host associations and taxonomy of Nearctic conifer cone moths in the genus Eucosma (Lepidoptera: Tortricidae). 13584

Observations on the diapausal and post-diapausal, proterandric developmental events in caterpillars of Sparganothis pilleriana Schiff. (Lepidoptera: Tortricidae). 14259

The scientific name for the fruit cup leaf roller.(Lep. Tortricidae). (A contribution to Organoxenia). 14285

Insects, Lepidoptera. Leaf roller moths, Tortricidae, tribe Laspeyresiini. 14730

Two Ascogaster species (Hymenoptera, Braconidae), parasites of leafrollers (Lepidoptera, Tortricidae) in apple orchards, with different host selection. 14741

A literature review of the spruce, western, and 2-year-cycle budworms Choristoneura fumiferana, C. occidentalis, and C. biennis (Lepidoptera: Tortricidae). 14852

A new tortricid injurious to cedar in France (Lepidoptera). 15317

On the biology of Epinotia (Evertria) cedricida Diakonoff, a serious pest of cedar in France (Lep., Tortricidae). 15393

TORTRIX POSTVITTANA

Pests of the grapevine. 14485

TORYMIDAE

Paraholaspis ovivora n. sp. (Hym., Torymidae), a parasite of the eggs of the buprestid Sterapis speciosa Klug.. 8055

Observation of Chalcedectus sinaiticus (Ms.), and descriptions of C. balachowskyi sp. in (Hym., Chalcedectidae) and Oopristus safavii gen. n., sp. n. (Hym., Torymidae), two parasites of economic importance in Iran. 11205

Some Torymidae (Hymenoptera: Chalcidoidea) new to Britain, with notes on other British species. 12962

TORYMUS VARIANS

Apple chalcid, Torymus varians (Wlk.), (Hymenoptera: Torymidae), in Quebec. 8373

TOXAPHENE

Pollen gathering of honey bees reduced by pesticide sprays. 8205

Identification and measurement of chlorinated organic pesticides in water by electron-capture gas chromatography. 8527

Identification and measurement of chlorinated organic pesticides in water by electron-capture gas chromatography. 8528

Determination of pesticides in water by microcoulometric gas chromatography after liquid-liquid extraction. 8530

Tolerances of three species of anuran amphibians to five chlorinated hydrocarbon insecticides. 8541

Studies on the effect of sulfuric-fuming nitric acid treatment on the analytical characteristics of toxaphene. 8603

Studies on the effect of sulfuric-fuming nitric acid treatment on the analytical characteristics of toxaphene. 9153

Control of equine piroplasmosis in Florida. 11590

Equine piroplasmosis in the United States-- a review. 14009

Insects on humans. 15200

Small grains insects. 15629

Sorghum. 15630

Insects on humans. 15814

TOXASCARIS LEONINA

Experimental studies on Toxascaris leonina. II. Diagnosis and treatment of Toxascariasis in dogs and cats. 15824

Experimental studies on Toxascaris leonina. I. Incidence of T. leonina among dogs and cats in Japan. 15825

TOXICITY

Pathological changes in the trunk of Prunus armeniaca L. and their relationship to the premature death of apricots. I. Investigations in the area of wood structure. 8308

Effects of pesticides on raw wastewater. 8524

The action of Tepa on the adults of Dacus oleae Gmel. (Diptera: Tephritidae) as a function of the quantity of the chemosterilant used. 8757

Selective toxicity of systemic insecticides. 8845

Comparative toxicites of insecticides to house fly larvae and Macrocheles muscaedomestica, a mite predator of the house fly. 9168

Acute cutaneous toxicity of certain organophosphorous insecticides. I. Lebaycid. 9172

Mechanisms of pesticide interactions in vertebrates. 9177

Toxicity of tall fescue to rape and birdfoot trefoil seeds and seedlings. 9210

Organophosphorus insecticides. Patent 3,432,599. 9249

The proliferation of aquatic plants in Lake Trasimeno and its consequences on the diffusion of Phytochironomus severini Goetgh. 9367

Toxicity and effects on motor coordination of some neurotropic drugs on the cockroach Nauphoeta cinerea. 9467

Studies on nicotinoids as an insecticide. Part VII. Cholinesterase inhibition by nicotinoids and pyridylalkylamines--its significance to mode of action. 9508

Plant protection under strict controls. 9529

Suppression of ozone toxicity symptoms in virus-infected tobacco. 9551

3,4-dihydroxybenzaldehyde, a fungistatic substance from green Cavendish bananas. 9586

Preliminary studies on toxicity of Ronnel-Dow Et 57 in sheep. 9814

The oral toxicity of dieldrin to the crowned guinea-fowl, Numida meleagris (L.). 9823

Rubber--vine (Cryptostegia grandiflora) toxicity for ruminants. 10346

Specificity and mechanism in the action of saligenin cyclic phosphorus esters. 10424

Insecticides, how to use them safely and effectively. 10466

A study of the toxicity of an organophosphorus insecticide and its residues. 10946

A contribution to the knowledge of the characteristics of barium polysulfide. 11070

Some rodenticidal properties of coomatetralyl. 11661

On the insecticidal properties of the d-trans ethanochrysanthamate of benzyl-5-furylmethyl-3. 14840

TOXICODENDRON RADICANS

Report on the current and planned local noxious weed control programs in New Jersey. 8414

TOXICOLOGY

Some ecological benefits of woody plant control with herbicides. 8396

The toxicity and sublethal effects of p p'-DDT and dieldrin to Aglais urticae (L.) (Lepidoptera: Nymphalidae) and Chorthippus brunneus (Thunberg) (Saltatoria:Acrididae). 8550

Dynamics of arsenic cumulation in hairless mice after peroral administration. 8559

Insecticide-resistant fishes: A potential hazard to consumers. 8562

Malathion-induced teratisms in the developing chick. 8564

Response of robins to DDT and methoxychlor. 8565

Comparison of assay methods for studying O,O-diethyl, O-p-nitrophenyl phosphate (paraoxon) detoxification in vitro. 8568

Mode of action of insecticide synergists. 8569

Degradation of parathion in the rat. 8570

Biochemical changes in rat liver in response to treatment with drugs and other agents--II. effects of halothane, DDT, other chlorinated hydrocarbons, thioacetamide, dimethylnitrosamine and ethionine. 8571

Structure-activity and metabolism studies on organophosphate teratogens and their alleviating agents in developing hen eggs with special emphasis on Bidrin. 8572

Nerve-blocking effect of Bacillus thuringiensis protein toxin. 8734

Mode of entry of contact insecticides. 8758

Comparative toxicites of crystal serotypes of Bacillus thuringiensis for larvae of Philosamia cynthia var. ricini. 8830

Physico-chemical studies on the absorption of pesticides by the insect cuticle and peneration to the insect body. 8874

Sensitivity of Rhizobium species to certain fungicides. 8933

Chemical control of pea root rot by soil-incorporation and in-furrow treatments with 1-chloro-2-nitropropane. 8954

Arsenic poisoning of cattle and other domestic animals. 9096

Further evaluation of animal systemic insecticides, 1968. 9126

Comparative mechanisms of insecticide binding with nerve components of insects and mammals. 9176

Mode of action of DDT and allethrin on nerve: Cellular and molecular mechanisms. 9178

Studies of warfarin resistance in the rat. (Abstract). 9179

Hematopoiesis and epiphyseal growth zones in rabbits with molybdenosis. 9183

On the mode of action of carbamate herbicides. 9200

On the action of Bracon venom. 9374

Esterase inhibition in malathion poisoning in the desert locust, Schistocerca gregaria Forskal. 9423

Toxicity and effects on motor coordination of some neurotropic drugs on the cockroach Nauphoeta cinerea. 9467

The effect of DDT on reproduction in mice. 9759

Studies with calcium ethylenediaminetetraacetate in calves; toxicity and use in bovine lead poisoning. 9803

Organophosphorus poisoning. Some properties of avian esterases. 9805

Organophosphorus poisoning. Diagnosis of poisoning in pheasants owing to a number of common pesticides. 9806

Effect of o,p'-DDD and metyrapone (SU-4885) on development of renal hypertension in rats. 9807

Studies on the action of high concentrations of alkylpolyglycol ethers on fish. 9808

Acute and subchronic toxicity of a new fluorine pesticide, N-methyl-N-(1-naphthyl) fluoroacetamide. 9810

Stimulation of hepatic microsomal drug-metabolizing enzymes by alpha,alpha-bis-(p-chlorophenyl)-3-pyridinemethanol and a method for determining no-effect levels in rats. 9811

Preliminary studies on venom from the brown recluse spider Loxosceles reclusa. 9816

The acute toxicity of ochratoxin A to rats. 9817

Toxicologico-hygienic characteristics of the amine salt of 2,4-D (Literature survey).
9818

Experimental production of Heinz bodies in the pig.
9819

Anthelmintic efficacy and toxicity studies of l-tetramisole in feedlot cattle.
9821

Acute radiotoxicity of 144Ce-144Pr after intravenous administration to sheep.
9822

Action of honey bee venom on development of epithelial cellular cultures of monkey's kidneys.
9997

Physico-organic chemical approach to the mode of action of organophosphorus insecticides.
10014

The toxicity to Tribolium castaneum (Herbst) (Coleoptera, Tenebrionidae) of mixtures of pyrethrins and piperonyl butoxide: Fitting a mathematical model.
10031

The artificial feeding of phosphamidon to Myzus persicae: ii. The effects of phosphamidon on liquid uptake through a parafilm membrane.
10086

Variability in insecticide tolerance of eighteen honey-bee colonies.
10125

Toxicity of selected acaricides to susceptible and resistant strains of Tetranychus urticae Koch.
10128

Toxicity of eight insecticides to the coccinellid predator Chilomenes sexmaculata Fabr..
10262

Metabolism of trifluralin in peanuts and sweet potatoes.
10273

Metabolism of organic pesticide chemicals in higher plants.
10278

Basis for selectivity of linuron on carrot and common ragweed.
10295

Mechanisms of action of herbicides.
10299

Absorption and penetration of picloram in potato tuber discs.
10308

Research on the effect of the entomophagous fungi Beauveria bassiana (bals.) Vuill. and Metarrhizium anisopliae (Metsch.) Sorok. on warm-blooded animals.
10353

Influence of pesticides on soil microbes and soil properties.
10400

Biodegradation of pesticides.
10422

Endrin induced alterations in bound carbohydrates in rat serum.
10423

Degradation and disappearance of ortho, para isomer of technical DDT in living and dead avian tissues.
10425

Delayed lethal effect of 2,4-dichlorophenoxyacetic acid on bacteria.
10429

Effect of dichloro diphenyl trichloro-ethane (DDT) on leghemoglobin content of root nodules of Phaseolus aureus (green gram).
10438

Physico-chemical and biophysical factors affecting the activity of pesticides.
10462

The insecticides; chemistry, mode of action, and toxicity.
10474

Comparison of substituted uracils for weed control in sugarcane. (Abstract).
10799

Effects of dietary protein level on acute toxicity and metabolism of heptachlor in the laboratory rat. (Abstract).
10849

Age and sensitivity of trout to aflatoxin B1. (Abstract).
10865

Possible route of toxicity of rat pups injected with cycasin. (Abstract).
10906

The isolation of the toxic principle of Daphne.
10945

Comparative effects of tretamine, tepa, apholate and their structural analogs on human chromosomes in vitro.
10948

Estrogenic action of DDT and its analogs. (Abstract).
10949

Effects of chronic endrin administration on brain electrical activity in the squirrel monkey. (Abstract).
10951

Studies on the anticholinesterase effects of methyl parathion, guthion, dichlorovos, and Gardona in human subjects. (Abstract).
10952

The toxicity of nine therapeutic and herbicidal compounds to striped bass.
10954

Safety evaluation of the pesticide diazinon by a two-year feeding trial in Rhesus monkeys. (Abstract).
10955

Physiological investigations on spring parsley. (Abstract).
11052

Kojic acid as an insecticidal mycotoxin.
11229

Toxins from the entomogenous fungus Metarrhizium anisopliae: Isolation of destruxins from submerged cultures.
11379

Toxicity and antigenicity of shipping fever vaccines in calves.
11604

Diseases of animals.
11610

The influence of herbicides upon the antagonism between Bacillus sp. and Pseudomonas phaseoli.
11677

Cholinolytics in the treatment of anticholinesterase poisoning. V. The effectiveness of Parpanit with oximes in the treatment of organophosphorus poisoning.
11678

Effect of isomers of DDD on thyroid and adrenal function in rats.
11680

Locoweed (Astragalus lentiginosus) poisoning in cattle and horses.
11683

The effect of parathion on quail embryonic development.
11687

Reactions of bioindicators to haemolymph and excreta of Colorado beetle larvae--Leptinotarsa decemlineata Say (Col. Chrysomelidae) treated with preparation dieldrin.
11787

Lysozyme action on the cockroach, Periplaneta americana, and its intracellular symbionts.
11898

Progress in the field of systemic insecticides and hopes for the future.
11926

Studies in fungitoxicity, VI. Fungicidal activity of certain 2-(substituted thio)-5-(2,4-dinitrophenylthio)-1,3,4-thiadiazoles and related compounds.
12010

The toxicity of organophosphorus insecticides to miner moths.
12045

Toxic effects of Phytolacca thyrsiflora caruru bravo.
12117

Cytotoxic effects of extracts from gamma-irradiated pineapples.
12204

Herbicides have little effect on plant-animal relationships.
12212

Poisons that hit and run.
12223

Detrimental insects and fighting against them. IV. Tendencies to limit chemical warfare.
12225

Acute cutaneous toxicity of certain organophosphorous insecticides. II - Phosphamidon.
12226

Calcium disodium edetate injection. Drugs for veterinary use - drug efficacy study implementation.
12228

The toxicity of alpha-dihydroheptachlor and related compounds to the housefly (M. domestica L.) and their metabolism by housefly and pig liver microsomes.
12422

Effect of insecticidal sprays on the longevity and fecundity of Eublemma amabilis Moore and Holcocera pulverea Meyr.
12493

Histopathological and developmental effects of the chemosterilant apholate, on the mosquito Aedes aegypti.
12535

Toxicity, control, and residue studies with DO-14 (2-(p-tert-Butylphenoxy) cyclohexyl 2-propynyl sulfite) as an acaridicide against the citrus red mite.
12673

Effect of activated carbon on the phytotoxicity of herbicides in a tropical soil.
12709

Translocation of dicamba in Canada thistle.
12713

Insecticide trials in tobacco seedbeds, 1962--1965.
12715

The influence of soil characteristics on the adsorption and phytotoxicity of simazine.
12716

Gross morphological and cytological effects of nitralin on corn roots.
12721

Slaframine: A parasympathomimetric from Rhizoctonia leguminicola.
12750

A preliminary study of the rodenticidal activity of some derivatives of 2-arylindandione-1,3 and 2-arylacylindandione-1,3.
12897

A note on boron toxiccity in young replantings.
12901

The influence of age and concentration of fumigant on the susceptibility of pupae of Tribolium castaneum (Herbst) (Coleoptera, Tenebrionidae) to methyl bromide.
13019

Hampea sp., host of the boll weevil. II. Laboratory antibiosis studies.
13107

Phytotoxicity of dithiocarbamate fungicides on Worcester Pearmain.
13266

The hypersensitive reaction to infection by bacterial plant pathogens.
13267

Mycotoxicosis: Toxicity to chicks of Alternaria longipes isolated from tobacco.
13375

Pesticide quest: residue surveys and tolerances.
13442

Detection of toxicity of aflatoxins, sterigmatocystin, and other fungal toxins by lethal action on zebra fish larvae.
13455

Bases for the toxicological evaluation of pesticide residues and establishment of tolerances in food.
13456

The need for pesticides. II.
13457

Report of the Joint AOAC-AOCS Aflatoxin Committee.
13460

Adenosine triphosphatase sensitive to DDT in synapses of rat brain.
13461

Adenosine triphosphatase sensitive to DDT in synapses of.
13462

The enhancement of penetration of an organophosphorus anticholinesterase through guinea pig skin by dimethyl sulfoxide.
13463

Residues of organochlorine insecticides in dead birds in the United Kingdom.
13464

Note on adsorption of aflatoxin standards to glass.
13465

Influence of soil properties on phytotoxicity of 4-amino-3, 5,6-trichloropicolinic acid (picloram).
13479

Faunatrol, a new chemical livestock repellent.
13507

The pesticide problem in developing countries.
13526

Relative susceptibility of Psorophora confinnis (Lynch-Arribalzaga) larvae in the rice producing area of southern Louisiana to selected insecticides.
13619

Effect of temperature on the endogenous activity of Periplaneta americana L. nerve cord.
13620

Insect answers; insecticide toxicity to honey bees.
13638

On the comparative study of some new insecticides for the control of jute semi-looper (Cosmophila sabulifera).
13641

Recovery after knockdown and non-contact toxicity of carbamates carbamult and arprocarb.
13662

Manner of action of Aspergillus parasites in insect wounds.
13698

The effect of the herbicide Isopropyl-N-3-chlorophenyl carbamate (CIPC) on the horse bean plant. I.--The effect of different concentrations of CIPC on the horse bean plant seeded in pots at different levels.
13902

Application of the herbicide 2,4-D in summer wheat crops. rakitin, y v mikhailova, t p.
13905

The effect of the herbicide Isopropyl-N-3-chlorophenyl carbamate (CIPC) on the horse bean plant. II.--THE effect of pre- and post emergence treatments of CIPC on the horse bean plant grown under field conditions.
13906

The effect of the herbicide Isopropyl-N-3-chlorophenyl carbamate (CIPC) on the horse bean plant. III.--HISTOLOGICAL effect of CIPC on the horse bean plant.
13907

Section III.--WEED control.
13912

The effect of herbicides on soil microflora. VI. The effect of pH on susceptibility of some bacteria to herbicides.
14044

Effect of the herbicide trifluralin on nitrogen-fixation in Rhizobium and Azotobacter and on nitrification.
14049

Zebra fish eggs and larvae as aflatoxin bioassay test organisms.
14060

Section I.--Insect control.
14062

The interaction of pesticides with other factors.
14063

Preliminary studies on the anti-malarial activity of SDDS (2-sulfamoyl-4, 4'-diaminodiphenylsulfone) against Plasmodium berghei and Plasmodium gallinaceum.
14065

The effects of polychlorobiphenyls on Chorthippus brunneus (Saltatoria: Acrididae).
14066

The relationship between chemical structure, fungicide properties and toxicity for mammals of some arsenic organic compounds.
14067

Detoxification of 2,4-D in plants depending upon the peculiarities of its application.
14089

Effect of cell poisons on the colloid-chemical properties of the cell.
14102

Relative efficacy of different insecticides, as contact poisons, to the larvae of the diamond-black moth, Plutella maculipennis Curtis (Lepidoptera: Plutellidae).
14122

Plictran miticide-New approach to mite control.
14202

Properties of leptinotarsin, a toxic hemolymph protein from the Colorado potato beetle.
14212

Persistent toxicity of some systemic insecticides to little honey bees.
14260

Some aspects of the etiology of enzootic icterus (geelsiekte) and tribulosis ovis (geeldikkop).
14589

Guidelines for evaluating the properties of pesticides for safe use in the wildlife environment.
14652

Organochlorine insecticide residues in complete prepared meals: A 12-month survey in S. E. England. geometrical isomers of chrysanthemic, pyrethric and related acids and optical isomers of cinerolone and allethrolone.
14657

Two cases of urea poisoning in dairy herds.
14661

Methyl bromide can be dangerous.

Parbendazole in treatment of intestinal nematodes of dogs and monkeys. 9775

TOXOCARA CANIS

Purification and immunochemical analysis of a genus-specific cuticular antigen of Toxocara canis. 8502

Precipitins in Toxocara canis infections in rabbits. 10914

Experimental studies on Toxascaris leonina. I. Incidence of T. leonina among dogs and cats in Japan. 15825

TOXOCARA CATI

Experimental studies on Toxascaris leonina. I. Incidence of T. leonina among dogs and cats in Japan. 15825

TOXOPLASMA

Investigation into the possibility of the survival of Toxoplasma in raw sausage and ham. 12207

TOXOPLASMA GONDII

Isolation of Toxoplasma gondii from naturally infected chickens. 9072

Toxoplasma gondii: Isolation of samples starting from the diaphragms of clinically healthy pigs slaughtered in Sao Paulo, Brazil. 10327

Toxoplasmosis in the marmot. 12126

Serological and biological study on the toxoplasmic infection in chickens from the vicinity of Rome. 12811

A case of toxoplasmosis in a dog. 13965

Studies on the peritoneal exudate of animals experimentally infected with Toxoplasma gondii. I. Effect of heat on activity. 13994

Isolation of Toxoplasma gondii from swine and cattle, following pesticide treatments. 14558

TOXOPLASMOSIS

Isolation of Toxoplasma gondii from naturally infected chickens. 9072

Toxoplasmosis in the marmot. 12126

A case of toxoplasmosis in a dog. 13965

Studies on the peritoneal exudate of animals experimentally infected with Toxoplasma gondii. I. Effect of heat on activity. 13994

Further investigations of the possibility of survival of Toxoplasma in ham. 14041

Toxoplasmosis pathogenesis in dogs (Experimental investigation). 15788

TOXOPTERA CITRICIDA

The effect of other new insecticides in the control of black grubs of citrus. 11523

TOXOPTERA GRAMINUM

Identity of instars of apterous viviparae of Rhopalosiphum fitchii (Sanderson) and Toxoptera graminum (Rondani), (Aphididae, Homoptera). 14163

TOXORHYNCHITES

Hawaiian Toxorhynchites (Diptera: Culicidae). 9323

TRACE ELEMENT NUTRITION

Studies on the effects of feeds deficient in trace elements, vitamin A, protein, calcium and phosphorus on the natural resistance of sheep to common liverfluke, Fasciola gigantica Cobbold, 1885. 13412

TRACHEA

Mode of entry of contact insecticides. 8758

Titration of infectious bronchitis virus in tracheas of susceptible and immune chickens. 12777

TRACTORS

Pest control machinery in Japan. 12932

TRADE BARRIERS

Foot-and-mouth disease: Britain strives to curb epidemic. 12182

TRADEMARKS

Designation used, chemical name, source, and trademark name of each fungicide mentioned in this compilation. 10172

TRAGOSOMA DEPSARIUM

Observations on wood-destroying insect living in the footbridge over Siikaneva bog. 14235

TRAIL MARKING

Trail laying by larvae of Chlosyne lacinia. 12430

TRAMETES

Pathological changes in the trunk of Prunus armeniaca L. and their relationship to the premature death of apricots. I. Investigations in the area of wood structure. 8308

TRAMETES LACTINEA

On the biology of Trametes lactinea Berk. in culture. 11943

TRANQUILIZERS

On the tranquillization of Houttuynia cordata Thunb. for male moth in the silkworm, Bombyx mori L. 10533

TRANSFERASES

The activity of ornithine-carbamyl transferase in the blood serum of calves and its diagnostic importance in the case of hepatic disturbances. 13983

TRANSLOCATION

Light intensity and the absorption and translocation of 2,4,5-T by woody plants. 10276

Absorption and translocation of pyrazon by plants. 10287

Translocation of assimilates and dalapon in established johnsongrass. 10292

Effect of soil water stress and soil temperature on translocation of diuron. 10302

Localization and migration of plum pox virus in plum trees. 15600

Effect of stage of growth of field bindweed on absorption and translocation of C-14-labeled 2,4-D and picloram. 15695

Absorption and translocation of 2,4D by wolftail (Carex cherokeensis Schwein). 15702

Translocation and metabolism of MAA-C14 in johnsongrass and cotton. 15733

Absorption and translocation of simazine in parrotfeather. 15740

Plant and soil arsenic analyses. 15750

TRANSMISSIBLE GASTROENTERITIS

A comparative study on the pathological picture of transmissible gastro-enteritis (TGE) and E. coli gastroenteritis in newborn piglets with special reference to the gastro-intestinal tract. 13951

TRANSPLANTING

Control of paddy stem borers by cultural practices. 8319

Pepper production in Kentucky. 9558

Control of rust in spearmint established with transplants. 10651

Toxic effects of black fiber pots on tomato transplants. 11006

Trials for the control of brinjal fruit and shoot borer. 13857

TRANSPORTATION

Interstate transportation of animals and poultry. cysticercosis. revocation of regulations. 15764

Interstate transportation of animals and poultry. Duck virus enteritis (duck plague). Approved source flocks. 15765

Interstate transportation of animals and poultry. Cysticerosis. Change in areas quarantined. 15818

TRANZSCHELIELLA

Rust of stone fruits. 14412

TRAPS

Pit construction by myrmeleontid larvae. 8217

Observations on bird tanglefoot traps as a direct method of apple maggot control. 9014

Trapping of corvids. 10597

Mammals and birds. 11583

The rabbit. 13365

A study of the population of insects emerging as adults from Spettigue's Pond at London, Ontario. 14144

Measurement of field populations of Aedes aegypti with the ovitraps in 1968. 14817

TREE DISEASES

Feeding and reproduction of the grain and the mushroom mite on wood-inhabiting hymenomycetes. 8192

Influence of soil sterilization measures on the Mycorrhiza of forest plants. (1.). 8279

Control of vascular tree diseases with trichlorophenyl acetic acids. Patent 3,458,640. 8306

Pathological changes in the trunk of Prunus armeniaca L. and their relationship to the premature death of apricots. I. Investigations in the area of wood structure. 8308

Presence of two tree vascular diseases confirmed in Arkansas. 9000

Annual report, fiscal year 1967-1968. 9526

Tropical Pesticides Research Institute, annual report, 1966. 10611

Forest pathology. 11455

On the biology of Trametes lactinea Berk. in culture. 11943

A contribution to the knowledge of the viruses and virussuspect diseases of oaks (Quercus spp.). 11949

Forestry quarantine and its biological background. 12009

A mild strain of tristeza virus in Hassaku trees (Citrus hassaku Hort. et Y. Tanaka) in Hiroshima prefecture. 14442

Studies on dwarf disease of mulberry tree. XVI. On two strains. 14461

Two important diseases of walnut trees. 14695

Contribution to the biology of Brunchorstia pinea (Karst.) Hohn., the cause of a die-back in Austrian and Corsican pine. 14949

Attempts at fighting the bacterial growth of the walnuttree. 15516

TREE INJURIES

A review of lepidopterous pests of coniferous forests in the Baykal Region. 9019

First observations of damage to olive trees, caused by a cecidomyde. Clinodiplosis oleisuga Targ.(Dipt. Cecidomydae). 9629

Relationship between amount of thinning, time of care, and damages caused by red deer. 10323

The importance of insects for the dispersal of infectious oak wilt. 11534

Tree planting guide for rural South Australia. 13229

Cultivation of the cricket bat willow. 13231

Studies on dwarf disease of mulberry tree. XVI. On two strains. 14461

Hard-to-kill pests of fruit trees;the mites. 14488

A literature review of the spruce, western, and 2-year-cycle budworms Choristoneura fumiferana, C. occidentalis, and C. biennis (Lepidoptera: Tortricidae). 14852

Biology of Thaumetopoea wilkinsoni Tams in Jordan. 14893

Variations in the vitality and osmotic pressure of several Eucalyptus, as a function of ecological conditions and the role of the xylophagous Phoracantha semipunctata Fabr. (Coleoptera, Cerambycidae). 15005

Pests of the family Cerambycidae, harmful to wood in Bulgaria. 15615

TREE PLANTING

Tree planting guide for rural South Australia. 13229

TREES

New species of Ceratocystis associated with bark injuries on deciduous fruit trees. 8289

Systemic insecticides in trees. 8585

Wound dressings for the prevention of silver-leaf in fruittrees caused by Stereum purpureum (Pers.) Fr. 8946

Trees for bees. 9361

Foraging galleries of the Formosan subterranean termite, Coptotermes formosanus, in Louisiana. 10052

Phellinus igniarius. 10216

Inonotus hispidus. 10218

A method for spraying individual trees. 10282

Phytopathogenic nematodes in Hessen forest tree nurseries. 10758

Size control of nursery trees with N-dimethylaminosuccinamic acid. 11036

Studies on Indian mites (Acarina: Mesostigmata). 7. Six species found under bark in North East Frontier Agency. 11111

Wood rot of fruit trees. 11447

A review of the use of insecticides on the main agricultural crops of the world-2. Section 2: Deciduous fruit trees. 11825

Virus diseases of deciduous fruit trees: Apple mosaic. 11940

Micronutrients essential for tree health and high yield of quality citrus. 11993

Apple moth (Recurvaria leucatella), a little known pest of fruit trees. 12049

Effects of simazine alone and in combination with hay or plastic mulch on McIntosh apple trees and accumulation of simazine residues. 12219

Effects of Alar on the growth and distribution of the growth increment in one year old apple trees. 12236

The enzymes hydrolysing carbohydrates of xylophagous insects parasitic of softwoods and some other forest trees. 12245

Tests aimed at the determination of the sensitivity of fruit trees to simazine. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 12250

Effects of Alar on morphology, chlorophyll content, and net CO2 assimilation rate of young apple trees. 12258

Growth of young peach trees as affected by preplant fumigant treatments. 12260

Effects of four herbicides on growth and yield of orange trees. 12287

Chemical factors of water in tree holes and related breeding of mosquitoes. 12512

A method for the injection of chemicals into trees. 12660

Tree plantings for mosquito control. 13226

Exocortis in citrus in India. 13275

Treating individual trees with Dybar. 13474

Control of the bacterial Makd in the plane and banana tree caused by Pseudomonas solanaccarum. 13796

A rapid method of identification of prunus necrotic ring spot. 15494

A virus disease distinct from the chlorotic leafroll disease: The rosette of the apricot-tree, var. (Luizet). 15550

Tree insects and mites. 15640

The Trapezeule (Calymnia trapezina L.), an unusual parasite on apple trees. 15648

TREHALA

Growth of the trehala and its neuroendocrine control in the migratory locust, Locusta migratoria migratorioides. 2. The role of the corpora cardiaca and the parasympathetic organs. 15355

TREHALASE

Sugars and trehalase in the reproductive organs and hemolymph of the queen and drone honey bees (Apis mellifica l. var. ligustica spin.). 13597

Studies on a trehalase from a symbiont of the tropical cockroach, Blaberus craniifer--a suggested analytical enzyme. 14198

TREHALOSE

Growth of the trehala and its neuro-endrocrine control in the migratory locust, Locusta migratoria migratorioides, The identification of trehalose in the hemolymph. 11242

The pupation rhythm in Aedes taeniorhynchus (Diptera: Culicidae). V. Physiology of growth and endogenous diurnal rhythm of pupation. 13102

Observations on the variations in amount of trehaldse during direct development and diapause in Pieris brassicae L. 14855

TRELLISES

Growing trellised tomatoes in western North Carolina. 11917

TREMATODA

Preventing and controlling internal parasites of hogs. 8510

Redescription of Ornithobilharzia canaliculata (Rud.) Odhner, with notes on classification of the genus Ornithobilharzia and the subfamily Schistosomatinae (Trematoda). 8516

A new species of the genus Pegosomum Ratz, 1903 (Trematoda: Echinostomatidae). 8747

A new genus and species, Psilotornus audacirrus (Trematoda: Digenea: Psilostomatidae), from the wild turkey in Alabama. 9764

Studies on two fluke infections of the intestinal tract in buffalo-calves (below two years of age) with further observations on histopathology. 9770

Index-catalogue of medical and veterinary zoology. Subjects: Trematoda and trematode diseases. Part 10: Checklist of generic, specific, and subspecific names, N-Z. 10913

A new species of the genus Dissurus verma, 1936 (Trematoda: Echinostomatidae). 11262

Histopathology of lecithodendriid trematode infections in stonefly naiads. 11823

Paratenic parasitism as an indicator of the specificity of the definite host in some trematodes. 12852

Glucose uptake in Haematoloechus medioplexus and Gorgoderina trematodes. 12853

Morphological observations on Fasciola gigantica Cobbold, 1855, with remarks on the validity of Fasciola indica Varma, 1953. 13392

Liver fluke disease appears to be spreading. 14023

TREMATODIASIS

Host-parasite relationships of Fasciola hepatica in the white mouse. III. Worm transfer. 9131

On the ubiquity of paramphistomaites in the ungulata. 12832

Paratenic parasitism as an indicator of the specificity of the definite host in some trematodes. 12852

TRIALLATE

Trouble in wild oat control. 10796

Herbicide resistance in Avena fatua L. (wild oat). (Abstract). 10998

Wild oats. 13350

How you can control weeds in rapeseed. 13362

Control of weed grass. 14525

Developmental trends in the chemical control of weeds in beets. 14536

TRIATOMA INFESTANS

Effect of DDT on incorporation of C14-labeled glucose into protein and soluble intermediates of nymphal Triatoma infestans. 8743

TRIAZINE

2-ethylamino-4-isopropylamino-6-methylthio-s-triazine. Notice of establishment of temporary tolerance. 10932

Nursery investigations. Weed control. 11565

The control of wild foxtail grass in winter wheat as well as the prevention of weather trodden grain. 14539

Influence of residues of some triazine herbicides upon wheat and weeds in wheat crops. 14653

TRIAZINE-3,5(2H,4H)-DIONE,6-AS

The development of resistance in Cladosporium cucumerinum against 6-azauracil, a chemotherapeutant of cucumber scab, and its relation to biosynthesis of RNA-PRECURSORS. 8944

TRIAZINES

Effectiveness of triazines and EPTC for weed control in seedling legumes. 8422

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-ethylamino-4-isopropylamino-6-methylthio-s-triazine. 9795

Colorimetric methods for determination of simazine and related chloro-s-triazines. 9800

Metabolism of organic pesticide chemicals in higher plants. 10278

Effect of nitrogenous materials on the uptake of triazine herbicides. 10298

Cell physiology investigations of the action of new triazine derivitives on petiole epidermis of Solanum tuberosum L. 10431

Pre-emergence herbicides on cereal crops. 10763

The possibilities of using methylmercaptotriazines for the chemical control of weeds in cultivated plants in agriculture and horticulture. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 12100

Leaching of seven s-Triazines. 12737

Thin-layer chromatographic identification of the active ingredients of mixed herbicide formulations. 13499

Polarographic analysis of s-triazine herbicides. 13505

The metabolism of pesticides in mammals. 14064

The etiology, including nutritional considerations, of passion fruit brown spot in Hawaii. 14342

Adsorption of s-triazines by soil organic matter. 15747

TRIAZOLE COMPOUNDS

Antibacterial composition containing 5-nitro-2-furyl-1,2,4-triazoles. Patent 3,427,387. 9218

TRIBEC VIRUS

Multiplication of Tribec virus in chick embryo cell cultures: cytophatic changes and immunofluorescence. 14603

TRIBOLIUM

The effect of varying the initial numbers on the outcome of competition between two Tribolium species. 9416

Amphibolus venator (Klug) (Hemiptera-Heteroptera)-a predator on insect pests of stored products. 12546

Raillietina cesticillus: Fatty acid composition. 12751

Habitat selection of laboratory populations of Tribolium. 13657

Houshold pests in Hamburg through three imported beetles. 15230

TRIBOLIUM CASTANEUM

The influence of linkage phase on recombination rates in Tribolium. 8226

Heterozygosity in inbred lines of Tribolium castaneum. 8230

Genetic control of a sex influenced quantitative trait in Tribolium castaneum. 8240

Non-random mating in Tribolium castaneum. 8265

Developmental time of geographical populations of Tribolium castaneum.
8266

Effect of gamma radiation on the insecticidal efficiency of malathion deposits on wheat and kraft paper.
8519

Stimulation of two interacting species of Tribolium.
9439

The toxicity to Tribolium castaneum (Herbst) (Coleoptera, Tenebrionidae) of mixtures of pyrethrins and piperonyl butoxide: Fitting a mathematical model.
10031

Age-distribution and abundance in populations of flour beetles. I. Experimental studies.
10071

Experimental evidence for factors affecting the relative efficiency of indirect to direct selection in Tribolium castaneum.
10161

Habitat selection of laboratory populations of Tribolium.
11355

Some regulatory mechanism in populations of Tribolium confusum Duval and Tribolium castaneum Herbst.
11374

A practical trial of pyrethrins-in-oil surface sprays for the protection of bagged grain against infestation by Cadra cautella (Wlk.) (Lepidoptera, Phyctidae) in Kenya.
11659

The distribution and biology of Tribolium castaneum (Coleoptera, Tenebrionidae) on temperature gradients varying in steepness.
12404

The ecology of selection in hybrid populations of Tribolium castaneum.
12575

The influence of age and concentration of fumigant on the susceptibility of pupae of Tribolium castaneum (Herbst) (Coleoptera, Tenebrionidae) to methyl bromide.
13019

Close linkage of eye color genes in Tribolium castaneum.
13165

An experimental examination of restricted selection index, using Tribolium castaneum. I. The results of two-way selection.
13195

Reproduction of stored-grain insects on varieties of wheat, oats, and barley.
13323

Selection for larval growth in Tribolium under two levels of nutrition.
13706

Bioassay of the response of Tribolium castaneum to repellent substance excreted by Trogoderma granarium.
13708

Uric acid as an index of insect infestation in flour.
14032

Effect of temperature and humidity on the toxicity and persistence of parathion, malathion and endrin deposits.
15039

TRIBOLIUM CONFUSUM

Effect of carbon dioxide on toxicity of hydrocyanic acid and methyl bromide to adults of the confused flour beetle and granary weevil at two different temperatures.
8074

Stimulation of two interacting species of Tribolium.
9439

Bionomics of Androlaelaps casalis (Berlese) (Acarina: Laelapidae) a predator of mite pests of stored cereals.
9778

Sensitivity to gamma radiation of Tribolium confusum eggs at various developmental stages.
10136

Effects of the antifeeding compound AC-24055 (4'-(3,3-Dimethyl-1-triazeno)acetanilide) on the survival, development, and reproduction of some stored-products insects.
10544

Habitat selection of laboratory populations of Tribolium.
11355

Some regulatory mechanism in populations of Tribolium confusum Duval and Tribolium castaneum Herbst.
11374

Research on the effectiveness of cobalt 60 irradiation for the control of Sitophilus granarius and Tribolium confusum Duv.
12205

Occurrence of a two-headed pupa in a population of Tribolium confusum (Coleoptera: Tenebrionidae).
13126

Reproduction of stored-grain insects on varieties of wheat, oats, and barley.
13323

Mechanisms of population homeostasis in Anagasta ecosystems.
15364

TRIBULOSIS

Some aspects of the etiology of enzootic icterus (geelsiekte) and tribulosis ovis (geeldikkop).
14589

TRIBULUS

Oedaleus senegalensis Krauss (Orthoptera: Acrididae sub family Oedipodinae) plague in Rajasthan.
13829

TRIBUTYL PHOSPHOROTRITHIOATE, S,S,S

Identification of organophosphate pesticides by gas chromatography with the flame photometric detector.
13517

TRIBUTYL(2,4-DICHLOROBENZYL)PHOSPHONIUM CHLORIDE

Growth and flowering responses of apple and pear seedlings to growth retardants and scoring.
12249

Growth retardants in relation to the germination of seeds. VI. Germination and growth of cauliflower as affected by Coumarin, CCC, Phosfon D and kinetin.
12265

Morphogenetic responses of tomato plants to combined and individual applications of gibberellic acid, Phosfon and B-nine.
12271

TRICARBOXYLIC ACID CYCLE

Effect of DDT on incorporation of C14-labeled glucose into protein and soluble intermediates of nymphal Triatoma infestans.
8743

Utilization of tricarboxylic acid cycle intermediates by Haemonchus contortus larvae.
9133

Substrates oxidation of tricarboxylic acid cycle in hepatopancreas mitochondria of Astacus leptodactylus (ESCHZ).
10835

Some data on bioenergetics of the larvae of Trichinella spiralis.
10846

Uncoupling effect of cytoplasmic fraction of Trichinella spiralis larvae on bioenergetics of rat muscle mitochondria.
10878

Variation in tricarboxylic acid cycle enzymes during pathogenesis in cotton plant.
11450

A study of the citric acid cycle in the tick Hyalomma dromedarii.
13036

Analyticial restraint of research on the respiratory metabolism of infectious virus on healthy potato nodules and sprouts.
15580

TRICHINELLA

The invasion-ability of Trichinella larvae from putrefying muscles of Felis silvestris and artificially invaded Felis domestica.
15211

TRICHINELLA SPIRALIS

Activity of parbendazole upon Trichinella spiralis in mice.
8508

Trichiniasis in wildlife of Iowa.
9124

Some data on bioenergetics of the larvae of Trichinella spiralis.
10846

Uncoupling effect of cytoplasmic fraction of Trichinella spiralis larvae on bioenergetics of rat muscle mitochondria.
10878

The presence of Trichinella spiralis (Owen, 1835) in carnivores and wild boars in the delta region of the Senegal River.
11647

Studies on delayed (cellular) hypersensitivity in mice infected with Trichinella spiralis. IV. Artificial sensitization of donors.
11651

On trichinellosis of animals in the North-Eastern USSR.
12747

Trichinella spiralis: Establishment in Gnotobiotic mice affected by Bacillus mesentericus, B. subtilis.
12785

Intradermal tests and serological reactions with antigens of Trichinella spiralis in persons infested by different forms of parasites.
12814

Specificity of the intestinal stage in the development of Trichinella spiralis.
12844

Invasion experiments with trichinella spiralis in fowls.
12851

The evaluation of fractionated antigens of Trichinella spiralis in complement fixation and ring precipitation tests.
12867

Parasitic zoonoses of the food animals.
13949

Fluorescent-antibody studies of muscle larvae Trichinella spiralis (Owen, 1835). II. The indirect fluorescent-antibody method.
15167

Localization of Trichinella spiralis larvae.
15209

Larval location of the Trichinella spiralis.
15210

Wild hogs as a source of trichinellosis epidemic in Vojvodina.
15212

TRICHINOSCOPES

Prevalence of trichinellosis among wild and domestic animals in the Nenetsk district.
10893

TRICHINOSIS

Trichiniasis in wildlife of Iowa.
9124

A tool for combating trichinosis.
9125

Uncoupling effect of cytoplasmic fraction of Trichinella spiralis larvae on bioenergetics of rat muscle mitochondria.
10878

Prevalence of trichinellosis among wild and domestic animals in the Nenetsk district.
10893

On trichinellosis of animals in the North-Eastern USSR.
12747

On the focus of trichinellosis of swine with epidemiologic implications.
12822

The homeostasis of the host and the development of the parasite. 12854

Parasitic zoonoses of the food animals. 13949

The intravital detection of trichinellosis by means of myopsia. 15208

Localization of Trichinella spiralis larvae. 15209

Larval location of the Trichinella spiralis. 15210

Wild hogs as a source of trichinellosis epidemic in Vojvodina. 15212

TRICHLORFON

Experiments on the insecticidal control of Oxycanus fuscomaculatus Walker (Lepidoptera: Hepialidae). 8348

Some recommendations for the control of perforators of seeds of Anonaceae (Bephrata sp. order Hymenoptera). 8372

Selective toxicity of systemic insecticides. 8845

Comparative toxicites of insecticides to house fly larvae and Macrocheles muscaedomestica, a mite predator of the house fly. 9168

Control of plant bug complex. 9368

Fly pests affect some crops in Northland. 9644

Studies on the susceptibility of different stages of Bagrada crucifcrarum Kirkaldy to some organic insecticides. 10043

Variability in insecticide tolerance of eighteen honey-bee colonies. 10125

Biology and control of leopard moth on pear trees in the United Arab Republic. 10242

Biology of Myelois ceratoniae Zeller and research on the control methods. 10568

Leaf mining moths are again occuring more often. 10714

The effect of chlorophos upon the content of certain vitamins in the tissue of rats. 10942

The effect of trichlorphone (Soldep, Hypodermin) on some ectoparasites or mycoses in cattle and sheep. 11636

Recommended analytical methods for pesticides. 39. Methods of analysis for technical and formulated trichlorfon. 11705

Deformation of puparia of the housefly (Musca domestica L.) on treatment with organophosphorus insectisides. 12541

Efficacy of different insecticides against tobacco ground beetles in the field. 12674

Insecticide trials in tobacco seedbeds, 1962--1965. 12715

Chemoprophylaxis of fasciolosis. 12764

Trials with Neguvon in the control of Hypoderma lineatum. 13404

Ants indoors. 13424

Asuntol and Neguvon in the fight against dog fleas. 14626

The use of chlorophos with prolongator for antitick treatment of cattle in a focus of Crimean hemorrhagic fever. 15813

TRICHLOROACETIC ACID

Contribution to risk of damage in the practical use herbicides. 8418

Weed control in sugar beets with preemergence herbicides. 8436

African feather grass--a weed worth watching. 10279

Weed control in sugarbeets. 10296

Control of johnsongrass on drainage ditchbanks in sugarcane. 10297

Control of reed canarygrass along irrigation canals. (Abstract). 10783

Wild oats. 13350

How you can control weeds in rapeseed. 13362

Soil incorporation of TCA at different times to control Agropyron repens (quackgrass). 15062

Comparison of different methods of applying TCA for the control of Agropyron repens (quackgrass). 15063

TCA, tillage and nitrogen for the control of Agropyron repens (quackgrass). 15065

TRICHLOROBENZOIC ACID, 2,3,6-

Contribution to risk of damage in the practical use herbicides. 8418

The response of brush to picloram, dicamba, 2,3,6-TBA and phenoxy herbicides. 8435

2,3,6-trichlorobenzoic and 2,6-dichlorobenzoic acid interference with phototropic and geotropic responses of seedlings. 9213

Response of ironweed and buckbrush to herbicides and to herbicides in combinations with mowing, nitrogen fertilizer, and surfactants. 10303

Persistence and movement of 2,3,6-TBA in soil. 12891

TRICHLOROBENZYL CHLORIDE

Effect of soil and climate on herbicide dissipation. 12888

TRICHLOROPHENOL, 2,4,5-

Ringet. Drugs for veterinary use; drug efficacy study implementation announcement. 12196

TRICHLOROPHENOXYACETIC ACID, 2,4,5-

Degradation of 2,4,5-trichlorophenoxyacetic acid in woody plants. 13344

TRICHLOROPHENOXYETHANOL, 2,4,6-

The inhibitory action of 2,4,6-trichlorophenoxy ethanol on females of red spider mite (Metatetranychus ulmi Koch). 12064

TRICHLOROVINYL)MERCURY, BIS(

Halovinyl mercurials as plant defoliants. Patent 3,433,621. 12239

TRICHODERMA

Ecology of slash pine stumps: Fungal colonization and infection by Fomes annosus. 11463

Effect of a varietal mixture on sugarcane root rot susceptibility and on the rhizosphere microflora. 14455

TRICHODERMA KONINGII

Cellulolytic enzyme system of Trichoderma koningii; separation of components attacking native cotton. 9505

TRICHODERMA VIRDE

Secondary mechanisms of antifungal action of substituted 8-quinolinols. II. Substituted quinolines. 11467

TRICHODERMA VIRIDE

Predisposition of virus-infected plants to fungus root-diseases. 10703

The mode of action of diphenamid in plants. (Abstract). 10999

Occurrence of fungi antagonistic to Poria weirii in a Douglas-fir forest soil in western Oregon. 11491

Selective vapor phase activity of chloronitro- and chlorobenzenes in soil. 14435

TRICHODORUS

Eelworms-a progress report on a few more groups found in North-East Indian tea soils. 9025

The effect of soil fumigation on the growth of sugar beet. 9193

Occurrence of Trichodorus species in West Germany. 10761

Studies of cereal nematode populations and cereal yields under continuous or intensive culture. 12699

Preplant soil fumigation for California head lettuce. 13341

Plant-parasitic nematodes of jack and red pine stands in Wisconsin. 13886

Present knowledge on Phytophagous nematodes and their relations with virus diseases. 14514

TRICHOGRAMMA

Mass rearing of the rice stem borer. 8119

The possible role of biotic factors in an integrated program for rice stem borer control. 8364

Impact of parasites, predators, and diseases on rice pests. 8380

An improved cage for the mass rearing of the Trichogramma egg parasites (Hymenoptera, Chalcidoidea). 9490

TRICHOGRAMMA EVANESCENS

Parasitization of imported cabbageworm and cabbage looper eggs on cabbage in Southern California, with notes on the colonization of Trichogramma evanescens. 10556

TRICHOGRAMMA JAPONICUM

Note on Trichogramma japonicum Ashm., an egg parasite of internode-borer (Proceras indicus Kapur) of sugarcane in Madras State. 9649

TRICHOGRAMMATIDAE

Observations on the biology of Lathromeroides sp. (Trichogrammatidae: Hymenoptera) egg parasite of the leaf rolling weevil, Apoderus sissu Marshall (Curculionidae: Coleoptera) with notes on the host weevil. 10117

TRICHOLABIODES

Preliminary diagnosis of new species of Tricholabiodes Rad. (Hym. Mutillidae). 13590

TRICHOLOMA

Effect of some growth substances on Tricholoma giganteum Massec. 12275

TRICHOMONAS

The morphological and biological status of two enteric protozoa investigated in domestic ducks and geese in Egypt. 11598

The effect of hydrochloric acid and gastric juice on some morphological changes of Trichomonas intestinalis.
12771

TRICHOMONIASIS
Preparation of nitroimidazole carbamates. patent 3,459,764.
8463

TRICHOPHYTON
Trichophytosis of laboratory mice.
12129

Dermatophytes in veterinary practice.
12795

TRICHOPHYTON MENTAGROPHYTES
Secondary mechanisms of antifungal action of substituted 8-quinolinols. II. Substituted quinolines.
11467

TRICHOPHYTON TONSURANS
A note on successful treatment of an unusual equine ringworm due to Trichophyton tonsurans var. sulfureum.
13968

TRICHOPHYTON VERRUCOSUM
Equine ringworm caused by Trichophyton tonsurans var sulfureum.
9087

A case of ovine dermatomicosis produced by Trichophyton verrucosum.
14584

TRICHOPLUSIA NI
Cabbage looper control in Florida - a cooperative program.
8345

Time required for development of Voria ruralis and its host, the cabbage looper, at different temperatures.
8775

Simultaneous infection with the nucleopolyhedrosis and granulosis viruses of Trichoplusia ni.
8800

The influence of infections of nuclear-polyhedrosis virus on adult cabbage loopers and their progeny.
8889

Leaching of the nuclear-polyhedrosis virus of Trichoplusia ni from soil.
10041

The histopathology of a nuclear polyhedrosis in larvae of the cabbage looper, Trichoplusia ni, related to symptoms and mortality.
10134

Spray droplet size in the control of spruce budworm, boll weevil, bollworm and cabbage looper.
10247

Parasitization of imported cabbageworm and cabbage looper eggs on cabbage in Southern California, with notes on the colonization of Trichogramma evanescens.
10556

Biochemical composition of host plants of Brassica oleracea var. capitata L. as related to resistance to Trichoplusia ni Hubner and Pieris rapae Linne.
12051

TRICHOPTERA
The evolution and past dispersal of the Trichoptera.
8181

The evolution and genetics of insect behaviour.
8228

A new family of caddis-flies from Australia (Trichoptera: Tasimiidae).
8664

The genera Neurocyta Navas and Phryganopsyche Wiggins in India (Trichoptera, Phryganeidae, and Phryganopsychidae).
8670

Two new species of Idaho Trichoptera with distributional and taxonomic notes on other species.
8674

Feeding habits of larvae of seven Rhyacophila (Trichoptera: Rhyacophilidae) species with notes on other life-history features.
8882

Caddis larvae.
9904

Neuroptera and Trichoptera from the Holtmuhle in Tegelen (Limb.).
11139

Neuroptera, Mecoptera and Trichoptera.
11140

Compensation of the back drift of caddis fly larvae (Insecta, Trichoptera).
11388

Occurrence of Agriotypus armatus Walk. (Hymenoptera, Ichneumonidae) in West Pomerania.
11738

Sarcophagous habits of Trichoptera larvae on dead fish.
12426

The taxonomy of the larvae and pupae of the British Phryganeidae (Trichoptera).
12943

Supplement to the neuropteroid insects of Goeree-Overflakkee.
13555

TRICHOSEPTORIA FRUCTIGENA
The fungal diseases of pears and apples during storage. I. General aspects.
15835

TRICHOSTRONGYLIDAE
Studies on eight morphological variant females of Haemonchus similis Travassos, 1914 (Nematoda, Trichostrongylidae) from Indian cattle (Bos indicus).
9773

Affecting the quality of wool in merino-sheep by artificial infestation with some gastro-intestinal nematodes, namely trichostrongyliodes.
12835

TRICHOSTRONGYLOSIS
On the meaning of trichostrongylid egg counts in cattle.
10915

TRICHOSTRONGYLUS
Parbendazole in treatment of intestinal nematodes of dogs and monkeys.
9775

Grazing management in relation to trichostrongylid infestation in lambs. 1. Influence of stocking rate on the level of infestation.
13413

Activity of three anthelmintics against mixed infections of two Trichostrongylus species in gerbils, sheep, and goats.
15216

TRICHOSTRONGYLUS AXEI
Experimental infections of calves with Trichostrongylus axei investigations using abomasal cannulae.
9108

TRICHOSTRONGYLUS COLUBRIFORMIS
Further experiments with low-level feeding of Thiabendazole to lambs.
9135

Effects of cold storage on the infectivity of third-stage larvae of the intestinal worm, Trichostrongylus colubriformis (Giles, 1892) Ransom, 1911.
15213

TRICHOTHECIUM ROSEUM
Gnomonia erythrostoma (Pers.) Auersw.- A parasite of the apricot tree (Prunus armeniaca L.).
11997

TRICHURIASIS
On the specificity of the nematode Trichocephalus suis Schrank,1788.
12848

TRICHURIS
Parbendazole in treatment of intestinal nematodes of dogs and monkeys.
9775

Worms in pigs.
13411

TRICHURIS SUIS
Anthelmintic activity of parbendazole in swine.
12191

TRICHURIS TRICHIURA
The influence of some physical factors on the exogenous development of the eggs of Trichocephalus trichiurus and Ascaris lumbricoides under laboratory conditions.
11652

TRICHURIS VULPIS
A comparative study of the effectiveness of chemical ovicides on the survival of the soil-transmitted intestinal nematodes.
9768

TRICYCLOHEXYLHYDROXYTIN
Plictran miticide-New approach to mite control.
14202

TRIFLUOROMETHYL-2,4-DINITRODIPHENYL ETHER, 4-
Chromatographic determination of 4-trifluoromethyl-2,4-dinitrodiphenyl ether residues in soybeans.
9802

TRIFLUOROMETHYLPHENYL)-1,1-DIMETHYLUREA, 3-(M
The effects of combinations of preemergence herbicides and systemic insecticides on cotton stands and yields.
9196

TRIFLURALIN
Weed control in cotton.
9046

The effects of combinations of preemergence herbicides and systemic insecticides on cotton stands and yields.
9196

Vendetta against weeds.
9658

Notice of filing of petition regarding pesticide chemicals.
9787

Metabolism of trifluralin in peanuts and sweet potatoes.
10273

Effects of several herbicides on yews and Japanese maples.
10280

Effects of high rates of trifluralin and vernolate on soybean yield and growth.
10317

An evaluation of herbicide incorporation equipment.
10483

An evaluation of herbicide incorporation equipment.
10484

Effects of herbicides and application methods on weeds in nursery containers and phytotoxicity to ornamental plants. (Abstract).
10776

Fall and winter application of trifluralin, a new concept in weed control. (Abstract).
10806

Comparison of three soil-incorporated herbicides, trifluralin, benefin, and SD-11831, on the growth of cotton seedlings. (Abstract).
10956

Phytotoxicity of certain herbicides to several woody ornamentals.
10960

The effects of trifluralin on the nucleic acids and carbohydrates content of sweet potatoes and peanuts. (Abstract).
10979

The metabolism of trifluralin by peanuts and sweet potatoes. (Abstract).
10988

Effect of trifluralin on oxygen uptake and oxidative phosphorylation in isolated mitrochondria. (Abstract).
11018

The effect of trifluralin on nucleic acids and protein of corn roots. (Abstract).
11028

Studies on the selective action of trifluralin between soybeans and sorghum. (Abstract).
11043

The distribution of trifluralin in the soil when incorporated with the disk harrow and power rotary cultivator. (Abstract).
11092

A preliminary evaluation of cotton herbicides for peasant farming in northern Nigeria.
11576

Herbicides and sprinkler irrigation in vegetable crops.
12101

Effect of trifluralin and Meloidogyne hapla Chitwood on growth of Vinca major L.
12253

The effect of herbicides on quality of tomato and snap beans.
12292

Leaching of trifluralin, benefin, and nitralin in soil columns.
12703

Trifluralin persistence as affected by depth of soil incorporation.
12738

Soil moisture and effectiveness of preemergence herbicides.
12743

Weed control in upland rice at the University of the Philippines College of Agriculture.
13360

Weed control in cucurbits.
13914

Effect of the herbicide trifluralin on nitrogen-fixation in Rhizobium and Azotobacter and on nitrification.
14049

Decomposition of the herbicide trifluralin by a pseudomonad.
14050

Equipment to incorporate herbicides for weed control in soybeans.
15054

Oat yields one year after trifluralin applications.
15055

Oat yields subsequent to selective wild cane control in soybeans with herbicides.
15058

Incorporation of trifluralin with the disk harrow and power rotary cultivator.
15088

Chemical weed control in floral crops.
15097

Emergence of velvetleaf (Abutilon theophrasti) and of wild cane (Sorghum bicolor) from different seed depths and site of uptake of various chemicals.
15295

Equipment for incorporation of herbicides.
15699

Chemical weed control in floral crops.
15711

Alpha,alpha,alpha-trifluoro-2,6-dinitro-N,N-dipropyl-Ptoluidine. Notice of filing of petition regarding pesticide chemical.
15864

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Trifluralin.
15870

TRIFOLIATE ORANGES
Symptoms of stubborn disease in citrus and Poncirus fruit grafted onto virus-infected seedlings.
9589

Gum-pocket, a new virus-like disease of Poncirus trifoliata.
10700

A color test for citrus exocortis in Japan.
14462

TRIFURALIN
The influence of application techniques and environment on the activity and persistence of trifluralin. (Abstract).
12107

TRIGONIOPHTHALMUS ALTERNATUS
Trigoniophthalmus alternatus (Silvestri) (Thysanura, Machilidae) in the British Isles.
12948

TRIIODOBENZOIC ACID, 2,3,5-
Cell-wall deposition and the distribution of cytoplasmic elements after treatment of pea internodes with the auxin analog 2,3,5-triiodobenzoic acid.
9188

Effects of rate, time, and method of application of TIBA on soybean production.
9827

Cherelle wilting in cocoa induced by TIBA.
11481

Interaction of photoperiod and auxin metabolism in rooting of Chrysanthemum morifolium cuttings.
12269

Interaction of triiodobenzoic acid and indoleacetic acid in development and flowering of Kalanchoe.
12301

Growth regulator studies on soybeans, sweetclover, and alfalfa.
13488

Improved extraction procedure for 2,3,5-triiodobenzoic acid from milk and milk products.
15913

TRIMEDLURE
Mediterranean fruit flies and melon flies trapped at various heights with synthetic lures.
10032

TRIMETHYLAMINE
Studies on the anemiogenic properties of trimethylamine oxide, an etiological factor in fish-induced anemia in mink.
13377

TRIOXYS
A new British species of the genus Trioxys haliday (Hym., Braconidae).
11760

A further representitive of the sub-species Betuloxys Mackauer (Hymenoptera: Braconidae, Aphidiinae).
14155

TRIOZA KOREANA
New and little known species of the family Trioza Forst. (Homoptera, Psyllidae) from Korea.
8150

TRIOZA MYOHYANGI
New and little known species of the family Trioza Forst. (Homoptera, Psyllidae) from Korea.
8150

TRIOZA OBLIQUA OBLIQUA
New and little known species of the family Trioza Forst. (Homoptera, Psyllidae) from Korea.
8150

TRIPHENYL TIN COMPOUNDS
Control of acarids with triphenyl tin compounds. patent 3,445,575.
12545

TRIPHENYLTETRAZOLIUM CHLORIDE, 2,3,5-
Predicting maize seed viability using 2,3,5-triphenyltetrazolium chloride.
9185

TRIPHENYLTIN ACETATE
The use of Tetrahymena pyriformis Ehren. for the detection of residues of organic fungicides.
10937

Studies on the fungicidal control of rice blast.
11499

Secondary effects of fungicides on barley.
14517

Fungicidal control of late blight of potato in the Nilgiris.
14996

TRIPTEROIDES DENTICULATUS
Three new species of the genus Tripteroides, subgenus Tripteroides Giles (Diptera: Culicidae).
8624

TRIPTEROIDES MALAYI
Three new species of the genus Tripteroides, subgenus Tripteroides Giles (Diptera: Culicidae).
8624

TRIPTEROIDES TARSALIS
Three new species of the genus Tripteroides, subgenus Tripteroides Giles (Diptera: Culicidae).
8624

TRISTEZA
The presence of tristeza virus in certain species of citrus in Cyprus.
10212

Evidence for restriction of a plant virus to phloem cells.
10219

Efficiency of three colonies of melon aphids as transmitters of Tristeza virus.
10258

Citrus tristeza in Guyana.
11454

Exocortis in citrus in India.
13275

A mild strain of tristeza virus in Hassaku trees (Citrus hassaku Hort. et Y. Tanaka) in Hiroshima prefecture.
14442

TRITICUM VULGARE
Plant growth regulator activity of optical isomers of DMPA.
12900

TRITYLMORPHOLINE, N
Preliminary observations on the control of Fasciola hepatica with the molluscicide N-tritylmorpholine.
10911

TRIZONE
Growth and production of pickling cucumbers as influenced by petroleum mulch and chemical treatments at planting.
13494

TROGODERMA GLABRUM
A report of canthariasis and allergy caused by Trogoderma (Coleoptera: Dermestidae).
14039

TROGODERMA GRANARIUM
Dietary efficiency of natural foods for the growth and development of stored grain insect pests.
8521

Relative toxicity of certain fumigants to Trogoderma granarium Everts (coleoptera, Dermestidae).
11660

Efficacy of malathion on wheat grains against Trogoderma granarium Everts at constant temperatures.
12527

Amphibolus venator (Klug) (Hemiptera-Heteroptera)-a predator on insect pests of stored products.
12546

Effect of age and previous mating on the response of Khapra beetle males to female sex pheromone.
13595

Function and properties in an assembling scent in the Khapra beetle, Trogoderma granarium.
13643

Bioassay of the response of Tribolium castaneum to repellent substance excreted by Trogoderma granarium.
13708

TROGODERMA INCLUSUM
Sex attractant of female dermestid beetle Trogoderma inclusum Le Conte.
10105

TROGODERMA ORNATA
A report of canthariasis and allergy caused by Trogoderma (Coleoptera: Dermestidae).
14039

TROGODERMA PARABILE
Progeny suppression of Attagenus megatoma and Trogoderma parabile by dietary factors.
10521

Effects of the antifeeding compound AC-24055 (4'-(3,3-Dimethyl-1-triazeno)acetanilide) on the survival, development, and reproduction of some stored-products insects.
10544

A coccidian pathogen of the dermestid Trogoderma parabile.
11336

A report of canthariasis and allergy caused by Trogoderma (Coleoptera: Dermestidae).
14039

TROGOXYLON AEQUALE
Losses of active insecticidal elements of the dried roots of Derris elliptica Benth. under the influence of predators and especially of Trogoxylon aequale Woll.
12071

TROMBICULIDAE
Three new species of subgenus Parasecia Loomis (genus Fonsecia) from northeastern Brazil and a key to the included species (Acarina: Trombiculidae).
8024

Biology and economic importance of the chigger Neoschongastia americana on turkeys.
8489

New records of chiggers from the West Indies.
9264

Natural infection of chigger mites with Rickettsia tsutsugamushi on the Primorsky Territory.
10541

Blankaartia acuscutellaris (Acarina, Trombiculidae) and its extension to the African continent.
11404

A new species of the genus Miyatrombicula from Azerbaijan.
11750

Contribution to the study of ectoparasites of vertebrates in the Central African Republic.
12544

Endoparasitic chiggers: V. New genera, species and records from Venezuela and Brazil (Acarina: Trombiculidae).
15315

Three new species of Guntherana Womersley and Heaslip (Prostigmata: Trombiculidae) from east New Guinea.
15331

A new species and new record of chiggers from west Malaysia (Prostigmata: Trombiculidae).
15332

TROMBIDIFORMES
Preliminary results of a new seasonal investigation on brook Hydracarinae (Acari-Trombidi formes).
9341

Some stigmaeid mites from South Africa (Acari: Trombidiformes).
11175

TROMBIDIIDAE
Susa Audy and Nadchatram, a subgenus of Cheladonta Lipovsky et al., (new status). with descriptions of two new species of Cheladonta from Thailand.
9300

TROMBIDOIDEA
Contribution to the study of Caeculidae, 7th series, Microcaelulus franzi sp. n., sand living Caeculidae from Corsica.
14727

TROPICAL AGRICULTURE
Pesticide effect on phosphorus absorption from fertilizer-pesticide mixture applied to a tropical soil with low available phosphorus value.
10445

Ministry of Overseas Development, Tropical Pesticides Research Unit, annual report.
14708

Survey report: Biology and pathology of wildlife as a problem of veterinary medicine and agriculture in tropical and subtropical countries.
15157

TROPICAL FRUIT
3,4-dihydroxybenzaldehyde, a fungistatic substance from green Cavendish bananas.
9586

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-ethylamino-4-isopropylamino-6-methylthio-s-triazine.
9795

TROPICAL MEDICINE
Furuncular Tumbu Fly Myiasis of man in Gabon, equatorial Africa.
14572

TROPICAL PLANTS
Occurrence of plant growth inhibitors in tropical and subtropical vegetation.
9189

Response of tropical vegetation to herbicides.
10275

Research activities 1958-1961.
10588

Cooperative research on the control of tropical and subtropical woody plants. (Abstract).
10823

TROPICAL WOODS
Lignicolous fungi of freshly felled timber in tropical Africa.
11967

TROUT
Role of intestinal microflora in the degradation of DDT by rainbow trout (Salmo gairdneri).
8575

Problems with DDT in fish culture operations.
10406

Uptake of dieldrin by isolated perfused gills of rainbow trout.
10408

Age and sensitivity of trout to aflatoxin B1. (Abstract).
10865

A kill of brook trout (Salvelinus fontinalis) involving the acanthocephalan Echinorhynchus lateralis.
15224

TRYBLIOGRAPHA
Migrations of Hippelates collusor larvae from moisture and trophic stimuli and their encounter by Trybliographa para-.
11848

TRYPAN BLUE
Congo red and trypan blue as stains for plaque assay of New castle disease virus.
9703

TRYPANOSOMA
Trypanosoma gambiense, T. rhodesiense, T. brucei, t. equiperdum, and T. lewisii Purification and properties of phosphohexose isomerases.
13400

TRYPANOSOMA BRUCEI
Antigenic type of first relapse variants arising from a strain of Trypanosoma (Trypanozoon) brucei.
12783

The protection of a small group of Nigerian trade cattle from trypanosomiasis using samorin.
14580

TRYPANOSOMA CONGOLENSE
The control of tsetse and trypanosomiasis in the north-eastern districts of Rhodesia.
11634

The protection of a small group of Nigerian trade cattle from trypanosomiasis using samorin.
14580

TRYPANOSOMA CRUZI
Studies on wild reservoirs and vectors of Trypanosoma cruzi . XXXIV: Natural infection of the rat, Oryzomys capito laticeps (Lund, 1841).by T. Cruzi .
11597

Agar gel and immunoelectrophoretic analysis of several strains of Trypanosoma cruzi.
12772

Trypanosoma cruzi: Effects of gamma radiation on growth and infectivity.
12781

PAM 1392 (2,4-diamino-6-(3,4-dichlorobenzylamino) Quinazoline) as a Chemotherapeutic agent: Plasmodium berghei, P. cynomolgi, P. knowlesi, and Trypanosoma cruzi.
12803

TRYPANOSOMA EQUINUM
Sensitivity of the splenectomized hamster to Trypanosoma equinum.
13928

TRYPANOSOMA EVANSI
Immunologic response with reference to the humoral changes in surra.
13993

TRYPANOSOMA LEWISI
The fine-structure of the epimastigote forms of Trypanosoma lewisi in the rectum of the flea, Nosopsyllus fasciatus.
8161

Respiratory activity of Trypanosoma lewisi during several phases of infection in the rat.
14643

Trypanosoma lewisi: Creatine phosphokinase, ornithine carbamyl transferase, ATPases, Pi, and glucose levels in the rat host.
14644

TRYPANOSOMA THEILERI
Stimulation of DNA synthesis in bovine leukocyte cultures by Trypanosoma theileri antigen.
15775

TRYPANOSOMA VIVAX
The protection of a small group of Nigerian trade cattle from trypanosomiasis using samorin.
14580

TRYPANOSOMATIDAE
Pathogenicity of Trypanosoma rangelli for Rhodnius prolixus Stal in nature (Hemiptera: Reduviidae) (Kinetoplastida: Trypanosomatidae).
11437

TRYPANOSOMIASIS
Announcement of a map showing the distribution of Glossina in Eastern Cameroon.
12371

The protection of a small group of Nigerian trade cattle from trypanosomiasis using samorin.
14580

TRYPETIDAE
Preliminary studies of the release in 1965 on the island of Chalki, of Opius concolor Szepl. (Hymen, Braconidae) a parasite of Dacus oleae Gmcl. (Dipt. Trypetidae).
8864

Morphology of the reproductive system of Strumeta tryoni (Froggatt) (Diptera: Trypetidae) with a method of distinguishing sexually mature adult males.
11258

Experiments with food attractants for the detection and control of fruit flies in the state of Veracruz.
13612

TRYPODENDRON LINEATUM
A continously recording flight mill for investigating the effect of volatile substances on the flight of teathered insects.
8087

Characteristics of Douglas-fir logs in relation to ambrosia beetle attack.
10967

Sex pheromone of Trypobendron lineatum: Production in the female hindgut-malpighian tubule region.
11234

Sex pheromone of Trypodendron lineatum (Coleoptera: Scolytidae): Production, bio-assay, and partial isolation.
13023

Investigations on the use of the parasitic fungus Beauveria bassiana in the control of pests on field and forest crops in Czechoslovakia.
14419

TRYPORYZA INCERTULAS
Assessment of the field population of the rice stem borer moth by light trap.
8040

Statistical methods in rice stem borer research.
8063

Physiology of rice stem borers, including hibernation and diapause. 8120

The biology and life cycle of Chilo suppressalis (Walker) and Tryporyza (Schoenobius) incertulas (Walker) in temperature-climate areas. 8149

Assessment of rice loss caused by the rice stem borer. 8353

Insect parasites in the natural control of species of rice stem borers on Luzon Island, Philippines. 9012

TRYPOXYLONINAE
Observations of the insect pests of the old shrine and the Buddhist temple wooden buildings and a few trypoxylonid wasps. 14244

TRYPTOPHAN
Isolation of the novel regulatory mutants of the tryptophan biosynthetic system in Eschericia coli. 8602

A simple rapid method for the multiple assay of tryptophan pyrpolase in Drosophila. 11357

Tryptophan is not assimilated in breathing by insects. 12531

Biosynthesis of sporidesmin from amino acids. 14097

In vitro research on indol-3-acetic acid. 5-hydroxy-indolcacetic acid, o-aminophenol and xanthurenic acid in the content of caecum from equine after addition of l-tryptophan. 15266

Research on o-aminophenol in the rumen liquor from cattle with and without incubation with l-tryptophan. 15267

TSUGA
Host trees and breeding sites of native North American Pissodes bark weevils, with a note on synonymy. 11884

A case history - Control of the hemlock looper. 15016

TSUGA CANADENSIS
Microarthropods from two Quebec woodland humus forms. III. The Sarcoptiformes (Acarina). 13086

TSUGA HETEROPHYLLA
The biologies of the Pseudohylesinus tsugae and P. grandis (Coleoptera: Scolytidae) in western hemlock. 14851

TUBERCULATUS
A new species of Tuberculatus from Turkey, with revisionary, descriptive notes on Tuberculoides (Homoptera: Aphididae). 9315

A revision of the world fauna of Tuberculatus, with descriptions of two new species from China (Homoptera: Aphididae. 12985

TUBERCULIN
The effect of the rimino phenazene B663 (G30320) on preclinical M. johnei infections in sheep. 10864

Distinguishing of M. avium and M. bovis infection in poultry by means of simultaneous tuberculination. 13984

Diagnosis of mixed infections with M. bovis and M. avium in cattle. 15181

Pathologic orgin and morphology of tuberculosis in cattle today. 15773

TUBERCULIN TEST
Diagnosis of mixed infections with M. bovis and M. avium in cattle. 15181

A study on kansasin, fortuitin, swischin and johnin activity in cattle naturally infected with M. bovis. 15185

TUBERCULINA
Overwintering of Tuberculina maxima on white pine blister rust cankers. 14472

TUBERCULINA MAXIMA
The ineffectiveness of cycloheximide and phytoactin as chemical controls of the blister rust disease. 8301

TUBERCULOIDES
A new species of Tuberculatus from Turkey, with revisionary, descriptive notes on Tuberculoides (Homoptera: Aphididae). 9315

TUBERCULOSIS
The effect of the tapeworm Hymenolepis nana on immunity to tuberculosis in mice. 9769

Medical and veterinary chemicals. Vol.1,parts I and II. 10355

Tuberculous spondylitis in a horse. 10882

INH chemoprophylaxis in calves in the process of the eradication of bovine tuberculosis under the conditions of large-scale production. 11625

The effect of blockade and stimulation of the reticulo-endothelial system on the development of experimental tuberculosis. A histochemical study. I. Mycobacterium tuberculosis avium. 12779

Tuberculosis in three herds with access to the same open sewer. 14546

Geographical distribution maps of animal diseases in Africa, 1966. 14575

Mycobacterium tuberculosis in macrophages: Effect of certain surfactants and other membrane-active compounds. 14671

Tuberculosis-mycobacteriosis. 15186

Pathologic orgin and morphology of tuberculosis in cattle today. 15773

TUBERCULOSIS VACCINES
Synthesis of benzothiazolylguanidines as antituberculars and antibacterials. 9847

TUBEROLACHNUS SALIGNUS
Movement of water and solutes in sieve tubes of willow in response to puncture by aphid stylets. Evidence against a mass flow of solution. 13486

TUBERS
Save your potato crop from fungal and bacterial diseases. 8286

Investigations on the susceptibility of potato tubers to Fusarium caeruleum (Lib.) Sacc., the fungus causing dry rot. 9602

Further investigations on an abnormality of potato tubers. 13280

The significance in the diagnosis of virus diseases of the length and affinity for dyes of sieve tubes in healthy and virus-infected potato tubers. 13811

Influence of some herbicides on the tuber formation in garden peas. 15908

TULAREMIA
Tularemia in the wildlife of Arkansas. 9742

Experience of extermination of pasture ticks in a natural focus of tularemia on the Island of Biryuchy. 10583

Tularemia focus in the Volga River delta and measures of its control. 15796

TULIPA
Tests on the dissemination of the tulip streak virus. 15613

TUMOR CELLS
Physiological genetics of melanotic tumors in Drosophila melanogaster. VI. The tumorigenic effects of juvenile hormone-like substances. 14190

TUMULITERMES
Soldier-reproductive intercastes in a species of Tumulitermes (Isoptera: Termitidae). 11820

TUNG OIL TREE
Uptake and tolerance of lithium chloride by tung trees. 11022

Maleic hydrazide inhibits growth of young tung trees (Aleurites fordii, Hemsl.). 12300

TUNGA
A new Tunga (Siphonaptera) from the Nearctic Region with description of all stages. 11108

TUNGRO
Common leafhopper-planthopper populations and incidence of tungro virus in diazinon-treated and untreated rice plots. 10234

Identification and characterization of tungro, a virus disease of rice in India. 13262

TUNGRO DISEASE
Plant pathology. 11941

Possible occurrence of tungro and yellow dwarf viruses on rice in Mysore. 14948

TURF
Effect of organic and inorganic nitrogen on nematode populations on turf. 8383

Effectiveness of preemergence crabgrass herbicides for lawns and putting-green turf. 8417

Growth response of turfgrasses to several herbicides. 9211

Turfgrass research by the California Agriculture Extension Service. 9527

Recognizing turfgrass diseases. 10643

Herbicides can be used while establishing warm season turfgrasses vegetatively. (Abstract). 10772

Lawn weed control. 12103

Some important turf diseases. 12599

Illustration of a turf grass disease study helminthosporium leaf spot of creeping bentgrass. 12616

Weed control in turf. 12740

Distribution of Surattha indentalla Kearfott on Buffalograss. 13327

1965 turf insects. 13853

The importance of guttation fluid on turf diseases. 14954

Diseases--lawns and turf. 14999

Turf insects and insecticides. 15024

Diseases--lawns and turf. 15609

Lawn and turf pests. 15662

Chemical weed control in lawns and turf.
15716

Chemical weed control in lawns and turf.
15720

TURKEY
Mycoplasma infections with emphasis on the control of M. gallisepticum.
9061

TURKEYS
Colorimetric determination of ronidazole in feeds.
8481

Biology and economic importance of the chigger Neoschongastia americana on turkeys.
8489

Turkey lipid characteristics: Influence of sex, age and estradiol-17 beta-monopalmitate.
9683

Agglutinating antigen from an ornithosis agent. II. modification of antigen preparation and test procedure.
9709

Studies on a filtrable agent associated with infectious enteritis (bluecomb) of turkeys.
9712

Comparison of commercial and autogenous bacterins for control of the cranial form of fowl cholera in turkeys.
9739

Atypical foci of histomoniasis lesions in a study of direct oral transmission.
9743

In vivo susceptibility of Salmonella panama to polymyxin B sulfate and Combistrep.
9756

A new genus and species, Psilotornus audacirrus (Trematoda: Digenea: Psilostomatidae), from the wild turkey in Alabama.
9764

The fine structure and method of feeding of the tissue parasitizing stages of Histomonas meleagridis.
10378

Transmission of histomoniasis with male Heterakis gallinarum (Nematoda).
10383

Folic acid in high fish meal diets for chicks and poults.
10843

Continuous use of a live vaccine in the drinking water against fowl cholera infection in turkeys. (Abstract).
10845

The carrier state of Erysipelothrix insidiosa in turkeys. (Abstract).
10851

Biotin in practical turkey rations.
10871

Avian mycoplasma serotypes.
10887

Prophylactic efficacy of nifursol against histomoniasis in turkeys 4-9, 8-13, and 13-18 weeks of age. (Abstract).
10897

Amprol for the prevention of coccidiosis in growing turkeys.
11608

Natural Streptobacillus moniliformis infection of turkeys, and attempts to infect turkeys, sheeps, and pigs.
11609

Dapsone and sulfabenz medicated premix. Drugs for veterinary use, drug efficacy study implementation.
11685

Gastrointestinal transit-times in normal and bluecomb diseased turkeys.
12130

Force-feeding turkeys during bluecomb disease.
12131

Balances of Nat and Kt in normal and bluecomb diseased turkeys.
12132

Notice of withdrawal of petition for food additive spectinomycin.
12151

Hypervitaminosis A and bone deformities in turkeys and chickens. (Abstract).
12176

Wormal granules and wormal tablets. Drugs for veterinary use - drug efficacy study implementation.
12197

Pigeon failure as vector of fowl cholera in turkeys.
12752

Ultraviolet inactivation and photoreactivation of avian viruses.
12765

Studies on the control of Mycoplasma meleagridis in turkeys.
12784

Experimentally induced Mycoplasma meleagridis infection of turkey reproductive tracts.
12787

Two different type A influenza virus infections in turkeys in Wisconsin II. 1968 outbreak.
12793

Dibutyltin dilaurate. Drugs for veterinary use, drug efficacy study implementation.
13385

Histostat. Drugs for veterinary use; drug efficacy study implementation.
13389

Salmonellae associated with further-processed turkey products.
13429

Vaccination against syngamosis in chicks, young pheasants and turkey-poults.
14028

Wild turkey ectoparasites collected in the southeastern United States.
15384

TURNIPS
Degradation of turnip yellow mosaic virus by freezing and thawing in vitro: a new method for studies on the internal organization of the viral components and for isolating native RNA.
8299

In situ breakage of turnip yellow mosaic virus RNA and in situ aggregation of the fragments. Analysis of successive stages.
8309

Studies on the 5'-terminus of turnip yellow mosaic virus RNA.
8316

Intracellular appearance of turnip mosaic and bean yellow mosaic particles.
9573

Ribonuclease isozymes in Chinese cabbage systemically infected with turnip yellow mosaic virus.
9597

Some observations on the shape and localization of different viruses in experimentally infected plants, and on the fine structure of the host cells. IIII:TURNIP yellow mosaic virus in Brassica chinensis L.
10646

Degradation of turnip yellow mosaic virus by freezing and thawing in vitroi A new method for studies on the internal organization of the viral components and for isolating native RNA.
12620

In situ breakage of turnip yellow mosaic virus RNA and in situ aggregation of the fragments. Analysis of successive stages.
12648

Optical investigations on double stranded ribonucleic acid from turnip yellow mosaic virus.
13257

Inheritance of split cotyledons in swede turnips (Brassica napus).
14326

Importance of industry and labor to plant care in farm management.
14331

Leaf injury and food consumption by larvae of Phaedon cochleariae (Coleoptera; Chrysomelidae) and Plutella maculipennis (Lepidoptera Plutellidae) feeding on turnip and radish.
15034

TURTLES
Coupling of anaerobic metabolism to anaerobic sodium transport: a high energy intermediate.
13366

Aedes atlanticus Dyar and Knab, feeding on turtles.
13405

Hemagglutination and hemolysis of erythrocytes of unrelated species of animals by the Blacksburg strain of Newcastle disease virus.
14615

TUSSILAGO FARFARA
Coltsfoot control with 2,4-DP on the stubble.
14521

TWIG BLIGHT
A survey and causal organisms of twig blight disease of mandarin oranges in Darjeeling District, West Bengal, India.
15473

TWINFLOWER DOLICHOS
Effect of thiamine on growth of roots of Dolichos biflorus and Eleusine coracana.
15297

TYLAN
Tylan very effective in treating pigeons.
9173

TYLENCHIDAE
New data on the distribution and biology of the couch grass nematode (Paranguina agropyri Kirjanova, 1955 (Nematoda: Tylenchida).
8385

Occurrence of Endotokia matricida in Paranguina agropyri with a note on the hibernation of this eelworm.
13885

TYLENCHORHYNCHUS
Pathogenicity of Hemicriconemoides species to coffee.
8386

Tylenchorhynchus palustris n. sp. (Nematoda: Tylenchinae) inhabitant of the rice fields of Ivory Coast.
15043

Studies of plant and soil nematodes. 14. Five new species of Tylenchorhynchus Cobb, Paratylenchus Micoletzky, Morulaimus Sauer and Hemicycliophora De Man (Nematoda: Tylenchoidea.
15682

TYLENCHORHYNCHUS CLARUS
Preplant soil fumigation for California head lettuce.
13341

TYLENCHORHYNCHUS CLAYTONI
Analysis of total lipids and fatty acids of plant-parasitic nematodes and host tissues.
11553

Influence of growing marigolds, weeds, two cover crops and fumigation on subsequent populations of parasitic nematodes and plant growth.
11555

Influence of growing marigolds, weeds, two cover crops and fumigation on subsequent populations of parasitic nematodes and plant growth.
13889

TYLENCHORHYNCHUS MARTINI
Chemical control of nematodes in sugarcane.
15694

TYLENCHULUS
Studies of plant and soil nematodes. 13. Tylenchulus clavicaudatus n. sp. (Nematoda: Tylenchulidae), a parasite of the liana Deeringia arborescens (R. Br.) Druce.
13336

TYLENCHULUS SEMIPENETRANS
Dynamics of the permeation of nematodes by water, nematocides and other substances.
9656

The citrus nematode, Tylenchulus semipenetrans.
13881

The effects of chemical treatment on Tylenchulus semipenetrans and citrus tree response during 8 years.
13890

A study on the correlation of citrus nematode population with decline of citrus.
14505

Control of citrus nematode, Tylenchus semipenetrans, with DBCP in established cyprus citrus groves.
14512

TYLENCHUS
About the specificity of Tylenchulus semipenetrans Cobb (Nematoda; Tylenchida) to several species of citrus roots.
12700

TYLENCHUS EXIGUUS
Plant-parasitic nematodes in marginal Pinus ponderosa stands in central New Mexico.
8390

TYLOPHORA INDICA
Studies on a mosaic disease of Tylophora indica (Burm. F.) Merr..
14987

TYLOSIN
The presence of mycoplasma-like particles in the phloem of plants infected with three European yellow diseases: tomato stolbur, gladiola aster yellow, and clover phyllody. Cytological and ultrastructural studies. Preliminary remarks on chemical control.
10633

Studies on the control of Mycoplasma meleagridis in turkeys.
12784

Severe coccidiosis in a breeder flock following high-level medication for Mycoplasma and coccidia control.
12786

TYPHA
Tests on the control of Phragmites communis and other emerging aquatic weeds.
10793

TYPHLOCYBA DOUGLASI
Transport of microorganisms (Phi particles) by the female germinal cells in the Homoptera Typhlocyba douglasi Edw.
13649

TYPHLODROMUS
Dispersal of Bryobia spp. and Typhlodromus mcgregori Chant within apple trees in Central Utah.
13316

Enemies of Acaridae.
13607

TYPHLODROMUS OCCIDENTALIS
Integrated chemical control of insects and biological control of mites on apple in Washington.
9010

TYPHLODROMUS PYRI
The enemies of the predaceous mites as a reducing factor of spider mites.
9369

TYPHULA IDAHOENSIS
Snow-mold-tolerant winter wheats.
12028

TYPHUS
Ticks in relation to human diseases caused by Rickettsia species.
8136

Immunity to Salmonella infection (experimental investigation). Report I. Dynamics of 19S and 7S antibody formation and specific resistance in immunization with cellular components of typhoid bacillus.
15806

TYROPHAGUS PUTRESCENTIAE
The response of a predator, Hypoaspis aculeifer (Canestrini) (Acarina:Laelapidae), to two species of prey.
8081

Feeding and reproduction of the grain and the mushroom mite on wood-inhabiting hymenomycetes.
8192

Bionomics of Androlaelaps casalis (Berlese) (Acarina: Laelapidae) a predator of mite pests of stored cereals.
9778

The response of a predator, Hypoaspis aculeifer (Canestrini) (Acarina:Laelapidae), to two species of prey.
13010

TYROSINE
Bursicon mediation of tyrosine hydroxylation during tanning of the adult cuticle of the fly, Sarcophaga bullata.
8853

Hormonal control of turnover of tyrosine and tyrosine and tyrosine phosphate during tanning of the adult cuticle in the fly, Sarcophaga bullata.
9465

Biochemical composition of host plants of Brassica oleracea var. capitata L. as related to resistance to Trichoplusia ni Hubner and Pieris rapae Linne.
12051

Interaction of photoperiod and auxin metabolism in rooting of Chrysanthemum morifolium cuttings.
12269

The role of beta-alanyl-L-tyrosine (Sarcophagine) in puparium formation in the flesh fly Sarcophaga bullata.
13606

Metabolism of aromatic compounds in healthy and rust-infected primary leaves of wheat. Ii. Studies with l-phenylalanine-U-14C, l-tyrosine-U-14C, and ferulate-U-14C.
14676

UDDERS
Hydrochlorothiazide. Drugs for veterinary use; drug efficacy study implementation.
9726

Pseudomonas aeruginosa contamination of a warm water system used for pre-milking udder washing.
13943

Study of mastitis in Venezuela.
13998

Diffusion in the udder of dyes and antibiotics dissolved in dimethyl sulfoxide (DMSO).
14021

A histological study of the effects of enzootic abortion of ewes virus in the lactating bovine mammary gland.
14559

ULCERS
Etiologic factors of gastric ulcers in swine.
9086

Foot lameness in pigs.
10332

Survey of yeastlike fungi and tissue changes in esophagogastric region of stomachs of swine.
10339

Ulcerative keratitis in the cat.
10869

Esopheagal--gastric lesions in the pig.
10870

ULMUS
Elm research institute.
9247

Dutch elm disease - threat to Colorado.
9555

Activity of myxin against Ceratocystis ulmi.
9592

The recurrence of Dutch elm disease in Colorado.
10663

Rigidoporus ulmarius.
12644

ULMUS ALATA
Winged elm control with picloram and 2,4,5-T with additives (Abstract).
10777

Control of winged elm (Ulmus alata Michx.). (Abstract).
10789

ULMUS AMERICANA
Response of American elm seedlings to treatment with captan and cycloheximide.
11700

The complex of fungi essential to the growth and development of Xyleborus sharpi in wood.
11927

Polyphenols and discoloration in the elm disease investigated by histochemical techniques.
14361

ULOPIDAE
Ultrastructure of the trophic bands in the ovaries of several homopteran Auchenorrhyncha.
9393

ULTRA LOW VOLUME APPLICATION
A technique for ULV insecticide application from high altitudes.
14906

Evaluation of the ultra-low volume aerial spray technique by use of caged adult mosquitoes.
14907

ULTRA LOW VOLUME APPLICATIONS
Evaluation of multi-engine aircraft in the ULV application of dibrom.
12587

ULTRA-LOW-VOLUME SPRAYING
Mosquito control in and around homes and farmsteads.
8274

Growers join forces to battle the boll weevil.
10233

ULV spray application of pesticides-- a step towards economical plant protection.
14910

ULTRASONIC WAVES
Response of flying bollworm moths and other tympanate moths to pulsed ultrasound.
8693

Acoustic signalling and its possible relationship to assembling and navigation in the moth, Heliothis zea.
9408

ULTRAVIOLET RAYS
Scorpion collecting.
11382

The influence of some physical factors on the exogenous development of the eggs of Trichocephalus trichiurus and Ascaris lumbricoides under laboratory conditions.
11652

A kinetic isotope effect in the photoreactivation of u. v.-inactivated tobacco mosaic virus RNA.
13250

Infrared, ultraviolet, and visible spectrophotometric determination Imidan in animal dips and sprays.
13439

Ultraviolet determination of strychnine in commercial bait formulations.
13454

Note on adsorption of aflatoxin standards to glass.
13465

Screening cottonseed for aflatoxins.
13466

Evaluation of some abiotic factors influencing captures of the codling moths by black-light traps.
13670

Lysogeny in Corynebacterium renale.
14020

Differential responses of single cells and aggregates of Mycoplasmas to ultraviolet irradiation.
14035

Phytotoxicity of sporidesmin.
14069

Degradation of pure aflatoxin by Tetrahymena pyriformis.
14333

Interaction between two races of Piricularia oryzae in lesion-formation in rice plants and accumulation of fluorescent compounds associated with infection.
14420

Effects of ultraviolet radiation on adults of Aedes aegypti (L.) (Diptera: Culicidae). 15451

Photoreactivation spectrum of tobacco mosaic virus-ribonucleic acid inactivated by ultraviolet radiation. 15519

Dark reactivation of UV-IRRADIATED tobacco necrosis virus. 15529

ULTRAVIOLET THERAPY

Some physical properties of purified neurotropic foot-and-mouth disease virus. 14586

UMBILICAL CORD

Umbilical infections in fetal calves. 13939

UNCINARIA

Parbendazole in treatment of intestinal nematodes of dogs and monkeys. 9775

Transmammary passage of nematode larval infestation. 14027

UNCINULA

Six powdery mildews from Jammu and Kashmir State. 9590

UNITED ARAB REPUBLIC

Three genera of family Tenuipalpidae (Acarina) in the U. A. R. with description of three new species. 11218

UPLAND COTTON

Field response of a new line of cotton (Gossypium hirsutum L.) to Fusarium wilt (Fusarium oxysporum f. vasinfectum (Atk.) Snyder and Hansen-- data from 1967/68. 10702

URACIL

Deoxyrihonucleoside monophosphokinases of silkworm pupae infected and uninfected with nuclear polyhedrosis virus. 15408

URACIL COMPOUNDS

Comparison of substituted uracils for weed control in sugarcane. (Abstract). 10799

Determination and separation of some uracil herbicides by thin-layer chromatography. 13518

URBANIZATION

The transitory nature of Aedes aegypti larval habitats in an urban situation. 15433

UREA

Response on lactating cow to corn silage and concentrates of three nitrogen levels with and without urea. 9678

Effect of nitrogenous materials on the uptake of triazine herbicides. 10298

Three years of tests with cycocel and its miscibility with herbicides. 11019

An electron-capture gas chromatographic method for the determination of substituted urea and carbamate herbicides as 2,4-dinitrophenyl derivatives of their amine moieties. 11706

The control of wild foxtail grass in winter wheat as well as the prevention of weather trodden grain. 14539

Two cases of urea poisoning in dairy herds. 14661

UREA COMPOUNDS

Aryl alkoxythioureas. Patent 3,457,292. 8601

Nortricyclic-3-ureas and their herbicidal compositions and methods of use. Patent 3,454,393. 8606

Variations of the culture of Fusarium moniliforme induced by N-nitrosoethylurea and ethyl methanesulfonate. 10435

Chemistry of herbicides. 10464

Pyrethrum. 11013

The metabolic fate of propanil. I. (Abstract). 11038

The metabolic fate of propanil, II. (Abstract). 11039

Sorption of diuron and propanil to proteins. (Abstract). 11060

The action of 1-alkyl-1-nitrosoureas and 1-alky-3-nitro-1-nitrosoguanidines on the Mi generation of barley and Aradidopsis thaliana (L.) Heynh. 14098

Chemical treatment the answer to fruit scald. 14466

Efficacy, persistence and safety range of herbicides in irrigated cotton. 15091

Tests with the regulator CCC as a means of effective utilization of large doses of artificial nitrogen fertilizer. 15893

UREA HERBICIDES

Analysis of a single crop extract for substituted urea herbicides and metabolites, chlorinated insecticides, and amitrole. 9239

Bratton-Marshall reagent for the detection of substituted urea herbicides and metabolites on TLC plates. 9240

Thin-layer chromatographic identification of the active ingredients of mixed herbicide formulations. 13499

The determination of some substituted urea herbicide residues in soil by electron-capture gas chromatography. 14658

The herbicides from an urea derivatives group, problems of metabolism and residues of those compounds and their toxicological importance. 15242

The chromatographic identification of substituted urea herbicides. 15707

UREDINALES

Infection structures from rust urediospores: Effect of RNA and protein synthesis inhibitors. 9829

Rust of stone fruits. 11937

The world situation of the cereal rusts. 13263

The effect of short heat treatment on the susceptibility of poplar leaves to rust infection. 13823

Witches' broom of Berberis. 14395

Physiological and ecological studies on the oversummering and overwintering of the stripe rust of wheat and barley, Puccinia striiformis Westend. 14424

The cytology of infection structure development in urediospore germ tubes of Uromyces phaseoli var. typica (Pers.) swint. 14681

Nucleus of fusion body and infection structure produced by uredospores of three rust fungi. 14685

Rust, Tranzschelia discolor (Fckl.) Tranz. and Litv., on peach, Prunus persica (L.) Batsch. 14937

UREDO

Uredo hameliae--a new report for the continental United States. 11485

UREDOSPORES

Electron microscopy of uredospores of Melampsora lini and of rust-infected flax. 14399

URETHANS

Polyurethane coating: A new technique for the preservation of diseased plant material. 11439

Product of catalyzing polyurethane formation by means of 2-mercaptobenzothiazoles,thiazoles, oxazoles, imidazoles and imidazolines. Patent 3,446,779. 12914

URETHRA

Observations on bovine urethral calculosis. 13932

URIC ACID

Quantitative determination of uric acid in insect feces by lithium carbonate extraction and the enzymatic-spectrophotometric method. 9973

Uric acid as an index of insect infestation in flour. 14032

URIDINE

Synthesis of uridilic nucleotides and TMP in bone marrow of chicks infected with the avian myeloblastosis virus. 9706

RNA and protein in nucleolar structures of dragonfly oocytes. 14826

The incoporatins on 14C uridine in fragments of barley laves infected with bromegrass mosaic virus. 15584

URINE

Arsenic poisoning of cattle and other domestic animals. 9096

Thin-layer chromatography of rat bile and urine following intravenous administration of pesticidal synergists. 9171

The metabolism of Bayer 9017 in calves. 9184

A note on the daily urinary excretion of estradiol-17beta and estrone by the hen. 9682

Metabolism of linear alkylate sulfonate and alkyl benzene sulfonate in albino rats. 9731

Fate of C14-maleic hydrazide in rats. 9798

Effect of 2,4-D on incorporation of 14C into urinary metabolites from rats receiving 14C-labeled acetate. 9799

Studies with calcium ethylenediaminetetraacetate in calves; toxicity and use in bovine lead poisoning. 9803

Determination of hydrolytic metabolites of organophosphorus insecticides in cow urine using an improved thermionic detector. 9820

The excretion of methylmalonic and formiminoglutamic acids during the induction and remission of vitamin B12 deficiency in sheep. 12136

Identification of metabolites of dieldrin (HEOD) in the faeces and urine of rats. 12221

Observations on bovine urethral calculosis. 13932

Excretion of aflatoxin in a lactating cow. Drosophila melanogaster to anesthesia. 14660

Osmotic regulation and rectal absorption in the blowfly, Calliphora erythrocephala. 15413

UROCYSTIS AGROPYRI

Evaluation of nine fungicides in controlling flag smut of wheat. 11487

Evaluation of nine fungicides in controlling flag smut of wheat. 13800

UROGENITAL SYSTEM
Observations on bovine urethral calculosis. 13932
A case of toxoplasmosis in a dog. 13965
Preliminary note on the estrogenic effects of aldrin on the urogenital system of birds. 15885

UROMYCES
The Mexican species of Uromyces (Uredinales). 8955
Factors affecting the systemic antifungal activity of some chemically related compounds. 13252
Nucleus of fusion body and infection structure produced by uredospores of three rust fungi. 14685

UROMYCES COSTARICENCIS
Uromyces costaricensis - A new report for the continental United States. 12629

UROMYCES MINOR
Uromyces minor Schroet. var. armoricana nov. var. on Trifolium patens Schreb. 11998

UROMYCES PHASEOLI
Pathogens as organisms out of place. 12041

UROMYCES PHASEOLI TYPICA
The cytology of infection structure development in urediospore germ tubes of Uromyces phaseoli var. typica (Pers.) swint. 14681

UROSIGALPHUS SCHWARZI
Distribution and importance of Heterolaceus grandis as a parasite of the boll weevil. 13306

URTICARIA
Skin diseases of horses. 14592

USTILAGINALES
Teliospore morphology of some smut fungi. II. Light microscopy. 8300
An interesting mode of spore liberation by Georgefischeria riveae Thirum. and Naras. 8310
Variability of the germinal spores of some Ustilaginales limited by X-rays. 15570

USTILAGINOIDEA VIRENS
Influence of hydrostatic pressure upon germinability of the spores of some rice-parasitic fungi effects of physical factors upon plant diseases. III. 14376

USTILAGO AVENAE
Results obtained with a systemic oxathiin fungicide in France. 10220

USTILAGO BULLATA
Chemotherapy of head smut (Ustilago bullata) in Bromus willdenowii. 13268

USTILAGO HORDEI
Infection and corrosion tests with Ustilago hordei (pers.) lagerm. 15621

USTILAGO MAYDIS
Blastemomrphous stage of formation of galls caused by Ustilago maydis (DC.) CDA on corn leaves. 9605
Blastemomorphous stage of formation of galls caused by infection by Ustilago maydis (D. C.) Cda on leaves of Zea mays L. 9606
The dimorphism of germination of spores of Ustilago maydis (DC) Cda on the leaves of Zea mays L.. 10872
Formation of soruses and spore differentiations in Utilago maydis (DC.) Cda. 12621

USTILAGO NUDA
Control of barley loose smut in Wisconsin in 1966 and 1967. 10171
Chemical control of loose smut in barley in Minnesota. 10174
Effect of chemical treatments on the control of. 10191
Efficacy of oxathiin fungicides for control of loose smut in barley. 10199
Preliminary observations on the treatment of wheat and barley with a fungicide to control loose smut in England. 10200
Results obtained with a systemic oxathiin fungicide in France. 10220
The systemic fungicide 2,3-dihydro-5-carboxanilido-6-methyl1,4-oxathiin. 10222
Control of barley loose smut (Ustilago nuda) by a derivative of 1,4-oxathiin in South Carolina. 10661
Infection and corrosion tests with Ustilago hordei (pers.) lagerm. 15621

USTILAGO STRIIFORMIS
Infection of Merion bluegrass, Poa pratensis, by stripe smut, Ustilago striiformis. 8957

USTILAGO TRITICI
Preliminary observations on the treatment of wheat and barley with a fungicide to control loose smut in England. 10200
The systemic fungicide 2,3-dihydro-5-carboxanilido-6-methyl1,4-oxathiin. 10222

USTILAGO ZEAE
Effect of infection of corn by the fungus Ustilago zeae on the properties of the chlorophyll-protein complex. 9600

UTERUS
Estrogenic action of DDT and its analogs. (Abstract). 10949
Contribution to the knowledge of primitive tumors of the heart in domestic animals: Globomyeloma in a cow. 13372

UTETHEISA PULCHELLA
The digestive enzymes of the larva of Utetheisa pulchella Linnaeus (Lepidopterai Arctiidae). 11308

VACCINES
Attempt to detect fowl leukemia virus in living virus vaccines prepared in eggs. 8465
On the merit of simple pricking with R2B (Mukteswar strain) for effective vaccination against New Castle (Ranikhet) disease. 9092
Relationship of viruses to reproductive problems. 9094
Bovine horn cancer: therapeutic experiments with autogenous vaccine. 9098
The trend in the evolution of the poultry vaccines and the channels of administration. 9104
(R2B) the Mukteswar virus vaccine and its characters. 9105
Equine vaccines and vaccinations. 10344
Continuous use of a live vaccine in the drinking water against fowl cholera infection in turkeys. (Abstract). 10845
The carrier state of Erysipelothrix insidiosa in turkeys. (Abstract). 10851
Laboratory techniques in brucellosis. 11588
Occurrence of encephalitis caused by infectious bovine rhinotracheitis virus in calves in Hungary. 11589
Properties of the attenuated vaccine strain of duck hepatitis. 11627
Avian pox virus vaccine and process of preparing same. Patent 3,429,965. 12113
Foot-and-mouth disease: Britain strives to curb epidemic. 12182
The persistence of Mycoplasma mycoides in the host after vaccination with T1 broth vaccine. 12761
The effect of blockade and stimulation of the reticulo-endothelial system on the development of experimental tuberculosis. A histochemical study. II. Studies on Mycobacterium tuberculosis (BCG). 12778
D.P.I. tick fever vaccine for reliability. 13368
Studies on the mechanism of action of the Semple antirabic vaccine produced by the State Vaccine and Serum Institute, Warsaw. 13393
Rabies and rabies control in Wisconsin. 13403
New hope in the battle against calf scours. 13935
Studies on anti-aphthous fever vaccines of live virus. 13980
Prevention and treatment of bovine papillomatosis. 13991
Possibilities of preparation of an oil adjuvant vaccine against haemorrhagic septicaemia of cattle using a medium papain digest of beef. 14000
Vaccination against syngamosis in chicks, young pheasants and turkey-poults. 14028
An immunity test in cattle to compare two contagious bovine pleuropneumonia vaccines. 14587
Antibody in experimentally infected sheep and antifoot-and-mouth disease vaccines. 14605
Varification of antibodies of Newcastle virus in rats inoculated with different types of experimental vaccines. 14609
Use of sodium alginate adjuvant in immunization against equine influenza. 14612
Vaccination against leptospirosis: Protection of hamsters and swine against renal leptospirosis by killed but intact gamma-irradiated or dihydrostreptomycin-exposed Leptospira pomona. 14617
The evolution of the anti-rabies vaccines for domestic animals. 15166
Experiments for testing the activity of vaccines against leptospirosis. 15187
Interstate transportation of animals and poultry. Duck virus enteritis (duck plague). Approved source flocks. 15765
Problems of horsesickness. Studies at I. V. R. I.. 15770

VACCINIA VIRUS
Interference between vaccinal virus and rabies virus.
9122
Replication of vaccinia virus in the embryonated egg in the presence of methisazone. An electron microscope study.
13970

VAGINITIS
Chlorhexidine dihydrochloride. Drugs for veterinary use, drug efficacy study implementation.
13386

VAGOIAVIRUS
Demonstration of the vagoiavirus by the electron microscope after the dissolution of the inclusion bodies.
14793

VAGOIAVIRUS MELOLONTHAE
On the specificity of Vagoiavirus melolonthae.
12467

VALERIANELLA
On the seed germination of Phoma species of Valerianella.
11952

VALSA LEUCOSTOMA
Cytospora leucostoma spore germination. I: Environmental and carbohydrate requirements. II: Carbohydrate availability in peach tree bark.
12015

VANESSA
A large migration of the Australian painted lady butterfly, Vanessa kershawi (McCoy), to New Zealand.
12454
A note on Vanessa kershawi (McCoy) in Auckland. Presenting evidence of an unusual host plant.
12519

VANESSA CARDUI
Susceptibility of several forest insects of British Columbia to commercially produced Bacillus thuringiensis. II. Laboratory and field pathogenicity tests.
10257

VAPORS
Effects of chlorpropham vapors on dodder seedlings.
10305
The effects of CIPC vapors on the control of dodder seedlings. (Abstract).
11033
Selective vapor phase activity of chloronitro- and chlorobenzenes in soil.
14435

VARIANCE ANALYSIS
The effect of temperature on the number of eggs deposited and on the production of hatching larvae in versene-treated Drosophila melanogaster.
9511
SNA sprays to improve weight and size of spring fruit of pineapples in Taitung.
9836
Higher survival rate of highly irradiated barley in a pot test, after fertilization with (2-chloroethyl) trimethylammonium chloride (CCC) and ammonium sulfate.
11021
Effect of some growth substances on Tricholoma giganteum Massee.
12275

VARROA JACOBSONI
On two mites of economic importance in Japan (Arachnida: Acarina).
12349

VECTORS
Rabies diagnosis. Observations on strains of virus with low pathogenicity.
10349
Pigeon failure as vector of fowl cholera in turkeys.
12752
Aedes atlanticus Dyar and Knab, feeding on turtles.
13405
Chenopodium as host to viruses transmitted from apple, pear and grapevine.
14356

VEGETABLES
In situ breakage of turnip yellow mosaic virus RNA and in situ aggregation of the fragments. Analysis of successive stages.
8309
Host-parasite relationships of various plants and the hop cyst nematode, Heterodera humuli.
8391
Alate aphids trapped over 8 years at two sites in Canterbury, New Zealand.
8798
Hypnoidus riparius (Fabricius), a possible agricultural pest from Europe (Coleoptera: Elateridae).
8868
Exclusive hypovirulence, an original phenomenon in vegetable pathology.
8953
Acetonitrile extraction and determination of carbaryl in fruits and vegetables.
9158
Biological examination of Psylliodes chrysocephala L.
9335
Plant protection under strict controls.
9529
Commercial vegetable insect control.
9633
Mediterranean fruit flies and melon flies trapped at various heights with synthetic lures.
10032
Acetonitrile extraction and determination of carbaryl in fruits and vegetables.
10475
Some ecological studies on Agrotis segetum Schiff. (Lepidoptera, Noctuidae).
10531
Atrazine drift studies with horticultural crops. (Abstract).
10943
A note on Nephus regularis Sic. (Coccinellidae: Coleoptera) as a predator of Ferrisia virgata Ckll.
11540
Critical periods for weed competition.
11573
National Vegetable Research Station: Seventeenth Annual Report, 1966.
11914
Characteristics of the use of the fumigant Di-Trapex, a fungicide and nematocide.
11922
Observations on associated complexes nematodes-fungi in connection with damages to flower growing and horticulture and means of control.
11923
Selected list, 1969 vegetable varieties for South Dakota.
11928
Weed control for vegetable crops.
12102
Results of the research work concerning the use of herbicides in vegetable cultures in the Peoples Republic of Bulgaria. In: collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
12294
A screening method for organochlorine pesticide residues using thin-layer chromatography.
12302
Control of diseases of fruits and vegetables by postharvest treatment.
13248
The changing population of viable weed seeds in an arable soil.
13357
Food plants, bionomics and control of flea beetles.
13828
Trials for the control of brinjal fruit and shoot borer.
13857
EDTA titration of calcium and magnesium: Determination of calcium in canned vegetables.
14029
Determination of dicofol (Kelthane) residues in fruits and vegetables.
14047
Extraction procedures for DDT residues in firm fruits and in hay: Colorimetric method.
14059
Ecological studies on the soft-rot bacteria of vegetables. III. Application of immunofluorescent staining for the detection and the counting of Erwinia aroideae in soil.
14385
On Fusarium oxysporum f. sp. lagenariae n. f. causing wilt of Lagenaria vulgaris var. hispida.
14404
Leafspot of Cucurbita pepo caused by Alternaria cucumerina.
14415
Insects of the season 1966 related to fruit, vegetables and ornamentals.
14483
Time course variations of the infectivity of the cucumber mosaic virus in different vegetable species.
14968
Weed control in horticultural crops: Vegetables; fruit.
15092
Studies upon the residues of di-systone in potato tubers and some vegetables.
15259
Determining the indole derivatives in the natural material. VII. Fluorimetric determination of the indole-3-acetic acid, indole-3-propionic acid and indole-3-butyric acid.
15460
Vegetable seed treatment.
15502
Vegetable crop spray and dust schedule for disease control.
15504
Vegetable seed treatment.
15508
Vegetable crop spray and dust schedule for disease control.
15510
Virus diseases of horticultural plants in Denmark.
15533
Vegetable insects.
15582
Studies on the behaviour of Plusia orichalcea Fabr. (Lepidoptera: Noctuidae) and an assessment of the foliar loss caused by it and the control measures.
15617
Reflective aluminum foil for searing off virus transmitters.
15643
Vegetable insects.
15668
Chemical weed control in vegetable crops.
15736
Chemical weed control in vegetable crops.
15738
Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O,O-Dimethyl S-(4-Oxo-1,2,3-Benzotriazin-3(4H)-ylmethyl) Phosphorodithioate.
15865
Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Trifluralin.
15870
Chemicals for control of plant diseases.
15881

VEGETATION
Wyoming range management. 10602
Ozark range and wildlife plants. 11440
Ecology of the mosquitoes in artificially irrigated meadows of Southern Moravia. 12503
Investigation of the harmful effect of the residue from some herbicides on oats. 14052
Vegetative and reproductive responses of highbush blueberry to succinic acid 2,2-dimethylhydrazide (Alar). 14314
Effects of gamma irradiation on prickly pear cactus. 14325
Vegetative and fruiting responses of pecan (Carya illinoensis Koch) to heading back and N-dimethylamino succinamic acid. (Abstract). 14332
Role of vegetation in sexual maturation of the desert locust (Schistocerca gregaria Forsk.). 14795
A virus disease distinct from the chlorotic leaf-roll disease: The rosette of the apricot-tree, var. (Luizet). 15550

VEIN BANDING
Veinbanding (potato virus Y) on tobacco in eastern North Carolina. 13773
A veinbanding virus of groundnuts, Arachis hypogaea L. 14387

VEIN ENATION
The anatomy of tumors induced on citrus by citrus vein-enation virus. 11980

VEINS
The anatomy of tumors induced on citrus by citrus vein-enation virus. 11980

VELOCITY
The fluorescent particle spray droplet tracer method. 9230
The optinum size for insecticide spray droplets. 9231

VENEREAL DISEASES
Bovine vibriosis. 8478
Transmissible venereal tumour in a Boxer bitch. 10901

VENEZUELAN EQUINE ENCEPHALITIS VIRUS
Antibody responses of coyotes inoculated with Venezuelan equine encephalitis virus. 12155
Arbovirus studies in south Florida, with emphasis on Venezuelan equine encephalomyelitis virus. 12579

VENOMS
Controlling wasps. 8071
Fire on fire ants . 8322
Capsule controls fire ant. 9336
On the action of Bracon venom. 9374
The brown recluse spider and loxoscelism in Tennessee. 9457
A method for mass collection of wasp venoms. 9471
Studies on labeled animal poisons. II. Distribution of the venoms of various spiders labeled with Se75 and P32 in the guinea pig. 9812
Preliminary studies on venom from the brown recluse spider Loxosceles reclusa. 9816
The hymenopterous poison gland: Probable functions of the main glandular elements. 12416
Note on the venemous gland of Apoidea (Hymenoptera). 13057
Effect of the venom of the black widow spider, Latrodectus mactans tredecimguttatus, on evoked action potentials in the isolated nerve cord of Periplaneta americana. 14195
Effect of Loxosceles reclusa Gertsch and Mulaik venom on Heliothis virescens (F.) larvae. oosterhof, g. 14248
Considerations of the pharmacology and toxicology of the poison of Bufo paracnemis Lutz. 15269

VENTILATION
KCl-induced spreading depression and ventilation in the cockroach. 10108
The control of water loss in Locusta migratoria mays. Influence of high-temperature treatment before spiracles. 11850

VENTURIA INAEQUALIS
Studies in fungitoxicity, VI. Fungicidal activity of certain 2-(substituted thio)-5-(2,4-dinitrophenylthio)-1,3,4-thiadiazoles and related compounds. 12010
Computation of results of crop protection experiments by the method of Townsend and Heuberger. 14392
A low-volume postharvest spray of benomyl prevents ascospore production in apple leaves infected by Venturia inaequalis. 14405

VERMICULITE
Toxic effects of black fiber pots on tomato transplants. 11006

VERMINOUS BRONCHITIS
Serological specificity of Dictyocaulus viviparus. 12758

VERNOLATE
Vendetta against weeds. 9658
Extraction and gas-liquid chromatographic determination of vernolate in soil. 10412
Release rates and herbicidal activity of slow release granular formulations. (abstract). 10459
Extraction and gas-liquid chromatographic determination of vernolate in soil. 10467
Weed control in Sericea lespedeza. 12710
Oat yields subsequent to selective wild cane control in soybeans with herbicides. 15058
Emergence of velvetleaf (Abutilon theophrasti) and of wild cane (Sorghum bicolor) from different seed depths and site of uptake of various chemicals. 15295

VERNONIA
Response of ironweed and buckbrush to herbicides and to herbicides in combinations with mowing, nitrogen fertilizer, and surfactants. 10303
Influence of apical dominance on bud dormancy in western ironweed. 14924
Sprouting of western ironweed buds as affected by their age and position of the rhizome. 14925

VERNONIA ANTHELMINTICA
Oat yields one year after trifluralin applications. 15055

VEROMESSOR
Circadian rhythms in female ants, and loss after mating flight. 11345
Loss of rhythmic activity in female ants caused by mating. 13652

VERONICA FILIFORMIS
Postemergence control of Veronica filiformis with DCPA. 8430

VERTEBRATES
Insecticide-cytoplasmic interactions in insects and vertebrates. 8203
Secondary effects of entomophagous fungi on humans and vertebrates: Actual cases. 8471
Viruses of vertebrates, ed. 2. 9058
Vesicular stomatitis virus infections in Panamanian primates and other vertebrates. 9119
Mechanisms of pesticide interactions in vertebrates. 9177
Contribution to the study of ectoparasites of vertebrates in the Central African Republic. 12544
Symposium on the action of entomopathologic viruses and fungi on the vertebrates. 12895

VERTICICLADIELLA
Basal canker of white pine. 11475

VERTICILLIUM
Methods of determination of the systemic and fungitoxic properties of chemicals applied to plants with emphasis on control of Verticillium wilt with Thiabendazole and Benlate. 10181
Vertical distribution of fungus suggests...rigolen plowing for control of Verticillium wilt in cotton. 10709
Remarks on the practice of grafting and soil disinfection with methyl bromide and with di-trapex in the control of verticillium wilt of greenhouse tomato plants. 11947
Remarks on the efficiency of soil disinfection, using steam and various fumigants, in the control of verticillium wilt of greenhouse tomato plants. 11948
Breeding studies of Verticillium wilt resistance in X Fragaria ananassa Duch. 11954
Speciation in verticillium. 13260
Verticillium spp. and associated fungi from certified potato seed tubers. 14346
Verticillium wilt of cotton--the situation in the Namoi Valley. 14357

VERTICILLIUM ALBO-ATRUM
Longevity and role of Verticillium-and Fusarium-diseased plant materials in infection of new cotton crops. 10614
A severe form of Verticillium albo-atrum in Gossypium barbadense in Peru. 10698
Studies on the decontamination of soil with methyl bromide. 11962
The reactions of susceptible and resistant tomato cultivars to strains of Verticillium albo-atrum. 12639
The interrelationship of resistance and susceptibility of cotton to Verticillium albo-atrum and Fusarium oxysporum f. sp. vasinfectum as influenced by soil temperature. (abstract). 14339

Integrated control of hop wilt III. On the effect of sludge compost against Verticillium alboatrum. 14936

Integrated control of hop wilt I. Protection by chemical treatment and breeding. 14959

The breeding of Lucerne Medicago sativa L. for resistance to Verticillium albo-atrum Rke. et Berth. III. Transgressive segregation in F3 and the effect on resistance of certain systems of inbreeding. 15558

VERTICILLIUM DAHLIAE

Verticillium wilt of tobacco. VI. The influence of roots and stems on Verticillium wilt symptoms in tobacco. 10186

Verticillium wilt of tobacco. VIII. Movement of conidia of Verticillium dahliae Kleb. in tobacco plants. 10230

Verticillium wilt of tobacco. VII. Pathogenicity of isolates of Verticillium dahliae Kleb. on New Zealand tobacco. 10231

Longevity and role of Verticillium-and Fusarium-diseased plant materials in infection of new cotton crops. 10614

Differential sensitivity of various phytopathogenus soil fungi to methyl bromide. 10668

Evaluation of peanut (Arachis hypogaea) varieties for Verticillium wilt resistance. 12609

VESICULAR STOMATITIS VIRUS

Study of the thermosensitive mutants of the vesicular stomatitis virus. Evidence from a complement test. 9071

Proteins of vesicular stomatitis virus. I. Polyacrylamide gel analysis of viral antigens. 9083

A study of the thermosensitive mutants of the vesicular stomatitis virus (VSV). The classification of several mutants by the criteria of function. 9088

Vesicular stomatitis virus infections in Panamanian primates and other vertebrates. 9119

Structural proteins of vesicular stomatitis viruses. 9123

Comparative electron micrographs of sowthistle yellow vein and vesicular stomatitis viruses. 9645

Increased yields of stomatitis virus from hamster cells injected with Mycoplasma. 14002

VESPA ORIENTALIS

The pheromone of the queen of the Oriental hornet, Vespa orientalis. 14214

VESPIDAE

Controlling wasps. 8071

New records and new species of Australian Masaridae (Hymenoptera: Vespoidea). 8663

Yespidae from Bulgaria (Hymenoptera, Diploptera). 9873

The nesting activities of the vespoid potter wasp Eumenes campaniformis esuriens (Fabr.) compared with the ecologically similar sphecoid Sceliphron madraspatanum (Fabr.) (Hymenoptera). 11299

Further contribution to the knowledge of the South African species of the genus Ceramius Latreille (Hymenoptera: Masaridae). 12958

VESPULA

A new hornet, Vespula austriaca, for Denmark. 9294

VESPULA PENSYLVANICA

Preliminary toxicity studies on the yellowjacket Vespula pensylvanica (Saussure) in California. 13644

A bait station system for controlling the ground nesting yellowjacket Vespula pensylvanica (Saussure). 13741

VETCH

Clover cyst eelworm, (Heterodera trifolii). 10755

Effect of gibberellin on the growth, development, crop yield and some aspects of metabolism of summel vetch, field bean, pea and soya under various nutrient conditions. 14071

VETERINARIANS

Equine ringworm caused by Trichophyton tonsurans var sulfureum. 9087

VETERINARY HOSPITALS

A viral disease of goslings. II. Microscopic lesions. 13976

Infectious bovine kerato-conjunctivitis: A review. 14018

Gumboro disease in chickens. 15761

VETERINARY LABORATORIES

Microbial contamination control facilities. 13423

Lebanon. 14549

VETERINARY MEDICINE

Diseases of mink. 8466

Klot stainless. Drugs for veterinary use, drug efficacy study implementation. 9679

Ataraxoid tablets. Drugs for veterinary use; drug efficacy study implementation. 9680

Tetracycline hydrochloride powder with benzocaine for topical use. Drugs for veterinary use; drug efficacy study implementation. 9718

Acetazolamide. Drugs for veterinary use; drug efficacy study implementation. 9719

Hydrochlorothiazide. Drugs for veterinary use; drug efficacy study implementation. 9726

Medical and veterinary chemicals. Vol.1,parts I and II. 10355

Symposium: Recent advances in veterinary research. 10838

Pancreatic dornase. Drugs for veterinary use; drug efficacy study implementation. 10877

Index-catalogue of medical and veterinary zoology. Subjects: Trematoda and trematode diseases. Part 10: Checklist of generic, specific, and subspecific names, N-Z. 10913

Antibiotics: Transfer of resistance, effectiveness, and current usage. 10940

Laboratory techniques in brucellosis. 11588

Dapsone and sulfabenz medicated premix. Drugs for veterinary use, drug efficacy study implementation. 11685

Intragel. Drugs for veterinary use; drug efficacy study implementation. 11686

Hemostop. Drugs for veterinary use - drug efficacy study implementation. 12115

Evaluation of parbendazole as an anthelmintic in cattle. 12121

Neomycin sulfate with vitamins A and D for ophthalmic use. Drugs for veterinary use; drug efficacy study implementation. 12154

Clover's imperial dog capsules. Drugs for veterinary use; drug efficacy study implementation. 12194

Anthol. Drugs for veterinary use - drug efficacy study implementation. 12195

Ringet. Drugs for veterinary use; drug efficacy study implementation announcement. 12196

Wormal granules and wormal tablets. Drugs for veterinary use - drug efficacy study implementation. 12197

Calcium disodium edetate injection. Drugs for veterinary use - drug efficacy study implementation. 12228

Oedema disease in pigs. 13370

Amphetamine sulfate. Drugs for veterinary use, drug efficacy study implementation. 13387

Furaspor liquid veterinary. Drugs for veterinary use, drug efficacy study implementation. 13388

Histostat. Drugs for veterinary use; drug efficacy study implementation. 13389

Tasmanian vet. helping to combat foot and mouth outbreak. 13401

Anaplasmosis in East-Friesan lambs. 13930

Observations on bovine urethral calculosis. 13932

Farm buildings and the Brucellosis (Accredited Herd) Scheme. 13941

Pleural haemangioma as a cause of transient ascites in the dog. 13945

Undifferentiated, serous, papillary, ovarian cystoadenocarcinoma in a bitch. Clinical and therapeutic aspects. 13946

A note on successful treatment of an unusual equine ringworm due to Trichophyton tonsurans var. sulfureum. 13968

Possibilities of preparation of an oil adjuvant vaccine against haemorrhagic septicaemia of cattle using a medium papain digest of beef. 14000

Comparative studies on the sensitivity of some of the methods of complement fixation test commonly used for typing of foot-and-mouth disease virus. 14001

A case of equine lymphosarcoma. 14012

Piperazine-carbon disulfide complex. Drugs for veterinary use; drug efficacy study implementation. 14547

Survey report: Biology and pathology of wildlife as a problem of veterinary medicine and agriculture in tropical and subtropical countries. 15157

Tissue distribution of sulfadimethoxine and sulfamonomethoxine in horses after intravenous injection. 15798

Control and eradication of animal infections in army in contemporary war.
15808

Acute superphosphate poisoning of cattle and sheep.
15889

VIABILITY

Effects of controlled heterozygosis on viability in Drosophila melanogaster.
8252

Genetic and environmental influences upon the viability of Drosophila melanogaster metafemales.
8255

Comparison of frequency distributions of viabilitics of second with fourth chromosomes from caged Drosophila melanogaster.
13182

Influence of selection on the viability of irradiated experimental populations of Drosophila melanogaster.
13204

Viability of homokaryotypes in the tumorous-head strain of Drosophila melanogaster.
13217

Studies on the brown-eye-spot disease (cercospora coffeicola B. and Cke) of coffee (Coffea arabica L.). IV. Longevity and viability studies.
13816

VIBRATION

New electronic conceptions on actography applied to the study of invertebrates.
9620

Interaction between chronic irradiation, vibration, and centrifugation in the production of genetic effects in Drosophila.
10148

Position effect on DNA transcription and replication.
10160

Acoustical communication by Lipara lucens (Diptera, Chloropidae).
11354

Use of an actograph with electro-acoustical detector for the study of grain insects. Actography of the larval development of Sitophilus granarius. Detection of the primary effects of the ionizing radiations.
11538

The drumming of the Plecoptera (Insecta).
11875

VIBRIO FETUS

Bovine vibriosis.
8478

The relative incidence of Vibrio fetus infection in dairy and beef cattle in New South Wales.
10336

Fluorescent antibody as an aid in Vibrio fetus identification.
10857

VIBRIOSIS

Bovine vibriosis.
8478

An outbreak of vibriosis in sheep in New South Wales.
10351

VICIA SATIVA

Control of post-emergence damping off in vetch with dexon.
11934

VILLA

The existence of two optional diapauses in the biological cycle of Villa brunnea Beck. (Dipt., Bombyliidae).
8746

VINCA MAJOR

Effect of trifluralin and Meloidogyne hapla Chitwood on growth of Vinca major L.
12253

VINCA ROSEA

Study of the first stages of the infection of (Vinca rosea) L. by (clover,phyllody) virus from it inoculated point by means of grafting.
15487

Comparated study on (Vinca rosea) L. of 3 virus diseases: (western aster yellow) isolated from (gladiolus,) (clover phyllody) and (tomato stolbur).
15612

VIOLA

Influence of Zygotylenchus guevarai (Tobar Jimenez, 1963) Braun and Loof, 1966, on some of its hosts.
14511

VIOLET ROOT ROT

Soil condition and the violet and white root rot diseases of fruit trees.
14343

VIRAL VACCINES

Attempt to detect fowl leukemia virus in living virus vaccines prepared in eggs.
8465

Toxicity and antigenicity of shipping fever vaccines in calves.
11604

A combined bovine parainfluenza and adenovirus vaccine.
12177

VIREMIA

Recent knowledge of avian Osteopetrosis gallinarum (marble bone, thick leg disease).
13947

VIROLOGY

Tobacco mosaic virus in dividing mesophyll cells of Nicotiana.
8290

An electron microscopy study of the penetration of tobacco mosaic virus into leaves following experimental inoculation.
8292

Identification of viruses isolated from cowpeas in Alabama.
8295

Degradation of turnip yellow mosaic virus by freezing and thawing in vitro: a new method for studies on the internal organization of the viral components and for isolating native RNA.
8299

Fluorescent antibody staining of tobacco mosaic virus antigen in tobacco mesophyll protoplasts.
8307

In situ breakage of turnip yellow mosaic virus RNA and in situ aggregation of the fragments. Analysis of successive stages.
8309

Evidence of transovarial passage of the sowthistle yellow vein virus in the aphid Hyperomyzus lactucae.
8317

Semliki Forest virus temperature-sensitive mutants. isolation and characterization.
8318

RNA synthesis in chick embryo cells infected with defferent strains of NDV.
8449

Recombination in Newcastle disease virus (NDV): the problem of complementing heterozygotes.
8453

Histone-mediated clumping of Newcastle disease virus (NDV).
8454

The structure of the respiratory syncytial virus.
8461

Studies on mouse leukemia viruses. I. Isolation and characterization of a group-specific antigen.
8477

Syncytia formation of mosquito cell cultures mediated by type 2 dengue virus.
8480

The polypeptides of adenovirus. III. Synthesis in infected cells.
8487

Effect of 5-fluorouacil and 5-bromo-2'-deoxyuridine on the induction of thymidine kinase in polyoma virusinfected mouse embryo cells.
8488

Sigma virus multiplication in whole-animal culture of Drosophila.
8852

Purification and some properties of Chilo iridescent virus.
8883

The pitch of tobacco mosaic virus.
8948

Effect of TMV multiplication on RNA and protein synthesis in tobacco chloroplasts.
8956

Purification of soybean mosaic virus.
8958

Reversible dissociation of cucumber mosaic virus (strain S).
8964

Behavior of belladonna mottle virus in serological tests in the presence of organic mercury compounds.
8966

The production of new types of symptoms by mixtures of different components of two strains of alfalfa mosaic virus.
8970

Tobacco etch virus cylindrical inclusions: antigenically unrelated to the causal virus.
8984

Partial reconstitution of tobacco mosaic virus.
8993

Virus-like particles in galls on sugarcane plants affected by Fiji disease.
8994

Additional evidence of multiplication of the sowthistle yellow vein virus in an aphid vector-serial passage.
9024

The N-terminal amino acid of an avian leukosis group-specific antigen from avian myeloblastosis virus.
9057

Growth of Rift Valley fever virus in human diploid (WI-38) cells.
9082

A study of the thermosensitive mutants of the vesicular stomatitis virus (VSV). The classification of several mutants by the criteria of function.
9088

Neutralization of canine herpesvirus by dog and human serums: a survey.
9091

Stable intermediate aggregates formed by the polymerization of barley stripe mosaic virus protein.
9540

Serological study on barley stripe mosaic virus protein polymerization. II. Comparative antigenic analysis of intact virus and some stable protein intermediates.
9541

Serological study on barley stripe mosaic virus protein polymerization. I. Immunodiffusion, immunoelectrophoretic characteristics, and absorption experiments.
9542

Chromatographic purification of the oat blue dwarf virus.
9547

The physical action of viruses on the plant cell.
9564

Specific inhibition of TMV-RNA synthesis by blasticidin S.
9569

Present knowledge on the aphids in their relationships with virus diseases transmission.
9579

Disruption of watermelon mosaic virus-induced inclusions by phosphotungstate.
9595

Ribonuclease isozymes in Chinese cabbage systemically infected with turnip yellow mosaic virus.
9597

Value of immune mouse ascitic fluid in plant virus serology.
9603

Comparative electron micrographs of sowthistle yellow vein and vesicular stomatitis viruses.
9645

Coronaviruses.
9688

Influence of host genotype on mortality from lymphoid leukosis and marek's disease after artificial and natural exposure.
9695

Structural relationships between the RNA of mammary tumor virus and those of other RNA tumor viruses.
9700

Effect of cytokinins on tobacco mosaic virus production in local-lesion and systemic hosts.
10204

Vaccinated cattle.....can harbor foot and mouth disease.
10331

Some observations on the shape and localization of different viruses in experimentally infected plants, and on the fine structure of the host cells. IIII:TURNIP yellow mosaic virus in Brassica chinensis L.
10646

Inactivation of virus inhibitors in aphids.
10741

Neonatal canine herpesvirus infection: A review of present knowledge.
10850

Association of pepper ringspot virus (Brazilian tobacco rattle virus) and host cell mitochondria.
11479

Electron microscopic studies on the replicative form of alfalfa mosaic virus RNA.
11492

Stimulation of biosynthesis of tobacco mosaic virus by antimetabolites.
11498

Freeze-etching observations on tobacco leaves infected with tobacco mosaic virus.
11516

Degradation of cellular ribonucleic acid in Newcastle disease virus infected cells.
11599

Virus localization in rabies.
11622

Bovine epizootic fever. II. Physicochemical properties of the virus.
11626

Mode of multiplication of the nuclear-polyhedrosis virus of the silkworm.
11773

Molecular organization in the polyhedra of Porthetria dispar nuclear-polyhedrosis.
11812

Serological investigations of insect viruses. I. Comparison of three highly purified cytoplasmic-polyhedrosis viruses.
11846

Electron-microscope studies of a granulosis virus of Pygaera anastomosis.
11882

Isolation of polyhedral pre-viral deoxyribonucleic acid from healthy silkworms.
11901

The anatomy of tumors induced on citrus by citrus vein-enation virus.
11980

Unusual strains of phytopathogenic viruses.
11986

Virogeographical studies on the clover phyllody virus and its vectors.
12019

Investigations on the viruses of the Orphan type occurring in pigs in Poland. VI. Serological comparison of pig enteroviruses L1, R3, R16, R24, R36, R59 and C, and of the viruses of human origin REO (ECHO10), AD2, ECHO1 and ECHO2.
12148

Cowbone ridge virus, a new Group B arbovirus from south Florida.
12578

Arbovirus studies in south Florida, with emphasis on Venezuelan equine encephalomyelitis virus.
12579

Pahayokee and Shark River, two new arboviruses related to Patois and Zegla from the Florida Everglades.
12582

Gumbo Limbo, a new Group C arbovirus from the Florida Everglades.
12585

Anatomy of plant virus infections.
13249

Optical investigations on double stranded ribonucleic acid from turnip yellow mosaic virus.
13257

A contribution to the knowledge of speed of expansion of plum pox virus in natural conditions.
13264

Sites of virus synthesis within cells.
13285

Electrophoretic examination of the arabis mosaic virus and the yellow mosaic and fanleaf viruses of grapevines.
13752

Grapevine leafroll virus--history and anatomic effects.
13784

Malignant transformation of hamster cells by cell-free extracts of bovine papillomas (in vitro).
13948

Antigenic relationship among strains of infectious canine hepatitis virus.
13964

Replication of vaccinia virus in the embryonated egg in the presence of methisazone. An electron microscope study.
13970

The tumor problem from the point of view of the virologist.
13974

Neuraminidase in avian influenza A virus antigenically related to that of human A0 and a1 subtypes.
13995

Increased yields of stomatitis virus from hamster cells injected with Mycoplasma.
14002

The effect of inoculum concentration on virus multiplication in cucumber cotyledons. II. Cucumber mosaic and tobacco mosaic viruses.
14367

An approach to the elucidation of host-parasite interaction.
14450

Arbovirus studies in the Ohio-Mississippi basin, 1964--1967. VII. Lone star virus, a hitherto unknown agent isolated from the tick Amblyomma americanum (Linn.).
14582

The temperature requirements for interferon production in cells stimulated by Newcastle disease virus or microbial agents in vitro.
14585

Some physical properties of purified neurotropic foot-and-mouth disease virus.
14586

Multiplication of Tribec virus in chick embryo cell cultures: cytophatic changes and immunofluorescence.
14603

Virological, histopathological and histochemical behavior of the corioalantois of chick embryos inoculated with Aequi/Uruguay/540/1963 virus.
14619

Demonstration of the vagoiavirus by the electron microscope after the dissolution of the inclusion bodies.
14793

The identification of a virus through the electronic microscope: The sigma virus of Drosophila.
14794

Measurement of the synthesis of plant viruses through the incorporation of radioactive precursors of ribonucleic acid.
14962

Indication in the apricot species of intraspecific incompatibility due to the presence of a chlorotic leaf spot type virus.
14966

Cow-parsnip (Heracleum sphondylum) mosaic virus in Finland.
14981

Identification of the causal agent of a Malva disease present in Italy.
15018

The evolution of the anti-rabies vaccines for domestic animals.
15166

Feline viruses. XI. Isolation of a virus similar to a myxovirus from cats in which urolithiasis was experimentally induced.
15170

Deoxyribonucleoside monophosphokinases of silkworm pupae infected and uninfected with nuclear polyhedrosis virus.
15408

Mechanism of photoreactivation of plant viruses.
15483

Identification, purification and immuno-electrophoretic analysis of the carnation mottle and ringspot viruses.
15490

Viruses infecting cucurbits in Queensland.
15515

Analyticial restraint of research on the respiratory metabolism of infectious virus on healthy potato nodules and sprouts.
15580

A ring-spot disease of Allamanda cathartica Linn. and some physical properties of its causal agent.
15587

Contribution to the serological survey of plant viruses by the micro-electrophoretic technique applied to agar-agar media.
15589

Comparison of some potato witches' broom virus from Lower Saxony with European viruses of thes group.
15602

South Australia Institute of Medical and Veterinary Science: 29th annual report of the Council of Medical and Veterinary Science.
15792

Six cases of human rabies. Clinical and virological studies.
15804

Reduction of arbovirus plaque numbers by suspensions of normal mosquitoes.
15810

VIRUCIDES

Dicarbamate derivatives of alkyladamantanes. Patent 3,450,744.
9585

Tablet dosage-form for the immunization of the intestinal tract with live virus preparations. Patent 3,458,621.
10359

The inactivation of genus Miyagawanellae microorganisms with the use of chloramine group chemicals. 1. (JPRS 45275)
10858

Mode of multiplication of the nuclear-polyhedrosis virus of the silkworm.
11773

VIRULENCE

Exclusive hypovirulence, an original phenomenon in vegetable pathology.
8953

The protection of apple tissue against infection by Erwinia amylovora afforded by avirulent strains of E. amylovora, a saprophytic bacterium and other bacterial plant pathogens.
9565

Rabies diagnosis. Observations on strains of virus with low pathogenicity.
10349

The inheritance of pathogenicity in races 111 and 29 of wheat stem rust. 12068

Virulence of uredial and aecial isolates of Puccinia coronata Corda f.sp. avenae identified in Canada from 1952 to 1966. 14359

Factors affecting survival of Poria weirii in small buried cubes of Douglas-fir heartwood. 14978

VIRUS A (POTATOES)

Virus A as a cause of streak on secondary infected eyestecklings of the potato. 14471

VIRUS DISEASES

Trans-stadial and transovarial development of disease agents in arthropods. 8095

Formaldehyde as an antiviral agent against a granulosis virus of Pieris brassicae. 11251

Diseases of the Clear Lake gnat Chaoborus astictopus (Diptera: Chaoboridae). 13129

VIRUS DISEASES (ANIMALS)

Semliki Forest virus temperature-sensitive mutants. isolation and characterization. 8318

RNA synthesis in chick embryo cells infected with defferent strains of NDV. 8449

Recombination in Newcastle disease virus (NDV): the problem of complementing heterozygotes. 8453

Histone-mediated clumping of Newcastle disease virus (NDV). 8454

Autoradiographic study of the effect of Newcastle disease virus on the mitotic cycle of cells. 8456

The structure of the respiratory syncytial virus. 8461

Attempt to detect fowl leukemia virus in living virus vaccines prepared in eggs. 8465

Diseases of mink. 8466

Studies on mouse leukemia viruses. I. Isolation and characterization of a group-specific antigen. 8477

Syncytia formation of mosquito cell cultures mediated by type 2 dengue virus. 8480

Enhancement and inhibition of avian sarcoma viruses by polycations and polyanions. 8484

Effect of 5-fluorouacil and 5-bromo-2'-deoxyuridine on the induction of thymidine kinase in polyoma virusinfected mouse embryo cells. 8488

The N-terminal amino acid of an avian leukosis group-specific antigen from avian myeloblastosis virus. 9057

Growth of Rift Valley fever virus in human diploid (WI-38) cells. 9082

Neutralization of canine herpesvirus by dog and human serums: a survey. 9091

On the merit of simple pricking with R2B (Mukteswar strain) for effective vaccination against New Castle (Ranikhet) disease. 9092

Aleutian disease of mink: Infectious virus-antibody complexes in the serum. 9099

(R2B) the Mukteswar virus vaccine and its characters. 9105

Bushbush, Ieri, and Lukuni viruses, three unrelated new agents isolated from Trinidadian forest mosquitoes. 9117

Electron microscopic observation of crystalline arrays of virus-like particles in tissues of mink with Aleutian disease. 9611

Comparative electron micrographs of sowthistle yellow vein and vesicular stomatitis viruses. 9645

Coronaviruses. 9688

Duck plague virus distribution in embryonating chicken and duck eggs. 9692

Treatment of infectious canine hepatitis with a monoamine oxidase inhibiting drug. 9693

Influence of host genotype on mortality from lymphoid leukosis and marek's disease after artificial and natural exposure. 9695

Structural relationships between the RNA of mammary tumor virus and those of other RNA tumor viruses. 9700

Histopathologic changes induced with duck hepatitis virus in the developing chicken embryo. 9705

Synthesis of uridilic nucleotides and TMP in hone marrow of chicks infected with the avian myeloblastosis virus. 9706

Virus-like particles observed in plasma and white blood cells from birds with Marek's disease. 9708

Anti-malarial effect of interferon inducers at different stages of development of Plasmodium berghei in the mouse. 9714

Virus induced cataracts. 9715

Cytoplasmic inclusions observed by electron microscopy late in influenza virus infection of chicken embryo fibroblasts. 9723

A filterable, proliferating factor simulating autoimmunity in malarious and nonmalarious ducklings. 9729

Arbovirus focus in the east Kootenays. (abstract). 9730

Characterization of five isolates of Marek's disease. 9745

Role of interferon in experimental mouse malaria. 9749

Mutations of the western equine encephalomyelitis virus (WEE) induced by chemical mutagens. 9757

A 10-year survey of Trinidadian arthropods for natural virus infections (1953--1963). 9758

Incidence of bluetongue reported calendar year 1967. 10325

Vaccinated cattle.....can harbor foot and mouth disease. 10331

The comparative pathology of duck plague in wild Anseriformes. 10342

Neonatal canine herpesvirus infection: A review of present knowledge. 10850

The inactivation of genus Miyagawanellae microorganisms with the use of chloramine group chemicals. 1. (JPRS 45275) 10858

A hemagglutination-inhibition test for parainfluenza 3 virus antibodies. 10859

Analysis of the production of interferon in cell culture with chick embryo fibroblasts under the influence of living or inactivated Newcastle disease virus. Comparison with production in the egg. 10863

The nucleic acid type and effect of pH and hydroxylamine on canine distemper virus. 10873

The regulatory and research efforts in response to the occurrence of equine infectious anemia at racetracks in 1965-1966. 10892

Comparative protection tests of different commerical anti-hog cholera serums against regular and variant hog cholera viruses. 10898

Interference by transmissible gastroenteritis in the immunization of pigs against hog cholera with crystal violet glycerol vaccine. 10899

Bibliography of equine infectious anemia. 10900

Some observations on the present status of rabies in the Americas. 11585

Further studies on respiratory infections of poultry in Egypt. 11586

Replication and cytopathogenicity of avian infectious bronchitis virus in chicken embryo kidney cells. 11587

Occurrence of encephalitis caused by infectious bovine rhinotracheitis virus in calves in Hungary. 11589

Characterization of avian encephalomyelitis virus (an avian enterovirus). 11591

Occurrence of influenza A/equi-2 infection of horses in Hungary. 11593

Bovine epizootic fever. III. Loss of virus pathogeneicity and immunogenicity for the calf during serial passage in various host systems. 11600

The adaptation of a strain of canine distemper virus to chick embryonic cells and the utilization of its cytopathogenic effect in seroneutralisation. 11613

Virus localization in rabies. 11622

Bovine epizootic fever. II. Physicochemical properties of the virus. 11626

Control of cell multiplication in uninfected chicken cells and chicken cells converted by avian sarcoma viruses. 11688

Foot and mouth disease. 12119

Foot and mouth disease: The importance of reporting suspected cases. 12120

Bovine epizootic fever. 12145

Investigations on the viruses of the Orphan type occurring in pigs in Poland. VI. Serological comparison of pig enteroviruses L1, R3, R16, R24, R36, R59 and C, and of the viruses of human origin REO (ECHO10), AD2, ECHO1 and ECHO2. 12148

Antibody responses of coyotes inoculated with Venezuelan equine encephalitis virus. 12155

Viral diseases of the cat. 12160

Problem of avian leukosis in Lahore. 12171

Foot-and-mouth disease: Britain strives to curb epidemic. 12182

Cowbone ridge virus, a new Group B arbovirus from south Florida. 12578

Intracellular avian infectious bronchitis virus: Detection by fluorescent antibody techniques in nonavian kidney cell cultures. 12757

Viral encephalitis of equines and domestic ruminants in the Near East. Part II. 12760

Ultraviolet inactivation and photoreactivation of avian viruses. 12765

Diagnosis of classical swine plague and titration of antisera by passive hemagglutination. 12768

Passive transfer of resistance to Marek's disease. 12769

Growth curves in pig kidney cells of three porcine adenoviruses. 12774

Titration of infectious bronchitis virus in tracheas of susceptible and immune chickens. 12777

Syncytia formation of mosquito cell cultures mediated by type 2 dengue virus. 12800

Chicken-embryo-adapted duck hepatitis virus growth curve in embryonated chicken eggs. 12805

Immunity response to the infectious bursal agent. 12809

Rapid transformation of cells by Rous sarcoma virus. 13382

Dog vaccination in the control of rabies. 13384

Viruses transmissible from laboratory animals to man. 13402

Myxomatosis: The introduction of the European rabbit flea Spilopsyllus cuniculi (Dale) into Australia. 13742

New hope in the battle against calf scours. 13935

Rabies in bats in the south-eastern United States. 13942

Comparative consideration of the morphology and genesis of new growths. 13944

Recent knowledge of avian Osteopetrosis gallinarum (marble bone, thick leg disease). 13947

Malignant transformation of hamster cells by cell-free extracts of bovine papillomas (in vitro). 13948

Preliminary enquiry on the frequency of neutralizing antibodies of mucous disease virus in bovine serum from some French departments. 13950

Bovine diarrhea virus. II. END phenomenon: Exaltation of Newcastle disease virus in bovine cells infected with bovine diarrhea virus. 13957

Oncogenicity of infectious canine hepatitis virus in hamsters. 13963

Antigenic relationship among strains of infectious canine hepatitis virus. 13964

Genetic resistance of chickens to leucosis. 13973

The tumor problem from the point of view of the virologist. 13974

A viral disease of goslings. II. Microscopic lesions. 13976

Studies on anti-aphthous fever vaccines of live virus. 13980

Prevention and treatment of bovine papillomatosis. 13991

Neuraminidase in avian influenza A virus antigenically related to that of human A0 and a1 subtypes. 13995

Increased yields of stomatitis virus from hamster cells injected with Mycoplasma. 14002

Relationships between the Rous sarcoma virus and avian leucosis virus. 14004

Persisting lymphocytosis and its relation to the etiology of bovine leukosis. 14006

Bovine adenovirus. I. Recovery of a serotype, nagano, from Japanese cattle. 14008

Cancer virus of animals and men. 14013

The formal genesis of leucosis and RNA tumours in the ox, dog and cat. 14017

Adenine and related substances as potent feeding stimulants for the alfalfa weevil, Hypera postica. 14213

Enhancement of infectivity of a mammalian virus preparation after injection into insects. 14268

Bovine virus diarrhea in Italy. II. Reproduction of the disease. 14554

Identification of hog-cholera virus in frozen pork imported from China. 14556

A histological study of the effects of enzootic abortion of ewes virus in the lactating bovine mammary gland. 14559

Occurrence of tick-borne encephalitis virus neutralizing antibody in aquatic birds in central Europe. 14565

Some physical properties of purified neurotropic foot-and-mouth disease virus. 14586

Diaplacentarian immunity to foot-and-mouth virus in nursing rats: correlation and regression. 14594

Study of the practicability of various diagnostic methods in the demonstration of swine fever virus of high and low virulence in organs of experimentally infected pigs. 14595

Evolution of the antibody curve in animals experimentally inoculated with Aequi/Uruguay/540/63. 14596

Nairobi sheep disease: A study of it's pathogenesis in sheep, goats and suckling mice. 14597

Histopathologic and hematologic changes in moribund stages of chicks infected with T-virus. 14600

Multiplication of Tribec virus in chick embryo cell cultures: cytophatic changes and immunofluorescence. 14603

Lyophilizing foot-and-mouth disease virus at low drying temperature. 14604

Antibody in experimentally infected sheep and antifoot-and-mouth disease vaccines. 14605

A comparison of the haemagglutination-inhibition and neutralisation test in the assay of rinderpest antibodies in cattle. 14607

Varification of antibodies of Newcastle virus in rats inoculated with different types of experimental vaccines. 14609

Relationship of plaque size and virulence for chickens of 14 representative Newcastle disease virus stains. 14611

Virological, histopathological and histochemical behavior of the corioalantois of chick embryos inoculated with Aequi/Uruguay/540/1963 virus. 14619

Inhibition of host-cell protein and ribonucleic acid synthesis by newcastle disease virus. 14622

Experimental aerosal transmission of yaba virus in monkeys. 14623

The isolation of the Calovo virus from the mosquitoes of the group Anopheles maculipennis in southern Moravia. 14881

The evolution of the anti-rabies vaccines for domestic animals. 15166

Feline viruses. XI. Isolation of a virus similar to a myxovirus from cats in which urolithiasis was experimentally induced. 15170

Myxovirus parainfluenza-3 in the respiratory disease in calves in Bulgaria. 15171

Serious equine viruses. 15172

Utilization of various cell culture systems for propagation of certain feline viruses and canine herpesvirus. 15175

A study of experimentally induced bovine viral diarrhea-mucosal disease in pregnant cows and their progeny. 15193

Viruslike particles in adult Drosophila melanogaster. 15418

Gumboro disease in chickens. 15761

Infections coryza of poultry. 15762

Interstate transportation of animals and poultry. Duck virus enteritis (duck plague). Approved source flocks. 15765

Problems of horsesickness. Studies at I. V. R. I.. 15770

Toxoplasmosis pathogenesis in dogs (Experimental investigation). 15788

Role of interferon in enhanced replication of Newcastle disease virus in swine cells infected with hog cholera virus. 15807

VIRUS DISEASES (INSECTS)

A new type of invertebrate virus shown in Coleoptera. 10570

Factors influencing the development of a polyhedral cytoplasmic intestinal virus in Mamestra brassicae L. (Lepidoptera). 11322

Observations with the electron microscope on the development of the virus of maladie de fuseaux of Coleoptera, Melolontha melolontha L. 11786

Revision of the genus Nephotettix (Hemiptera: Deltocephalidae). 12967

VIRUS DISEASES (PLANTS)

Viruses-agents of disease. 8281

Tobacco mosaic virus in dividing mesophyll cells of Nicotiana. 8290

An electron microscopy study of the penetration of tobacco mosaic virus into leaves following experimental inoculation. 8292

Tomato virus diseases in closed and opened soil of the Estonian SSR. 8293

Identification of viruses isolated from cowpeas in Alabama. 8295

Degradation of turnip yellow mosaic virus by freezing and thawing in vitro: a new method for studies on the internal organization of the viral components and for isolating native RNA. 8299

Fluorescent antibody staining of tobacco mosaic virus antigen in tobacco mesophyll protoplasts. 8307

In situ breakage of turnip yellow mosaic virus RNA and in situ aggregation of the fragments. Analysis of successive stages. 8309

Studies on the 5'-terminus of turnip yellow mosaic virus RNA. 8316

Evidence of transovarial passage of the sowthistle yellow vein virus in the aphid Hyperomyzus lactucae. 8317

The presence in the vineyards of the Tessin of a nearctic cicadella, new for Switzerland, Scaphoideus littoralis Ball (Hom.Jassidae) a possible carrier of yellow flavescence. 8325

Restricted local spread of curly top in tomatoes. 8332

Rice leafhoppers. 8363

Contribution to the migratory behavior of Xiphinema diversicaudum (Mikoletzky) Thorne, X. coxi Tarjan and Longidorus macrosoma Hooper, as well as the diffusion of rhubarb mosaic virus in the field. 8382

Corn stunt vector leafhopper attractancy to and oviposition preference for hybrid dent corn. I. Dalbulus maidis. 8732

Banana diseases in the Pacific area. 8924

Irrigated sugar-cane in Rhodesia. 8925

An hypothesis for selection of strains of potato leaf roll virus by passage through Physalis floridana. 8940

The occurrence and some properties of black raspberry latent virus. 8941

Genetic studies of pea leaf-roll (top-yellows) virus resistance in Pisum sativum. 8942

The occurrence of inclusion bodies in leaf epidermis cells of sandal affected with spike disease. 8945

The pitch of tobacco mosaic virus. 8948

Effect of TMV multiplication on RNA and protein synthesis in tobacco chloroplasts. 8956

Purification of soybean mosaic virus. 8958

Occurrence of virus particles in the phloem tissue of BYDV-infected barley. 8962

Reversible dissociation of cucumber mosaic virus (strain S). 8964

Behavior of belladonna mottle virus in serological tests in the presence of organic mercury compounds. 8966

The disassociation and reassociation of the proteins of the RNA in the lucerne mosiac virus. 8968

The production of new types of symptoms by mixtures of different components of two strains of alfalfa mosaic virus. 8970

Tobacco etch virus cylindrical inclusions: antigenically unrelated to the causal virus. 8984

Agropyron repens and other perennial grasses as hosts of bromegrass mosaic virus from the U.S.S.R. and the United States. 8988

Transmission of apple viruses by leaf tissue implantation. 8992

Partial reconstitution of tobacco mosaic virus. 8993

Virus-like particles in galls on sugarcane plants affected by Fiji disease. 8994

Dark green epinasty of Chenopodium quinoa, a syndrome induced by a virus latent in apple and pear. 8998

Transmission of strawberry mottle virus by juice and aphids to herbaceous hosts. 9007

Additional evidence of multiplication of the sowthistle yellow vein virus in an aphid vector-serial passage. 9024

The metabolism of carbon-14 specifically labelled glucose in leaves showing tobacco mosaic virus induced local necrotic lesions. 9205

Weather, development of vines, diseases, pests and damages in the wine-growing areas of the Federal Republic of Germany in 1967. 9528

Occurrence and distribution of diseases and pests of rice and their control in Thailand. 9531

Stable intermediate aggregates formed by the polymerization of barley stripe mosaic virus protein. 9540

Serological study on barley stripe mosaic virus protein polymerization. II. Comparative antigenic analysis of intact virus and some stable protein intermediates. 9541

Serological study on barley stripe mosaic virus protein polymerization. I. Immunodiffusion, immunoelectrophoretic characteristics, and absorption experiments. 9542

Chromatographic purification of the oat blue dwarf virus. 9547

The impictratura disease of citrus fruits. 9548

Importance of irregular local and systemic infections for the interference of tobacco mosaic virus strains. 9550

Suppression of ozone toxicity symptoms in virus-infected tobacco. 9551

Occurence of tomato ringspot virus in red raspberries in the eastern United States. 9556

The physical action of viruses on the plant cell. 9564

Specific inhibition of TMV-RNA synthesis by blasticidin S. 9569

Corn virus tests in Georgia in 1968. 9572

Intracellular appearance of turnip mosaic and bean yellow mosaic particles. 9573

Occurrence of rose streak virus in South africa. 9575

Mwitunde groundnuts and their reaction to virus infection in South Africa. 9576

Present knowledge on the aphids in their relationships with virus diseases transmission. 9579

Introduced seed-borne pathogens endanger crop breeding and plant introduction. 9580

Symptoms of stubborn disease in citrus and Poncirus fruit grafted onto virus-infected seedlings. 9589

Clover yellow vein virus in North America. 9593

Disruption of watermelon mosaic virus-induced inclusions by phosphotungstate. 9595

Ribonuclease isozymes in Chinese cabbage systemically infected with turnip yellow mosaic virus. 9597

Occurrence of paddy virus and viruslike symptoms in India. 9598

Morphology of cauliflower mosaic virus.
14464

Radish enation mosaic virus.
14465

Virus diseases of cereals in South Africa. II. Identification of two elongated plant viruses as strains of sugar cane mosaic virus.
14469

Virus A as a cause of streak on secondary infected eyestecklings of the potato.
14471

Several years' research on the investigations of virus in pears.
14473

Note on the transmission of northern cereal mosaic virus by Muellerianella fairmairei (Perris).
14484

Various problems on vectors of rice viruses.
14492

Transmission experiments with the latent Prunus-virus and the gall mite Vasates fockeui Nal.
14495

Further experiments regarding the clarification of the connection between the beet lacebug Piesma quadratum (Fieb) and the beet crinkle virus.
14499

Present knowledge on Phytophagous nematodes and their relations with virus diseases.
14514

Blue light promotes symptom formation and virus multiplication in plants.
14669

A further field experiment regarding the effect of fentin acetate, maneb and copper oxychloride fungicides on the population density of the Colorado beetle (Leptinotarsa decemlincata Say.).
14858

Virus disease problems in Ontario fruit orchards and vineyards.
14931

Note on the presence of the barley yellow dwarf in France.
14935

Discontinuous transmission of clover phyllody by Euscelis plebejus Fall.
14940

Contribution to the serological study of plant viruses by the agar double diffusion technique. II.--RELATIONSHIPS between the French broad bean mosaic virus (MF) and the red clover mottle virus (RCMV).
14941

Changes in concentration of free amino acids by selection from yellows infected sugarbeet leaves.
14944

Structures of the X corpuscles in leaf tumor of Fidji diseased sugar-canes.
14945

Histological and histochemical study of the tumor of sugar cane affected by the Fidji disease.
14946

Possible occurrence of tungro and yellow dwarf viruses on rice in Mysore.
14948

Comparison of the effect on beet seed production of spring and fall infestations of beet leafhoppers carrying curly top virus.
14955

The effect of infection with beet yellows virus on the growth of sugarbeets.
14957

Assessment of crop losses caused by rosette disease of groundnut.
14960

Measurement of the synthesis of plant viruses through the incorporation of radioactive precursors of ribonucleic acid.
14962

Indication in the apricot species of intraspecific incompatibility due to the presence of a chlorotic leaf spot type virus.
14966

Biological determination of the cucumber mosaic virus (CMV) on Vigna sinensis L. I.--Influence of different factors on the susceptibility of the plant to the virus.
14967

Effect of the tobacco mosaic virus on growth and fruiting of outdoor tomato culture in south-eastern France.
14971

Chlorotic leaf-curl in apricot trees and necrosis of the phloem. Contribution to the study of apricot wilt diseases.
14973

Application of artificial hibernation to the mechanical transmission of fruit-tree viruses to herbaceous plants.
14974

Effect of buffer salt and H-ion concentration on potato virus X infection on Capsicum pendulum Willd..
14976

Cow-parsnip (Heracleum sphondylum) mosaic virus in Finland.
14981

Haemagglutination test to detect tobacco mosaic virus antigens.
14985

Studies on a mosaic disease of Tylophora indica (Burm. F.) Merr..
14987

Synthesis of RNA in extracts of leaf-cells infected by photoviruses.
14990

The present state of knowledge concerning viruses on mushrooms.
14993

Note concerning a virus of Carthamus tinctorius .
14994

Identification of the causal agent of a Malva disease present in Italy.
15018

The use of systemic insecticides to reduce the incidence of curly top virus disease in sugarbeets.
15019

Observations on the Gladiolus necrotic disease.
15463

Efficiency of the serological micro-method applied to determination of the soundness of potato seedings.
15466

RNA synthesis in tobacco leaves infected with tobacco mosaic virus.
15470

Research into stem pitting, spy epinasty and chlorotic leaf spot of apples.
15475

The current status of the knowledge of the X group of potato viruses.
15476

The raspberry ringspot virus and its cell inclusion bodies.
15480

Mechanism of photoreactivation of plant viruses.
15483

Study of the first stages of the infection of (Vinca rosea) L. by (clover,phyllody) virus from it inoculated point by means of grafting.
15487

Infection of bean root- meristems by tobacco ringspot virus.
15488

Observation on negatively stained tobacco ringspot virus and its two RNA-DEFICIENT components.
15489

Identification, purification and immuno-electrophoretic analysis of the carnation mottle and ringspot viruses.
15490

Utilization of the serological reaction in immunodiffusion for the carnation mottle virus as a diagnostic test.
15491

A rapid method of identification of prunus necrotic ring spot.
15494

Chrysanthemum aspermy virus, symptoms and diagnostic.
15495

Possibilities of freeing chrysanthemums from mosaic and aspermy viruses.
15496

Persistence of the inhibitory effect of mineral oil in regard to the transmission of beet yellows virus by aphids.
15497

Effect of maize dwarf mosaic virus infection on invasion of corn plants by Fusarium moniliforme.
15500

Viruses infecting cucurbits in Queensland.
15515

Association of tobacco rattle virus with mitochondria.
15517

On the transmission of tomato black ring virus by Longidorus attenuatus (Nematoda).
15518

Photoreactivation spectrum of tobacco mosaic virus-ribonucleic acid inactivated by ultraviolet radiation.
15519

The influence of the aphid forage plant on the vector capacity of aphids.
15520

An incubator useful for culturing Olpidium brassicae for transmission of plant viruses.
15521

Purification and serological reactions of four polyhedral viruses from Cruciferae.
15522

Stabilization of purified potato virus X by dextran T-10 during lyophilization.
15526

Interaction between viral RNA and cellular components in tobacco leaves infected with tobacco mosaic virus.
15527

Fine structure of zinnia leaf tissues infected with dahlia mosaic virus.
15528

Dark reactivation of UV-IRRADIATED tobacco necrosis virus.
15529

Purification and electron microscopy of potato leafroll virus.
15531

Virus diseases of horticultural plants in Denmark.
15533

Heat treatment of tomato seeds.
15535

Aphids may not acquire and transmit stylet-borne viruses while probing intercellularly.
15537

Control of mosaic of tobacco, peppers, and tomatoes with milk.
15539

On the stolhur virus in red pepper (Capsicum annum) L.
15541

Inhibitory effect of red-pepper leaves (Capsicum annuum L.) on the infection of some viruses of their ultra-susceptible hosts.
15542

The shot-hole disease of the melon. Preliminary study of a new viral disease of the glass-house-grown melon.
15543

Method for testing the health condition of lettuce seeds.
15544

Test for protecting melon and marrow plants against the cucumber mosaic virus.
15545

Bromegrass mosaic virus in Yugoslavia.
15549

A virus disease distinct from the chlorotic leafroll disease: The rosette of the apricot-tree, var. (Luizet).
15550

Research on potato viruses in India.
15551

Production of disease-free seed potatoes in the Indo-Gangetic plains.
15552

Infection through cell lesions and investigation into the infectious dilution curves of tobacco mosaic virus.
15554

On the partial purification of Chrysanthemum B-virus and production of a high titer antiserum.
15555

Mechanical transmission of beet yellows virus to Chenopodium quinoa Willd. and Chenopodium foliosum (Moench) Aseh..
15562

A barley necrosis-producing virus.
15563

The incidence of tobacco mosaic virus in plastids of etiolated tobacco leaves.
15564

On the transmission of fig mosaic virus by the gall mite Aeeria ficus Cotte.
15565

Properties and serology of plum pox virus.
15572

Lyeium halimifolium Mill. a potential resevoir of cucumber mosaic virus.
15573

On the occurrence of cocksfoot streak virus.
15578

Investigation into the influcnee of day length on the reproduction of potato-X and tobacco mosaic virus in Solanaceae of differing photoperiodic sensitivity.
15579

Analyticial restraint of research on the respiratory metabolism of infectious virus on healthy potato nodules and sprouts.
15580

Testing the susceptibility of vine varieties to (Flavescence doree) by means of inoculation by (Seaphoideus littoralis) Ball.
15581

Increase of tobacco mosaic virus multiplication and lesion size in hypersensitive hosts in the presence of chloramphenicol.
15583

The incoporatins on 14C uridine in fragments of barley laves infected with bromegrass mosaic virus.
15584

Considerations on chemotherapeutics research in plant virology.
15585

A ring-spot disease of Allamanda cathartica Linn. and some physical properties of its causal agent.
15587

Contribution to the serological survey of plant viruses by the micro-electrophoretic technique applied to agar-agar media.
15589

Note on the migration rate of the virus (S) from the potato leaves to the tubers.
15590

Further experiments on the glass tube method to control degeneration of potatoes.
15593

Localization and migration of plum pox virus in plum trees.
15600

A virus disease of African hemp Sparmannia afrieana L. f.
15601

Comparison of some potato witches' broom virus from Lower Saxony with European viruses of thes group.
15602

Properties and nature of inhibitors of potato virus X in four medicinal plant extracts.
15603

Experiments to obtain court-noue virus first part extracts from tissues of grape leaves.
15604

Comparated study on (Vinea rosea) L. of 3 virus diseases: (western aster yellow) isolated from (gladiolus,) (clover phyllody) and (tomato stolbur).
15612

Tests on the dissemination of the tulip streak virus.
15613

Investigations about possible vectors of golden flavescence of the vine.
15633

Reflective aluminum foil for searing off virus transmitters.
15643

Virulence on various solanaceae of three strains of the stolbur virus and a virus infecting tomato plants in Tunisia.
15652

Mechanism of feeding of some virus-vector leafhoppers. histological studies of the tracks.
15654

Importance of the plant virus-vector relationships for the inhibition of aphid transmission with oil sprays.
15674

VIRUS DISEASES PLANTS
In situ breakage of turnip yellow mosaic virus RNA and in situ aggregation of the fragments. Analysis of successive stages.
12648

VIRUS HEPATITIS
Histopathologic changes induced with duck hepatitis virus in the developing chicken embryo.
9705

VIRUS MUTATION
Semliki Forest virus temperature-sensitive mutants. isolation and characterization.
8318

Recombination in Newcastle disease virus (NDV): the problem of complementing heterozygotes.
8453

An electron microscopic comparison of three strains of bovine parainfluenza-3 virus.
9717

VIRUS NEUTRALIZATION
Enhancement and inhibition of avian sarcoma viruses by polycations and polyanions.
12806

VIRUS PRODUCTION
Isolation of polyhedral pre-viral deoxyribonucleic acid from healthy silkworms.
11901

Bovine virus diarrhea in Italy. II. Reproduction of the disease.
14554

VIRUS PURIFICATION
Purification of a cytoplasmic-polyhedrosis virus of the silkworm, Bombyx mori.
8159

Ultrastructure of the ileum of the European corn borer, Ostrinia nubilalis.
14207

Purification and electron microscopy of potato leafroll virus.
15531

VIRUS S
Virus A as a cause of streak on secondary infected eyestecklings of the potato.
14471

Note on the migration rate of the virus (S) from the potato leaves to the tubers.
15590

VIRUS X
Ultrastructure of potato and Datura stramonium plant cells infected with potato virus X.
11480

Effect of tannic acid and ellagic acid on the infectivity of potato virus X in tissue culture.
12038

Breeding for disease resistance in the potato.
13765

Some viruses affecting tomatoes and peppers in Argentina.
13776

Ten years of investigations with potato virus in Hannover.
14347

Effect of buffer salt and H-ion concentration on potato virus X infection on Capsicum pendulum Willd..
14976

The current status of the knowledge of the X group of potato viruses.
15476

Stabilization of purified potato virus X by dextran T-10 during lyophilization.
15526

Investigation into the influcnee of day length on the reproduction of potato-X and tobacco mosaic virus in Solanaceae of differing photoperiodic sensitivity.
15579

Further experiments on the glass tube method to control degeneration of potatoes.
15593

Properties and nature of inhibitors of potato virus X in four medicinal plant extracts.
15603

VIRUS Y
Breeding for disease resistance in the potato.
13765

Veinbanding (potato virus Y) on tobacco in eastern North Carolina.
13773

Some viruses affecting tomatoes and peppers in Argentina.
13776

The significance in the diagnosis of virus diseases of the length and affinity for dyes of sieve tubes in healthy and virus-infected potato tubers.
13811

Ten years of investigations with potato virus in Hannover.
14347

Efficiency of the serological micro-method applied to determination of the soundness of potato seedings. 15466

Cross protection test with four strains of potato virus Y in Nicotiana tabacum L. cv. Samsun. 15523

Further experiments on the glass tube method to control degeneration of potatoes. 15593

VIRUS 2

Virus particles in phloem exudate from Cucumis sativus L. after infection by Cucumis Virus 2 A. 12623

VIRUS-NEUTRALIZATION TESTS

The egg-bit technique for measuring Newcastle disease virus and its neutralizing antibodies. 9689

Characterization of avian encephalomyelitis virus (an avian enterovirus). 11591

VIRUSES

Neodiprion taedae linearis: A sawfly pest of loblolly and shortleaf pines. 8334

Occult viruses in insects. (Abstract). 8710

Distribution of wheat streak mosaic virus-like particles in Aceria tulipae. 8876

Viruses of vertebrates, ed. 2. 9058

The structure of the mammary tumor virus. 9066

Relationship of viruses to reproductive problems. 9094

Vesicular stomatitis virus infections in Panamanian primates and other vertebrates. 9119

Some consequences of irradiating the gypsy moth eggs with radioactive cobalt 60. 9491

The physical action of viruses on the plant cell. 9564

Dicarbamate derivatives of alkyladamantanes. Patent 3,450,744. 9585

Lethargy, a new virus of Melolontha melolontha L. larvae (Coleoptera, Scarabaeidae). 10036

Changes in chromosomes induced by different DNA virus in cells of Rhynchosciara angelae. 10158

Freeing alfalfa clones from alfalfa mosaic virus by heat treatment. 10185

Medical and veterinary chemicals. Vol.1,parts I and II. 10355

Tablet dosage-form for the immunization of the intestinal tract with live virus preparations. Patent 3,458,621. 10359

Studies on the diseases of aseptically reared silkworms, Bombyx mori L. V. Induction of nuclear polyhedroses by the feeding of certain chemicals to the silkworm after transfer from aseptic to normal rearing condition. 10548

Occurrence of the non-moulting tiny silkworms caused by inoculation of the flacherie (F) virus. 10573

An electron microscopic study of equine abortion virus infection in hamsters. (Abstract). 10847

Clinical and pathological aspects of pulmonary adenomatosis in sheep. 10883

Growth of Aleutian disease virus in mink. (Abstract). 10885

Identification of tobacco mosaic coat protein after the injection of tobacco mosaic virus RNA into the common slime mold. (Abstract). 10995

Augmentation of the pathogenicity of the ribonucleic acid of foot-and-mouth virus by addition of diethylaminoethyl-dextran. 11596

Mechanism of virus adsorption on activated carbon. 12127

Method of treating avian lymphomatosis induced by ES4 strain of lymphomatosis virus. Patent 3,429,971. 12303

A new spindle virus observed in a Lucanid (Coleoptera) of Madagascar. 12326

Comparative resistance to sedimentation of three different strains of sigma virus of Drosophila. 12517

Entomology. 12688

Evidence of transovarial passage of the sowthistle yellow vein virus in the aphid Hyperomyzus lactucae. 12689

Method of preventing influenza viral infections. Patent 3,444,302. 12920

Amino substituted tricyclo (3.2.2.02,4)nonanes. Patent 3,444,199. 12927

The use of micro-organisms for the control of insect pests. 13105

Purification and conservation of infective sugar beet mosaic virus. 13245

Strain MC29 avian leukosis virus: Immunologic relationships to other avian tumor viruses. 13378

Immunity to tumors. 13953

Electron microscopy of spindle-shaped inclusion viruses of Coleoptera. 14184

On the cross-inoculation of Chilo iridescent virus. CIV. 14206

Isolation of viruses of the California encephalitis virus group from boreal Aedes mosquitoes. 14216

Development of the virus with inclusion bodies, of the Lepidoptera Lymantria dispar in cell cultures. 14275

Current status of in vitro synthesis of plant viruses. 14434

Sex differences in embryonic response to Eimeria tenella infection. 14579

Serological and infectious properties of some virus isolates obtained from grapes; relationship with the fanleaf virus and the Arabis mosaic virus. 14997

Hemagglutination with cytoplasmic-polyhedrosis virus of the silkworm, Bombyx mori. 15402

Viruslike particles in adult Drosophila melanogaster. 15418

Six cases of human rabies. Clinical and virological studies. 15804

Masking of the aggregation phermone in Dendroctonus pseudotsugae Hopk. 15805

VISCERA

Study of the practicability of various diagnostic methods in the demonstration of swine fever virus of high and low virulence in organs of experimentally infected pigs. 14595

VISCOMETRY

Interactions of aflatoxin with histones and DNA. 13458

VISION

Contrast perception in eye colour mutants of Drosophila melanogaster and Drosophila subobscura. 8211

Discrimination between movements of eye and object by visual interneurones of crickets. 8826

Spectral efficiency as function of latency in the visual mechanism of insect (Tenebrio molitor L.). 10142

Visual responses of apple maggot flies, Rhagoletis pomonella (Diptera: Tephritidae): Orchard studies. 11373

Spectral sensitivity of scorpion eyes and the possible role of shielding pigment effect. 11853

Generalization of visual stimuli as an example of solution of abstract problems by bees. 13651

On visual orientation of the house fly (Musca domestica) to colours. 13667

The ability of colour distinction in the wood-ant Formica polyctena Forster. 14223

The reactions of three species of grasshopper to simple visual stimuli at different temperature-humidity conditions. 14819

VITAMIN A

The development of lesions in vitamin A-deficient adult fowl. 8458

The effect of vitamin A depletion on the vasa deferentia of young bulls. 9075

Vitamin A metabolism in protein deficiency. 10324

Requirements and functions of vitamin A in ruminants. 10840

Effects of feeding provitamin A, stabilized vitamin A and furazolidone on production and quality of eggs. 11681

Neomycin sulfate with vitamins A and D for ophthalmic use. Drugs for veterinary use; drug efficacy study implementation. 12154

Hypervitaminosis A and bone deformities in turkeys and chickens. (Abstract). 12176

Dermatophytes in veterinary practice. 12795

Studies on the effects of feeds deficient in trace elements, vitamin A, protein, calcium and phosphorus on the natural resistance of sheep to common liverfluke, Fasciola gigantica Cobbold, 1885. 13412

Studies of parasite metabolism. I. In vitro examination of the vitamin A metabolism of Ascaris suum. 15215

Forage nitrate poisoning. 15270

VITAMIN B-12

Binding of 60-co-vitamin B12 by Ascaris suum intestine. 8517

VITAMIN B6
Effect of some vitamins on growth of Fomes lividus Kalchbr. in culture.
12288
Research on the effects of gradual doses of pyridoxine on xanthurenury caused by massive doses of nicotinamide.
15271

VITAMIN D
Balance cows' minerals to defeat milk fever.
9089
Neomycin sulfate with vitamins A and D for ophthalmic use. Drugs for veterinary use; drug efficacy study implementation.
12154

VITAMIN E
Vitamin E and antioxidants - requirements and functions in cattle.
10839

VITAMINS
Vitamin requirements in a sieve tube sucking aphid, Neomyzus circumflexus Buckt. (Homoptera, Insecta).
9376
Sterol and water-soluble requirements for larvae of the red-banded leaf roller, Argyrotaenia velutinana.
10104
Folic acid in high fish meal diets for chicks and poults.
10843
Biotin in practical turkey rations.
10871
The effect of chlorophos upon the content of certain vitamins in the tissue of rats.
10942
Artificial diet for the adult froghopper.
11284
Tissue culture from bulbil of Dioscorea sansibarenis.
11444
Physiological studies of gamma-irradiated tomato fruits. III. Effects on ascorbic acid content, acidity and texture.
12229
Effect of some vitamins on growth of Fomes lividus Kalchbr. in culture.
12288
The effect of some vitamins upon Botrytis allii Munn.
13791
A study of the antianemic and zootechnic efficacy of a complex iron-dextrin vitamin.
13979
EDTA titration of calcium and magnesium: Determination of calcium in canned vegetables.
14029

VITIS RUPESTRIS
The effect of a temperature of 35 degrees C. on Vitis rupestris affected by court noue.
11970

VIVIPARITY
Evidence of transovarial passage of the sowthistle yellow vein virus in the aphid Hyperomyzus lactucae.
8317
Vivipary in Zea mays induced by Diplodia maydis.
9554
Identity of instars of apterous viviparae of Rhopalosiphum fitchii (Sanderson) and Toxoptera graminum (Rondani), (Aphididae, Homoptera).
14163

VOLATILE SUBSTANCES
A continously recording flight mill for investigating the effect of volatile substances on the flight of teathered insects.
8087
Dioxane and dioxaspiro derivatives as attractants for male yellow-fever mosquitoes.
10023
Volatile metabolites from dimethyldithiocarbamate fungicide residues.
10441
Pheromone response in pine bark beetles: Influence of host volatiles.
13665

VOLKAMERIA ACULEATA
A chiasmate sex quadrivalent in the male of an alticid beetle, Cyrsylus volkameriae (F.).
9517

VOLUMETRIC ANALYSIS
Identification and quantitative evaluation of antibiotic residues in chickens fed on a spiramycin diet.
9793
Changes in gland volume during the post-diapause development in embryos of Aulocara elliotti (Thomas) (Orthoptera, Acrididae).
11291
Diagnosis of classical swine plague and titration of antisera by passive hemagglutination.
12768
Titration of infectious bronchitis virus in tracheas of susceptible and immune chickens.
12777
Attenuation of the hog cholera virus by continuous cell-virus propagation. III. Growth interference of Newcastle disease virus by attenuated hog cholera virus and its application to virus titration and the neutralization test.
12790
EDTA titration of calcium and magnesium: Determination of calcium in canned vegetables.
14029
Titration of Salmonella abortus-ovis strains with chick embryos and white mice.
14561
'Reduced volume' by how much Why Actual state of affairs.
14699

VORIA RURALIS
Time required for development of Voria ruralis and its host, the cabbage looper, at different temperatures.
8775

VORLEX
Vorlex for plastic greenhouse soil fumigation.
15607
Multipurpose disease control soil fumigants for tobacco. Nemotodes, black shank and black root rot.
15691

WALNUTS
Notice of filing of petition regarding pesticide chemicals.
9788
Notice of filing of petition regarding pesticide chemicals.
10931
Control of four species of aphids on deciduous fruit and nut trees with carbofuran.
12076
Two important diseases of walnut trees.
14695
Notice of filing of petition regarding pesticides.
15861

WAREHOUSES
Biological studies in Ghana in the control of Cadra cautella (Wlk.), the tropical warehouse moth.
10391
Oinophila v-flava Haw. (Lep., Tischeridae) in a distillery warehouse.
12499
Hydroxy coumarins as rodenticide in warehouses.
12882
Hygroscopical qualities of hops on cement floors.
15227

WARFARE
Control and eradication of animal infections in army in contemporary war.
15808

WARFARIN
Studies on rodents and their control. Part V. Some factors affecting lethal feeding period with warfarin.
8522
Studies of warfarin resistance in the rat. (Abstract).
9179
Do anticoagulant concentrates contain excessive amounts of inert ingredients .
9234
Some rodenticidal properties of coomatetralyl.
11661
Thieves in the poultry house.
13927
Warfarin treatment of mice bearing autochthonous tumors: Effect on spontaneous metastases.
14608
Experimental destruction of rats, either temporary or uninterrupted, using grain poisoned with coumafene (warfarin).
15233

WART
Potato wart in Sweden and National measures for its control.
14707

WART (POTATOES)
Breeding for disease resistance in the potato.
13765
Experiments on the effect of sludge compost on the wart disease of potatoes.
14986

WART HOGS
Ticks from waterbuck and warthog in the Queen Elizabeth National Park, Uganda.
11721

WASTE DISPOSAL
Movement of pesticides in the soil.
10398

WASTE UTILIZATION
Utility of arecanut husk in horticulture. .
8927

WATER
P32-labeling of common malaria mosquitoes: assimilation by larvae and retention and transfer during mating.
8193
Gut absorption.
8207
Note on the determination of some chlorophenoxy herbicides and their esters in water.
8598
Water balance in the firebrat, Thermobia domestica (Packard). Exchanges of water with the atmosphere.
8820
Add water-- instant Culicoides.
8900
An active reduction of water level in insect cuticle.
8902
Note on the determination of some chlorophenoxy herbicides and their esters in water.
9143
Survival of fish in 164 herbicides, insecticides, fungicides, wetting agents and miscellaneous substances.
9167
Comparative action of an oligo-infection of Bacillus thuringiensis and of total starvation on the water, lipid, and nitrogen contents of a lepidopteran.
9345
The influence of light and temperature on the pupal emergence activity of Chironomus nuditarsis Str.
9381
The influence of nutrition on the fertility and longevity of the bean weevil (Acanthoscelides obtectus Say).
9494
Dynamics of the permeation of nematodes by water, nematocides and other substances.
9656
Notice of filing of petition for food additive metoserpate hydrochloride.
9677

Biochemical study of Plodia interpunctella (Hbn.) (Lepidoptera) I--Variations of body weight, water content, and dry matter content.
9993

Effect of temperature on water absorption, development, and hatching in eggs of the prairie grain wireworm, Ctenicera destructor.
9999

Water vapor sorption and humidity relationships in Liposcelis (Insecta: Psocoptera).
10053

Water uptake and embryonic development in eggs of Chorthippus brunneus Thunberg (Saltatoria: Acrididae).
10079

Yellow foxtail competition in grain sorghum.
10284

Tall waterhemp competition in grain sorghum.
10285

Potentials for removing pesticides from water.
10396

Movement of pesticides in the soil.
10398

Consequences of insecticide use of nontarget organisms.
10402

Competition between flax and wild buckwheat.
10440

Gas chromatographic characteristics of chlordane. I. Effect of an aqueous environment on the heptachlor component.
10458

Distribution ratio of some chlorinated hydrocarbon insecticides between hexane and water.
10479

Intercellular movement of C14 in Chara vulgaris, a nonvascular aquatic plant. (Abstract).
10778

Greenhouse studies with hygroscopic compounds as additives to phenoxy herbicides for control of saltcedar (Tamarix pentandra Pall.). (Abstract).
10785

Continuous use of a live vaccine in the drinking water against fowl cholera infection in turkeys. (Abstract).
10845

Effects of hydrophilic-lipophilic balance (HBL) of nonionic surfactants on phytotoxicity of linuron and prometryne to carrots. (Abstract).
11045

Haemolymph proteins and water uptake in female Leucophaea maderae during the sexual cycle.
11385

Determination of organophosphorus pesticides in water.
11666

Reaction of CCCP in photosynthesis on an intermediate between chlorophyll-all and water.
11699

Permeability to water of the shell of the egg of Locusta migratoria migratoriodes, with observations on the egg of Teleogryllus commodus.
11793

The bioecology of Corthylus columbianus Hopkins.
11821

The control of water loss in Locusta migratoria mays. Influence of high-temperature treatment before spiracles.
11850

Migratorioides R. and F. I. Cuticular water loss. The control of water loss in Locusta migratoria.
11851

Secretion by the malpighian tubules of Rhodnius. The movements of ions and water.
11855

Progress in the field of systemic insecticides and hopes for the future.
11926

Ecology of wood-destroying and wood-inhabiting fungi.
11966

Water-soluble factors in Melilotus leaves which influence feeding by the sweetclover weevil.
12044

Determination of organochlorine insecticides in soils and waters.
12220

The influence of certain wood extractives on the competition between wood-rotting fungi and the soil microflora.
12272

Factors influencing Aedes aegypti occurrence in containers.
12418

Need for immediate sugar and ability to withstand thirst by newly emerged Oriental fruit flies, and Mediterranean fruit flies untreated or sexually sterilized with gamma radiation.
12478

Longevity, resistance to deprivation of food and water, and susceptibility to malathion and DDT of Oriental fruit flies, melon flies, and Mediterranean fruit flies sexually sterilized with tepa or radiation.
12479

Chemical factors of water in tree holes and related breeding of mosquitoes.
12512

Studies on the bacterial diseases of Sudan crops. VIII. Survival and dissemination of Xanthomonas phaseoli (E.F.Sm.) Dowson.
12657

Immunization of chickens against Newcastle disease with beta-propiolactone-killed virus antigen administered in drinking water.
12797

Freezing tolerance in an adult insect.
13090

Weeds as a factor depressing forest growth.
13361

Factors influencing the tolerances of seeds to fumigants.
13426

Gas-liquid chromatography of pesticides on OV-17 stationary phase.
13449

Effects of spraying plants with suspensions of inert dusts.
13477

Movement of water and solutes in sieve tubes of willow in response to puncture by aphid stylets. Evidence against a mass flow of solution.
13486

Function and properties in an assembling scent in the Khapra beetle, Trogoderma granarium.
13643

Wave-making by whirligig beetles (Gyrinidae).
13694

Water movement in two termite mounds in Rhodesia.
13701

Studies on Botrytis allii Munn.. The cause of neck rot of onion bulbs in U.A.R.. 1.The disease and the causal organism.
13792

Extraction procedures for DDT residues in firm fruits and in hay: Colorimetric method.
14059

Temperature dose relationships with aflatoxin on the brine shrimp, Artemia salina.
14061

Aflatoxin B1 hemiacetal.
14068

Influence of Co60 gamma radiation on the water regime and drought resistance of peppermint plants.
14094

Stimulation of tomato ripening by Amchem 66-329. (Abstract.
14313

Economic losses from water erosion on agricultural land.
14928

Forage nitrate poisoning.
15270

Food additives permitted in the feed and drinking water of animals or for the treatment of food-producing animals. Drugs. Antibiotic drugs; exemptions from labeling and certification requirements. Chlortetracycline, Sulfamethazine.
15787

Further studies on rot of McIntosh apples handled in water.
15841

WATER ANALYSIS

The limnology of Playa Lakes on the Llano Estacado, New Mexico and Texas.
8872

Water florae as indicators of irrigation water contamination by DDT.
10403

Pesticides removed from water with activated carbon.
12208

The potential role of fishery management in the reduction of Chaobrid midge populations and water quality enhancement.
13730

Factors affecting growth of rooted aquatics in a river.
15899

WATER POLLUTION

Distribution of insecticides sprayed by airplane on an irrigated corn plot. in: Organic pesticides in the environment; symposium...American Chemical Society, Atlantic City, N.J., Sept. 13-15, 1965. robert J. gould, ed.
8350

Effects of pesticides on raw wastewater.
8524

Identification and measurement of chlorinated organic pesticides in water by electron-capture gas chromatography.
8527

Identification and measurement of chlorinated organic pesticides in water by electron-capture gas chromatography.
8528

Determination of pesticides in water by microcoulometric gas chromatography after liquid-liquid extraction.
8530

Persistence of pesticides in orchards and orchard soils. in; Organic pesticides in the environment; symposium...American Chemical Society, Atlantic City, N.J., Sept. 13-is, 1965. robert J. gould, ed.
8532

DDT reduces photosynthesis by marine phytoplankton.
8557

Fish losses after forest sprayings with insecticides in New Brunswick, 1952-62, as shown by caged specimens and other observations.
8567

Internal damage in an aquatic beetle exposed to sublethal concentrations of inorganic ions.
8905

Studies on effects of forest sprayings with insecticides, 1952-63, on fish and aquatic invertebrates in New Brunswick streams: Introduction and summary.
9144

DDT residues in a East Coast estuary, a case of biological concentration of a persistent insecticide.
9145

Surface hydrology and pesticides.
10392

Research on pollution of crops, soil and shallow bodies of water in Liguria, through residues of some organochlorinated pesticides.
10395

Potentials for removing pesticides from water.
10396

Water florae as indicators of irrigation water contamination by DDT.
10403

Pollutional aspects of pesticides in natural streams.
10926

Observations on the repopulation by amoeba of a pond largely polluted with insecticides (Protozoa, Rhizopoda, testacea).
11663

Occurrence and significance of pesticide residues in water.
11665

Pesticides removed from water with activated carbon.
12208

Are fertilizers polluting our water .
14043

Tuberculosis in three herds with access to the same open sewer.
14546

Guidelines for evaluating the properties of pesticides for safe use in the wildlife environment.
14652

The significance of pesticide residues on human life.
15253

WATER STORAGE

Soil water measured.
8923

Abate and Dursban against Aedes aegypti (L.) breeding in concrete water jars in Bangkok, Thailand.
13219

WATER TREATMENT

Treated water curbs tomato decay.
10384

Potentials for removing pesticides from water.
10396

Occurrence and significance of pesticide residues in water.
11665

Mechanism of virus adsorption on activated carbon.
12127

Pseudomonas aeruginosa contamination of a warm water system used for pre-milking udder washing.
13943

WATERMELONS

Disruption of watermelon mosaic virus-induced inclusions by phosphotungstate.
9595

Degree of resistance of some watermelon (Citrullus vulgaris Schrad.) varieties to the Fusarium wilt (Fusarium oxysporum (Schlecht.) F. niveum (E. F. SM) tsnyder Hansen.
10620

Watermelon mosaic virus transmission and probing behavior by the green peach aphid as affected by physical agitation.
10734

Weed control in cucurbits.
13914

The shot-hole disease of the melon. Preliminary study of a new viral disease of the glass-house-grown melon.
15543

WATERSHED MANAGEMENT

Mosquito control in Utah by shore line modification.
14908

Tularemia focus in the Volga River delta and measures of its control.
15796

WATERWAYS

Factors affecting growth of rooted aquatics in a river.
15899

WAX GLANDS

Fatty acids, alcohols and hydrocarbons in the waxy covering of Ceroplastes pseudoceriferus Green, Ceroplastes japonicus Green and Ceroplastes rubens Maskell (Homoptera: Coccidae).
14269

WAXES

The major hydrocarbon of a cockroach cuticular wax.
11230

X-ray diffraction studies on waxy covering of scale insects (Homoptera: Coccoidea).
11403

Compositions containing organotin metal carboxylate antimicrobials.
12921

Further studies on rot of McIntosh apples handled in water.
15841

WEATHER

Biology and phenology of the grasshopper Dociostaurus curvicercus in Israel.
8712

The natural control of the apple-grass aphid, Rhopalosiphum insertum, with remarks on the control of apple aphids in the Netherlands in general.
8752

Spring dispersal of some leafhoppers and aphids.
8832

On the knowledge of the seasonal dynamics of heteroderosis in sugar beets in East-Slovakia (CSSR).
9027

Migration of Laphygma exigua Hubner (Lepidoptera: Noctuidae) to the British Isles in relation to large-scale weather systems.
9384

Weather, development of vines, diseases, pests and damages in the wine-growing areas of the Federal Republic of Germany in 1967.
9528

Note on Trichogramma japonicum Ashm., an egg parasite of internode-borer (Proceras indicus Kapur) of sugarcane in Madras State.
9649

Plant hormones and flowering in coffee.
9824

Greenhouse studies with hygroscopic compounds as additives to phenoxy herbicides for control of saltcedar (Tamarix pentandra Pall.). (Abstract).
10785

On problems with weather conditions in light trap use.
11166

Psilococcus parvus Borchsenius (Homoptera, Coccoidea)-morphology, biology and taxonomy.
11315

Problems with mercury vapor light traps.
11413

National Vegetable Research Station: Seventeenth Annual Report, 1966.
11914

The International Rice Research Institute Annual Report, 1967.
11916

This LV rig fights winds.
12327

Effect of winter precipitation and temperature on overwintering eggs of Northern and Western corn rootworms.
12432

Effect of simulated rainfall on herbicide performance.
12708

Reactions of poplars to infection by Septoria musiva and Diplodia tumefaciens and to injury by frost in Manitoba and Saskatchewan.
13296

Natural enemies of the desert locust (Schistocerca gregaria).
13830

Traps, male lures, and a warning system for Queensland fruit fly, Dacus tryoni (Frogg.) (Diptera, Trypetidae).
13849

Development of corn-growing along the Rhein through use of growth producing herbicides.
14523

The control of wild foxtail grass in winter wheat as well as the prevention of weather trodden grain.
14539

Biology of Hyphantria cunea Drury (Lepidoptera: arctiidae in Japan. I. Notes on adult biology with references to the predation by birds.
14627

Occurrence of Sphaerolecanium prunastri (Fonscolombe) in Israel and description of its hitherto unknown larval instar.
14791

The phenology of Pharoscymnus spp. and Chilocorus bipustulatus L. (Coccinellidae) in date palm plantations in Israel.
14834

Population dynamics of rice stink-bug (Leptocorisa varicornis Fabr.) in relation to weather factors.
14879

Brown rot of stone fruits.
14964

Control of Agropyron repens (quackgrass) by rotavator.
15068

Plant resistance depending on protective surface layers occurring naturally.
15277

Epizootiological observations on weather and local factor effect on the incidence of outbreaks of avian pasteurellosis.
15794

WEBWORM

1965 turf insects.
13853

Turf insects and insecticides.
15024

WEED BURNERS

The flame cultivator as a tool for weed control in corn. (Abstract).
10790

Improving chemical and mechanical weed control in corn with flaming. (Abstract).
10830

Experiments to control wheat bulb fly with a flame thrower.
12070

WEED CONTROL

Some ecological benefits of woody plant control with herbicides.
8395

Control and elimination of noxious weeds.
8404

Occurrence of Orobanche cernua on Pluchea lanceolata, an obnoxious weed in Rajasthan, India.
8411

Report on the current and planned local noxious weed control programs in New Jersey.
8414

Effectiveness of triazines and EPTC for weed control in seedling legumes.
8422

Methods of controlling weeds with derivatives of aminooxy lower alkanoic acids. Patent 3,457,063.
8426

Chemical weed control in crops.
8427

Regulatory activities of the Connecticut State Board of Pesticide Control.
8529

Administration of aquatic nuisance control in Ontario.
8534

Should Michigan forget about peaches .

WILDLIFE DISEASES
Possible effects of the harbour seal hounty on codworm infestations of Atlantic cod in the Gulf of St. Lawrence, the Strait of Belle Isle, and the Lahrador Sea. 9136

Tularemia in the wildlife of Arkansas. 9742

The comparative pathology of duck plague in wild Anseriformes. 10342

Foot and mouth disease. 12119

Antibody responses of coyotes inoculated with Venezuelan equine encephalitis virus. 12155

Tetanus in a grey squirrel. 12183

Massive pulmonary acariasis in the pig-tailed macaque. 12188

Effectiveness of Maretin and Meldane as treatments for Capillariasis in bobwhites. 12825

Investigation on the incidence of Salmonella in wild birds. 13926

The investigation on the effectiveness of copper sulphate (CuSO4) in the treatment of aspergillosis in ducklings. 13940

Contagious bovine pleuropneumonia in wildlife. 14613

Survey report: Biology and pathology of wildlife as a problem of veterinary medicine and agriculture in tropical and subtropical countries. 15157

WILDLIFE MANAGEMENT
Quelea control and research unit. 10880

Chemical vegetation control manual for fish and wildlife management programs. 13925

Survey report: Biology and pathology of wildlife as a problem of veterinary medicine and agriculture in tropical and subtropical countries. 15157

WILDLIFE PESTS
Myxomatosis: The introduction of the European rabbit flea Spilopsyllus cuniculi (Dale) into Australia. 13742

Rahbit survey in West Wales (1961-67). 13846

Musk, brown rats and harvest mice as pests in maize. 14541

German forest-protection literature 1965/66. III. Defensive mass protection against animal pests. 15760

WILT
Presence of two tree vascular diseases confirmed in Arkansas. 9000

Verticillium wilt of tobacco. VI. The influence of roots and stems on Verticillium wilt symptoms in tobacco. 10186

Verticillium wilt of tobacco. VIII. Movement of conidia of Verticillium dahliae Kleb. in tohacco plants. 10230

Verticillium wilt of tobacco. VII. Pathogenicity of isolates of Verticillium dahliae Kleb. on New Zealand tobacco. 10231

Plant pathology. 10672

Vertical distribution of fungus suggests...rigolen plowing for control of Verticillium wilt in cotton. 10709

Report of the 1965 West Virginia oak wilt program. 11462

The importance of insects for the dispersal of infectious oak wilt. 11534

Breeding studies of Verticillium wilt resistance in X Fragaria ananassa Duch. 11954

The problem of acute wilting of apricots in the Skopje region. 11961

Safflower introduction resistant to fusarium wilt. 11987

Evaluation of peanut (Arachis hypogaea) varieties for Verticillium wilt resistance. 12609

Incidences of Pythium wilt of snap beans in Colorado. 12637

'Pelipita', an ABB Bluggoe-type plantain resistant to bacterial and fusarial wilts. 13288

Cylindrocarpon radicicola found associated with wilt of azalea. 13761

The interrelationship of resistance and susceptibility of cotton to Verticillium albo-atrum and Fusarium oxysporum f. sp. vasinfectum as influenced by soil temperature. (abstract). 14339

Integrated control of hop wilt III. On the effect of sludge compost against Verticillium alboatrum. 14936

Integrated control of hop wilt I. Protection by chemical treatment and breeding. 14959

Short note on varietal resistance of Indian linseed to wilt (Fusarium oxysporum F. Lini). 14970

Integrated control of hop wilt II. Protection by methods of soil hygiene. 14988

WILT (COTTON)
Verticillium wilt of cotton--the situation in the Namoi Valley. 14357

WILT DISEASE (PLANTS)
A severe form of Verticillium albo-atrum in Gossypium barhadense in Peru. 10698

Experiment in soil disinfection against Phialophora cinerescens (Wr.) v. Beyma in the Pescia district. 11935

Remarks on the practice of grafting and soil disinfection with methyl bromide and with di-trapex in the control of verticillium wilt of greenhouse tomato plants. 11947

Remarks on the efficiency of soil disinfection, using steam and various fumigants, in the control of verticillium wilt of greenhouse tomato plants. 11948

On Fusarium oxysporum f. sp. lagenariae n. f. causing wilt of Lagenaria vulgaris var. hispida. 14404

Anatomical studies of rice plant infected with bacterial leaf hlight, with special reference to wilt symptom. 14460

WIND
Locust wind receptors. I. Transducer mechanics and sensory response. 9981

Locust wind receptors. ii. Interneurones in the cervical connective. 9983

Dissemination of waterborne Erwinia amylovora by wind in nursery plantings. 10621

Atrazine drift studies with horticultural crops. (Abstract). 10943

Problems with mercury vapor light traps. 11413

This LV rig fights winds. 12327

Evaluation of some abiotic factors influencing captures of the codling moths by black-light traps. 13670

Traps, male lures, and a warning system for Queensland fruit fly, Dacus tryoni (Frogg.) (Diptera, Trypetidae). 13849

WIND DISPERSAL
Ochromolopis ictella Hb. (Lepidoptera, Epermeniidae) in Finland, probably transported hy windstorm. 9912

WIND EROSION
Onion weed control on Mallee soils. 14518

WINE
Study of the antifungal properties of 8-Hydroxyquinoline tartrate. 14651

WINE MANUFACTURE
Insects attracted to argon light traps in California wineries. 14034

WINGED ELM
Winged elm control with picloram and 2,4,5-T with and without additives. 12720

WINGS (INSECTS)
Preliminary studies on the isolation of pterins from the wings of Heliconiid butterflies. 9347

Observations on polymorphism in two species of heliconiine butterflies from Trinidad, West Indies. 9360

Investigations of the wing mechanism of Dermaptera. 9409

Wing coloration of Dendrothrips ornatus (Jahlonowski). 9485

A remarkahle case of alary dimorphism in the Aradidae (Heniptera) with a generic synonymy and a new species. 11179

A histological and biometrical study of wing development in the grasshopper Melanoplus lakinus. 11232

Some observations on flight in Oncopeltus fasciatus (Hemiptera. Lygaeidae).
11287

Laboratory experiments on the sound of the wing beats of Culex pipiens Linnaeus during diapause.
11360

On photoreceptive and photokinetic activity of wings in insects.
11775

Mimicry of Hymenoptera by beetles with unconventional flight.
11883

Influence of some genes on the development of winged forms such as the green peach aphid (Myzus persicae Sulz.).
11910

Incidence of genetic mutations in Culex pipiens.
13215

Further evidence for coadaptation in crosses between geographic populations of Drosophila pseudoobscura.
13710

Does the beating of butterfly wings cause electrical phenomena .
14239

Study on the density of the adult of the brown planthopper Nilaparvata lugens Stal.
14251

The mechnism of coupling of the locust Light oscillator to oscillatory inputs.
14278

WINTER

Some aspects of the summer and winter ecology of wheat rust fungi.
11456

WINTER SQUASH

On Cryptolaemus montrouzieri Muls. (Morphobiological observations).
9426

WITCHES' BROOM

Studies on hypertrophic disease of cherry (genus Prunus), so-called witch's broom caused by Taphrina wiesneri. II On the phenolic acids and their related compounds, especially on melilotic acid in infected Japanese flowering cherry leaves.
11968

Studies on the hypertrophic disease of cherry (genus Prunus), so-called witch's broom caused by Taphrina wiesneri. I. On the metabolites of T. wiesneri.
11969

WOLMAN SALTS

Treating pine lumber with insecticide and preservative prevents tubing by subterranean termites.
12875

WOOD

Feeding responses to sound wood by the eastern subterranean termite, Reticulitermes flavipes.
9474

Composition and methods for rendering absorbent materials fungicidal comprising an aqueous solution of borax/and the bis(tri-n-propyltin) diammonium chloride of a tri-polyoxyethylated N-alkyl trimethylene diamine. Patent 3,443,010.
11066

Preference for wood of different degrees of dampness in some termites from Cuba (Isoptera).
11293

The limited distribution of Hylotrupes bajulus L. in Norway in relation to climatic differences.
11740

Application of X-radiography to the estimation of larval size in Anobium punctatum (Deg.).
11779

Influences of physical factors on termites.
11783

Aspects of the habits and nutrition of the Anobiidae with special reference to Anobium punctatum.
11788

Symbiosis of the Anobiidae with yeastlike fungi.
11838

Subterranean termites and fungal-bacterial relationships.
11852

Wood and organisms; International Symposium, Berlin-Dahlem, 1965.
11919

The complex of fungi essential to the growth and development of Xyleborus sharpi in wood.
11927

Ecology of wood-destroying and wood-inhabiting fungi.
11966

The effect of bacterial action on some wood cubes in shake culture.
11976

The soft rot fungi and their mode of entry into wood and woody cell walls.
11994

Micromorphological changes of wood through the decomposition caused by fungi.
11995

Decay of wood and wood fiberboards by common fungi imperfecti.
12003

The influence of white rot fungi on the ultrastructure of outer cell wall layers.
12006

Electron microscopical observations on hyphae of wood fungi.
12020

On the decomposition of particle boards by soft rot fungi.
12039

Experiments with Lyctus.
12057

On the relationship between animals and microorganisms in wood.
12110

On the symbiosis of xylo-mycetophagous and phloeophagous Scolytoidea with wood-inhabiting fungi.
12112

Investigations on the decomposition capacity of wood decay fungi.
12231

The physiology of wood fungi. A survey on recent research results.
12238

Chemical modification of wood during microbial deterioration.
12247

Decay patterns produced by Chaetomium globosum in beechwood fibers. A chemical and microscopic study.
12270

The influence of certain wood extractives on the competition between wood-rotting fungi and the soil microflora.
12272

Amount and distribution of nitrogen in wood and its influence on wood deterioration.
12274

Biochemistry of lignin.
12276

The influence of temperatures on the growth of blue-staining fungi.
12278

On the function of the phenol oxydases of wood-rotting fungi.
12284

The causes of variations in the natural durability of wood: Inherent factors and ageing and their effects on resistance to biological attack.
12285

The effect of gibberellic acid on dormancy in some wood species.
12289

On the decomposition of wood cellulose by organisms.
12290

Lignolytic activity of white-rot fungi.
12293

WOOD BORERS

The old house borer in Eastern States.
8076

Woodpecker predation on insect borers in living hardwoods.
13326

Economic effect and control of wood-boring insects in fruit trees.
14329

WOOD DECAY

Pathological changes in the trunk of Prunus armeniaca L. and their relationship to the premature death of apricots. I. Investigations in the area of wood structure.
8308

On the relative durability of some broad-leaved woods to fungal attack.
10673

Decay of wood and wood fiberboards by common fungi imperfecti.
12003

The size effect of sample blocks on decay rate of beech wood (Fagus crenata) in laboratory tests.
12035

Investigations on the decomposition capacity of wood decay fungi.
12231

Decay patterns produced by Chaetomium globosum in beechwood fibers. A chemical and microscopic study.
12270

Amount and distribution of nitrogen in wood and its influence on wood deterioration.
12274

Organism interactions in decay and discoloration in beech, birch, and maple.
12291

Some observations on the presence of Corynebacterium fascians (Tilford) Dowson in marketable and floral cultivation in France.
15499

WOOD DESTROYING FUNGI

Feeding and reproduction of the grain and the mushroom mite on wood-inhabiting hymenomycetes.
8192

Pathological changes in the trunk of Prunus armeniaca L. and their relationship to the premature death of apricots. I. Investigations in the area of wood structure.
8308

Wood rot of fruit trees.
11447

Ecology of slash pine stumps: Fungal colonization and infection by Fomes annosus.
11463

Subterranean termites and fungal-bacterial relationships.
11852

Wood and organisms; International Symposium, Berlin-Dahlem, 1965.
11919

On the biology of Trametes lactinea Berk. in culture.
11943

Micro-morphological changes of lignified cell walls produced by Basidiomycetes (brown rot fungi).
11958

Ecology of wood-destroying and wood-inhabiting fungi.
11966

Lignicolous fungi of freshly felled timber in tropical Africa.
11967

The soft rot fungi and their mode of entry into wood and woody cell walls.
11994

Micromorphological changes of wood through the decomposition caused by fungi.
11995

Decay of wood and wood fiberboards by common fungi imperfecti.
12003

The influence of white rot fungi on the ultrastructure of outer cell wall layers. 12006

Electron microscopical observations on hyphae of wood fungi. 12020

The size effect of sample blocks on decay rate of beech wood (Fagus crenata) in laboratory tests. 12035

Studies on the succession of higher fungi on felled beech logs (Fagus crenata) in Japan. 12036

On the decomposition of particle boards by soft rot fungi. 12039

Investigations on the decomposition capacity of wood decay fungi. 12231

Effect of pH on the cultural behaviour of isolated strains of Irpex flavus Lk. 12235

The physiology of wood fungi. A survey on recent research results. 12238

Distribution and reuse of nitrogen in wood-destroying fungi. 12246

The influence of certain wood extractives on the competition between wood-rotting fungi and the soil microflora. 12272

Biochemistry of lignin. 12276

On the function of the phenol oxydases of wood-rotting fungi. 12284

The causes of variations in the natural durability of wood: Inherent factors and ageing and their effects on resistance to biological attack. 12285

Organism interactions in decay and discoloration in beech, birch, and maple. 12291

Lignolytic activity of white-rot fungi. 12293

Rigidoporus zonalis. 12642

Host relationships in North American fungus-feeding moths (Oecophoridae, Oinophilidae, Tineidae). 13077

WOOD DURABILITY
The causes of variations in the natural durability of wood: Inherent factors and ageing and their effects on resistance to biological attack. 12285

WOOD PROPERTIES
Characteristics of Douglas-fir logs in relation to ambrosia beetle attack. 10967

Chemical modification of wood during microbial deterioration. 12247

WOOD STAINING FUNGI
Lignicolous fungi of freshly felled timber in tropical Africa. 11967

Micromorphological changes of wood through the decomposition caused by fungi. 11995

Studies on the succession of higher fungi on felled beech logs (Fagus crenata) in Japan. 12036

On the symbiosis of xylo-mycetophagous and phloeophagous Scolytoidea with wood-inhabiting fungi. 12112

The influence of temperatures on the growth of blue-staining fungi. 12278

WOOD STRUCTURE
Pathological changes in the trunk of Prunus armeniaca L. and their relationship to the premature death of apricots. I. Investigations in the area of wood structure. 8308

WOOD-DESTROYING INSECTS
Some suggestions for control of white ant damage on dadaps (Erythrina indica L.). 10710

On the symbiosis of xylo-mycetophagous and phloeophagous Scolytoidea with wood-inhabiting fungi. 12112

Subterranean termites: Their prevention and control in buildings. 12206

Insect-proffing during building construction. 12328

New experiments with Mueller termites (Macrotermes muelleri) and considerations of the stigmergy theory. 13631

Observations on wood-destroying insect living in the footbridge over Siikaneva bog. 14235

Observations of the insect pests of the old shrine and the Buddhist temple wooden buildings and a few trypoxylonid wasps. 14244

WOOL
Gardona as a mothproofer of woolen fabric. 8518

Shearing by drug. 9676

Increased live weight gain and wool weight from anthelmintic drenching of ewe hoggets in South Canterbury. 12199

Affecting the quality of wool in merino-sheep by artificial infestation with some gastro-intestinal nematodes, namely trichostrongyliodes. 12835

WORLD AGRICULTURAL SITUATION
Pesticide quest: residue surveys and tolerances. 13442

The pesticide problem in developing countries. 13526

World review of pest control supplement. Guide to new compounds. 14103

WOUND-TUMOR VIRUS
Enhancement of infectivity of a mammalian virus preparation after injection into insects. 14268

WUCHERERIA BANCROFTI
On the inefficiency of transmission of Wuchereria bancrofti from mosquito to human host. 9518

WYEOMYIA
The egg of Wyeomyia smithii (Coquillett) and a review of knowledge of the eggs of the Sabethini. 13012

X-RAY DIFFRACTION
X-ray diffraction and infrared study of the sulphur granules of Actinomyces bovis. 9073

X-ray diffraction studies on waxy covering of scale insects (Homoptera: Coccoidea). 11403

X-RAYS
Preliminary laboratory study of the effect of X rays on the fertility of Carpocapsa pomonella (Laspeyresia pomonella L.). 8229

The complementation map of mutations in a small region of the X-chromosome of Drosophila melanogaster. 8235

Inheritance of semi-sterility and transmission of chromosome rearrangements and fragments for 3 generations in the large milkweed bug. 8241

Caffeine and radiation induced mutations in Drosophila melanogaster. 8250

X-ray induced reversal of heterochromatization in male mealy bugs. 8256

Comparison of effects of irradiation on the primary spermatogonia and mature sperm of three species of Diptera. 10102

Meiosis in the grasshopper: Chiasma frequency after elevated temperature and X-rays. 10151

The effect of Actinomycin D pre-treatment of Drosophila melanogaster females on the frequency of dominated lethals induced by X-rays on mature spermatozoids. 11428

The effect of X-irradiation on male meiosis in Schistocerca gregaria (Forskal). II. The induction of chromosome mutations. 11430

Application of X-radiography to the estimation of larval size in Anobium punctatum (Deg.). 11779

X-Ray-induced multiple aberrations among oocytes of Drosophila melanogaster. 11911

Preliminary studies on the effect of single and combined treatments of X-rays and gibberellic acid on the growth of rice and tomato seedlings. 11920

Genetic effect of irradiation by X-rays on seeds of Zea mays. finfluence of high-temperature treatment before the irradiation on the immediate effect. 11924

X-ray radiation effects on survival and sterility of adults of the cereal leaf beetle. 12500

Conversion of a therapy X-ray unit for insect irradiations. 12933

Sterility, chromosomal breakage, X-ray-induced mutation rates and detected mutation frequencies in Drosophila melanogaster. 13187

X-ray induction of 2;3 translocations in mature and immature oocytes of Drosophila melanogaster. 13214

Experiments on the effects of radiation on ants. 13685

Radiation sensitivity of Drosophila embryos in relation to age, in air and in nitrogen. 14208

The action of X-rays on the osmotic pressure and the pH of the hemolymph of Galleria mellonella L. (Insecta Lepidoptera). 14242

The influence of x-rays on tarsal regeneration in an insect. 15353

Variability of the germinal spores of some Ustilaginales limited by X-rays. 15570

XANTHINE DEHYDROGENASE
Purine catabolism in Drosophila melanogaster. II. Guanine deaminase, inosine phosphorylase and adenosine deaminase activities in mutants with altered xanthine dehydrogenase activities. 13177

Evolution of xanthine dehydrogenase in Drosophila. 13624

XANTHIUM
The present status of biological control of Xanthium (Compositae). 11567

XANTHOLININAE
Results of the zoological investigations of Dr. Z. Kaszab in Mongolia. 86. Staphylinidae. II. Subfamilies Paederinae, Xantholininae and Staphylininae (Coleoptera). 74. Contribution to the knowledge of the Staphylinidae. 11203

XANTHOMONAS
Studies on the bacterial diseases of Sudan crops. VII. New records. 13283
Bacterial leaf spot of cape gooseberry in Queensland. 14411
An alternative weed host for Xanthomonas campestris. 14476
Research concerning the appearance and activity of pectolytic and cellulolytic enzymes of phytopathogenic bacteria. 15530

XANTHOMONAS CITRI
Relationship between citrus leaf-miner (Phyllocnistis citrella Stainton) injury and citrus canker (Xanthomonas citri (Hasse) Dowson) incidence on citrus leaves. 12025

XANTHOMONAS JUGLANDIS
Two important diseases of walnut trees. 14695
Attempts at fighting the bacterial growth of the walnuttree. 15516

XANTHOMONAS MALVACEARUM
A boll rot of cotton caused by Erwinia aroideae. 8298
Boll-rot potential, organisms involved, and actual boll rot in seven cotton varieties. 9545
Reinfection possibilities for angular leaf spot pathogen in California cotton. 12021
Comparative study on reducing sugars and sucrose contents of two types of cotton and some of their synthesized strains containing some blackarm resistance genes. 13779

XANTHOMONAS ORYZAE
Fungicidal control of rice diseases. 10170
Studies on the bacteriostatic and bactericidal action of streptocycline on Xanthomonas oryzae. 12022

XANTHOMONAS ORYZICOLA
Seed infection and transmission of bacterial leaf streak of rice. 10701

XANTHOMONAS PHASEOLI
Fuscous blight of beans in South Africa. 9549
Protective sprays inhibit secondary spread of common bacterial blight in snap beans. 11461
Effect of seed and root exudates on the growth of Xanthomonas phaseoli var. fuscans. 11513
Nutritional requirements of Xanthomonas phaseoli var. fuscans. 11514
Studies on the bacterial diseases of Sudan crops. VIII. Survival and dissemination of Xanthomonas phaseoli (E.F.Sm.) Dowson. 12657
Protective sprays inhibit secondary spread of common bacterial blight in snap beans. 13764
Two important bacterial diseases on beans. 14454

XANTHOMONAS PRUNI
Control of bacterial spot of peach in New Jersey. 8288
The influence of nutrition on susceptibility of peach foilage to water congestion and infection by Xanthomonas pruni. 8972

XANTHOMONAS TRANSLUCENS
Xanthomonas translucens on wheat in Manitoba in 1968. 10652

XANTHOMONAS VESICATORIA
Bacterial spot of tomato in United Arab Republic. 8304
Characterization of a strain of Xanthomonas vesicatoria (Doidge) isolated from a commercial field of greenpepper (Capsicum annuum L.) in Campinas, Sao Paulo. 8950
Differentiation of pathotypes among isolates of Xanthomonas vesicatoria. 13760

XANTHURENIC ACID
In vitro research on indol-3-acetic acid. 5-hydroxy-indoleacetic acid, o-aminophenol and xanthurenic acid in the content of caecum from equine after addition of l-tryptophan. 15266
Research on the effects of gradual doses of pyridoxine on xanthurenury caused by massive doses of nicotinamide. 15271

XENOPSYLLA CHEOPIS
Activity of repellents employed in aerosol form. 8110
Ecological and biological data on Synopsyllus fonquernici Wagner and Roubaud, 1932 (Siphonaptera), a flea of the domestic rat in the region of Tananarive. 12484
Control of Oriental rat flea in Vietnam with diazinon dust. 12591

XENOPSYLLA CHEOPSIS
Bandicota indica and sylvatic plague in Vietnam. 11913
Rat-flea indices, rainfall, and plague outbreaks in Vietnam, with emphasis on the Pleiku area. 15407

XESTOCEPHALIDAE
The family Xestocephalidae of Japan (Hemiptera). 11736

XIPHINEMA
Pathogenicity of Hemicriconemoides species to coffee. 8386
Observations on parasitic protozoa in plant-parasitic and free-living nematodes. 13900
Present knowledge on Phytophagous nematodes and their relations with virus diseases. 14514

XIPHINEMA AMERICANUM
Multiple applications of 1,2-dibromo-3-chloropropane for control of nematodes in established rose plantings. 8384
Plant-parasitic nematodes in marginal Pinus ponderosa stands in central New Mexico. 8390
Xiphinema americanum associated with maple decline in Massachusetts. 9029
Transmission of tobacco ringspot virus to the roots of a conifer by a nematode. 9652
Translocation of tobacco ringspot virus in cucumber and zinnia. 10206
Plant-parasitic nematodes of jack and red pine stands in Wisconsin. 13886

XIPHINEMA BASIRI
New host plants of Xiphinema basiri and X. indicum. 13901

XIPHINEMA COXI
Contribution to the migratory behavior of Xiphinema diversicaudum (Mikoletzky) Thorne, X. coxi Tarjan and Longidorus macrosoma Hooper, as well as the diffusion of rhubarb mosaic virus in the field. 8382

XIPHINEMA DIVERSICAUDATUM
Contribution to the migratory behavior of Xiphinema diversicaudum (Mikoletzky) Thorne, X. coxi Tarjan and Longidorus macrosoma Hooper, as well as the diffusion of rhubarb mosaic virus in the field. 8382
Virus vector nematodes. 10750
Nematode problems in areas of strawberry cultivation in Hessen-Nassau. 13337

XIPHINEMA INDICUM
New host plants of Xiphinema basiri and X. indicum. 13901

XYLARIACEAE
Possible factor responsible for the specific growth of Xylaria nigripes in the fungus gardens of the mounds of the termite, Odontotermes redemanni. 13679

XYLEBORUS
Shot-hole borer control recommendations--1969. 11525
Shot-hole borer of tea plant in Japan. 12475

XYLEBORUS FERRUGINEUS
Nutrition of Xyleborus ferrugineus. I. Ethanol in diets as a tunneling (feeding) stimulant. 10082
Symbiontic interrelationships between microbes and ambrosia beetles. III. Ergosterol as the source of sterol to the insect. 11359

XYLEBORUS SHARPI
The complex of fungi essential to the growth and development of Xyleborus sharpi in wood. 11927

XYLEM
On the symbiosis of xylo-mycetophagous and phloeophagous Scolytoidea with wood-inhabiting fungi. 12112
Feeding habits of two Phylloxera species (Phylloxeridae, Aphidina) on oak leaves. 15387

XYLENOL, 2,4-
Protective sprays inhibit secondary spread of common bacterial blight in snap beans. 13764

XYLOCORIS GALACTINUS
On the bionomics of Lyctocoris beneficus (Hiura) and Xylocoris galactinus (Fieher) (Anthocoridae, Heteroptera). 9003

XYLOSANDRUS GERMANUS
The black bark beetle, Xylosandrus germanus Blandf., a newcomer to our domestic insect fauna. 8643

YABA MONKEY TUMOR VIRUS
Susceptibility of various strains of chicken to the oncogenicity of Yaba virus. 12798
Experimental aerosal transmission of yaba virus in monkeys. 14623

YAMS
Nutsedge supression under different cropping practices. (Abstract). 10766
Tissue culture from bulbil of Dioscorea sansibarenis. 11444
Effect of simulated rainfall on herbicide performance. 12708
Internal brown spot--a condition in yams in Barbados. 14352

YEAST CULTURES
Investigation on growth media for mycoplasma: Evaluation of infusions, peptones, sera, yeast extracts and other supplements. 15797

YEASTS
Survey uncovers promising antibiotic. 9069
Yeast sporulation and RNA as affected by gibberellic acid. 9198
Production of yeast variants by auxin and effects of plant growth regulators on these variants. 9214
Cytokinins and transfer ribonucleic acids. II. Presence of cytokinins in different amino-acid specific transfer ribonucleic acids of brewer's yeast as revealed by the growth response of tobacco-pith callus tissue and Scorzonera crown-gall tissue. 10439
On the inhibitory effect of yeast ribonucleic acid on the infection of Nicotiana glutinosa by tobacco mosaic virus. 10443
Modes of action of 3-amino-1,2,4-triazole (amitrole). (Abstract). 10991
Symbiosis of the Anobiidae with yeastlike fungi. 11838
On the relationship between animals and microorganisms in wood. 12110
Egg-yolk and olive juice as supplements to the yeast hydrolyzate-sucrose diet for adults of Dacus oleae. 12446
The productivity of four inbred strains of Drosophila melanogaster. 13027
Studies on the gut contents of a suctorial collembolan Friesea mirabilis (Tullberg) (Insecta). 13684
Degradation of DDT and DDE by cheese microorganisms. 15252
Influence of some pesticides on various sources of yeast. 15477
Adsorption and desorption of lindane and dieldrin by yeast. 15676

YELLOW BUD MOSAIC
Stem pitting of yellow bud mosaic virus--infected peaches. 11505
Stem pitting of yellow bud mosaic virus-infected peaches. 13815

YELLOW DWARF
Occurrence of virus particles in the phloem tissue of BYDV-infected barley. 8962
Transmission of dwarf, yellow dwarf, stripe, and black-streaked dwarf. 9631
Plant pathology. 11941
Transmission of barley yellow dwarf virus (BYDV) in cereals by two aphid species, Rhopalosiphum padi (L.) and Macrosiphum miscanthi (Tak.). 12024
Yellow dwarf of pea and broadbean caused by milk-vetch dwarf virus. 14378
Note on the presence of the barley yellow dwarf in France. 14935
Possible occurrence of tungro and yellow dwarf viruses on rice in Mysore. 14948

YELLOW EDGE
Effects of aphid-transmitted viruses on the strawberry cultivars Northwest and Columbia. 11500

YELLOW EDGE (STRAWBERRIES)
Studies on virus diseases of strawberrries in the Western Cape Province. I. Degeneration of locally bred strawberry cultivars. 14355

YELLOW FEVER
Studies on the yellow fever in Ethiopia. 4. Entomological research at the Manera station. 9522
Studies on yellow fever in Ethiopia. 5. Isolation of virus strains from arthropod vectors. 9524
The mosquitoes of the Dar-es-Salaam area, Tanzania, with special reference to Aedes (Stegomyia) species and the epidemiology of yellow fever. 15453

YELLOW FEVER VIRUS
Studies on yellow fever in Ethiopia. 5. Isolation of virus strains from arthropod vectors. 9524

YELLOW MOSAIC
Identification of viruses isolated from cowpeas in Alabama. 8295
In situ breakage of turnip yellow mosaic virus RNA and in situ aggregation of the fragments. Analysis of successive stages. 8309
Studies on the 5'-terminus of turnip yellow mosaic virus RNA. 8316
Intracellular appearance of turnip mosaic and bean yellow mosaic particles. 9573
Ribonuclease isozymes in Chinese cabbage systemically infected with turnip yellow mosaic virus. 9597
Some observations on the shape and localization of different viruses in experimentally infected plants, and on the fine structure of the host cells. III:TURNIP yellow mosaic virus in Brassica chinensis L. 10646
Change in transmissibility of bean yellow mosaic virus by aphids. 11984
Optical investigations on double stranded ribonucleic acid from turnip yellow mosaic virus. 13257
Electrophoretic examination of the arabis mosaic virus and the yellow mosaic and fanleaf viruses of grapevines. 13752
Bean yellow mosaic virus in Bulgaria. 13794
Bean yellow mosaic and tobacco ringspot virus isolated from Crotalaria (Crotalaria spectabilis). 14388

YELLOW MOSAIC (TURNIPS)
Purification of turnip yellow mosaic virus replicase in a form dependent on the model. 15465

YELLOW MOSAIC VIRUS
Degradation of turnip yellow mosaic virus by freezing and thawing in vitro: a new method for studies on the internal organization of the viral components and for isolating native RNA. 8299
In situ breakage of turnip yellow mosaic virus RNA and in situ aggregation of the fragments. Analysis of successive stages. 8309
Degradation of turnip yellow mosaic virus by freezing and thawing in vitroi A new method for studies on the internal organization of the viral components and for isolating native RNA. 12620
In situ breakage of turnip yellow mosaic viru RNA and in situ aggregation of the fragments Analysis of successive stages. 1264

YELLOW RUST
Yellow rust of wheat. 1380

YELLOW SWEETCLOVER
Water-soluble factors in Melilotus leaves whic influence feeding by the sweetclover weevil. 1204

YELLOW VEIN
Evidence of transovarial passage of the sowthistle yellow vein virus in the aphid Hyperomyzus lactucae. 8317
Additional evidence of multiplication of the sowthistle yellow vein virus in an aphid vector-serial passage. 9024
Clover yellow vein virus in North America. 9593
Comparative electron micrographs of sowthistle yellow vein and vesicular stomatitis viruses. 9645
Evidence of transovarial passage of the sowthistle yellow vein virus in the aphid Hyperomyzus lactucae. 12689

YELLOWS
Electron microscopy of rice transitory yellowing virus. 9751
Comparative efficiency of transmission of aster yellows by Elymana virescens and Macrosteles fascifrons and the relative concentration of the causal agent in the vectors. 10238
Aphids and virus yellows of sugar beet. 10722
Yellow virus effects on macro- and micro-elements in 'Montmorency' sour cherry leaves. 11989
Delay of the yellowing of barley leaves on the plant by phytohormone treatment. 14080
Changes in concentration of free amino acids by selection from yellows infected sugarbeet leaves. 14944
The effect of infection with beet yellows virus on the growth of sugarbeets. 14957
Persistence of the inhibitory effect of mineral oil in regard to the transmission of beet yellows virus by aphids. 15497
The influence of the aphid forage plant on the vector capacity of aphids. 15520
Mechanical transmission of beet yellows virus to Chenopodium quinoa Willd. and Chenopodium foliosum (Moench) Asch.. 15562

YOLK NUCLEUS
Quantitative determination of DNA content during formation of one of the puffs and one of the Balbiani rings in Chironomus dorsalis. 8264

YPONOMEUTIDAE
Some ecological observations and results of the control of Argyresthia fundella F. R. 9022
Tests on the control of Prays citri Mill. by means of Bacillus thuringiensis. (preliminary report). 9389
New predaceous insects of Pray citri Mill. (citrus flower moth) found in Sicily. 9425
Biological studies of Argyresthia franciscella and A. cupressella on ornamental Cupressaceae. 12079
Where in Switzerland is Ethmia (Pseeadia) candidella Alpheraky found . 12993

YUZUHADA
Yuzuhada, a physiological disorder of oriental pear, and its possible relation to black-end and hard-end of Bartlett. 12656

ZANNICHELLIA PALUSTRIS
Submersed aquatic weed control in an irrigation system with acrolein. (Abstract). 10770

ZEBU CATTLE
White spine in domestic zebu, the cattle of Azerbaijan. 9684

ZEPHIRAN CHLORIDE
An epizootic of Serratia marcescens (Enterobacteriaceae) in Periplaneta fuliginosa (Blattaria) and a suggested method for control. 9462

ZEUXIDIPLOSIS GIARDI
The status of biological control of the weed Hypericum perforatum in British Columbia. 9667

ZEUZERA PYRINA
Biological observations on Zeuzera pyrina L. in Sicily. (Lep. Cossidae). 9417
Biology and control of leopard moth on pear trees in the United Arab Republic. 10242

ZINC
Plant treatment in relation to the rhizosphere effect. III. Foliar application of certain trace elements and metallic chelates in relation to the rhizosphere microflora of rice (Oryza sativa L.). 8588
Effect of CL-50, a new synthetic fungicide on certain fungi. 10173
Prevention of leg defects in zinc-deficient chicks by antiarthritic agents. (Abstract). 10881
The effect of Zn on yield and chemical composition of sweet corn in the Willamette Valley. 10997
Ammonia complex of the zinc salt of ethylene bis-dithiocarbamic acid. Patent 3,441,581. 11082
The effect of some trace elements on growth, reproduction, and symbionts of artificially fed Neomyzus circumflexus Buckt. (Aphidae, Homoptera, Insecta). 11265
Yellow virus effects on macro- and micro-elements in 'Montmorency' sour cherry leaves. 11989
Evaluation and use of fungicides in commercial cultivation of barley in Colombia. 14436
Possibilities of application of the ring-oven technique in the determination of pesticides residues. 15236

ZINC BACITRACIN
The efficiency of zinc bacitracin in the feeding ration for piglets. 10895
Notice of filing of petition for food additives carbarsone (not U.S.P.), zoalene, procaine penicillin, bacitracin methylene disalicylate, zinc bacitracin. 15781

ZINC DITHIOCARBAZATE
Fungicidal composition containing zinc dithiocarbazate. Patent 3,458,638. 10190

ZINC PHOSPHIDE
Determination of zinc phosphide and its stability in rodent baits. 9228
Is the meadow vole responsible for reports of an increasing state rat population. 12881
Pest and disease control schedules. 15455

ZINC PLUS ETHYLENEBISDITHIOCARBAMATE MANGANESE
A fungus of the onion, new for italy: Botrytis squamosa Walker. 9562

ZINC PROPYLENEBIS(DITHIOCARBAMATE)
Neck rot in onions. 8296
Is an early infection by Peronospora tabacina Adam controlable in the field. 14397
Combined application of leaf fertilizers and fungicides. 15576

ZINC SALTS
Some remarks on tests and several applications during the year, conducted with a new preparation against Cryptogamia, on numerous cultures. 10629

ZINC SULFATE
The effect of ZnSO4 on the chemical composition of maize leaves. 15291

ZINEB
Save your potato crop from fungal and bacterial diseases. 8286
Modification of the carbon disulfide evolution method for dithiocarbamate residues. 8604
Effect of storage treatments and fungicides on sprouting, flowering and gladiolus corm production. 8947
A fungus of the onion, new for italy: Botrytis squamosa Walker. 9562
Comparative tests between and various time periods of treatment in the control of gray mold of strawberries. 10628
A second three year period of the fight against Botrytis in the vineyards of friuli. 10630
Various formulations of products for the control of leaf spot on olives. 10638
Some aspects of the chemical control of tobacco Peronospora. 10642
Tests of the control of potato mildew in the Trentino region. 10647
Fungicidal sprays and their influence on disease, quality, and blemish in Valencia oranges at Mangrove Mountain. 10660
Experiments in the comparative control of Aculus pelekassi Keif. 10731
Principal diseases of roses, Rosa spp. 11495
Study on the determination of the moisture content in the fungicides with a dithiocarbamic base. 12309
Control of mango anthracnose by fungicides. 12873
Fungicides for the control of leaf spot (Pseudopeziza ribis) of black currants. 13281
Is an early infection by Peronospora tabacina Adam controlable in the field. 14397
Rust of stone fruits. 14412
Two important diseases of walnut trees. 14695

ZINGIBER OFFICINALE
Nematode control lifts ginger yields. 13335
Fungal foes that menace ginger crop. 14366

ZINNIA ELEGANS
Chemical growth retardants for bedding plants. 9203

ZINNIAS
Fine structure of zinnia leaf tissues infected with dahlia mosaic virus. 15528

ZIPANGINIA
Descriptions of two new Zipanginia-species from Japan (Coleoptera: Chrysomelidae Alticinae). 12978

ZIRAM
Various formulations of products for the control of leaf spot on olives. 10638
Some aspects of the chemical control of tobacco Peronospora. 10642
Study on the determination of the moisture content in the fungicides with a dithiocarbamic base. 12309
Isolation of Toxoplasma gondii from swine and cattle. following pesticide treatments. 14558
Winter necrosis of peach twigs. Experimental reproduction following pesticide treatments. 15641

ZOALENE
Automated determination of zoalene in feeds. 8452
Severe coccidiosis in a breeder flock following high-level medication for Mycoplasma and coccidia control. 12786
Notice of filing of petition for food additives carbarsone (not U.S.P.), zoalene, procaine penicillin, bacitracin methylene disalicylate, zinc bacitracin. 15781
Food additives. Proposed revocations regarding Amprolium, Oxytetracycline, Zoalene. 15782

ZONAL SOILS
Research concerning the effectiveness of some herbicides in controlling the weeds from pea crops in the western areas of the country. 9673

ZOO ANIMALS
Cockroach control in Chicago's Lincoln park zoo. 8839

ZOOGEOGRAPHY
Three new species of subgenus Parasecia Loomis (genus Fonsecia) from northeastern Brazil and a key to the included species (Acarina: Trombiculidae). 8024
Ixodes himalayensis sp. n. (Acarina: Ixodidae) parasitizing small mammals in Himachal Pradesh, India. 8027
A new genus and species of the family Lentulidae (Orthoptera: Acridoidea). 8028
Notes on some new or little known Chalcididae (Hym.). 8031
Additions to the Cyrtosiinae (Bombyliidae) of South Africa. 8037
Taxonomy of the rice stem borers. 8041
Survey and distribution of common lady beetles (Col. Coccinellidae) on date palm trees in Israel. 8042
Ichneumonidae of Northwest Germany. (II. Part). 8043
Notes on British Therevidae (Diptera). 8047
The types of tabanids in the zoological collection of the Bavarian States in Munich (Diptera, Tabanidae). 8049

ZOOGEOGRAPHY

Two new Carambinae for Austria Metaeramhus carectellus Zeller in lower Austria, and Chrysocrambus linetellus Fabricius in Karnten. 8056

Species of Lygus (Hahn) (Hemiptera: Miridae) in Scotland. 8057

New Pterostichinae (Coleopt. Carabid.). VIII. 8058

Thaeniothrips vuilleti Bagnall 1933 and Thaeniothrips falsus Priesner 1936. 8061

Investigations concerning the taxonomy of German Thysanoptera. 5. Thaeniotrips linariae Pr. 1928 and Thaeniotrips hildae Tck. 1956. 8062

A new subfamily of blind beetle from Idaho ice caves with notes on its bionomics and evolution (Coleoptera: Leiodidae). 8065

The Old World species of the tribe Typopsilopini (Diptera: Ephydridae). 8066

The old house borer in Eastern States. 8076

Insects and the problem of austral disjunctive distribution. 8092

Research on bio-ecology of Sitona crinitus (Herbst) and method for chemical control. 8148

The biology and life cycle of Chilo suppressalis (Walker) and Tryporyza (Schoenobius) incertulas (Walker) in temperature-climate areas. 8149

New and little known species of the family Trioza Forst. (Homoptera, Psyllidae) from Korea. 8150

Variation-statistical research on the female of Formica lugubris Zett. 8153

Bionomics of Siricidae. 8162

Association among species of infrequent occurrence: The insect and spider fauna of Polyporus betulinus (Bulliard) Fries. 8171

The evolution and past dispersal of the Trichoptera. 8181

Air swallowing- an effective protection against drowning in larvae of Epistrophe halteata (Syrphidae Dipt.). 8185

The semispecies and the transitional populations of Drosophila paulistorum. 8242

Developmental time of geographical populations of Tribolium castaneum. 8266

Fire on fire ants . 8322

The presence in the vineyards of the Tessin of a nearctic cicadella, new for Switzerland, Scaphoideus littoralis Ball (Hom.Jassidae) a possible carrier of yellow flavescence. 8325

New perspectives in the control of Aonidiella aurantii of Morocco (Hom., Diaspididae). 8327

Contribution to the migratory behavior of Xiphinema diversicaudum (Mikoletzky) Thorne, X. coxi Tarjan and Longidorus macrosoma Hooper, as well as the diffusion of rhubarb mosaic virus in the field. 8382

New data on the distribution and biology of the couch grass nematode (Paranguina agropyri Kirjanova, 1955 (Nematoda: Tylenchida). 8385

Nematodes associated with soybeans in Alabama, Florida, and Georgia. 8389

Plant-parasitic nematodes in marginal Pinus ponderosa stands in central New Mexico. 8390

Redescription of Ornithobilharzia canaliculata (Rud.) Odhner, with notes on classification of the genus Ornithobilharzia and the subfamily Schistosomatinae (Trematoda). 8516

Description of new Arctiidae from Madagascar. (lep.) (15th note). 8616

Proposed faunal affinities of Utah Dytiscidae with the emphasis on the genus Hygrotus Stephens. 8618

Fourteen new chrysomelid beetles from Jamaica. 8619

Crypturgus hispidulus also in Baden (Col., Scolytidae) (Contribution to the southwestern German coleoptern fauna). 8620

Three new species of the genus Tripteroides, subgenus Tripteroides Giles (Diptera: Culicidae). 8624

The Baris lepidii group. 8625

Two new genera and five new species of Argaremini from New Zealand, with a key to the genera of Targaremini (Heteroptera: Lygaeidae). 8630

Contribution to the knowledge of the Staphylinidae. CIII. The Quedius oblitteratus Er.--nemoralis Baudi complex. 8631

The distribution of the furniture beetle, Anobium punctatum (De Geer) (Coleoptera: Anobiidae), in New South Wales. 8632

A new Coptotermes (Isoptera, Rhinotermitidae) from Gabon. 8636

Two species of apple-feeding gelechiids new to science (Lepidoptera). 8640

Addendum to the revision of the genus Thorictus Germ. 8642

The black bark beetle, Xylosandrus germanus Blandf., a newcomer to our domestic insect fauna. 8643

Taxonomic remarks about Staphylinidae. 8644

Palearctic species of egg parasites of the genus Telenomus haliday (Hymenoptera, Scelionidae, Telenominae). 8645

Microctonus glyptosceli n. sp., a parasite of Glyptoscelis pubescens (F.) in Wisconsin (Hymenoptera: Braconidae: Euphorinae and Coleoptera: Chrysomelidae). 8648

The mayfly genus Hexagenia in Mexico (Ephemeroptera: Ephemeridae). 8651

New South American genera and species of the tribe Bothynostethini (Hymenoptera; Sphecidae; Larrinae). 8652

The Aradidae of New Zealand (Hemiptera, Heteroptera). III. The Aradinae and Calisiinae. 8656

The natural foci of human transmissive diseases. 8657

A revision of the genus Chlorocnemis Selys (Odonata). 8659

The new genus Fregatiella (Mallophaga: Menoponidae) for Menopon aurifasciatum from the frigate-bird. 8665

Hebridae (Hemiptera) of Oklahoma. 8668

The genus Craterocercus Rohwer (Hymenoptera: Tenthredinidae). 8673

Two new species of Idaho Trichoptera with distributional and taxonomic notes on other species. 8674

Notes on the systematics and dulosis of some western species of Formica, subgenus Raptiformica (Hymenoptera: Formicidae). 8675

Catalog of Neuroptera of Argentina and Uruguay. 8677

The postabodomen of Cinderella, with a new species from Argentina (Diptera: Heleomyzidae). 8678

Some African Fulgoroidea in the United States National Museum. 8679

Mallophaga from birds of the Oriental Region. Part IX. Sturnidoecus philippensis, n. sp. (Ischnocera: Philopteridae). 8680

First record of Rhagio scolopaceus (Linne) in North America (Diptera: Rhagionidae). 8682

Previously unpublished nocturnals of Madagascar. (Lep.). 8684

Systematics and acoustic behavior of United States crickets of the genus Orocharis (Orthoptera: Gryllidae). 8686

Effect of substrate types on aquatic insect distribution. 8707

A new record for a parasite of the alfalfa weevil in Eastern United States, Eriplanus micator (Gravenhorst) (Hymenoptera: Ichneumonidae). 8716

How different are the eastern and western forms of the alfalfa weevil . 8740

The natural control of the apple-grass aphid, Rhopalosiphum insertum, with remarks on the control of apple aphids in the Netherlands in general. 8752

Distribution and emergence patterns of mayflies Ephemera simulans (Ephemeroptera: Ephemeridae). 8753

Alate aphids trapped over 8 years at two sites in Canterbury, New Zealand. 8798

The incidence of parasitism and disease in some populations of the cabbage aphid,(Brevicoryne brassicae L.) in New Zealand. 8799

Trails of the leafcutters. 8812

Hypnoidus riparius (Fabricius), a possible agricultural pest from Europe (Coleoptera: Elateridae). 8868

Factors affecting the sex ratio of Aphytis proclia Wlk. (Hymenoptera, Aphelinidae), external parasite on the San Jose scale. 8873

Iridescent virus from blackfly Simulium ornatum Meigen in Czechoslovakia. 8896

Banana diseases in the Pacific area. 8924

Phytophthora leaf fall and pod rot of Hevea brasiliensis in Thailand. 8939

The Mexican species of Uromyces (Uredinales). 8955

Some ecological observations and results of the control of Argyresthia fundella F. R. 9022

The distribution of the family Heteroderidae (Filipjev, 1934) in South Africa and some host records of Meloidogyne species.
9026

Records of the higher fungi of Minnesota.
9050

Undescribed species of Nearctic Tipulidae (Diptera). X.
9256

New Scarabaeidae species. 129. Contribution to the Scarabaeoidea (Coleoptera).
9257

Materials concerning the knowledge of Syrphidae (Diptera) of Afghanistan.
9258

A hymenopterous primary parasite of morabine grasshoppers.
9262

A new Megaselia from Hawaii (Diptera: Phoridae).
9263

New records of chiggers from the West Indies.
9264

Rhynchosciara baschanti (Diptera, Nematocera, Sciaridae), a new Brazilian species.
9265

A new species of Pyrrhalta from Sable Island (Coleoptera: Chrysomelidae).
9268

Results of the zoological research of Dr. Z. Kaszab in Mongolia. No. 163: Homoptera, Auchenorrhyncha.
9276

The spiders of Mississippi.
9277

A revised synonymic list of the Nearctic Melitaeinae with taxonomic notes (Nymphalidae).
9278

Descriptions of some new cheyletid mites from the United Arab Republic. (Acarina: Cheyletidae).
9279

The bees of Finland.
9280

On a Simulium of the group neavei captured in Ethiopia. (Preliminary report).
9281

New species and a revised key to the Hawaiian Cyrtopeltis Fieb. with notes on Cyrtopeltis (Engytatus) hawaiiensis Kirkaldy (Heteroptera: Miridae).
9283

A catalog of Hawaiian Acarina.
9284

Ectobius pallidus Olivier (Dictyoptera, Blattidae sensu lato) in Guernsey.
9286

Centipeds (Chilopoda) of the Lodz plateau.
9289

Distribution of ant species of Hawaii.
9291

The Donaciinae of North Africa (Col. Chrysomelidae).
9295

Results of the zoological research of Dr. Z. Kaszab in Mongolia. 115. Homoptera: Psyllodea of the III. Expedition.
9297

Several new Tachinidae of Melanesia (Dipt., Tachinidae).
9302

The Heteroptera of The Netherlands Antilles. VI. Notonectidae.
9306

Beetles new to fauna of Babia Gora mountains. (Coleoptera). III.
9307

Catalogue of the types in the collections of the German Entomological Institute--I. Ephemeroptera, Odonata, Plecoptera.
9309

Ochodaeinae and Acanthocerinae from the faunistic region of Ethiopia and Madagascar. (Coleoptera Scarabaeidae).
9310

Catalogue of New World Dermaptera (Insecta). Part I: Introduction and pygidicranoidea.
9312

Drepanaphis pallida, a new aphid collected on Acer saccharum in Ontario (Homoptera: Aphididae).
9314

A new species of Tuberculatus from Turkey, with revisionary, descriptive notes on Tuberculoides (Homoptera: Aphididae).
9315

The banana corm weevil, Cosmopolites sordidus in the cocoa region of Bahia, Brazil.
9319

The Aedes mosquitoes of New England (Diptera: Culicidae). II. Larvae: Keys to instars, and to species exclusive of first instar.
9321

Hawaiian Toxorhynchites (Diptera: Culicidae).
9323

Occurrence of Thymelicus lineola (Hesperiidae) in Virginia.
9324

Taxonomic and biological studies of Hawaiian Sphaeroceridae (Diptera).
9325

Two new species of Leptocera Olivier from Hawaii (diptera: Sphaeroceridae).
9326

Systematic investigations on East-Indian and Australian Hemipepsis. VIII. On the species of the sub-genus Moropepsis Banks, 1934 (Hymenoptera Pompilidae, Pepsinae).
9329

Boloria polaris (Nymphalidae) in northern British Columbia.
9330

Systematic studies of the Central European species of the genus Austromenopon Bedf. (Mallophaga, Austromenoponinae).
9331

Capsule controls fire ant.
9336

Preliminary results of a new seasonal investigation on brook Hydracarinae (Acari-Trombidi formes).
9341

A note on the comparative biology of some Italian Cassidae. (Col., Chrysomelidae).
9350

Research on Messor of the Basin of Aquitaine: Ecology and biology.
9366

The proliferation of aquatic plants in Lake Trasimeno and its consequences on the diffusion of Phytochironomus severini Goetgh.
9367

Migration of Laphygma exigua Hubner (Lepidoptera: Noctuidae) to the British Isles in relation to large-scale weather systems.
9384

Insect parasites of the insect galls in Europe.
9386

Reproductive isolation and size variation in the Muscidifurax raptor complex.
9415

Biological observations on Zeuzera pyrina L. in Sicily. (Lep. Cossidae).
9417

New predaceous insects of Pray citri Mill. (citrus flower moth) found in Sicily.
9425

On Cryptolaemus montrouzieri Muls. (Morphobiological observations).
9426

Artificial biological control of the olive fruit fly (Dacus oleae Gmel.) by means of Opius concolor Sz. siculus Mon. on the Lipari Islands (Sicily). July-September 1965.
9429

Artificial biological control of Dacus oleae Gmel. by means of Opius concolor Szep. siculus Mon.
9430

A large experiment on artificial biological control of the olive fruit fly (Dacus oleae G.) by means of Opius c. Sz. siculus Mon. in Sicily. (Palermo July-October 1966).
9431

Ecological observations on the species Smicromyrme septentrionalis Hffr. (Hym. Mutillidae).
9435

The importance of the transplantation of Formica lugubris in Italy.
9445

Food preference as a factor in distribution and abundance of Phoetaliotes nebrascensis.
9454

Preliminary observations on the biology of Amblyseius tardi Lomb. (Acarina-Phytoseiidae) a predator of Tetranychus urticae Koch.
9455

Binomics of Enoclerus barri (Coleoptera: Cleridae).
9458

On the transplantation of ants of the group Formica rufa in Italy.
9461

Recently introduced beetles in the Pacific Northwest.
9463

Wing coloration of Dendrothrips ornatus (Jablonowski).
9485

Biology and morphology of Graphosoma semipunctata Fabricius, (Heteroptera, Pentatomidae).
9493

The biology of Pipunculidae (Diptera) parasitising some British Cercopidae (Homoptera).
9501

Abundance and habitat of five species of cockroaches on a permanent military base.
9506

A chiasmate sex quadrivalent in the male of an alticid beetle, Cyrsylus volkameriae (F.).
9517

Mechanical transmission of coconut lethal yellowing.
9594

Cocoa dieback- A review of present knowledge.
9612

New hosts, distribution, and biological notes on an imported ambrosia beetle, Xylosandrus germanus (Coleoptera: Scolytidae).
9642

The influence of the steppes inundation and enlargement of the area of cultivation upon distribution and numbers of harmful rodents of Azerbaijan.
9666

Gnathostomulida from America.
9774

Envenomation by the spiders Chiracanthium inclusum and Argiope aurantia.
9809

New species of crane flies from tropical America. V. (Diptera: Tipulidae).
9865

A new sub-genus and species of the Eumeninae (Hymenoptera, Diploptera) from the Bulgarian fauna.
9868

New species of Chrysobothris from the Pacific Northwest (Coleoptera: Buprestidae).
9870

The larvae of Odonata in the vascular territory of stagnant waters in Bulgaria.
9872

The identification and distribution of Quadraspidiotus species (Homoptera: Diaspididae) on pome and stone fruits in Australia.
9876

ZOOGEOGRAPHY

Revision of the Nearctic moth genus Abagrotis Smith with descriptions of new species (Lepidoptera: Noctuidae). Part Vi The duanca and placida groups; checklist of the presently known species within the genus.
9879

Study of the world Gyponinae (Homoptera: Cicadellidae). A synopsis of the genus Clinonaria.
9883

Two new Palearctic Lithocolletis species. (Preliminary description).
9884

Description of Dendrocerus (tmacrostigma) noumeae sp. nov. from New Caledonia (Ceraphronoidea, Megaspilidae).
9885

Contribution to the knowledge of the Staphylinidae. CI. Diverse remarks on some Quedius from the eastern Mediterranean.
9890

Oriental species of Coesula Cameron (Hymenoptera: Ichneumonidae).
9897

The subgenus Persicargas (Ixodoidea, Argasidae, Argas). 7. A. (P.) walkerae, new species, a parasite of domestic fowl in southern Africa.
9908

A revision of the pseudomorphacridini (Orthoptera: Acridoidea: Pyrgomorphidae).
9909

A new species of Ficalbia (Ravenalites) from Cambodia (Diptera: Culicidae).
9910

Amphipyra pyramidea L. and A. berbera Rungs in Finland (Lepidoptera, Noctuidae).
9913

New Mymaridae from Central Africa. (Hymenoptera: Chalcidoidea).
9916

The genus Heteroconis Enderlein, 1905 (Neuroptera, Coniopterygidae).
9919

Further records of the distribution of Petrobia latens (Muller) (Acarina: Tetranychidae), a pest of wheat in India together with the description of a new species of predatory mites on the same.
9920

New species and records of Nasutitermitinae (Isoptera: Termitidae) from Africa.
9936

Distribution and establishment of Tetrastichus incertus in the eastern United States.
9937

Mordellistena pumila group in Finland (Coleoptera, Mordellidae).
9941

New Bulgarian fauna of phytophageous wasps (Symphyta, Hymenoptera).
9946

Some new records of butterflies from Nepal.
9948

Adelphocoris minor nov. spec. (Heteroptera, Miridae).
9949

Additions to the genus Alloeonotus Fieber, 1878 (Heteroptera, Miridae).
9950

New Orthotylus and Pachylops species (Heteroptera, Miridae).
9951

On two new species of Terebrantian Thysanoptera with remarks on a new genus Pellothrips.
9958

Ixodes pacificus Cooley and Kohls, 1943: Its life-history and occurrence.
9962

Laboratory studies of Eucelatoria armigera, a tachinid parasite of Heliothis spp.
10040

Insect parasites of the green peach aphid, Myzus persicae Sulz. and their control potential.
10059

Eretmocerus corni Hald. (Hym., Aphelinidae), a parasite of Siphoninus phillyreae Halid. (Hom., Aleyrodidae).
10070

New records of parasites of Plutella maculipennis Curt. in Gujarat, India.
10088

A supplementary list of the host-plants of lac insects.
10135

Etology as the determining factor of the numerical distribution of the species in the fauna.
10144

A new species of Aedes (Stegomyia) from Thailand (Diptera: Culicidae).
10164

Elements for the differentiated application of quarantine and control measures of potato canker.
10221

A review of the use of insecticides on the main agricultural crops of the world--3. Section 3: Cotton.
10245

Atherigona sp. (Anthomyiidae: Diptera) as a pest of wheat in Rajasthan.
10250

Needle miner infestations in lodgepole pine east of the Sierra crest.
10267

Gulella (Indoennea) bicolor (Hutton), a predator of giant African snail Achatina fulica Bowdich.
10322

Contribution to the research on the helminth fauna of wild birds in Thrace (southern Bulgaria) Acathocephala.
10371

Wharf borer.
10385

New species of Gargara living on cola and cocoa trees in Central Africa.
10488

Culicoides marcleti n. sp. and new identifications of Culicoides (Diptera, Ceratopogonidae) of the Mediterranean region and especially of Algeria.
10489

Rhizotrogus maculicollis Villa (Coleoptera, Scarabaeidae) a new species for Czechoslovakia.
10490

A new species of Arenivaga from desert sand dunes in southern California (Dictyoptera: Polyphagidae).
10492

New and little known palearctic Cecidomyiidae of the tribe Porricondylini (Diptera, Cecidomyiidae).
10499

An investigation of the Culicidae of Charente-Maritime; The occurrence of the genus Mansonia Blanchard 1901: M. (Coquilletidia) richiardii (Ficalbi) 1896 and M. (C.) buxtoni (Edwards) 1923.
10500

Two myobiid mite species (Acarina: Myobiidae) from shrews of Hokkaido, Japan.
10501

Ants (Formicidae) collected in Afghanistan by Dr. J. Klapperich.
10503

Materials concerning the knowledge of the palearctic Momphidae (Lepidoptera). Part VIII. Distribution of the Momphidae in Poland.
10504

Pieris virginiensis Edwards in Ontario (Lepidoptera: Pieridae).
10505

Contribution to the fauna of the Congo (Brazzaville). mission of A. villiers and A. Descarpentries. XLVI. Lepidoptera Attacidae. (2nd note).
10506

New species of mites from pine (Acarina: Tarsochelidae, Eupalopsellidae, Caligonellidae, Cryptognathidae, Raphignathidae, and Neophyllobiidae).
10507

Contribution to the fauna of the Congo (Brazzaville). Mission of A. Villiers and A. Descarpentries. XLVII. Homoptera Cercopidae and Fulgoroidea.
10508

Fauna of the springtails (Collembola) of the Ojcow.
10509

Arthropods of medical importance in Australia and the Pacific Islands.
10511

A contribution to the knowledge of the Halticinae of Northern Persia.
10514

Natural infection of chigger mites with Rickettsia tsutsugamushi on the Primorsky Territory.
10541

The occurrence of blowflies (Dipt., Calliphoridae) in the archipelago of Lake Kallavesi, Central Finland.
10555

Autoecological-zoogeographical analysis of moss mites (Acari, Oribatei) on the basis of fauna in the Poznan environs. Part I.
10557

Biology of the robber fly Eutolmus rufibarbis Mg. (Diptera, Asilidae) in Khabarovsk Territory.
10574

Ethology as the determining factor in the distribution of species and fauna.
10576

On results of control of a tick vector of spirochaetosis in village foci of the Central Asian Republics.
10585

The coffee root mealybug complex.
10711

Some Lepidoptera of economic importance in Commonwealth countries.
10715

The gypsy moth, Porthetria dispar L., a threat to Ontario horticulture and forestry.
10716

A model outbreak of the mite Tetranychus mcdanieli McGregor in Ontario.
10721

Sugarbeet nematodes found on garden red beet in Ohio.
10757

Syrphidae collected mostly in southern areas of the Okanagan Valley, British Columbia.
11104

Nine new tropical species of the genus Pediasia Hbn. (Lepidoptera, Pyralidae) (Crambinae studies, Part 47).
11113

An annotated list of the Dermaptera, Dictyoptera, Phasmatoptera, and Orthoptera of Michigan.
11115

The carabid beetles of New Guinea Part III. Harpalinae (continued): Perigonini to Pseudomorphini.
11122

The distribution of the field cricket (Gryllus campestris L., Orthoptera) in the Netherlands.
11127

Revision of the central European species of the Stratiomyidae (Diptera) family with special consideration of the fauna of the CSSR, IV.
11128

Jamacerus and Optocerus, two new genera of Central American and Jamaican Idiocerinae.
11137

A list of the armoured scale insects (Diaspididae) and their hosts in Tasmania.
11150

Second supplement to the Contribution to the lepidopteran fauna of the middle Rhine and adjacent territory .
11160

The Aphidiidae (Hymenoptera) of Finland. 11171

The Cyphomyia bicarinata species group (Diptera: Stratiomyidae). 11172

Some stigmaeid mites from South Africa (Acari: Trombidiformes). 11175

A remarkable case of alary dimorphism in the Aradidae (Heniptera) with a generic synonymy and a new species. 11179

The conspicua species-group of Typhlodromina Muma 1961. 11180

Results of a study of the order Coleoptera in our country. 11181

Cidaria luctuata in Osteriesland (Lep., Geometridae). 11184

Is Rhyacia simulans really so rare (Lep., Noctuidae). 11187

Three new species of Psittacobrosus from Brazilian parrots. 11188

A redescription of the Microthrombioiinae of Bolivia, originally described by J. Boshell and J. A. Kerr in 1942 (Acari, Thrombidiidae). (1st Part). 11193

New species and subspecies of the genus Chaetisothrips from the Caribbean and Central American region (Thysanoptera, Thripidae). 11196

Notochrysa capitata Fabricius in southern Germany (Planipennia, Chrysopidae). 11199

Contribution to the knowledge of the scorpions of India. 2. Iomachus laeviceps Pocock, 1893 (Scorpionidae, Ischnurinae). 11204

Coniopteryx cerata Hagen, 1858, further description and lectotype designation (Neuroptera, Coniopterygidae). 11208

Coleopterous Cerambycidae of Arabia. 11211

Some aspects of zoogeography and speciation in the genus Teldenia Moore (Drepanidae: Lepidoptera). 11213

Distribution data of Western European Hymenoptera. VII. Family of the Cephidae (Symphyta). 11216

Distribution data of Western European Hymenoptera. VIII. Family of the Argidae (Symphyta). 11217

Contribution to the fauna of Longicornia in the state of Maranhao (Coleoptera, Cerambycidae). 11219

Notes on the distribution and bionomics of some Idaho Cerambycidae (Coleoptera). 11227

Morphological, systematic, and biometric discussion on Agrion (Cercion) lindeni Selys, 1840. (Odonata Zygoptera). 11288

Hydraecia petasitis in mountainous country, (Lep., Noctuidae). 11311

Psilococcus parvus Borchsenius (Homoptera, Coccoidea)-morphology, biology and taxonomy. 11315

Notes on the Thysanoptera collected during western and southern India Survey, 1962, with a review of the Thysanoptera complex of the hosts. 11325

Population differences in Tanytarsus gracilentus (Holmgr.) (Dipt., Chironomidae). 11335

Comparative notes on the distribution, ecology and behaviour of some damselflies (Odonata: Coenagriidae). 11363

The distribution of two species of Cenocorixa in inland saline lakes of British columbia. 11390

Blankaartia acuscutellaris (Acarina, Trombiculidae) and its extension to the African continent. 11404

Cytogenetics of the Viatica group of morabine grasshoppers. II. Kangroos Island populations. 11431

Review of classical malaria control measures. 11433

Frond-drop: An unrecorded disease of coconut of unknown etiology in the Bicol region of the Philippines. 11453

Some aspects of the summer and winter ecology of wheat rust fungi. 11456

Pests and diseases of the date palm. Part II. Diseases. 11464

Mycoflora research in the surroundings of the community of Albac. 11511

List of intercepted plant pests, 1966. (Pests recorded from July 1, 1965, through June 30, 1966.). 11535

Stylet-bearing nematodes associated with plants in Iowa prairies. 11558

Pasteurellosis: Pasteurella multocida and Pasteurella hemolytica. 11592

Ticks (Ixodoidea) of domestic animals in Iraq. Part 6. Distribution. 11639

Parasitic reports of foreigners from warm climates. 11643

A record of Rhagoletis indifferens Curran from Creston, British Columbia. 11716

Ticks from waterbuck and warthog in the Queen Elizabeth National Park, Uganda. 11721

Agrilus cupripes (Carter) Comb. N. (Coleoptera: Buprestidae). 11722

Notes on Culiseta (Culicella) atra (Lee) (Diptera: Culicidae) in western Australia. 11727

Revision of the genus Enophosema (Lep., Geom.). 11728

New Palearctic leaf-hoppers of the tribe Opsiini (Homoptera, Cicadellidae, Deltocephalinae). 11729

A new species of Nepticula on bur oak in Ontario (Nepticulidae). 11733

The description of pupae of Colymbetes paykulli Er. and C. dolabratus (Payk.) with a key to the identification of pupae of the European species of Colymbetes Clairv. (Coleoptera, Dytiscidae). 11734

Occurrence of Agriotypus armatus Walk. (Hymenoptera, Ichneumonidae) in West Pomerania. 11738

The limited distribution of Hylotrupes bajulus L. in Norway in relation to climatic differences. 11740

The distribution of Ixodes persulcatus in the USSR. 11741

New species of leaf-hoppers (Homoptera, Cicadinea) from Tien Shan and Karatau. 11744

Ticks of wild animals of the Antilles (Acarina, Ixodoidea). 11748

A taxonomic revision of the Australian Aeolothripidae (Thysanoptera). 11749

Some Oriental-tropic species of Chloropidae (Diptera) in the fauna of South Primorye. 11751

A second British record of Heliococonis lutea (Wall.) (Neuroptera: Coniopterygidae). 11752

An introduced pasture beetle, Plectris aliena Chapin (Scarabaeidae: Melolonthinae). 11755

Contribution to the knowledge of the genera Mantis Linne and Paramantis, sp. nov. (Mantidae). 11756

A preliminary review of the genus Homochaetothrips gen-.n., with brief description of a new species (Thysanoptera: Thripidae). 11757

New entomophilous acari from China. 11758

New species of beetle mites of the subfamily Sphaerozetinae (Oribatei, Ceratozetidae). 11759

New or little known noctural Quadrifids of Madagascar, III (Lep. Noctuidae). 11770

Four aphids new for Chile. (Homoptera, Aphididae). 11772

Notes on parasites attacking the yellow-striped armyworm in Oklahoma. 11790

Immature stages of Australian Anthophorinae (Hymenoptera: Apoidea). 11795

Parasites and other organisms associated with nests of Amegilla Friese (Hymenoptera: Anthophorinae). 11796

Two Acmaeodera parasites of Acacia in Mauritania and in the Sahara (Col. Buprestidae). 11806

Masonaphis maxima (Mason) (Homoptera: Aphididae), an aphid on thimbleberry with an unusual life history. 11816

The bioecology of Corthylus columbianus Hopkins. 11821

Ground beetles of the genus Lebia Latreille in Arkansas (Coleoptera: Carabidae): Ecology and geographical distribution. 11827

Biological studies of Scythropus californicus on Monterey pine in northern California. 11836

The life history and feeding habits of Opatroides punctulatus in Tiberias, Israel. 11842

Migrations of Hippelates collusor larvae from moisture and trophic stimuli and their encounter by Trybliographa para-. 11848

Aphidius rubifolii n. sp. (Hymenoptera: Aphidiidae), a parasitoid of Masonaphis maxima from British Columbia. 11854

Panonychus elongatus Manson (Acarina: Tetranychidae)-a description and comparison with P. citri (McG.). 11857

Some records for Ixodidae of Nova Scotia. 11858

The occurrence of house crickets (Acheta domesticus (Linnaeus, 1758)) on mountain slopes. 11864

ZOOGEOGRAPHY

Locusts march on 40 countries. Millions emerge from desert sands.
11867

19. Thysanoptera (Physopoda).
11870

Host trees and breeding sites of native North American Pissodes bark weevils, with a note on synonymy.
11884

Biology and immature stages of Eumetopiella rufipes.
11891

Ecological relations of three Atta species in Panama.
11897

The influence of spray programs on the fauna of apple orchards in Nova Scotia. XIX. Apple rust mite, Vasates schlechtendali, a food source for predators.
11925

Biological studies of Argyresthia franciscella and A. cupressella on ornamental Cupressaceae.
12079

Parasites of Rhyacionia buoliana and their occurrence at different crown levels of red pine in Wisconsin.
12087

A record of Parlatoria pittospori Mask. (Hemiptera: Diaspididae) on apples. (Abstract).
12088

Geographic distribution of Anopheles in the Republic of Congo (Brazzaville).
12332

New and little-known Indian craneflies (Tipulidae, Diptera) I.
12333

Tabanidae.
12336

The Tryphactothrips-complex in India, with a key to the world genera (Thysanoptera: Thripidae).
12339

The Anopheles claviger complex in the Mediterranean subregion.
12346

Culicoides mollis Edwards (Diptera: Ceratopogonidae) on Aitutaki Island, Cook islands.
12347

Note on the brown cockroach, Periplaneta brunnea, in Texas.
12348

On two mites of economic importance in Japan (Arachnida: Acarina).
12349

Tribal positions of Western Hemisphere green sweat bees, with comments on their nest architecture (Hymenoptera Halictidae).
12350

The age composition of Anopheles melas Theobald (1903) populations collected simultaneously by different methods in the Gambia, West Africa.
12352

Indian species of Scambus Hartig (Hymenoptera: Ichneumonidae).
12353

Contribution to the study of the distribution of Anopheles in West Africa.
12354

Ninth supplement to the catalogue of central European beetles.
12358

Acarina associated with Michigan Bombinae.
12359

The lectotype of Bruchus julianus.
12361

Report on some neotropical ant studies.
12362

Faunistic and ecological data on the fleas of Madagascar (Siphonaptera).
12363

Cisidae study IV.
12365

Notes on the subject of South American Culicidae. the distribution of the genus Haemagogus Williston, 1896, in South America.
12366

A new species of Kristotomus (Hymenoptera: Ichneumonidae) from India.
12367

The armored scale insects of Texas (Homoptera: Coccoidea: Diaspididae).
12368

Announcement of a map showing the distribution of Glossina in Eastern Cameroon.
12371

Taxonomic review, ecological and biological aspects of Diptera (Culicidae) living in the forest of Manera (Province of Kaffa) Ethiopia.
12373

Tabanidae of Cameroon. I. Description of new species.
12374

A review of the genus Hyperalonia rondani (Bombyliidae, Diptera) from South America.
12375

Notes on the morphology, taxonomy, and distribution of the Idiostolidae (Hemiptera-Heteroptera).
12384

Distribution of the corn earworm on St. Croix, U.S. Virgin Islands, and its relation to suppression programs.
12387

A new genus and species of Tydeidae (Acari : Prostigmata) from New Zealand.
12388

The black flies of Alabama (Diptera: Simuliidae).
12389

The black flies of Alabama (Diptera: Simuliidae).
12390

The discovery of a representative of the Ptomaphazinini in Cuba (with an outline of the systematics and the distribution of this tribe) (Coleoptera, Catopidae).
12392

Phlebotomus moucheti (Diptera Psychodidae), a new species caught in the caves of Cameroon and in the Central African Republic.
12394

The shore flies of the genus Canaceoides cresson (Diptera: Canaceidae).
12398

A study of insects attacking Douglas-fir cones in eastern Montana and Yellowstone National Park, 1967.
12444

Ecological and biological data on Synopsyllus fonquerniei Wagner and Roubaud, 1932 (Siphonaptera), a flea of the domestic rat in the region of Tananarive.
12484

Notes on the biology of Anopheles hargreavesi (Evans), 1927, and Anopheles paludis Theobald, 1900, in the south of Yaounde (Cameroon), along the Nyong river.
12508

Practical implications of insecticide resistance in culicine mosquitoes.
12509

Iconography of the eggs of the Lepidotera fauna of Belgium.
12530

Stempellia scolyti (Weiser) comb. nov. and Nosema scolyti sp. n. microsporidan parasites of four species of Scolytus (Coleoptera).
12540

Entomological studies on the transmission of human malaria in a dense, humid forest zone, Sassandra region, Ivory Coast.
12580

A survey of the coffee tree nematode, Meloidogyne coffeicola, in the State of Sao Paulo.
12698

About the specificity of Tylenchulus semipenetrans Cobb (Nematoda; Tylenchida) to several species of citrus roots.
12700

The influence of the biotopes on helminth specificity.
12831

On the ubiquity of paramphistomaites in the ungulata.
12832

Some materials on the spider fauna of Tadjikistan. III. Mygalomorphae.
12937

The species of black flies found in Colombia (Diptera: Simuliidae).
12938

Study on a subfamily Scaptocorinae in the Neotropical Region (Hemiptera: Cydnidae).
12939

New species of Argentine acalyptratae Diptera.
12941

The taxonomy of the larvae and pupae of the British Phryganeidae (Trichoptera).
12943

Revision of the tribe Chalepini of America north of Mexico. IV. Genus Sumitrosis Butte (Coleoptera: Chrysomelidae).
12946

Coleoptera of northeastern Africa, Carabidae: Paussinae 25e. Contribution to the monographic study of the Paussidae.
12947

The coleopteran soil fauna in virgin islands cultivated for cotton in the north of Tadjikistan.
12949

Soil Coleoptera of the light grey earth soils of the northern Tadjikistan.
12950

The genus Scleroderma in South America (Hymenoptera, Bethylidae).
12953

Further contribution to the knowledge of the South African species of the genus Ceramius Latreille (Hymenoptera: Masaridae).
12958

Peculiarities of the fauna, ecology and geographic distribution of blood-sucking Arthropoda in Vietnam.
12964

Recent data on the Anopheles of the Maghreb.
12965

Contribution to the study of the systematics of the scorpion, Isometrus maculatus (de Geer, 1778).
12966

Notes on Aradidae in the Naturhistoriska Riksmuseum, Stockholm. Hemiptera-Heteroptera.
12971

New species of Rivetina (Mantidae) from environs of Nurek (Tadjikistan).
12974

A new genus and two new species of eucerine bees from South america.
12976

A new species of Aphids from Anoceia Koch (Homoptera, Anoceiidae) genus from the south of Tadjikistan.
12977

On a new species of Zizyphoides distant (Homoptera: Jassidae) from India.
12983

A revision of the world fauna of Tuberculatus, with descriptions of two new species from China (Homoptera: Aphididae.
12985

Simuliidae of the Apennines.
12987

Scolytidae and Platypodidae from the Naturhistoriska Riksmuseum in Stockholm. 235. Contribution to the morphology and systematics of the Scolytoidea.
12989

Ixodid ticks (Ixodidae)--the parasites of some reptile species in Tadjikistan.
12991

Milky disease bacteria.
12992

Where in Switzerland is Ethmia (Psecadia) candidella Alpheraky found .
12993

Descriptions of new species of hystrichopsyllid fleas with notes on arched pronotal combs, convergent evolution and zoogeography (Siphonaptera).
12995

The genus Lophothygater Moure and Michener, 1955 (Hymenoptera-Apoidea).
12996

On Trechus pumilus Jeannel and Trechus sinuatus Schaum (Coleoptera, Carabidae).
12997

Leucopis alticeps Czerny as a predator scale insect (Parthenolecanium corni Bouche) and European peach scale (Parthenolecanium persicae F.) in Tadjikistan.
13007

Studies of the Coccoidea. 14. The genera Aspidiotus, Diaspidiotus and Hemiberlesia in Queensland.
13025

Distribution of an endemic population of the gypsy moth.
13054

Studies of the Byron Bog in southwestern Ontario XXXII. Observations on the seasonal distribution on Odonata in the bog.
13068

The phenology of linyphiid spiders on heathland in Dorset.
13088

Susceptibility of six anopheline species from Thailand to insecticides.
13098

Two species of Pteronemobius previously unreported in Quebec (Orthoptera: Ensifera: Grylloidea: Nemobiinae).
13140

The influence of abiotic factors upon the distribution and abundance of egg parasites of the Eurygaster integriceps (Hymenoptera, Scelionidae).
13141

Experiments on the incipient species of the Drosophila paulistorum complex.
13167

Resistance of Culex tritaeniorhynchus Giles and Culex quinquefasciatus Say to malathion on Okinawa with notes on susceptibility to other insecticides.
13196

Abate and Dursban against Aedes aegypti (L.) breeding in concrete water jars in Bangkok, Thailand.
13219

Mosquito studies in northern Wisconsin. I. Larval studies.
13224

The Japanese beetle, Popillia japonica Newm. (Coleoptera: Scarabaeidae) in southern Quebec.
13244

Distribution and importance of Heterolaccus grandis as a parasite of the boll weevil.
13306

The ground beetle Anisodactylus signatus (Coleoptera, Carabidae)--maize pest in the Rostov district.
13320

Some observations on Anthix puta (Grote and Robinson) (Lepidopterai Noctuidae) found on aspens in the Province of Quebec.
13324

Distribution of Surattha indentalla Kearfott on Buffalograss.
13327

Nematode problems in areas of strawberry cultivation in Hessen-Nassau.
13337

Apropriateness of a method of pursuing and capturing Hydraccia petasitis (Noctuidae).
13529

A new Parascotia (Hb., 1826) of the Guadarama mountain range, dedicated to his Excellency Prof. D. Manuel Lora Tomayo, Phd., Minister of Education and Science. (Lep. noctuidae). (Lam. i.).
13530

Morphology and geographic distribution in Spain of the 'child of the milk vetch' Plebejus (Plebejus) pylaon (F.d.W., 1824).
13531

Review of recent literature on mosquitoes of North America.
13539

Presence in Italy of Leptoconops kerteszi Kieffer (Diptera, Ceratapogonidae).
13541

On some species of Aedes (Diptera, Culicidae) collected on the Apennines and on the Gargano Mountain.
13542

Revision of the genus Brachyderes Schonherr, with special reference to the study of its generative organs and its geographic distribution in the Iberian peninsula.
13543

Contributions to the study of African Melolonthidae. II. Notes on the Leucophilini and description of new species.
13544

Contribution to the study of Thysanoptera in Bulgaria.
13545

A new Hoshihananomia species from Ussuri (Coleoptera, Mordellidae). 63. Contribution to the knowledge of the Mordellidae.
13547

Notes on beetles (Coleoptera).
13548

Coenonympha oedippus Fab. in Sarthe and Maine-Loire.
13549

Neotropical species of Opius section C (Hymenoptera, Braconidae).
13550

On the knowledge of the genus Euopius Fischer Hym., Braconidae, Opiinae .
13551

Biogeographical reflections with special reference to the beetle fauna of western Norway.
13553

A taxonomic revision of the genus Asteromyia (Diptera: Cecidomyiidae).
13554

List of Coccoidea from the Canary Isles (additions). (Hemiptera, Homoptera).
13556

List of nocturnal trifids of France and Belgium (continuation and end) and appendix (species of german fauna not in France and Belgium).
13558

Contribution to the systematic and faunistics of Buprestidae in Czechoslovakia.
13559

On some Geometridae of Sardinia.
13561

Studies on some Indian Dermaptera.
13563

Results of the zoological research in Mongolia of Dr. Z. Kaszab. 197. Tenebrionidae (Coleoptera) of the 6th expedition.
13565

Distribution and abundance of Hylotrupes bajulus L. (Col., Cerambycide) and Anobium punctatum de Geer (Col., Anobiidae) along the Sogneford in West Norway.
13566

Notes on Aradidae from the Eastern Hemisphere, XX (Hem. Heteroptera).
13567

Two new species of the Alticidae family from the Soviet Union. XIX. Contribrution to the knowledge of the Alticidae.
13568

New and little known bees of the genus Ammobates (Hymenoptera Apoidea).
13575

Some new Oribatei from xerotherm soil of central Spain (Acarina).
13576

A systematic study of Ovaticoccus Kloet and its relatives, with a key to North American genera of Eriococcidae (Homoptera: Coccoidea: Eriococcidae).
13577

New Mesitius species (Hymenoptera: Bethylidae).
13578

Epilecta linogrisea Schiff. in Normandy, their pursuit today, their raising from eggs.
13580

A synopsis of the Phaenocarpa Forst. species of the Neotropic region (Hymenoptera: Braconidae, Alysiinae).
13581

The Lohmanniidae of Spain (Acari, Oribatei).
13583

Host associations and taxonomy of Nearctic conifer cone moths in the genus Eucosma (Lepidoptera: Tortricidae).
13584

Contribution to the knowledge of the Italian Simuliidae. XV. A new Eusimulium of the group Annulum.
13586

On the systematics of the Bradycellus species from the harpalinus group Serv..
13589

Contributions to the elucidation of Palearctic Andrena species. (Hym. Apidae).
13594

On the voltinism of Polyommatus icarus Rott. (Lep., Lycaenidae) in Great Britain.
13642

Further observations on Aedes vexans (Meigen) in Utah.
13655

A history of grasshopper abundance surveys and forecasts of outbreaks in Saskatchewan.
13677

Emergence periods and population fluctuations of the frit fly Oscinella frit L. (Dipt.: Chloropidae) in Norway.
13693

Studies on factors affecting population density and phase of desert locust in India.
13696

A note on the tree locust in the Rajasthan desert.
13697

Further evidence for coadaptation in crosses between geographic populations of Drosophila pseudoobscura.
13710

Myxomatosis: The introduction of the European rabbit flea Spilopsyllus cuniculi (Dale) into Australia.
13742

Investigations on the occurrence and behaviour of Ditylenchus destructor in Sweden.
13865

Identification key to the leech (Hirudinoidea) genera of the world, with a catalogue of the species. VI. Family: Glossiphoniidae.
14026

Revision of Indo--Pakistan Parisomias Faust (Coleoptera, Curculionidae) with some notes on Leptomias Faust.
14123

Raphidiidae (Insecta, Neuroptera). 154. Contribution to the series Results of the zoological investigations of Dr. Z. Kazab in Mongolia .
14124

A survey of the distribution and present status of the wood ant, Formica rufa L. (Hym., Formicidae) in England and Wales.
14126

Contribution to the knowledge of the neotropical Oribatid fauna. 5. Archegozetes. (Arach., Acari).
14127

A new species of Ichneumonidae from Rumania. 14128

An index-catalogue of the genus-group names of Oriental and Australasian Tachinidae (Diptera) and their type-species. 14129

Contribution to the knowledge of the genus Saprinus (Col. Histeridae). II. 14130

The existence of bark borers in Berlin (Lepid.). 14132

Oribatid mite fauna in Sarobetsu Moor in northern Hokkaido, Japan. 14138

Notes on the genus Schyzops Spinola, 1837 (Phyllocephalinae, Pentatomoidea, Heteroptera). maritima (Guer.). 14139

A note on the genus Pseudathyma Staudinger with description of a new species (Lepidoptera: Nymphalidae). 14143

Dragonfly catches from the Gifhorn area (A contribution to the Odonata fauna of Lower Saxony). 14145

The present distribution of Hylotrupes bajulus L. (Col., Cerambycidae) in Norway and its abundance in some districts. 14146

Leaf beetle larvae of the subfamily Eumolpinae and of Syneta betulae F. (Coleoptera, Chrysomelidae). 14149

The occurence of Ectoedemia libwerdella Zimm. in Western Germany (Lepidoptera, Nepticulidae). 14151

The Icelandic form of Carabus problematicus Hbst. (Col. Carabidae). A statistic treatment of subspecies. 14152

Contributions to the knowledge of the Heleide fauna (Dipt. Nemat.) of Berlin. 14157

The Indo-Australian species of the ultor-group of Apanteles Forster (Hymenoptera: Braconidae). 14159

The Rhaphidophoridae (Orthoptera) of Australia. Part 7. Pallidotettix, a new genus from the Nullarbor Plain, south-western Australia. 14160

Phycitinae from Turkey and Greece (Lep., Pyralidae). 14162

A new species of the genus Heterothops Steph. from Czechoslovakia (Col., Staphylinidae). 14167

Contribution to the fauna of the Congo (Brazzaville). Mission A. Villiers and A. Descarpentries. XLVII. Homoptera Cercopidae and Fulgoroidea. 14169

Coniopteryx remota Banks, further description and lectotype designation (Neuroptera, Coniopterygidae). 14171

Endophytus anemones (Hering) in Finland (Hym., Tenthredinidae). 14172

Concerning some West German bees and digger wasps (Hym. Apoidea, Sphecoidea). 14176

Some phase characteristics of the southern African form of the desert locust (Schistocerca gregaria (Forskal)). 14187

Key to the adult hymenopterous parasites of Pulicalvaria piceaella (Kearfoot), (Lepidoptera: Gelichiidae) of Quebec. 14231

Blossom visitations of domestic Allantus species, and places where they are found. 14263

Brachymeria femorata Panzer (Hymenoptera Chalcididae). 14267

Powdery mildew of rubber in Papua. 14449

Occurrence and control of Haplodiplosis equestris in Holland. 14496

Geographical distribution maps of animal diseases in Africa, 1966. 14575

Serological response in cattle to East Coast fever (Theileria parva infection) as measured by the indirect fluorescent antibody test. 14588

Antibodies to Leptospiral serotypes in sera of North Queensland cattle. 14590

First records of eye-frequenting Lepidoptera from India. 14624

Epizootiologic factors of Fascioloides magna (Trematoda) in Oregon and southern Washington. 14632

Ministry of Overseas Development, Tropical Pesticides Research Unit, annual report. 14708

Morphology, geographical distribution and bionomics in Spain of Charaxes jasius (L., 1767) (Lep. Nymphalidae). 14711

Tenebrionidae collected by Mr. L. Bigot in southwestern Madagascar. 14712

Descriptions of three new reared Eulophidae (Hymenoptera) from Europe and Africa. 14716

Thysanoptera of France IV. 14717

A new spices of Brachylabis Dohrn (Dermaptera; Carcinophoridae) from Malaysia. 14719

The subgenus Culex (Aedinus) Bourroul, 1904, new for the Argentine entomofauna, with the description of a new species (Diptera, Culicidae). 14725

Results of zoological investigations of Dr. Z. Kaszab in Mongolia. No. 171. (Col. Buprestidae). 14726

Notes on Argentine tabanids (Insecta, Diptera). VII. The tabanids of the Parana River delta. 14728

Chromosome numbers in the Lysandra coridon group (Lep., Lycaenidae). 14732

Contributions to the study of Eumastacidae of Madagascar (Orthoptera-Eumastacidae). I. Revision of Miraculinae. 14734

Contributions to the study of Eumastacidae of Madagascar (Orthoptera-Eumastacidae). II. Pseudoschmidtiinae: Biological notes and new species. 14735

Two new species of Culex from Brazil (Diptera, Culicidae). 14737

Taxonomy, distribution and biology of the genus Cercyonis (Satyridae). I. Characteristics of the genus. 14738

A new subspecies in the Cercyonis meadi group (Satyridae). 14739

Notes on Anobiidae (Coleoptera). XXXII. Anobiidae of the Spanish territories of the Gulf of Guinea. 14740

Seven species of Culicidae (Diptera) new for the Argentine entomofauna. 14746

Additions to Coccidae of Spain . VII. Note. (Hem. Homoptera). 14749

The Bombyliidae (Diptera) of northern Ethopia. 14751

Annotated key to the Plusiinae moths of Florida (Lepidoptera: Noctuidae). 14752

Contribution to the fauna of Iran. 15. Coleoptera. Tenebrionidae, genus Lobodera. 14754

Contribution to the study of the blood sucking Diptera of Turkey. The occurrence of Musca (Philaematomyia) crassirostris Stein. (Diptera Muscidae). 14759

Results of the Peris-Alvarez expedition to the island of Annobon. (12). Mantodea, Tettigonoidea and Acridoidea I. (Orthoptera). 14762

A contribution to the knowledge of Argentine Scorpions. Ii. Considerations on the genus Bothriurus in Patagonia and Tierra del Fuego with the description of a new species (Bothriuridae). 14763

A new species and subspecies of genus Dysaphis born (Aphidoidea) from Tadjikistan. 14764

Eurema salome in Texas (Pieridae). 14767

A study of Meloidae. XX. On the genus Gorrizia Pardo and a new Sudanese species of the group Brunnipes (Klug). 14768

The genus Tryssotmele Simon, 1902 (Araneae, Dipluridae). 14769

Notes on Fustiger elegans Raffray (Coleoptera, Pselaphidae) in Uraguay and Argentina. 14772

The Corixidae (Hemiptera) of Oklahoma. 14773

The aquatic and semiaquatic Hemiptera (Belostomatidae and Saldidae) of Oklahoma. 14774

Lygaeidae (Hemiptera) of Oklahoma. 14775

The genus Achetopus Tullgren 1905 (Araneae, Dipluridae). 14776

Biological notes on the genus Tinna Dohrn (Hemiptera, Reduviidae, Emesitae). 14777

Diaspididae of Taiwan based on material collected in connection with the Japan-U. S. Cooperative Science Programme, 1965 (Homoptera: Coccoidea). Part I. 14778

Revision of the genus Saphanodes (Col., Cerambycidae, Disteniinae). 14780

Faunistic remarks on the west palearctic bees of the genus Andreana F. (Hymenoptera Apoidea). 14781

Anastrepha ocresia (Walker) (Diptera: Tephritidae). 14782

Remarks on the nomenclature and fauna of some west-palearctic Haplothrips species. (Thys. Phlaeothripidae). 14785

The parasitism of various species of coccids of the Leucapis genus in the Alpes-Maritime Department of France and Corsica. I. Inventory and distribution of Leucapis genus and their parasites (Hymenoptera, Chalcidoidea). 14792

Phalaenopsis mite, Tenuipalpus pacificus Baker. 14813

Allomorphosis and geography in insect populations. 14844

The biologies of the Pseudohylesinus tsugae and P. grandis (Coleoptera: Scolytidae) in western hemlock.
14851

Injurious insects in 1968.
14870

Report to the Government of Madagascar on locust control.
14871

Studies on bionomics and control measures of Cnaphalocrocis medinalis Guence; preliminary report.
14872

The palm seed weevil , Caryobruchus gleditsiae (L.), in Florida (Coleoptera: Bruchidae).
15040

Erradication efforts against tropical bont tick, Amblyomma variegatum, in the Virgin Islands.
15199

The true taxonomic identity of a moth known as Rosquilla negra , a most distructive plague on our crops which corresponds to the scientific name of Spodoptera littoralis (B., 1833) (Lep. Noctuidae) (Lam. V.).
15309

Lycia hirtaria (Cl., 1759, a Geometridae not yet identified on all Spanish black poplar trees. (Lep. Geometridae). (Part VIII.).
15310

Section of captures (Lepidoptera)(Part IV).
15311

New mesostigmatid mites from Pakistan with keys to genera and species.
15312

A taxonomic synopsis of the tribe Loricerini (Coleoptera: Carabidae).
15313

Two new species of argasid ticks (Ixodoidea, Argasidae) from Cuba.
15316

The Lixus of beans, Lixus algirus (L.) (Col., Curculionidae) (Parts VI-VII).
15322

Dispersion and transport of pestiferous insects: Hermetia illucens L. (Diptera, Stratiomyidae).
15326

Contribution to the knowledge of the species of existing Mallophaga in Spain (Anop. Mallophaga).
15328

Coleoptera of the delta of the Llobregat River. VI Notes.
15329

An addition to the Psenini of Spain (Hym. Sphecidae).
15330

Three new species of Guntherana Womersley and Heaslip (Prostigmata: Trombiculidae) from east New Guinea.
15331

Aedes in Mexico. Description of a new species of the subgenus Howardina (Diptera: Culicidae).
15333

Data for a Hymenoptera atlas of Western Europe. X. The Xiphydriidae (Symphyta) family.
15340

Tachinid parasites of the horned passalus beetle.
15363

Ecological and biological studies on Empoasca spp. (jassidae) in the Cairo area, U.A.R.
15377

The salivary gland chromosomes of Prosimulium multidentatum Twinn and three forms included in Prosimulium magnum (Dyar and Shannon) (Diptera: Simuliidae).
15438

The protective effect of hexachlorophane against infection with Fasciola hepatica.
15822

The effect of simultaneous treatment with hexachlorophene and nitroxynil upon immature Fasciola hepatica in rats and rabbits.
15829

Precipitating antibodies to infection with Fasciola hepatica in rabbits. Geometridae). (Part VIII.).
15830

ZOOLOGICAL GARDENS
Toxoplasmosis in the marmot.
12126

ZOOLOGY
Index-catalogue of medical and veterinary zoology. Subjects: Trematoda and trematode diseases. Part 10: Checklist of generic, specific, and subspecific names, N-Z.
10913

ZOONOSES
Parasitic zoonoses of the food animals.
13949

Leptospirosis among the workers of the Engels meat plant.
15843

ZOOSPORES
A modified soil percolator zoospore production and infection in studies on zoosporic root pathogens.
9543

ZYGAENIDAE
A new method of estimating population size, survivorship, and birth rate from capture-recapture data.
14237

ZYGOTYLENCHUS
Influence of Zygotylenchus guevarai (Tobar Jimenez, 1963) Braun and Loof, 1966, on some of its hosts.
14511

ZYTHIA FRAGARIAE
A fruit rot of strawberries caused by Zythia fragariae.
8986

BIOGRAPHICAL INDEX

Chao, J
California. university; Dept. of Zoology, Los Angeles
15356

Chapco, W
San Diego Univ., Calif; Dept. of Biology
9510

Chaplin, M H
Michigan State Univ., East Lansing
14303

Chapman, H C
U. S. dept. of Agriculture. agricultural Research Service; Entomology Research Division, Lake Charles, La.
12344

Chapman, H C
U. S. dept. of Agriculture, agricultural Research Service; Entomology Research Division, Lake Charles, La.
13540

Chapman, J A
Canada Dept. of Forestry and Rural Development, Victoria,; British Columbia; Forest Research Lab.
10967

Chapman, R F
Birkbeck College; Dept. of Zoology, London
9987

Chaput, R L
U. S. armed Forces Research Institute; Defence Atomic Support Agency, Bethesda
8729

Chararas, C
Institut National Agronomique; Laboratoire de Zoologie
11524

Chararas, C
Tunisia. institut de Recherches Forestieres, Tunis
15005

Chardez, D
Faculte des sciences agronomiques de l'Etat; Laboratoire de Zoologie generale
11663

Charpentier, R
Lund. university; Zoological Institute, Sweden; Dept. of Entomology
9357

Chaston, I
Georgia. university; Dept. of Zoology
9358

Chatterji, S M
Indian Agricultural Research Institute; Division of Entomology, New Delhi
9988

Chau, A S Y
Canada. department of Agriculture. plant Products; Division, Ontario
13437

Chauvet, G
Office de la Recherche Scientifique et Technique; Outre-Mer, Paris, France; Institut de Recherches Scientifiques Madagascar
12434

Chauvet, G
Office de la Recherche Scienifique et Technique; Outre-Mer, Malagasy Repuhlic; Centre de Tananarive
12435

Chauvin, R
Lahoratoire de Psychophysiologie, Strasbourg; Faculte des Sciences
13616

Chavan, A R
Baroda Univ., India; Dept. of Botany
10968

Chaves E, L E
Centro Nacional de Investigaciones Agropecuarias Tibaitata,; Bogota, Colombia
14517

Cheah, K S
McMaster Univ., Ontario; Research Unit in Biochemistry
11644

Chee, K H
Rubber Research Inst. of Malaya, Kaula Lumpur, Malaysia
8287

Chee, K H
Malaya. ruhher Research Institute, Kuala Lumpur
8939

Chen, J S
Washington. university; Dept. of Biology, St. Louis
13617

Chenery, E M
Tea Research Inst. of Ceylon, Talawakele
14304

Cheng, W Y
Taiwan. sugar Experiment Station, Tainan
13030

Chernisheva, M I
Gamaleya Institute of Epidemiology and Microbiology
8451

Cherrett, J M
West Indies. university; Dept. of Zoology
11244

Cherry, L M
Queensland. university; MacGregor (Sir William) School of Physiology, Brisbane
8730

Chessin, M
Montana Univ., Missoula; Dept. of Botany
15483

Chet, I
Wisconsin Univ., Madison; McArdle Lab. for Cancer Research
11457

Chevone, B I
Massachusetts. university; Dept. of Entomology
13031

Cheymol, J
Faculte de Medecine, Paris, France
11245

Chhabra, M B
U. P. Agricultural Univ., Pantnagar, India; Coll. of Veterinary Medicine
11635

Chhabra, R C
College of Veterinary and Animal Science, Hissar, India
13404

Chiapparini, L
Osservatorio per le Malattie delle Piante, Milan, Italy; Sezione Patologia Vegetale
10773

Chigrin, V V
USsr. north-caucasian Scientific-Research Institute of; Phytopathology, Krasnodar
13756

Chikkerur, S K
India. dept. of Agriculture. central Plant Protection; Station, Dharwar
15006

Chin, C L
Nanyang. university; Dept. of Biology, Singapore
15681

China, W E
British Museum (natural History)
9269

Chinaev, P P
Institut of Experimental Medical Parasitology and; Helminthology, Samarkand, USSR
10524

Chipley, J R
Georgia. university; Dept. of Food Science
13430

Chippendale, G M
Missouri. University; Dept. of Entomology, Columbia
8097

Chlyah, H
Centre National de la Recherche Scientifique, Essonnes,; France; Lab. du Phytotron
14670

Chmiel, H
Michigan State University, East Lansing
10969

Chmielewski, W
Instytut Ochrony Roslin, Poznan, Poland
11724

Cho, H C
Washington State University, Pullman; College of Veterinary Medicine; Dept. of Veterinary Microbiology
12122

Chod, J
Prague. institute Of Plant Protection
13245

Chohan, J S
Punjab Agricultural Univ., Ludhiana; Dept. of Botany and Plant Pathology
14351

Chouard, P
Laboratoire du Phytotron, Gif sur Yvette, France
8577

Choudhuri, D K
Burduan. university; Dept. of Zoology
9989

Choudhuri, M A
Burdwan Univ., West Bengal, India; Dept. of Botany
9190

Chovnick, A
Connecticut. university; Genetics and Cell Biology Section
14895

Chowdhuri, A N
India. dept. of Agriculture, Himachal Pradesh
12668

Chrispeels, M J
John Muir College; Dept. of Biology, La Jolla
13471

Christoliubova, N B
USSR Academy of Sciences, Novosibirsk; Inst. of Cytology and Genetics
9511

Christopherson, H L
Ralston Purina Co., St. Louis, Mo.
8452

Chroust, K
Agriculture Univ., Brno, Czechoslovakia; Dept. of Parasitology and Invasion Diseases
15167

Chroust, K
Agriculture Univ., Brno, Czechoslovakia; Dept. of Internal Diseases
15205

Chuhareva, L A
United Soviet Socialist Republic Academy of Sciences,; Leningrad; Lab. of Karyosystematics and Population Genetics
8223

Chubareva, L A
Academy of Sciences of the USSR, Leningrad; Lab. for Karyosystematics and Population Genetics
10150

Chung, Y J
Ewha Women's College; Dept. of Science, Seoul, Korea
13161

Church, K
Oregon. university; Dept. of Biology, Eugene
10151

Chute, H L
Maine Univ., Orono; Dept. of Animal Pathology
14545

Chutter, F M
Rhodes Univ., Grahamstown, South Africa; National Inst. for Water Research
11798

Ciampolini, M
Societa SIPCAM, Milan, Italy
10629

Ciampolini, M
Societa S. I. P. C. A. M., Milan, Italy
13303

Ciampolini, M
Societa S. I. P. C. A. M., Milan, Italy
13304

Ciegler, A
U S Dept of Agriculture, Peoria, Ill; Agricultural Research Service; Northern Regional Research Laboratory
14698

Cifuentes-Bernal, H
San Bernardo Clinic, Bogota, Columbia
9693

Cincovic, T
Institute for Application of Nuclear Energy in; Agriculture, Beograd; Veterinary Medicine and Forestry
14653

Ciszewski, K
Bialystock, UL. Szosa Zolkiewska 26a, Poland
13940

Ciuniene, E
Lithuanian Academy of Sciences, Vilno, USSR; Inst. of Zoology and Parasitology
12823

Clancy, D W
Agricultural Research Service, Riverside, Calif. 92502; Entomology Research Div.
11799

Claret, J
Laboratoire de Genetique Evolutive et de Biometrie,; Essone
14806

Clark, A M
Delaware Univ., Newark; Dept. of Biological Sciences
8910

Clark, J D
Tulane University School of Medicine; Dept. of Vivarial Science and Research, New Orleans, La.
15206

Clark, R L
North Central Regional Plant Introduction Station, Ames,; Iowa
8332

Clark, R S
Great Britain. Ministry of Agriculture, Fisheries and Food; Agricultural Land Service, Nottingham
13941

Clark, S A
England. rothamsted Experimental Station, Hertfordshire
13869

Clark, S H
East Hampton, Edgerton Street, Conn.
13618

Clark, T B
U. S. dept. of Agriculture. agricultural Research Service; Entomology Research Division, Lake Charles
8098

Clarke, H J
Rothamsted Experimental Station, Harpenden, England
11550

Claudio, M Z
Philippines Univ. Coll. of Agriculture, Laguna; Dept. of Agronomy
14507

Claxton, J H
New England. university; School of Rural Science, Australia
13162

Clay, T
British Museum, Cromwell Road, London
12948

Clayton, C N
North Carolina. poison Control Center; Plant Pathology Research Service, Asheville
14939

Clayton, C N
North Carolina. poison Control Center; Plant Pathology Research Service, Asheville
15007

Clayton, C N
North Carolina. poison Control Center; Plant Pathology Research Service, Asheville
15485

Clayton, C N
North Carolina. poison Control Center; Plant Pathology Research Service, Asheville
15486

Clayton, C N
North Carolina. poison Control Center; Plant Pathology Research, Asheville
15634

Clayton, C N
North Carolina. poison Control Center; Plant Pathology Research, Asheville
15635

Clayton, C N
North Carolina. poison Control Center; Plant Pathology Research, Asheville
15636

Clayton, D L
Michigan State Univ., East Lansing
11800

Cleland, C F
Harvard Univ., Cambridge, Mass.; Biological Labs.
13472

Clements, B W
West Florida. arthropod Research Laboratory, Panama City
13729

Clifford, D R
Bristol. university; Long Ashton Research Station
12603

Cmelik, S H W
Rhodesia. university College; Dept. of Biochemistry
9991

Cmelik, S H W
Rhodesia. university College; Dept. of Biochemistry
11801

Cmelik, S H W
Rhodesia. university College; Dept. of Biochemistry, Salisbury
15357

Cobb, F W
California. agricultural Experiment Station; Dept. of Plant Pathology, Berkeley
13833

Cobb, F W
California. agricultural Experiment Station; Dept. of Plant Pathology, Berkeley
13834

Cochran, H L
Pomona Products Co., Griffin, Ga.
12056

Cochrane, W P
Canada. dept. of Agriculture. plant Products Division,; Ontario
13438

Coetzee, V
Plant Protection Research Inst., Pretoria, South Africa
9026

Coffey, D L
Purdue University, Lafayette, Indiana
10970

Cogburn, R R
Agricultural Research Service (Savannah); Market Quality Research Division; Stored-Product Insects Research Branch
8519

Cohen, D
Carleton. university; Dept. of Biology, Canada
13473

Cohen, I C
England. ministry of Technology; Laboratory of the Government Chemist
11706

Coineau, Y
Morocco. centre National de la Recherche Scientifique
11117

Coineau, Y
Laboratoire Arago, Banyuls-sur-mer, France
14727

Colaianne, J J
Purdue Univ., Lafayette, Ind.
8224

Colbran, R C
Department of Primary Industries, Brisbane, Australia; Science Labs.
13336

Colbran, R C
Queensland. dept. of Primary Industries; Sciences Laboratory, Indooroopilly
15682

Colby, S R
University of Maryland, College Park; Agronomy Dept.
10459

Colby, S R
Maryland University, College Park; Agronomy Dept.
10971

Cole, A W
Wisconsin Univ., Madison; Dept. of Horticulture
15070

Cole, H
Pennsylvania. university; Dept. of Plant Pathology and Horticulture
11569

Cole, M M
U. S. dept. of Agriculture, Gainesville, Florida; U. S. Agricultural Research Service; Entomology Research Division
12437

Cole, M M
Agricultural Research Service, Gainesville, Fla. 32601; Entomology Research Div.
13032

Cole, R H
University of Delaware, Newark, Del.
8401

Coleman, I W
Defense Chemical Biological and Radiation Establishment,; Ottawa
11678

Coleman, R L
Oklahoma. university. school of Health; Depts. of Environmental Health and Biochemistry
10423

Collins, H L
Mississippi. state University; Dept. of Entomology
8732

Collins, H L
Mississippi. state University; Dept. of Entomology
9992

Collins, J A
Kentucky. university; Dept. of Animal Sciences
13459

Collins, J F
Bethesda. national Institutes of Health; Laboratory of Molecular Biology
10152

Collzzi, M
Istituto di Parassitologia dell'University di Roma
13541

Colombel, P
Federale Univ., Yaounde, Cameroun; Lab. de Zoologie
14807

Haynes, W C
U. S. dept. of Agriculture. agricultural Research Service; Northern Regional Research Laboratory, Peoria
10029

Hays, S B
Clemson University, Clemson, South Carolina; Dept. of Entomology and Zoology
10752

Hays, S B
Clemson. university; Dept. of Entomology And Zoology. s. C.
12463

Hayward, K J
Tucuman Nacional Univ., Argentina; Dept. de Zoologie
8637

Heagle, A S
Minnesota Univ., Minneapolis
9567

Heagle, A S
U. S. national Air Pollution Control Administration; Agricultural Branch, Cincinnati
11473

Heagy, J A
U. S. Food and Drug Administration, San Francisco
12890

Heald, C M
Agricultural Research Service, Tifton, Ga.; Crops Research Div.
8383

Healy, M J
Illinois Univ., Urbana
12616

Healy, M J
Dow Chemical Co., Midland, Mich.
14954

Hedge, R K
Agricultural Univ., Bangalore, India; Div. of Plant Pathology
11682

Hedge, U C
University Biochemistry Laboratory, Madras, India
14209

Hedger, R S
Animal Virus Research Institute, Pirbright, Surrey, England
13954

Heed, W B
Arizona. university; Dept. of Biological Sciences, Tucson
11146

Hegde, K S
University of Agricultural Scicnees; Dept. of Parasitology, Bangalore
12141

Heidenreich, E
Merck (E.) AG, Barmstadt (West)
15277

Heimpel, A M
U. S. dept. of Agriculture. agricultural Research Service; Entomology Research Division
8132

Heinze,
Biologische Bundesanstalt fur Land- and Forstwirtschaft,; Institut fur Gartnerische Virusforschung; Berlin-Dahlem
15643

Heipe, T H
Humboldt Universitat; Institut fur Parasitologie, Berlin (cast)
12835

Heitzman, J R
Florida. dept. of Agriculture.; Div. of Plant Industry
9396

Helle, W
Amsterdam University, The Netherlands; Laboratory of Applied Entomology
13719

Hellen, W
Museum Zoologicum Univ., Helsinki, Finland
11147

Heller, F
Stuggart. staatliche Museum fur Naturkunde; Entomologische Abteilung
12356

Hellinga, W
Amsterdam-O., Wecsperzijde 231I, Netherlands
14827

Helson, G A
New Zealand. dept. of Agriculture; Entomology Division, Wellington
14210

Hemenway, R
Arkansas Univ., Fayctteville
11827

Heming, B S
North Carolina State Univ., Raleigh
9397

Hemingway, R G
Glasgow. university, Scotland; Animal Husbandry Department
13955

Hemphill, D D
Missouri University, Columbia; Dept. of Horticulture
10781

Hemphill, D D
Missouri University, Columbia; Dept. of Horticulture
10989

Henderson, B E
East African Virus Research Inst., Entebbe, Uganda
12585

Henderson, J
Illinois Univ., Urbana
9398

Henderson, W M
Institute for Research on Animal Diseases, Compton, Englan
12774

Hendricks, S B
Agricultural Research Service, Beltsville, Md.; Soil and Water Conservation Research Div.
12261

Henne, C
Pearblossom, Calif.
11828

Hennen, J F
Indiana State Univ., Terre Haute; Dept. of Life Sciences
8955

Henner, J
Bundesanstalt fur Pflanzenschutz, Vienna, Austria
9568

Henner, J
Bundesanstalt fur Pflanzenschutz, Wien
14678

Henry, J E
U. S. dept. of Agriculture. agricultural Research Service; Entomology Research Division, Bozeman, Mont.
11286

Henson, J B
Washington State University, Pullman; Dept. of Veterinary Pathology
9077

Henzell, R F
Ruakura Soil Research Station, Hamilton, New Zealand
10030

Henzell, R F
New Zealand. ruakura Agricultural Research Centre, Hamilton
15854

Hepper, H C
Instituto Nacional de Microbiologia, Buenos Aires; Dept. de Entomologia Sanitaria
9903

Herbert, H J
Canada Dept. of Agriculture, Kentville, Nova Scotia; Research Station
11925

Herbert, T T
North Carolina State Univ., Raleigh; Dept. of Plant Pathology
10191

Herd, R P
Melbourne, Australia. University; School of Veterinary Science
14022

Herfs, W
Biologische Bundesanstalt fur land- und Forstwirtschaft,; Braunschweig; Institut fur pflanzenschutzmittelpruefung
14315

Herlich, H
Agricultural Research Service, Beltsville, Md.; Beltsville Parasitological Lab.
15213

Herman, L J
New York (city). american Museum of Natural History; Dept. of Entomology
9290

Herman, L J
American Museum of Natural History; Dept. of Entomology, Wash. (City)
14211

Hermanson, H P
Rutgers--The State University, New Brunswick, N. J.; Dept. of Agricultural Chemistry
10412

Hermanson, H P
Rutgers - The State University, New Brunswick, N. J.; Bureau of Conservation and Environmental Science; Dept. of Agricultural Chemistry
10467

Herrera,
Chile Univ., Santiago; Centro de Estudios Entomologicos
15321

Hess, O
Tubingen. max Planck-Institut fur Biologie
13174

Hess, O
Freiburg. universitat; Zoologisches Institut
13175

Hess, O
Max-Planck-Institut fur Biologie, Tubingen, Germany
13720

Hesse, A J
South Africa Museum, Cape Town
8037

Hessel, J H
Arizona. university; Dept. of Entomology
9399

Heuser, S G
Agricultural Research Council, Slough, England
13443

Hewitt, G B
U. S. dept. of Agriculture. agricultural Research Service; Entomology Research Division, Bozeman
10246

Hewlett, P S
England. agricultural Research Council; Pest Infestation Laboratory
10031

Hewlett, P S
Agriculture Research Council; Pest Infestation Laboratory,slough
12464

Heymer, A
Laboratoire d'Ecologie Generale du Museum, Essone, France
11288

Heyneman, B
International Center for Medical Research and Training,; Kuala Lumpur, Malaysia; Inst. for Medical Research
10867

Hibbitt, K G
Institute for Research on Animal Diseases, Compton, Englan
12775

Hidalgo-Salvatierra, O
California Univ., Berkeley; Dept. of Soils and Plant Nutrition
15519

Hiebel, K
Landwirtschaftsamt Bad Kissengen
14524

Hield, H Z
California University, Riverside; Dept. of Horticultural Science
12262

Hildebrand, D C
California University, Berkeley
14369

Hildebrand, E M
Agricultural Research Service, Beltsville, Md.; Crops Research Div.
10654

Hildreth, P E
North Carolina. university; Dept. of Biology
8912

Hildreth, P E
California University, Berkeley; Lawrence Radiation Laboratory and Dept. of Zoology
13633

Hill, A C
Utah Univ., Salt Lake City; Center for Environmental Biology
9833

Hill, E R
University of Massachusetts, Amherst; College of Agriculture
8542

Hill, E R
Massachusetts University, Amherst
10990

Hillman, R B
Cornell Univ., Ithaca, N. Y.; Dept. of Large Animal Medicine, Obstetrics, And Surgery
9710

Hills, O A
Agricultural Research Service, Phoenix, Ariz.; Entomology Research Div.
14955

Hillyer, R J
Manitoba. university; Dept. of Entomology, Winnipeg
15373

Hiltibran, R C
Illinois Natural History Survey, Urbana
10782

Hiltibran, R C
Illinois Natural History Survey, Urbana
15093

Hilton, J L
U. S. Dept. of Agriculture, Beltsville, Maryland; Agricultural Research Service; Crops Research Division
10991

Himel, C M
Georgia. university; Dept. of Entomology
9230

Himel, C M
Georgia. university; Dept. of Entomology
9231

Himeno, M
Kyto University, Kyto; Department Of Agricultural Chemistry; Laboratory of Biochemistry
15374

Hindin, E
Washington State University, Pullman; College of Engineering; Research Division
8350

Hindin, E
Washington State University; College of Engineering; Research Division
8543

Hingorani, G M
Central Plant Protection Station, Indore
13782

Hink, W F
Ohio. state University; Academic Faculty of Entomology
8133

Hinton, H E
Bristol. university; Depts. of Zoology and Physics, England
9400

Hinton, H E
Bristol. university; Dept. of Zoology, England
13634

Hinz, B
Rostock. universitat; Institut fur Phytopathologie und Pflanzenschutz
15520

Hirai, A
California. University, Los Angeles; Dept. of Botanical Sciences and Molecular Biology; Institute
8956

Hirai, A
California Univ., Los Angeles; Dept. of Botanical Sciences
9569

Hiraizumi, Y
Hawaii. university; Dept. of Genetics
13176

Hirano, K
Tohoku University, Sendai, Japan; Faculty of Education; Dept. of Natural Sciences
13506

Hirose, T
Obihiro Zootechnical Univ., Japan; Lab. of Veterinary Chirurgy
9711

Hirose, Y
Konan Univ., Kobe, Japan; Dept. of Biology
9401

Hiruki, C
Alberta. university; Dept. of Plant Science
9834

Hitchborn, J H
Agricultural Research Council, Huntingdon Road, Cambridge,; England; Virus Research Unit
14370

Hobbs, B C
Central Public Health Lab., Colindale, England; Food Hygiene Lab.
13431

Hock, W K
U. S. dept. of Agriculture. agricultural Research Service; Crops Research Service, Delaware, Ohio
11474

Hock, W K
Maryland Univ., Coll. Park; Dept. of Botany
14956

Hocking, D
Tropical Pesticides Research Institute, Arusha, Tanzania.
14371

Hodek, I
Czechoslovak Academy of Sciences; Institute of Entomology
8135

Hodges, C F
Iowa State University, Ames
8957

Hodges, R W
U. S. Agricultural Research Service.; Systematic Entomology Laboratory
8640

Hodges, R W
Agricultural Research Service, U. S. National Museum,; Washington, D. C.; Systematic Entomology Lab.
9905

Hodgson, C J
Wye College; Dept. of Biological Sciences, Kent
11148

Hodgson, J M
U. S. Dept. of Agriculture, Bozeman, Montana; Agricultural Research Service; Crops Research Division
10783

Hodgson, R A
U. S. Dept. of Agriculture, Fargo, North Dakota; Agricultural Research Service; Crops Research Division
10992

Hodgson, R H
U. S. Dept. of Agriculture, Fargo, North Dakota; Agricultural Research Service; Crops Research Division
10993

Hoefert, L L
Utah. state University; Crops Research Laboratory, Logan
13784

Hoelscher, C E
Mississippi State Univ., State Coll.; Dept. of Entomolgy
8770

Hoenigsberg, H F
Andes. universidad; Instituto de Genetica
10156

Hoenigsberg, H F
Universidad de los Andes, Bogota, Colombia; Inst. de Genetica
12565

Hofferek, H
Deutschen Akademie der Landwirtschaftswissenschaften; zu Berlin; Institut fur Phytopathologie Aschersleben
11979

Hoffman, D G
Eli Lilly and Co., Greenfield, Ind. 46140; Lilly Toxicology Lab.
9811

Hoffman, G L
Bureau of Sport Fisheries and Wildlife, Kearneysville,; W. Va.; Eastern Fish Disease Lab.
10868

Hoffman, J A
Centre National de la Recherche Scientifique, Strasbourg,; France; Biologie Humorale des Insectes
8771

Hoffmann, J A
Centre National de la Recherche Scientifique, Strasbourg,; France; Biologie Humorale des Insectes
9402

Hoffmann, J A
France. centre National de la Recherche Scientifique; Laboratoire de Biologie Generale; Biologie Humorale des Insectes, Strasbourg
14828

Hofstad, M S
Iowa. state University; Veterinary Medical Research Institute, Ames
9712

Hogan, J W
Bureau of Sport Fisheries and Wildlife, Columbia, Mo.; Fish-Pesticide Research Lab.
15265

Hogancamp, J C
State Dept. of Agriculture, Springfield, Illinois
11097

Hogberg, K G
Research Laboratories of Ab Astra
14573

Hogue, E J
Purdue University, Lafayette, Indiana
10994

Hogue, E J
Canada. dept. of Agriculture. research Station; Research Branch, St. Jean
12724

Hokama, Y
Hawaii University, Honolulu; School of Medicine
10833

Holan, G
Monsanto Chemicals (Australia) Ltd., West Footscray
12916

Holbrook, A A
Agricultural Research Service, Beltsville, Md.; Beltsville Parasitological Lab.
14574

Holcomb, G E
Louisiana State Univ., Baton Rouge
10655

Holec, J
Agriculture Univ., Brno, Czechoslovakia; Dept. of Food Hygiene and Technology
15244

Holec, J
Agriculture Univ., Brno, Czechoslovakia; Dept. of Food Hygiene and Technology
15245

Hollande, A
Centre National de la Recherche Scientifique, Paris,; France; Lab. de microscopie
11290

Holldobler, B
Frankfurt am Main. university; Zoological Institute
15375

Holliday, P
Kew. commonwealth Mycological Institute
12617

Hollings, M
Sussex. glasshouse Crops Research Institute
15522

Hollingsworth, E B
U. S. Dept. of Agriculture, Laramie, Wyoming; Agricultural Research Service; Crops Research Division
10784

Hollis, J P
Louisiana State University, Baton Rouge
14510

Hollomon, D W
Commonwealth Scientific and Industrial Research Organiza; Tion, P. O. Box 109, City, Canberra, Australia; Div. of Plant Industry
14372

Holloway, J D
Cambridge, Grape House, England
10033

Holm, L G
Wisconsin. university; College of Agriculture
15709

Holman, J
Czechoslovak Academy of Science, Prague; Inst. of Entomology
12357

Holmberg, R G
Saskatchewan. university; Dept. of Biology
13562

Holmes, D C
London. laboratory of the Government Chemist
15856

Holmes, D D
Veterans Administration Hospital, Oklahoma City, Okla.; Research Service
12142

Holmes, J
New Hampshire Univ., Durham; Dept. Of Botany
10656

Holmes, J
New Hampshire Univ., Durham; Dept. of Botany
10657

Holmsen, T W
Dow Chemical Co.; Biochemica Research Laboratory, Midland, Mich.
12900

Holtzmann, O V
Hawaii Univ., Honolulu; Dept. of Plant Pathology
9031

Homeyer, B
Leverkusen, West Germany
13338

Honeyborne, C H B
Bristol. university; Dept. of Agriculture and Horticulture, England
13310

Hoogstraal, H
U. S. naval Medical Research Unit Number Three; Dept. of Medical Zoology
8136

Hoogstraal, H
U. S. naval Medical Research Unit No. Three; Dept. of Medical Zoology, Cairo, Egypt
11149

Hooker, A L
Illinois. university; Dept. of Plant Pathology, Urbana
13259

Hooks, R F
Michigan State Univ., East Lansing
14316

Hooper, G H S
University of Queensland, Brisbane, Australia
8137

Hooper, G H S
International Atomic Energy Agency; Seibersdorf Laboratory
8138

Hooper, G H S
Austria. international Atomic Energy Agency; Seibersdorf Laboratory, Vienna
13635

Hooper, G R
Michigan State Univ., East Lansing; Dept. of Botany and Plant Pathology
11980

Hopkins, C A
Glasgow. university; Wellcome Laboratories for Experimental Parasitology
8498

Hopkins, D E
U. S. Agricultural Research Service, Kerrville; Entomology Research Division
10034

Hopkins, S R
U. S. Dept. of Agriculture. agricultural Research Service; Southeast Poultry Research Laboratory, Athens, Ga.
9713

Hopkins, T A
Johns Hopkins University, Baltimore, Maryland
10534

Hopkins, T A
Johns Hopkins Univ., Baltimore, Md.; Dept. of Biology
15376

Hopp, A D
Washington State. university
15278

Hoppe, P E
Agricultural Research Service, Madison, Wis.; Crops Research Div.
8297

Hopper, W
Mississippi Univ., University 38677
9403

Horgan, D J
California University, Berkeley
11064

Horikawa, M
Kyoto. university; Faculty of Medicine; Dept. of Experimental Biology
13063

Horino, O
Tokai-kinki National Agricultural Experiment Station
14373

Horino, O
Tokai-kinki National Agricultural Experiment Station, Tsu,; Mie, Japan
14679

Horn, A V
Pflanzenschutzamt Hannover; Bezirksstelle Braunshweig
14525

Horn, S N van
Montana State Univ., Bozeman; Dept. of Zoology and Entomology
11291

Horn, W G
Arkansas. University; Dept. of Plant Pathology
8958

Horne, F R
Southwest Texas. state College; Dept. of Biology
13064

Hornig, H
Schleswig-Holstein. pflanzenschutzamt, Germany (West); Bezirksstelle Lubeck
15094

Hornig, V O
Pflanzenschutzamt des Landes Schleswig-Holstein; Bezirksstelle fur Pflanzenschutz Lubeck
14526

Horridge, G A
St. Andrews Univ., Fife, Scotland; Gatty Marine Lab.
10535

Horsfall, J G
Connecticut Agricultural Experiment Station, New Haven
8959

Horst, R K
Yoder Bros. Inc., Barberton, Ohio
12618

11761

Tachikawa, T
Ehime University, Matsuyama, Japan; College of Agriculture; Entomological Laboratory
11762

Tadic, M
Institute for Plant Protection, Belgrade, Yugoslavia
9536

Tafanelli, R J
Oklahoma State Univ., Stillwater; Dept. of Zoology
9481

Taft, H M
U. S. Dept. of Agriculture, Florence, South Carolinia; Agricultural Research Service; Entomology Research Division
10564

Taft, H M
Entomology Research Division; U. S. dept. of Agriculture, Florence, South Carolina; U. S. Agricultural Research Service
13522

Taha, E E M
National Research Centre, Cairo, United Arab Republic; Microbiological and Enzyme Chemistry Research Unit
9845

Tahama, Y
Kumamoto Sericultural Experiment Station, Veki, Kumamoto,; Japan
14461

Tahori, A S
Roosevelt University, Chicago
10125

Taimr, L
Central Research Inst. for Plant Production, Prague,; Czechoslovakia
11401

Takacs, J
Central Laboratory of the Veterinary Meat Control; Service, Budapest
14007

Takagi, S
Hokkaido. university; Faculty of Agriculture, Sapporo
14778

Takahashi, M
Hokkaido Univ., Sapporo, Japan; Plant Breeding Inst.
8930

Takahashi, M
Hokkaido Univ., Sapporo, Japan; Plant Breeding Inst.
8931

Takahashi, S
Nara. women's College; Dept. of Biology, Japan
11402

Takahashi, Y
Toronto. university.; Dept. of Botany
8876

Takemoto, T
Tohoku Univ., Sendai, Japan; Pharmaceutical Inst.
10565

Takenaga, T
Institute of Agricultural Machinery; Pest Control Machinery Lab.
12932

Takenouchi, Y
Hokkaido Univ. of Education, Hokkaido, Japan; Biological Lab.
9516

Taksdal, G
Norwegian Plant Protection Institute, Vollebekk, Norway
12086

Talbert, R E
Arkansas University, Fayetteville
11043

Tamaki, G
U. S. Dept. of Agriculture, Yakima, Washington; Agricultural Research Service; Entomology Research Division
10566

Tamaki, G
U. S. dept. of Agriculture. agricultural Research Service; Entomology Research Division, Yakima
13687

Tamaki, Y
Japan. national Institute of Agricultural Sciences, Tokyo
11403

Tamaki, Y
Agricultural Chemicals Inspection Station, Kodaira-shi,; Japan
14269

Tamarina, N A
Lomomosov Univ., Moscow, USSR; Dept. of Soil Biology
8877

Tamashiro, M
Hawaii. university
11545

Tamura, S
University of Tokyo, Japan; Dept. of Agricultural Chemistry
8878

Tamura, S
Tokyo University, Tokyo; Department Of Agriculture Chemistry
15906

Tan, K B
Australian National University, Canberra.; John Curtin School of Medical Research.; Dept. of Microbiology
8318

Tan, K M
Malayan Pineapple Research Station; Division of Agriculture, Johore
12542

Tanada, Y
California. university; Division of Entomology, Berkeley
8198

Tanada, Y
California. university; Division of Entomology, Berkeley
10126

Tanaka, I
Japan Environmental Sanitation Center; Div. of Pest Control
10567

Tanaka, S
Tamagawa University, Machida-shi, Tokyo, Japan
14462

Tanaka, Y
Japan. national Institute of Animal Health, Tokyo
11626

Tanaka, Y
National Institute of Animal Health, Kodaira, Tokyo
14008

Tanasijevic, N
Faculty of Agriculture, Beograd
14270

Tanda, S
Tokyo Univ. of Agriculture, Japan; Lab. of Plant Pathology and Mycology
14926

Tandan, B K
Lucknow, India. University.; Dept. of Zoology
8680

Tandon, I N
Kanpur, India
12873

Tanguy, J
France. office de Recherche Scientifique et Technique; Outre-Mer, Bondy
15907

Tanner, G D
U. S. dept. of Health, Education, and Welfare; Aedes aegypti Eradication Program, Atlanta, Ga.
12543

Tarczynski, S
Olsztyn. agricultural University College; Dept. OF Zoohygiene,
12862

Tarjan, A C
Florida. university. citrus Experiment Station, Lake; Alfred
12702

Tartof, K D
Institute for Cancer Research, Philadelphia, Pa.
8267

Tashiro, H
Cornell University. state Agricultural Experiment Station; Dept. of Entomology, Geneva
9482

Tatchell, R J
Australia. commonwealth Scientific and Industrial Research; Organization; Long Pocket Laboratories, Brisbane
8490

Tatsuta, K
Keio University, Tokyo, Japan; Faculty of Engineering; Dept. of Applied Chemistry
13519

Tatsuyama, K
Shimane University, Matsue, Japan; Shimane Agricultural College
14693

Tatton, J O'G
Cornwall House; Laboratory of the Government Chemist, London
15594

Tauber, C A
Cornell University, Ithaca, New York; Dept. of Entomology and Limnology
12994

Tauber, M J
Cornell University; Dept. of Entomology and Limnology, Ithaca
9483

Taufflieb, R
France. Office de la Recherche Scientifique et; Technique d'Outre Mer
11404

Taufflieb, R
Office de la Recherche Scientifique et Technique; Outre-Mer, Paris, France
12544

Tauraso, N M
National Institutes Of Health; Division of Biologics Standards, Bethesda, Maryland
11627

Tauraso, N M
National Insts. of Health, Bethesda, Md.; Lab. of Virology and Rickettsiology
12802

Tawfik, M S
Alberta. university; Dept. of Entomology
9484

Taylor, C E
Scottish Horticultural Research Institute, Dundee
12662

Taylor, G S
Connecticut Agricultural Experiment Station, Windsor; Valley Lab.
8278

Taylor, J L
Hayward Chemical Co., Kansas City, Kans.
12545

Taylor, R H
Victorian Plant Research Inst., Burnley, Australia
12030

Taylor, R L
California. university; Center for Pathobiology, Irvine
8199

Taylor, R L
California. university; Center for Pathobiology, Irvine
8880

Taylor, R W
Australia. commonwealth Scientific and Industrial Research; Organization; Division of Entomology, Canberra
9944

Taylor, T A
Ibadan. university; Dept. of Agricultural Biology
10268

Taylor, T H
Kentucky. university; Dept. of Agronomy
13917

Taylor, W E
Rothamsted Experimental Station, Harpendon, England
15034

Taylor, W M
Florida. university; Dept. of Veterinary Science, Gainesville
14009

Taylorson, R B
U. S. dept. of Agriculture. agricultural Research Service; Crops Research Division, Beltsville
10309

Taylorson, R. B.
U. S. dept. of Agriculture. agricultural Research Service; Crops Research Division, Beltsville
10451

Tazieff-Depierre, F
Institut Pasteur, Paris, France; Lab. de Pharmacologie
9181

Tdrossian, C
Faculte des Sciences, Toulosse, France; Lab. diEntomologie
8200

Teakle, D S
Queensland Univ. Medical School, Herston, Australia; Dept. of Microbiology
8994

Teakle, D S
Queensland Univ., Herston, Australia; Dept. of Microbiology
9610

Teakle, D S
Queensland University, Herston, Australia; Dept. of Microbiology
12031

Teakle, R E
Queensland. dept. of Primary Industries; Sciences Laboratory, Indooroopilly
15428

Teasley, J I
U.s. Public Health Service, Atlanta; Division Of Water Supply and Pollution Control; Pesticides Pollution Studies
8530

Teetes, G L
Texas. a M University; Dept. of Entomology
8201

Teets, G L
Texas A. and M. Univ., College Station 77843; Dept. of Entomology
9646

Teltscherova, L
Czechoslovak Academy of Sciences, Prana; Institute of Experimental Botany
14096

Tembe, V B
Institute of Science, Bombay, India
12546

Temin, H M
Wisconsin. univeristy; McArdle Laboratory
11688

Tempe, J de
Official Seed Testing Station, Wageningen, Netherlands
13289

Tempe, J de
Official Seed Testing Station, Wageningen, Netherlands
13290

Templer, J C
Dept. of Agriculture, Kenya; Horticulture Section
9537

Tenorio, J A
Hawaii. university
9325

Tenorio, J A
Hawaii. university
9326

Teotia, T P S
Government Agricultural College, Kanpur
10127

Terranova, A C
Agricultural Research Service (Fargo); Entomology Research Division; Metabolism and Radiation Laboratory
8202

Terriere, L C
Oregon. state University; Dept. of Entomology
8203

Terriere, L C
Oregon State University; Departments of Agricultural Chemistry and Entomology
8531

Terriere, L C
Oregon State University, Corvallis
8532

Terzakis, J A
Walter Reed Army Medical Center; Dept. of Experimental Pathology and Entomology
13688

Teschner, D
Giessen. universitat; Zoologischen Institut
12393

Teunisson, D J
U S Dept of Agriculture, New Orleans; Agricultural Research Service; Southern Utilization Research and Development Division
14333

Teuteberg, V A
Rheinischen Friedrich-Wilhelms-Universitat Bonn; Institut fur Obstbau
13820

Thanh-Xuan, N
France. faculte des Sciences; Laboratoire d'Entomologie, Toulouse
14885

Thayer, R H
Oklahoma State University, Stillwater; Dept. of Poultry Science; Dept. of Biochemistry
12176

Theodorides, V J
Smith Kline French Laboratories; Animal Health Products Division, West Chester
8508

Theodorides, V J
Smith Kline and French Lab., Philadelphia, Pa.
9775

Thibaud, J M
Centre National de la Recherche Scientifique, Moulis,; France; Lab. Souterrain
8881

Thiele, G F
Lincoln College, Canterbury, New Zealand
10128

Thiele, H U
Koln. universitat; Zoologisches Institut
10129

Thien, L B
Wisconsin. university; Dept. of Botany
13134

Thind, B S
Punjab. agricultural University; Dept. of Botany and Plant Pathology
10226

Thohhi, V V
Indian Council of Agricultural Research; Regional Research Centre, Hyderabad
12691

Thoizon, G
France. institute Pasteur; Service de Parasitologie Vegetale
8204

Thomas, J B
Forest Research Laboratory, Sault Ste. Marie, Ontario
14170

Thomas, K K
Northwestern Univ., Evanston, Ill.; Dept. of Biological Sciences
11405

Thomas, P E L
Weed Research Organization; Rhodesia. henderson Research Station; Dept. of Research and Specialist Service
11580

Thomas, P L
Canada Dept. of Agriculture, Winnipeg, Manitoba; Research Station
14463

Thomas, R T S
Nunspeet, Oranjelaan 28, Netherlands
14779

Thomas, T M
Agricultural Inst., Dublin, Ireland; Plant Sciences and Crop Husbandry Div.
10819

Thomas, T M
Agricultural Inst., Dublin, Ireland; Plant Sciences and Crop Husbandry Div.
10820

Thomas, T M
Agricultural Inst., Dublin, Ireland; Plant Sciences and Crop Husbandry Div.
10821

Thomas, T M
Agricultural Inst., Dublin, Ireland; Plant Sciences and Crop Husbandry Div.
13918

Thomas, T M
Agricultural Inst., Dublin, Ireland; Plant Sciences and Crop Husbandry Div.
13919

Thompson, E G
U. S. brooke Army Medical Center. medical Field Service; School; Dept. of Preventive Medicine, Fort Sam Houston
13689

Thompson, F C
Massachusetts. University, Amherst.; Dept. of Entomology
8682

Thompson, G A
Jefferson County. mosquito Control District, Tex.
13228

Thompson, G A
Jefferson County. mosquito Control District, Tex.
13690

Thompson, J N
Oklahoma City, 3257 Nesbitt Ave.
8918

Thompson, L
Illinois. university; Dept. of Agronomy, Urbana
12744

Thompson, N R
Tasmanian Dept. of Agriculture, Hobart
13525

Thompson, P E
Georgia. university; Institute of Comparative Medicine
12803

Thompson, S R
Notre Dame. University; Dept. of Biology and the Radiation Laboratory
13212

Thompson, W H
Department of Agriculture, Werribee, Australia
14618

Thomson, J A
Melbourne. university; Dept. of Genetics
10130

Thorsell, W
Royal Veterinary College; Dept. of Chemistry, Stockholm
13420

Thottappilly, V G
Giessen Universitat, Germany; Tropeninstitut
12032

Thrasher, J J
U. S. food and Drug Administration; Division of Microbiology, Wash. (city)
9142

Throckmorton, L H
Chicago. university; Dept. of Zoology
8060

Throckmorton, L H
Chicago Univ., Ill.; Dept. of Biology
9327

Thut, R N
Weyerhaeuser Co.; Research Dept, Longview, Wash.
8882

Thyr, B D
U. S. Agricultural Research Service; Cheyenne Horticultural Field Station
15595

Tibbitts, T W
Wisconsin Univ., Madison
12033

Tigerstedt, P M A
Helsinki. university; Dept. of Genetics
12576

Tilden, J W
San Jose State College, San Jose, Calif.
11769

Timian, R G
North Carolina. dept. of Agriculture, Raleigh
11546

Timoney, J
University Coll., Dublin, Ireland; Dept. of Veterinary Medicine
9783

Timoney, J
University College, Ballsbridge, Dublin, Ireland; Dept. of Veterinary Medicine
12804

Tinon, U
Hebrew University; Dept. of Entomology, Jerusalem
13691

Tinsley, I J
Oregon State Univ., Corvallis; Dept. of Agricultural Chemistry
14664

Tisdell, T F
California University, Davis; Dept. of Botany
10822
